

# **2024 IEEE International Conference on Smart Power Control and Renewable Energy (ICSPCRE 2024)**

**Rourkela, India  
19-21 July 2024**

**Pages 1-735**

**IEEE Catalog Number: CFP24VH9-POD  
ISBN: 979-8-3503-7701-9**

# TABLE OF CONTENTS

|                                                                                                                                    |    |
|------------------------------------------------------------------------------------------------------------------------------------|----|
| Controller Design for Decoupled Two-Input Two-Output Coupled Tank System.....                                                      | 1  |
| <i>Pankaj Kumar Choudhary, Prithvi Raj, Dushmanta Kumar Das</i>                                                                    |    |
| A Comprehensive Review of Automatic Speech Recognition Systems .....                                                               | 7  |
| <i>Pankaj Semwal, Ankush Kumar, Daksh Rawat, Harshit Narang, Satvik Vats, Vikrant Sharma</i>                                       |    |
| Development of MQTT Protocol-Based Sensor Data Subscription Using Raspberry-Pi as a Server<br>Mode for IIoT Application .....      | 13 |
| <i>Soumyadip Banerjee, Priyanka Kumari, Tanmoy Maity</i>                                                                           |    |
| Development of Human Activity Prediction Systems in Smart Homes .....                                                              | 18 |
| <i>K Sukanya, Addagatla Prashanth, Ugendhar Addagatla</i>                                                                          |    |
| Speed Control of Permanent Magnet Synchronous Motor Using ADRC Technique .....                                                     | 24 |
| <i>Rakesh Borase, Sushant Pawar, Aniket Khandekar</i>                                                                              |    |
| Performance Evaluation of Rate of Active Power Change Based Islanding Detection Technique for<br>Solar PV System.....              | 28 |
| <i>Saurabh Kumar, Prithwish Saha, Apurba Mandal, Bhimsen Tudu, K. K. Mandai</i>                                                    |    |
| Analysis of Tapered Arc-Based Cantilever for Vibrational Energy Harvesting Applications.....                                       | 33 |
| <i>Urvashi, Gargi Khanna, Arihant Raj Siddharth</i>                                                                                |    |
| Hybrid Energy Systems Design for Medium-Sized Hospitals: Techno-Economic and<br>Environmental Analysis - A Yemeni Case Study ..... | 37 |
| <i>Mohammed Gaber Hakami, Ankit Kumar Soni, Sarita Samal</i>                                                                       |    |
| Investigation of Different Inner Rotor Structures on BLDC Motors Performance for Traction<br>Applications.....                     | 43 |
| <i>M. Deepak, C. Santha Kumar, M. Karthick, J. Manokaran</i>                                                                       |    |
| A Wideband Minkowski FSS for Millimeter Wave 5G Applications .....                                                                 | 49 |
| <i>Ankita Indu, Debi Dutta</i>                                                                                                     |    |
| A Lightweight Blockchain-Enabled Authentication Scheme for Securing Internet of Drones<br>Devices .....                            | 54 |
| <i>A Vamsi Vardhan, S Mohanty, M Pradhan</i>                                                                                       |    |
| Examination and Development of Frequency Selective Surface with Bandstop Properties in N3<br>Band .....                            | 60 |
| <i>Sai Yoogeswaran Damodaran, Sivayogarajan Lakshmanakumar, Lingeshwaran Murugasamy,<br/>Ramprabhu Sivasamy</i>                    |    |
| 5G mm Wave Shielding with Frequency Selective Surface Employing Centre Offset Swastika Loop<br>Element.....                        | 65 |
| <i>M. S. Yazhini, Vaddi Sri Rama Gayathri, Lingeshwaran Murugasamy, Ramaprabhu<br/>Ramasamy</i>                                    |    |
| Modelling Long-Term Fossil Fuel-Based Electricity Generation Trajectory for China, USA and<br>India.....                           | 70 |
| <i>Kamal Sanguri</i>                                                                                                               |    |

|                                                                                                                                                                           |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Design and Simulation of a Stand-Alone Hybrid Solar Photovoltaic-Fuel Cell-Battery System in MATLAB Simulink .....                                                        | 76  |
| <i>Tabitha Sneha, P S Kulkarni, Aaditya Rudra, Soumyadeep Ghosh</i>                                                                                                       |     |
| Optimized Control of Shunt Hybrid Active Power Filter with Robust Adaptive Filtering for Power Quality Enhancement .....                                                  | 82  |
| <i>Pavankumar Daramukkala, Kanungo Barada Mohanty, Pravat Kumar Ray</i>                                                                                                   |     |
| Constant Current Battery Charging Application Using DAB Converter with Dual Phase Shift Control.....                                                                      | 88  |
| <i>Rakesh Kumar, Vikash Varma Katru, Monalisa Pattnaik</i>                                                                                                                |     |
| IoT-Based Line Breakage Detection & Alerting System for Overhead Distribution Lines .....                                                                                 | 93  |
| <i>Abhin B. N., Abhinav K. P., Anantha Krishnan R. J., Anoop A. K., N. Mayadevi</i>                                                                                       |     |
| Power Quality Enhancement in Photovoltaic Systems Using PI and PR Controllers at Faulty Conditions .....                                                                  | 99  |
| <i>Sudhir Kumar Sahoo, Sangram Sekhar, Raseswari Pradhan</i>                                                                                                              |     |
| Clarke Transformation Based Islanding Detection in Microgrid Environment .....                                                                                            | 105 |
| <i>Kamlesh Kumar Netam, Sonali Nandanwar</i>                                                                                                                              |     |
| Impact of Temperature on Power Consumption - A Machine Learning Approach.....                                                                                             | 111 |
| <i>Sivaram Kommineni, Sanvitha Muddana, Rajiv Senapati</i>                                                                                                                |     |
| Utilizing Particle Swarm Optimization (PSO) for Battery Energy Storage System Sizing and Deployment in Renewable Integrated Distribution Network .....                    | 117 |
| <i>Mahiraj Singh Rawat</i>                                                                                                                                                |     |
| Intelligent Control of Solar Inverter for Grid Power Factor Enhancement Through STATCOM Operation.....                                                                    | 123 |
| <i>Keshav Chandra, Kanasottu Anil Naik</i>                                                                                                                                |     |
| A 3 O'Clock-Shaped Enhanced Rectangular Microstrip Antenna Design Process at 38GHz.....                                                                                   | 129 |
| <i>Priya Singh, Vrinda Makkar, Areen Kaur Ahluwalia, Vaishali Kikan, Ashwni Kumar</i>                                                                                     |     |
| Comparative Analysis of Machine Learning Algorithms for Detecting Fraudulent Transactions in Highly Imbalanced Credit Card Data .....                                     | 135 |
| <i>Prachi Gupta, Shatakshi Shukla, Vaishali Kikan, Ashwni Kumar</i>                                                                                                       |     |
| Analysis of Performance Characteristics on TiO <sub>2</sub> and ZrO <sub>2</sub> Nano Fillers Coated Single Phase Transformers Through Sumpner Or Regenerative Test ..... | 140 |
| <i>M. Deepak, C. Santhakumar, A Vasantharaj, P Dineshkumar, A. Mohamedyaseen, J. Manokaran</i>                                                                            |     |
| Reduced Order Approximation of Interval Cuk Converter Model .....                                                                                                         | 146 |
| <i>Bala Bhaskar Duddeti, Asim Kumar Naskar</i>                                                                                                                            |     |
| Optimization and Leveraging of Peak Demand Using LSTM and Fuzzy Logic Approaches in Demand-Side Management .....                                                          | 152 |
| <i>Twinkle Kisku, Shrabani Dash</i>                                                                                                                                       |     |
| Design and Study of Combining Energy Harvesting System Based on Photovoltaic and Thermoelectric Generators .....                                                          | 157 |
| <i>V. Parkavi, Pandiyarasan Veluswamy, Jayabal. K</i>                                                                                                                     |     |

|                                                                                                                                                                   |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Fault Analysis for Grid Connected WECS Using Machine Learning Algorithm .....                                                                                     | 163 |
| <i>A. Sree Sowmi, P. Preethi Santhosam, U. Sowmmiya</i>                                                                                                           |     |
| Direct Torque Control of Induction Motor Drive .....                                                                                                              | 169 |
| <i>Hasan Raja, Krishna Roy</i>                                                                                                                                    |     |
| Effective Power Management and Control Approaches in Microgrid Systems.....                                                                                       | 175 |
| <i>Bhanu Pratap Behera, Pravat Kumar Ray</i>                                                                                                                      |     |
| Retrieval of Degraded PMU Measurement Data and Oscillatory Mode Estimation in Power Systems.....                                                                  | 181 |
| <i>Vagesh Kumar, Shekha Rai</i>                                                                                                                                   |     |
| DeepLymphoDetect: Leveraging Deep Learning Techniques for Acute Lymphoblastic Leukemia Detection in Blood Cells .....                                             | 187 |
| <i>Senthil K, Monikaa R, Gopinath M, Vishwa S, Yuktha Varshika J, Sivagami S</i>                                                                                  |     |
| A Novel Approach to Load Frequency Control Incorporating Renewable Energy and Automatic Voltage Regulator Optimized by Teaching-Learning-Based Optimization ..... | 193 |
| <i>Sribidya Moushumi Mishra, Smitali Swain, Samarjit Patnaik, Siba Ranjan Paital, Anshuman Rout, Pradeepta Kishore Sethi</i>                                      |     |
| Comparative Study of DSTATCOM Pulse Generation Techniques Performances.....                                                                                       | 199 |
