

PROCEEDINGS OF SPIE

Remote Sensing Technologies and Applications in Urban Environments IX

**Thilo Erbertseder
Nektarios Chrysoulakis
Ying Zhang**
Editors

**16 September 2024
Edinburgh, United Kingdom**

Sponsored by
SPIE

Event Sponsor
Leonardo MW Ltd. (United Kingdom)

General Sponsors
HGH Infrared Systems (France) • Photon Lines Ltd. (United Kingdom) • Pro-Lite Technology Ltd. (United Kingdom) •
Thales (United Kingdom)

Cooperating Organisations
Cranfield University (United Kingdom) • Quantum Security and Defense Working Group (United Kingdom) • CENSIS
(United Kingdom) • Innovate UK (United Kingdom) • Optoelectronics Research Centre (United Kingdom) • Photonics21
(Germany) • Technology Scotland (United Kingdom) • Science and Technology Facilities Council (United Kingdom) •

Volume 13198

Proceedings of SPIE 0277-786X, V. 13198

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Remote Sensing Technologies and Applications in Urban Environments IX*, edited by Thilo Erbertseder, Nektarios Chrysoulakis, Ying Zhang, Proc. of SPIE 13198, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

URBAN RESILIENCE AND PLANNING

- 13198 02 **Post-wildfire vegetation cover change mapping for assessments of secondary disaster risks toward urban areas: case of Fort McMurray 2016** [13198-1]
- 13198 03 **Unveiling urban vegetation monitoring: integrating multitemporal terrestrial laser scanning and UAV photogrammetry datasets for change detection** [13198-2]

SMART CITIES AND INFRASTRUCTURE

- 13198 08 **Self-localization method based on visual odometry of autonomous mobile robot for remote-sensing in outdoor underground infrastructure facilities** [13198-8]

URBAN AIR QUALITY AND CLIMATE II

- 13198 0C **Assessing the impact of prolonged air pollution exposure on COVID-19 mortality in Maharashtra, India using remotely sensed data** [13198-12]
- 13198 0D **Urban heat islands in transition: analysing a decade of thermal patterns in Bhubaneswar** [13198-13]
- 13198 0E **Enhancing urban thermal understanding via digital twin integration of thermal radiance mapping and geospatial analysis** [13198-14]

POSTER SESSION

- 13198 0F **Static characterization of sensor fusion systems** [13198-15]
- 13198 0H **Positional accuracy analysis of YOLO personal mobility detection** [13198-17]
- 13198 0I **Establishing the regression model of smoke-flow opacity for adaptive intelligent smoke identification using remote hyperspectral sensing** [13198-18]
