Volume 13024

Proceedings of SPIE 0277-786X, V. 13024

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Optical Instrument Science, Technology, and Applications III*, edited by Holger Münz, Breann N. Sitarski, Richard N. Youngworth, Proc. of SPIE 13024, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

PHASE AND POLARIZATION

- 13024 02 **Ultimate measurement speed for flexible asphere and freeform metrology: TWISS (Invited Paper)** [13024-1]
- 13024 03 **Development and characterization of a real-time phase camera system** [13024-2]
- 13024 04 **Measuring turbulence parameters with high precision through the smooth perturbation method** [13024-3]

SPECTRAL IMAGING AND APPLICATIONS

- 13024 06 **Validating spatial resolution measurement techniques in pushbroom hyperspectral cameras according to upcoming IEEE P4001 standard** [13024-5]
- 13024 07 **Utilizing multispectral imaging for improved weed and crop detection** [13024-6]
- 13024 08 **Beam scanning coherent Fourier scatterometry** [13024-7]
- 13024 09 **Methodology and apparatus for the benchmarking and calibration of visible and infra-red light target projectors** [13024-28]

EXPAND YOUR HORIZONS

- 13024 0B **Capabilities and limits of synthetic images used for neural networks in optical scanners for the iron sand cast industry** [13024-11]

LIFE SCIENCES

- 13024 0D **Ultra-compact fluorescence microscope for life sciences** [13024-14]
- 13024 0E **Compact and portable scanning fiber-optic confocal microendoscopy system for reflectance and fluorescence imaging (Best Student Paper Award)** [13024-16]

POSTER SESSION

- 13024 OH **OpenMIC: a DIY twelve slides scanner microscope with evolutive and multimodal capabilities**
[13024-18]
- 13024 OJ **Optical design of PHASONG, a next generation wavefront sensor** [13024-20]
- 13024 OK **GRANCAIN: the first light infrared camera for GTCOA: end-to-end optical design, integration, and verification** [13024-22]
- 13024 OM **Spectral measurements and life science experiments using extreme radiation exposures at high altitude** [13024-25]
- 13024 ON **Design, assembly, and test of G-CLEF's exposure meter I: design trade-off and first conclusions**
[13024-26]
- 13024 OO **Single-shot AI-based point spread function method for an active camera alignment** [13024-27]

DIGITAL POSTER SESSION

- 13024 OP **Review: optimizing LiDAR technology for enhanced 3D remote sensing** [13024-21]
- 13024 OQ **Design and development of a portable compound microscope for interactive bioscience learning** [13024-24]
