PROCEEDINGS OF SPIE

ODS 2024: Industrial Optical Devices and Systems

Ryuichi Katayama Yuzuru Takashima *Editors*

18–19 August 2024 San Diego, California, United States

Sponsored and Published by SPIE

Volume 13142

Proceedings of SPIE 0277-786X, V. 13142

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings: Author(s), "Title of Paper," in ODS 2024: Industrial Optical Devices and Systems, edited by Ryuichi Katayama, Yuzuru Takashima, Proc. of SPIE 13142, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X ISSN: 1996-756X (electronic)

ISBN: 9781510679443 ISBN: 9781510679450 (electronic)

Published by **SPIE** P.O. Box 10, Bellingham, Washington 98227-0010 USA Telephone +1 360 676 3290 (Pacific Time) SPIE.org Copyright © 2024 Society of Photo-Optical Instrumentation Engineers (SPIE).

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of fees. To obtain permission to use and share articles in this volume, visit Copyright Clearance Center at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher.

Printed in the United States of America by Curran Associates, Inc., under license from SPIE.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

• The first five digits correspond to the SPIE volume number.

• The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v Conference Committee

APPLICATIONS OF NANO-PHOTONICS

- 13142 02 Nanoscale optical memory based on dual-beam writing and dual-beam reading [13142-4]
- 13142 03 Simulation on temperature rise using ring-resonator-type device with optimized nanoantenna structure for heat-assisted magnetic recording [13142-5]

NOVEL OPTICAL TECHNOLOGIES

13142 04 Backtracking method applicable to optical quantum calculation [13142-8]

IMAGING AND SENSING DEVICES

13142 05 Omnidirectional stereo camera for harsh radiation environments [13142-11]

IMAGING AND SENSING SYSTEMS

13142 06 OCT sensor technology enables guaranteed quality and first-time-right in 3D printing with powder and wire [13142-14]

POSTER SESSION

13142 07 A mobile application that uses fiber optics to test the polarimetry of various substances [13142-24]

DIGITAL POSTER SESSION

13142 08 Long period gratings in unconventional optical fibers made with 3D-printed periodic interdigitated grooved structure [13142-19]
