## TABLE OF CONTENTS

|                                                                                                                                                          |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Convolutional Neural Networks Applied to the Diagnosis of Cardiovascular Disease .....                                                                   | 1   |
| <i>Julio Barzola-Monteses, Rosangela Caicedo-Quiroz, Franklin Parrales-Bravo, Cristhian Medina-Suarez, Wendy Yanez-Pazmino</i>                           |     |
| A Reverse Code Completion Approach for Enhancing Novice Programming Skills .....                                                                         | 9   |
| <i>Nicolás Torres</i>                                                                                                                                    |     |
| Integrating Function and Topology for Node Criticality Assessment in Interdependent Networks .....                                                       | 17  |
| <i>Ali Eslami</i>                                                                                                                                        |     |
| Diamond Prices Estimation with ELM-Based Regressors .....                                                                                                | 22  |
| <i>David Zabala-Blanco, José Ramírez, Roberto Ahumada-García, Marco Flores-Calero, Pablo Palacios-Játiva, Ronald V. Saire-Yujra</i>                      |     |
| Perception of the Gender Gap in the Business Area: A Collaborative Online International Learning Approach .....                                          | 30  |
| <i>Jenny Morales Brito, Fabián Silva-Aravena, Paula Sáez Orellana, Yolanda Valdés Rodríguez</i>                                                          |     |
| Acceptance and Use of a Gamified Environment in Higher Education: A Preliminary Study .....                                                              | 38  |
| <i>Nahur M. Meléndez Arava, Nelson F. Tapia Gonzalez, Susanne Griem-Klee</i>                                                                             |     |
| Impact of an Interactive Learning Platform on Programming Student Outcomes: A Case Study of Teloprogramo .....                                           | 44  |
| <i>Nicolás Torres, Patricio Olivares</i>                                                                                                                 |     |
| Quality Attributes for Zero Trust Architecture-Based Systems .....                                                                                       | 51  |
| <i>Carlos Manzano, Gastón Márquez, Hernán Astudillo</i>                                                                                                  |     |
| Optimising Planned Academic Workload Distribution: A Multiobjective Approach for the Balanced Academic Curriculum Problem .....                          | 62  |
| <i>Felipe González-Capot, Luz Chourio-Acevedo, Oscar C. Vásquez, Manuel Villalobos-Cid</i>                                                               |     |
| Evaluation of the Effectiveness of Project-Based Learning: Significant Learning in the Subject of Programming and Algorithm for Engineering Careers..... | 70  |
| <i>Jacqueline Manriquez Barria</i>                                                                                                                       |     |
| Next-Generation Firewall Open-Source and LAN Performance .....                                                                                           | 78  |
| <i>Gardyn Olivera-Ruiz, Jak Solsol-Isminio, Wilmer Bermúdez-Pino</i>                                                                                     |     |
| Impact of the DRG System on Technical Efficiency: A Case Study of Chilean High-Complexity Hospitals.....                                                 | 85  |
| <i>Javier Pérez-Cáceres, José Lillo-Vidal, Igor Tona Peres, Manuel Villalobos-Cid</i>                                                                    |     |
| High Availability in Private Cloud: Approaches and Possibilities.....                                                                                    | 93  |
| <i>Alejandro Mellado-Gatica, Julio Rojas-Mora, Mario Villanueva-Alveal</i>                                                                               |     |
| Proposal for a Data Governance Framework in Higher Education .....                                                                                       | 101 |
| <i>Ignacio Acuña Contreras, Ania Cravero Leal, Alejandro Ferreira Vergara</i>                                                                            |     |
| Educational Phishing: An Awareness Campaign to Learn How to Detect Phishing.....                                                                         | 110 |
| <i>Matias Greco, Rodrigo Chang, Patricio Galdames</i>                                                                                                    |     |

|                                                                                                                                               |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Social Consensus Modeling Using Threshold Boolean Networks .....                                                                              | 115 |
| <i>Salvador A. Méndez, Gonzalo A. Ruz</i>                                                                                                     |     |
| Exploration Pitfalls in a CUDA Parallelized Simulated Annealing Algorithm to Solve the<br>Centralized Student-School Assignment Problem.....  | 122 |
| <i>Ignacio Lincolao-Venegas, Julio Rojas-Mora</i>                                                                                             |     |
| Skyline Query Over $k^2$ -Tree Compact Data Structure .....                                                                                   | 130 |
| <i>Rodrigo Torres-Avilés, Gilberto Gutiérrez, Martita Muñoz, Mónica Caniupán</i>                                                              |     |
| Technology Adoption Readiness Assessment in an Agricultural Setting: A Case Study .....                                                       | 138 |
| <i>Lilianny Marrero, Pablo Cruz, Marcello Visconti, Mauricio Solar</i>                                                                        |     |
| Predicting Solvability and Difficulty of Sokoban Puzzles .....                                                                                | 145 |
| <i>Hans Schaa, Jose A. Del Solar-Zavala, Nicolas A. Barriga</i>                                                                               |     |
| Injecting Bias Through Prompts: Analyzing the Influence of Language on LLMs.....                                                              | 149 |
| <i>Nicolas Torres, Catalina Ulloa, Ignacio Araya, Matias Ayala, Sebastian Jara</i>                                                            |     |
| MRA-Based Digital Filter Using Daubechies 12 and Deep Learning for Exoplanet Light Curves .....                                               | 157 |
| <i>Esteban Toledo-Mercado, Ismael Soto</i>                                                                                                    |     |
| Proposed Metadata Management Model for Data Lakehouse .....                                                                                   | 165 |
| <i>Pablo Rain, Ania Cravero</i>                                                                                                               |     |
| Energy Consumption of a Building Using the XGBoost Algorithm: A Forecasting Study .....                                                       | 173 |
| <i>Julio Barzola-Monteses, Franklin Parrales-Bravo, Vicente Macas-Espinosa, Gabriel<br/>Bórquez-Vargas, Mayken Espinoza-Andaluz</i>           |     |
| Innovating the Design of University Learning Modules Through ICT Integration .....                                                            | 180 |
| <i>Oriel A. Herrera, Patricia Mejías, Alejandra Cid</i>                                                                                       |     |
| Evaluating Alternate Feature Sets as a Local Search Strategy for Gene Expression Feature Selection<br>Problem .....                           | 187 |
| <i>Pamela Landero-Sepúlveda, Sofia Castro-Castro, Mario Inostroza-Ponta</i>                                                                   |     |
| From 2D to 3D: Computational Methods for Analyzing Porous Electrode Structures in Fuel Cells .....                                            | 194 |
| <i>Mayken Espinoza-Andaluz, Joseph Ávila, Julio Barzola-Monteses, Martin Andersson</i>                                                        |     |
| TinyICS: An Industrial Control System Simulator Based on NS-3.....                                                                            | 201 |
| <i>Alejandro Candia, Cristian Cappel</i>                                                                                                      |     |
| A Preliminary Study of Self-Regulation Strategies in Chilean Engineering Students.....                                                        | 209 |
| <i>Carolina Zambrano, Carlos Hernandez, Luis Rojas, Darío Rojas</i>                                                                           |     |
| Hyper-Parameter Optimization of Regularized-Extreme Learning Machine Using a Modified<br>Opposition-Based Learning Artificial Bee Colony..... | 213 |
| <i>Philip Vasquez-Iglesias, Amelia E. Pizarro, David Zabala-Blanco, Juan Fuentes-Concha,<br/>Roberto Ahumada-García, Paulo Gonzalez</i>       |     |
| Gender Approach in the Perception of the University Climate in Informatics Engineering Program .....                                          | 220 |
| <i>Liubov Dombrovskaya, Valeria Miranda, Dayana Carillo</i>                                                                                   |     |
| Analysis of Trajectories of Students in Higher Technical-Professional Education Using Data<br>Mining Methods .....                            | 226 |
| <i>Liubov Dombrovskaya, Erika Riveros, Patricio Rodríguez Valdés</i>                                                                          |     |

|                                                                                                                                                        |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Toward Automatic Vehicle Classification for Toll Booths on Chilean Interurban Highways.....                                                            | 234 |
| <i>Victor Flores, Raúl Luengo, Carlos Hernández Ulloa, Billy Peralta</i>                                                                               |     |
| Visualizing Mimicry in Agile Teams: A Multimodal Approach .....                                                                                        | 238 |
| <i>Adrian Fernández Canino, Fernando Vargas, Diego Miranda, Dayana Palma, René Noel, Cristian Cechinel, Roberto Munoz</i>                              |     |
| A Comparative Analysis of Time Series Data Augmentation Methods in the Identification of Diabetic Neuropathies Based on Deep Learning Algorithms ..... | 242 |
| <i>Nicolás Henríquez Pedraza, Claudio Meneses Villegas, David Coa Aqueveque, Ranjit Das</i>                                                            |     |
| Collaborative Management of Software Product Lines: Lessons Learned from the Development of Real-Time Variability Models .....                         | 250 |
| <i>Oscar Aguayo, Samuel Sepúlveda, Raúl Mazo, Sebastián Calfunao, Sebastián Candia</i>                                                                 |     |
| What Matters in Accreditation? a Case Study in Chile .....                                                                                             | 257 |
| <i>Lucía González, Sol Riquelme-Gutiérrez, Cristóbal Mauricio, Óscar C. Vásquez</i>                                                                    |     |
| Graph-Based Neural Networks for Public Transport Speed Prediction in Santiago, Chile .....                                                             | 265 |
| <i>Daniel Müller, Billy Peralta, Orietta Nicolis</i>                                                                                                   |     |
| Uncertainty Estimation in Classification of Massive Stars Spectra Using Conformal Predictions .....                                                    | 269 |
| <i>Raquel Pezoa, Luis Salinas, Claudio Torres, Felipe Ortiz, Michel Cure, Ignacio Araya</i>                                                            |     |
| Enhancing Agile Project Management Education with AI: ChatGPT-4's Role in Evaluating Student Contributions .....                                       | 275 |
| <i>Diego Miranda, Dayana Palma, Adrian Fernández, René Noel, Cristian Cechinel, Roberto Munoz</i>                                                      |     |
| FAST DELIVERY: An Educational Video Game for Developing Computational Thinking Skills.....                                                             | 279 |
| <i>Anaís Monserrat Foix Monardes, Nataly Maritza González Díaz, Francisco Andrés Muñoz Alarcón, Silvana Roncagliolo, Claudio Cubillos</i>              |     |
| Better Together than Separate: Prediagnosis of Thyroid Nodules Through Ultrasound Imaging Using CNN, ViT and Hybrid Models .....                       | 287 |
| <i>Antonny Corcino, Marks Calderón</i>                                                                                                                 |     |
| Implementation and Evaluation of Recurrent Neural Network Models for an Intelligent University Admission Chatbot .....                                 | 295 |
| <i>Estrella D. Velásquez, Maribel E. Coaguila, Honorio Apaza, Victor Yana, Carlos A. Silva</i>                                                         |     |
| Characterization Model for Irregular MPI Applications Based on PAS2P .....                                                                             | 301 |
| <i>Felipe Tirado, Alvaro Wong, Dolores Rexachs, Emilio Luque</i>                                                                                       |     |
| Digital Skills in Higher Education: Strategies Adopted by Universities to Promote Their Development in Students and Professors .....                   | 305 |
| <i>Paula Sáez, Jenny Morales, Fabián Silva-Aravena</i>                                                                                                 |     |
| A Review on Predicting Bee Honey Production Using Machine Learning .....                                                                               | 312 |
| <i>Roberto Ahumada-García, Ian Morales Adasme, David Zabala-Blanco, Xaviera A. López-Cortés, Marco Flores-Calero, Ismael Soto</i>                      |     |
| Fake News Classification: A Linguistic Feature Selection Approach to Handle Imbalanced Data in Spanish .....                                           | 318 |
| <i>Eduardo Puraivan, Pablo Ormeño, Steffanie Kloss, Connie Cofré-Morales</i>                                                                           |     |

|                                                                                                                                                  |     |
