# TABLE OF CONTENTS

## VOLUME 1

|                                                                                                                                      |     |
|--------------------------------------------------------------------------------------------------------------------------------------|-----|
| LONG-RANGE ELECTRICITY DEMAND FORECAST AND SECTOR EVOLUTION USING<br>THE NESTAS SYSTEM DYNAMICS MODEL: A CASE STUDY OF NIGERIA ..... | 1   |
| <i>M. Aba, I. Sauer</i>                                                                                                              |     |
| SYSTEM DYNAMICS MODELLING TO UNDERSTAND PENDENCY OF CRIMINAL CASES<br>IN THE INDIAN JUSTIC SYSTEM .....                              | 4   |
| <i>A. Agrawal, M. Narayanan, O. Damani</i>                                                                                           |     |
| ANALYSIS OF POLICY MEASURES AND FEEDBACK EFFECTS ON INDUSTRY<br>TRANSFORMATION TOWARDS CARBON NEUTRALITY .....                       | 5   |
| <i>S. Ahlfs, K. Kieckhafer</i>                                                                                                       |     |
| GENERATIVE AI AND SIMULATION MODELING: HOW SHOULD YOU (NOT) USE<br>LARGE LANGUAGE MODELS LIKE CHATGPT .....                          | 7   |
| <i>N/A</i>                                                                                                                           |     |
| BEYOND A JOURNEY: A THEORY OF THE SUPPLY CHAIN SUSTAINABILITY AND<br>CIRCULARITY ODYSSEY .....                                       | 21  |
| <i>S. Allen, J. Sarkis, K. Saeed, S. Johnson</i>                                                                                     |     |
| USING SYSTEMS DYNAMICS PARTICIPATORY MODELLING TO SUPPORT<br>INTERNATIONAL RIVER BASIN POLICY DISCUSSIONS.....                       | 31  |
| <i>H. Amorcho-Daza, I. Bremere, D. Indriksone, P. Zaag, J. Slinger, J. Susnik</i>                                                    |     |
| 1816, A YEAR WITHOUT SUMMER .....                                                                                                    | 48  |
| <i>F. Sanchez</i>                                                                                                                    |     |
| DROUGHT: EFFECTS OF HUMAN INTERVENTION IN THE BRAZILIAN AMAZON.....                                                                  | 56  |
| <i>F. Sanchez</i>                                                                                                                    |     |
| FORECASTING THE NET ZERO TRANSITION: HOW TO REACH A THOUSAND<br>COMPANY FINANCIAL DIGITAL TWINS .....                                | 63  |
| <i>B. Bakken</i>                                                                                                                     |     |
| TRUST AND GROUP-DECISION-MAKING BEHAVIOR: A SYSTEM DYNAMICS<br>PERSPECTIVE .....                                                     | 76  |
| <i>F. Barnabe</i>                                                                                                                    |     |
| DEVELOPMENT OF A GROUP MODEL BUILDING-BASED WORKSHOP FOR AN EX-POST<br>PROCESS EVALUATION OF LOCAL MOBILITY SERVICES .....           | 78  |
| <i>V. Batiajew, A. Guhnemann</i>                                                                                                     |     |
| AN INTER-DISCIPLINARY APPROACH TO THE PLANNING, SUSTAINMENT AND<br>RESILIENCE OF SOCIO-TECHNICAL SYSTEMS.....                        | 79  |
| <i>A. Reedy, B. Bellman, P. Rao</i>                                                                                                  |     |
| OVERCOMING POLICY RESISTANCE TO DIVERSITY, EQUITY, AND INCLUSION<br>EFFORTS .....                                                    | 113 |
| <i>R. Bernstein, P. Salipante</i>                                                                                                    |     |

|                                                                                                                                                 |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| HOW TO OPERATIONALISE THE SOCIAL IN SOCIAL-ECOLOGICAL MODELS AND SIMULATIONS: TWO MUTUALLY LINKED PERSPECTIVES .....                            | 144 |
| <i>R. Bialozyt, M. Roß-Nickoll, R. Ottermanns, J. Jetzkowitz</i>                                                                                |     |
| UNDERSTANDING THE IMPACT OF CLIMATE CHANGE ON ABORTION ACCESS IN FLORIDA USING SYSTEM DYNAMICS MODELING.....                                    | 152 |
| <i>D. Birnbaum, J. Maffei, T. Canty, R. Thompson, D. Lounsbury, N. Sabounchi</i>                                                                |     |
| OUTLINING THE DYNAMIC RELATIONSHIPS BETWEEN QUIET QUITTING AND FIRM PERFORMANCE IN TURBULENT ENVIRONMENTS.....                                  | 172 |
| <i>E. Bivona, F. Ceresia, G. Scire</i>                                                                                                          |     |
| ADDRESSING INEQUALITY IN ORGANIZATIONS: GROUP MODEL BUILDING ON HARASSMENT IN ACADEMIA.....                                                     | 176 |
| <i>I. Bleijenbergh, M. Lansu</i>                                                                                                                |     |
| BRIDGING MODELING METHODS: A FORMALISM TO SPECIFY HYBRID SIMULATION MODELS ON THE CONCEPTUAL LEVEL.....                                         | 178 |
| <i>J. Block</i>                                                                                                                                 |     |
| MODEL-BASED EDUCATIONAL POLICY DEVELOPMENT IN LATVIA.....                                                                                       | 180 |
| <i>A. Blumberga, R. Freimanis, P. Davidsen, A. Vecina, A. Kalnbalkite</i>                                                                       |     |
| FISH LESS TO FISH MORE: OPTIMISING PROFITS THROUGH ANALYSING NON-LINEARITIES BETWEEN NO-TAKE MARINE RESERVES, FISHING EFFORT AND SUBSIDIES..... | 184 |
| <i>J. Dobson, A. Flores-Garcia, E. Fonfria, C. Bordehore</i>                                                                                    |     |
| REFLECTIONS ON MUTUAL LEARNING BETWEEN ABORIGINAL AND TORRES STRAIT ISLANDER COMMUNITIES AND A WHITE SYSTEM DYNAMICIST .....                    | 186 |
| <i>A. Brown, F. Mitchell, T. Walker, S. Sheriff, K. Hill, J. Brown</i>                                                                          |     |
| NAVIGATING THE DYNAMICS OF BATTERY OPERATIONS IN OFF-GRID MINI-GRIDS: A SYSTEMS APPROACH.....                                                   | 195 |
| <i>O. Buwa, A. Rao, J. Venkateswaran</i>                                                                                                        |     |
| SIMULATING EFFECTS OF FOOD INTAKE AND PHYSICAL ACTIVITY ON GLUCOSE DYNAMICS: A CASE STUDY .....                                                 | 201 |
| <i>L. Calancie, M. Jalali, A. Akhavan, C. Economos, P. O'Tierney-Ginn</i>                                                                       |     |
| WASTE AND ENERGY IN SWEDEN'S CIRCULAR ECONOMY: COLLABORATIVE SYSTEM DYNAMICS AND CHOICE MODELLING.....                                          | 202 |
| <i>S. Carnohan, A. Nicolaidis</i>                                                                                                               |     |
| LESSONS LEARNT FROM THE DESIGN AND DELIVERY OF A NATIONAL SYSTEM DYNAMICS TRAINING PROGRAMME FOR THE NATIONAL HEALTH SERVICE IN ENGLAND.....    | 216 |
| <i>S. Cave, S. Curram, E. Woodham, H. Sivakumaran</i>                                                                                           |     |
| AN ECOSYSTEM MODEL OF POST MINING LAND USE.....                                                                                                 | 231 |
| <i>K. Chichakly, M. Zevallos, P. Hesketh</i>                                                                                                    |     |
| REDUCING VETERAN SUICIDE RISK IN THE USA .....                                                                                                  | 242 |
| <i>K. Chichakly, D. Rozek, K. Dondanville</i>                                                                                                   |     |

|                                                                                                                                                                                              |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| HOW PARTICIPATORY AND COMPUTER MODELING ENHANCES CLIMATE RESILIENCE<br>POLICY DESIGN IN DATA-SCARCE SOCIAL-ECOLOGICAL SYSTEMS: LESSONS FROM<br>THE IKEL WATERSHED.....                       | 244 |
| <i>N. Ciobanu, A. Saysel</i>                                                                                                                                                                 |     |
| BRIDGING THE DIVIDE: RECONCILING QUANTITATIVE SYSTEM DYNAMICS AND<br>QUALITATIVE SYSTEMS THINKING CAUSAL LOOP DIAGRAMS (CLDS) ON SHARED<br>DEFINING CHARACTERISTICS AND A COMMON ORDER ..... | 275 |
| <i>T. Clancy, R. Zaini</i>                                                                                                                                                                   |     |
| SCRIPTING THE TERROR CONTAGION HYPOTHESIS: DEVELOPMENT OF A NOVEL<br>CRIMINAL SCRIPT & PRELIMINARY ANALYSIS ON THREE TERROR CONTAGIONS<br>COLUMBINE, VA TECH, AND INCEL .....                | 291 |
| <i>T. Clancy, V. Stephens</i>                                                                                                                                                                |     |
| WIND POWER'S UNCERTAIN FUTURE IN URUGUAY: A SD ANALYSIS OF POLICY<br>IMPACTS AND TECHNOLOGICAL OPPORTUNITIES.....                                                                            | 318 |
| <i>K. Correa, C. Reis, T. Volan, M. Uriona, C. Vaz</i>                                                                                                                                       |     |
| THE DYNAMICS OF CARBON TRADING POLICY IMPLEMENTATION IN INDONESIA .....                                                                                                                      | 323 |
| <i>A. Damayanti, A. Atmoko</i>                                                                                                                                                               |     |
| DYNAMICS OF YOUTH VIOLENCE AND THE PREVENTION EFFORTS OF FUTBOL FOR<br>GOOD PROGRAMS IN COLOMBIA .....                                                                                       | 340 |
| <i>E. Vega-Taboada, E. Rieder, M. Jalali</i>                                                                                                                                                 |     |
| TOWARDS SUSTAINABLE NET-ZERO BUYER-SUPPLIER RELATIONSHIP: AN<br>APPROACH TO QUANTIFY GREEN BULLWHIP EFFECT .....                                                                             | 341 |

| <i>O. Özgün</i>                                                                                                                                    |      |
| LEVERAGE POINTS TOWARDS DEGROWTH: INSIGHTS FROM AN EXPLORATORY STUDY WITH HOUSING ASSOCIATIONS IN LONDON.....                                      | 1295 |
| <i>A. Pagani, A. Walker, A. Macmillan, A. Nita, M. Davies, N. Zimmermann</i>                                                                       |      |
| INSTITUTIONS AND CULTURAL CAPACITY: A SYSTEMS PERSPECTIVE .....                                                                                    | 1300 |
| <i>J. Bednar, S. Page</i>                                                                                                                          |      |
| REARRANGING THE DECK CHAIRS: A SIMULATION MODEL OF BEHAVIORAL RESOURCE UTILIZATION UNDER CRISIS .....                                              | 1340 |
| <i>J. Paine</i>                                                                                                                                    |      |
| NAVIGATING UNCERTAINTY FOR INFORMED POLICY: THE CASE OF ENERGY TRANSITION SCENARIOS.....                                                           | 1350 |
| <i>M. Palucci, J. Tardif, V. Medici</i>                                                                                                            |      |

### VOLUME 3

|                                                                                                             |      |
|-------------------------------------------------------------------------------------------------------------|------|
| ASSESSING THE IMPACT OF CO-CREATION IN URBAN DEVELOPMENT.....                                               | 1370 |
| <i>M. Papesch, T. Möller</i>                                                                                |      |
| BALANCING PEOPLE, PLANET, AND PROFIT IN URBAN FOOD WASTE MANAGEMENT .....                                   | 1372 |
| <i>A. Parsa, M. Van De Wiel, U. Schmutz, I. Taylor, J. Fried</i>                                            |      |
| INTRODUCING SYSTEMS THINKING AND SYSTEM DYNAMICS MODELS IN ECONOMICS EDUCATION.....                         | 1385 |
| <i>O. Pavlov, R. Cavana, I. Wheat, K. Saeed, M. Radzicki, B. Dangerfield</i>                                |      |
| BICYCLE HELMET LAWS, SAFETY-IN-NUMBERS, AND BIKESHARES .....                                                | 1391 |
| <i>B. Pearre</i>                                                                                            |      |
| NAVIGATING COMPLEXITY: ENHANCING STRATEGIC THINKING FOR DYNAMIC ENVIRONMENTS .....                          | 1398 |
| <i>D. Salazar</i>                                                                                           |      |
| MODELLING EU27'S EMISSION OFFSET STRATEGY FOR ACHIEVING LONG-TERM 2°C MITIGATION TARGETS.....               | 1423 |
| <i>I. Perissi, A. Jones</i>                                                                                 |      |
| THE EVOLUTIONARY PUBLIC OPINIONS ON SOCIAL MEDIA IN THE CONTEXT OF INFODEMIC: AN SD MODELLING APPROACH..... | 1434 |
| <i>Y. Qiana, J. Huangb, L. Zhaoa</i>                                                                        |      |

|                                                                                                                                                                    |      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| HUMAN BEHAVIOURAL DRIVERS OF MEAT CONSUMPTION: USING GROUP MODEL BUILDING TO CAPTURE LIVED REALITIES .....                                                         | 1443 |
| <i>J. Rajah, B. Kopainsky</i>                                                                                                                                      |      |
| SYSTEMS THINKING AND STORIES .....                                                                                                                                 | 1447 |
| <i>P. Ramsey</i>                                                                                                                                                   |      |
| ACCELERATING THE SUSTAINABLE DEVELOPMENT GOALS IN ANGOLA: A SYSTEMIC ANALYSIS .....                                                                                | 1453 |
| <i>F. Redivo, C. Assuad</i>                                                                                                                                        |      |
| APPROACH TO ASSESS FACTORS AFFECTING LABORATORY WORKLOAD DURING A PANDEMIC SITUATION.....                                                                          | 1455 |
| <i>M. Reimche, A. Duden, J. Bergmann</i>                                                                                                                           |      |
| THE SOCIAL BENEFITS OF PARTICIPATORY SYSTEM DYNAMICS MODELING IN A WILDLIFE CONSERVATION CONTEXT .....                                                             | 1476 |
| <i>E. Rieder, L. Larson, B. Kopainsky, E. Seekamp, N. Peterson, M. Eaton</i>                                                                                       |      |
| GETTING HIGH IN NEW YORK STATE: THE CHALLENGES AND OPPORTUNITIES OF CANNABIS LEGALIZATION IN AN ERA OF DATA TRANSPARENCY, TOP-DOWN GOVERNANCE AND INEQUALITY ..... | 1477 |
| <i>A. Roggio, S. Pine, J. McKinney</i>                                                                                                                             |      |
| FOOD SECURITY AND FOOD AID; PERSISTENT INSECURITY .....                                                                                                            | 1488 |
| <i>Bernhard Rootinck</i>                                                                                                                                           |      |
| INTERPERSONAL RELATIONS, EMOTION AND DECISION MAKING SUPPORT: CONCEPTUALIZATION AND A PROPOSAL FOR MEASUREMENT .....                                               | 1506 |
| <i>E. Rouwette, P. Schwarz</i>                                                                                                                                     |      |
| DECISION-MAKING IN RANSOMWARE CAPABILITY DEVELOPMENT: PERSONA-DRIVEN SIMULATION.....                                                                               | 1518 |
| <i>P. Sagar, S. Zeijlemaker, M. Siegel</i>                                                                                                                         |      |
| GOVERNMENTS, NGOS, AND BUSINESSES USE INCREASINGLY DETAILED COMPUTATIONAL MODELS TO SUPPORT DECISION-MAKING .....                                                  | 1544 |
| <i>S. Salome, W. Auping, M. Kuijer</i>                                                                                                                             |      |
| TEACHING WITH LOOPS THAT MATTER (LTM) IN THE CLASSROOM .....                                                                                                       | 1546 |
| <i>B. Schoenberg, J. Rajah, B. Kopainsky</i>                                                                                                                       |      |
| TOWARDS A “FIT FOR PURPOSE”, FULLY COUPLED, INTEGRATED, AND INTERDISCIPLINARY WORLD-EARTH MODEL - DOCUMENTATION OF FRIDA VERSION 1.0.....                          | 1559 |
| <i>W. Schoenberg, C. Mauritzen, M. Adakudlu, B. Blanz, J. Breier, M. Grimeland, S. Mashhadi, J. Rajah, L. Ramme, C. Wells</i>                                      |      |
| A SYSTEM DYNAMICS MODEL OF COMMUNITY-BASED HEALTH INSURANCE SYSTEM IN BANGLADESH .....                                                                             | 1589 |
| <i>N. Sheikh, S. Howick, S. Mahmood, S. Hanifi, A. Morton</i>                                                                                                      |      |
| MODELING THE SLOW ADOPTION OF HEAT PUMPS IN GERMANY WITH SYSTEM DYNAMICS.....                                                                                      | 1592 |
| <i>A. Siemer</i>                                                                                                                                                   |      |

|                                                                                                                                                |      |
|------------------------------------------------------------------------------------------------------------------------------------------------|------|
| APPLYING THE SYSTEMS THINKING AND MODELLING TOOLBOX TO INDUSTRIAL SYMBIOSIS.....                                                               | 1613 |
| <i>A. Simons, S. Carnohan, R. Fornell, A. Lindqvist, E. Wallin</i>                                                                             |      |
| SYSTEM DYNAMICS AND MACHINE LEARNING COMBINED APPROACH TO SIMULATE SUSTAINABLE COMPETITIVE ADVANTAGE IN BANKING INDUSTRY .....                 | 1616 |
| <i>F. Siregar, D. masyita, M. Anwar, Y. Faisal</i>                                                                                             |      |
| WHERE WILL FOOD COME FROM? A LOOK AT THE POTENTIAL OF VERTICAL FARMING IN NORWAY .....                                                         | 1630 |
| <i>A. Sliwkowski, J. Rajah</i>                                                                                                                 |      |
| REWIRING THE HUMAN BRAIN: MASTERING HELICOPTER EMERGENCIES THROUGH SYSTEM DYNAMICS .....                                                       | 1651 |
| <i>S. Smith</i>                                                                                                                                |      |
| A COMPREHENSIVE SYSTEM DYNAMICS MODEL FOR AIR POLLUTION MANAGEMENT IN METROPOLITANS .....                                                      | 1666 |
| <i>H. Izadbakhsh, R. Soltani, H. Afrasiabi, N. Tehrani</i>                                                                                     |      |
| USING SYSTEM DYNAMICS MODELLING TO DETERMINE THE IMPACT OF CHARGING ELECTRIC VEHICLES ON THE HOURLY LOAD PROFILE AND HOUSEHOLD COSTS .....     | 1683 |
| <i>N. Pillay, A. Botha</i>                                                                                                                     |      |
| SPREADSHEETS – AN ORGANIZATION’S BANE OR BOON? AN EXPLORATORY STUDY USING SYSTEM DYNAMICS MODELLING. ....                                      | 1696 |
| <i>N. Pillay, A. Botha</i>                                                                                                                     |      |
| WATERFALL-AGILE CHALLENGES IN SOFTWARE DEVELOPMENT PROJECTS .....                                                                              | 1708 |
| <i>J. Sousa, E. Rouwette, J. Bloemer, L. Malczynski, J. Jacobson</i>                                                                           |      |
| BUSINESS IMPLICATIONS OF NET-ZERO TARGETS FOR DISTRICT HEATING AND COOLING.....                                                                | 1712 |
