

PROCEEDINGS OF SPIE

Interferometry and Structured Light 2024

**Michael B. North-Morris
Katherine Creath
Song Zhang**
Editors

**21–22 August 2024
San Diego, California, United States**

Sponsored and Published by
SPIE

Volume 13135

Proceedings of SPIE 0277-786X, V. 13135

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Interferometry and Structured Light 2024*, edited by Michael B. North-Morris, Katherine Creath, Song Zhang, Proc. of SPIE 13135, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

VIKRAM AWARD LECTURE

13135 02 **Cameras: then and now (Keynote Paper)** [13135-1]

AI TECHNIQUES FOR INTERFEROMETRY AND STRUCTURED LIGHT

13135 03 **Deep learning-based phase measuring deflectometry for one-shot measurement and inspection of specular free-form surfaces** [13135-2]

13135 04 **The challenge of making self-driving cars: may AI help to overcome the risks, or should we focus on reliable sensor technologies? (Invited Paper)** [13135-3]

ADVANCES IN INTERFEROMETRY

13135 05 **Binary pseudo-random array for calibration of interferometers with transmission spheres and cylinders** [13135-4]

13135 06 **Superresolution interferometric phase measurements with directionally unbiased linear-optical devices** [13135-5]

13135 07 **Polarization-guided deflectometry** [13135-16]

13135 08 **A different neighborhood: holographic phase-shifting interferometry and global phase-unwrapping using a nearest neighbor criterion** [13135-7]

NAVY PRECISION OPTICAL INTERFEROMETER SESSION I

13135 09 **Throughput analysis of the classic feed beam system at the Navy precision optical interferometer** [13135-9]

13135 0A **Updated mini-periscope and beam compressor targeting system of the classic feed system at the Navy precision optical interferometer** [13135-10]

NAVY PRECISION OPTICAL INTERFEROMETER SESSION II

13135 0B **Navy prototype hypertelescope developments at the NPOI** [13135-12]

13135 0C **Atmospheric seeing at the NPOI inferred from jitter data** [13135-14]

STRUCTURED LIGHT METROLOGY

13135 0E **Radiometric calibration of active 3D imaging setups using superquadric fitting** [13135-6]

13135 0F **Rapid autofocus method for digital fringe projection techniques** [13135-17]

BIOLOGICAL APPLICATIONS

13135 0I **Optical interferometry as a solution to detect liquid adulteration** [13135-21]

POSTER SESSION

13135 0K **A catalog of targets with interferometric data in the NPOI archive** [13135-24]

13135 0L **High optical throughput interferometry with engineered diffusers** [13135-25]
