**Volume 13192**

Proceedings of SPIE 0277-786X, V. 13192

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sensors, Systems, and Next-Generation Satellites XXVIII*, edited by Sachidananda R. Babu, Arnaud Hélière, Toshiyoshi Kimura, Proc. of SPIE 13192, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

vii *Conference Committee*

---

## US MISSIONS AND TECHNOLOGY I

---

- 13192 03 **Advances in designing, building, and testing intelligent, data-driven sensors for high-resolution microwave sounding and imaging from small satellite platforms** [13192-2]
- 13192 05 **Flight qualification of the MEM instruments for the EZIE mission** [13192-4]

---

## US MISSIONS AND TECHNOLOGY II

---

- 13192 06 **NOAA's Joint Polar Satellite System and the Near-Earth Observation Network (Invited Paper)** [13192-5]
- 13192 07 **Status of the ARGOS (Aerosol Radiometer for Global Observation of the Stratosphere) instrument** [13192-6]
- 13192 08 **OreSat 0.5: next-generation small satellite for global cirrus cloud detection and mapping** [13192-8]

---

## NASA PACE MISSION I

---

- 13192 0A **On-orbit OCI characterization measurements from the first six months of the PACE mission** [13192-9]
- 13192 0C **First results and on-orbit performance of the Hyper-Angular Rainbow Polarimeter on the PACE satellite** [13192-10]
- 13192 0D **Overview of NASA's Ocean Color Instrument solar calibration architecture, pre-launch tests, and preliminary on-orbit results** [13192-16]

---

## NASA PACE MISSION II

---

- 13192 0E **Life after launch: a snapshot of the first six months of NASA's Plankton, Aerosol, Cloud, Ocean Ecosystem (PACE) mission** [13192-14]
- 13192 0F **Pre-launch analysis and test of the Ocean Color Instrument modulation transfer function** [13192-17]
- 13192 0G **Spectrally dependent radiometric measurement errors due to CCD serial pixel-to-pixel readout interference in the Ocean Color Instrument of the NASA PACE mission** [13192-18]

- 13192 OH **In-flight characterization of the Hyper-Angular Rainbow Polarimeter (HARP2) on the NASA PACE mission** [13192-13]

---

#### JAPANESE MISSIONS AND TECHNOLOGY

---

- 13192 OL **The Earth Cloud Aerosol and Radiation Explorer/Cloud Profiling Radar (EarthCARE/CPR) pre-launch preparations and post-launch status** [13192-21]
- 13192 OM **Optical designing and case study of image restoration for space-based ultra-lightweight electro-optical telescopic systems with an optically-sparse non-uniform-sized segmented primary aperture mirror** [13192-22]

---

#### EUROPEAN MISSIONS AND TECHNOLOGY I

---

- 13192 OP **Theoretical performance limitations and filter selection based on Fisher information of a computational photonic crystal spectrometer for trace-gas retrieval** [13192-25]
- 13192 OQ **Calibration campaign of SPExone Second Generation: early results and instrument performance** [13192-11]
- 13192 OR **Synthetic aperture radar in a near-zero inclination almost circular geosynchronous orbit: mission analysis and orbit maintenance** [13192-27]

---

#### EUROPEAN MISSIONS AND TECHNOLOGY II

---

- 13192 OS **Progress on the development of the Copernicus CO2M mission (Invited Paper)** [13192-28]
- 13192 OU **Voltage domain TDI with diffusion-enhanced pixels** [13192-30]
- 13192 OV **Room temperature 96x96 InGaAs/InP SPAD array for SWIR imaging** [13192-31]
- 13192 OW **High performance detector and FEE combined solutions for visible and infrared imaging to support future space missions** [13192-32]

---

#### CALIBRATION AND VALIDATION I

---

- 13192 OX **An update of NOAA-21 VIIRS on-orbit calibration and performance (Invited Paper)** [13192-33]
- 13192 OY **JPSS-4 VIIRS prelaunch calibration performance and assessment** [13192-34]
- 13192 OZ **Continuing impact of satellite orbit drift on MODIS solar diffuser calibrations** [13192-35]

13192 10 **Improved characterization of Dome Concordia for tracking calibration changes in MODIS reflective solar bands** [13192-36]

13192 11 **OCI geolocation evaluation and refinement using Landsat control points** [13192-37]

---

#### **CALIBRATION AND VALIDATION II**

---

13192 13 **Radiometric calibration of low Earth orbit infrared imagery using a hybrid on-orbit and ground processing approach** [13192-39]

13192 16 **Impact of varying SNR in L1C data on Sentinel-2 L2A products** [13192-42]

---

#### **POSTER SESSION**

---

13192 17 **CLARREO Pathfinder solar diffuser pre-flight calibration** [13192-7]

13192 18 **A double-dispersive setup for spatio-spectral scanning in hyperspectral Earth observation** [13192-43]
