**Volume 13061**

Proceedings of SPIE 0277-786X, V. 13061

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Ocean Sensing and Monitoring XVI*, edited by Weilin Hou, Linda J. Mullen, Proc. of SPIE 13061, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510674400

ISBN: 9781510674417 (electronic)

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

---

## SESSION 1 OCEAN SENSING

---

- 13061 02 **Assessing magnetic particle content in algae using compact time domain nuclear magnetic resonance** [13061-1]
- 13061 03 **Estimation of uncertainties in above-water radiometric measurements from hyperspectral and polarimetric imaging** [13061-3]
- 13061 04 **Eye on the back: augmented visuals for improved ROV teleoperation in deep water surveillance and inspection** [13061-4]
- 13061 05 **Waterproof UAVs for sensing in coastal zones and estuaries** [13061-25]

---

## SESSION 2 LIDAR

---

- 13061 06 **Initial laboratory and field testing of the modulated underwater laser imaging system** [13061-5]
- 13061 07 **Comparison of 20 million airborne lidar optical profiles to anything else** [13061-7]
- 13061 08 **Confocal Bistatic LIDAR in scattering media** [13061-8]
- 13061 09 **Ranging through turbid underwater using structured optical beams** [13061-9]

---

## SESSION 3 AI/ML I

---

- 13061 0A **Automatic litter detection using AI in environmental surveillance aircraft** [13061-11]
- 13061 0B **Cycle-GAN-based synthetic sonar image generation for improved underwater classification** [13061-13]

---

## SESSION 4 AI/ML II

---

- 13061 0C **Inconsistency-based active learning with adaptive pseudo-labeling for fish species identification** [13061-14]

- 13061 0D     **Active detection for fish species recognition in underwater environments** [13061-15]
- 13061 0E     **Multifish tracking for marine biodiversity monitoring** [13061-16]
- 13061 0F     **Innovative aquaculture biometrics analysis: harnessing IR lasers and ToF cameras for microscopic fish larvae tracking** [13061-17]

---

**SESSION 5     TURBULENCE**

---

- 13061 0G     **Propagation of Laguerre-Gaussian beams through underwater optical turbulence** [13061-18]
- 13061 0H     **Comparison between phase retrieval methods for laser light propagated through Rayleigh-Benard underwater convection** [13061-19]
- 13061 0I     **Measuring turbulence using spatially encoded QR codes** [13061-20]

---

**DIGITAL POSTER SESSION**

---

- 13061 0K     **Analysis of the extended Kalman filter's role in oceanic science** [13061-10]
