

PROCEEDINGS OF SPIE

# ***AOPC 2024: Astronomical Technologies and Instrumentation***

**Suijian Xue**  
*Editor*

**23–26 July 2024**  
**Beijing, China**

*Sponsored and Organized by*  
Chinese Society for Optical Engineering (CSOE) (China)

*Technical Cosponsor*  
SPIE

*Published by*  
SPIE

**Volume 13505**

Proceedings of SPIE 0277-786X, V. 13505

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *AOPC 2024: Astronomical Technologies and Instrumentation*, edited by Suijian Xue, Proc. of SPIE 13505, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510687998

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## ASTRONOMICAL TECHNOLOGIES AND INSTRUMENTATION

---

- 13505 02 **Ultra-wide and low-distortion scanning camera** [13505-1]
- 13505 03 **Development progress of a micro-spectrograph based on waveguide spectral lens**  
[13505-3]
- 13505 04 **Study and investigation on LeoLabs radar for space traffic management** [13505-4]
- 13505 05 **Study on diffracted stray light by the external occulter for a solar extreme ultraviolet coronagraph** [13505-5]
- 13505 06 **Diffraction-limited visible imaging with piezoelectric deformable secondary mirror** [13505-6]
- 13505 07 **CHAO: comprehensive and high-performance adaptive optics test bench** [13505-7]
- 13505 08 **Effect of spatial polarization characteristics of analyzer on high-precision waveplate calibration** [13505-8]
- 13505 09 **Establishment and preliminary results of an atmospheric precipitable water vapor measurement system at Ali site in Tibet** [13505-9]
- 13505 0A **Investigation into optimizing the radial temperature uniformity of optical lenses** [13505-10]
- 13505 0B **Collaborative control with multistage dynamic actuation of active mirrors in large telescopes with environmental disturbances** [13505-11]
