2024 International Conference on Power, Electrical Engineering, Electronics and Control (PEEC)

PEEC 2024

Table of Contents

Message from the General Chair ..... **xxxii**

2024 International Conference on Power, Electrical Engineering, Electronics and Control

Research on Intelligent Extraction of Electricity Hotspots Based on Information Mining Technology 1
Nan Zheng (State Grid Fujian Electric Power Economic and Technical Research Institute, China), Simin Chen (State Grid Fujian Electric Power Economic and Technical Research Institute, China), Yuanfei Li (State Grid Fujian Electric Power Economic and Technical Research Institute, China), and Yi Du (State Grid Fujian Electric Power Economic and Technical Research Institute, China)

A Three-Phase Unified AC Power Quality Control Device 7
Fangquan Wu (Guizhou Power Grid Co., Ltd., China), Yichi Liu (Guizhou Power Grid Co., Ltd., China), Yuan Ji (Guizhou Power Grid Co., Ltd., China), and Ling Zhou (Guizhou Power Grid Co., Ltd., China)

Research on a High Self-Healing and High Interactive Active Distribution Network Construction Method 12
Weiqiang Lang (State Grid Jinhua Power Supply Company, China), Jinkai Mao (State Grid Jinhua Power Supply Company, China), Yongfeng Yang (Hangzhou YangSi Information Technology Limited Company, China), Jingnan Li (Hangzhou YangSi Information Technology Limited Company, China), and Jiming Ma (Hangzhou YangSi Information Technology Limited Company, China)

New Power System Energy Storage Cost Compensation Mechanism 17
Chaofeng Zheng (State Grid Fujian Electric Power Co., Ltd., China), Qifan Wu (Economic and Technological Research Institute of State Grid Fujian Electric Power Co., Ltd., China), and Shiming Zhang (Economic and Technological Research Institute of State Grid Fujian Electric Power Co., Ltd., China)

Collaborative Filtering Recommendation Algorithm for Artificial Intelligence E-Commerce Platforms Based on Big Data 24
Wei Du (Suzhou Institute of Trade & Commerce, China)

The Fault Environment Feature Recognition Method for Dancing of Overhead Transmission Lines based on Dynamic Models 29
Shuhan Gao (State Grid Shandong Electric Power Research Institute, China), Chuanbin Liu (State Grid Shandong Electric Power Research Institute, China), Chao Zhou (State Grid Shandong Electric Power Research Institute, China), Ran Jia (State Grid Shandong Electric Power Research Institute, China), Hao Shen (State Grid Shandong Electric Power Research Institute, China), and Hui Liu (State Grid Shandong Electric Power Research Institute, China)

Fault Diagnosis and Recovery of Transmission Networks using Improved Ant Colony Optimization Algorithm (ACO) 34
Shuai Yuan (State Grid Danyang County Electric Power Supply Company, China), Dan Li (State Grid Danyang County Electric Power Supply Company, China), Hongjun Li (State Grid Danyang County Electric Power Supply Company, China), Yang Chen (State Grid Danyang County Electric Power Supply Company, China), and Mengchao Chang (State Grid Danyang County Electric Power Supply Company, China)

Probabilistic Analysis Enabled Proactive Fault Risk Assessment of Electricity Power Distribution Systems 39
Haisheng Hong (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), Zhixuan Zhao (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), Zhifang Zhu (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), Zheng Sun (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), Shengkai Chen (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), and Zihao Weng (Guangzhou Power Supply Bureau of Guangdong Power Grid Co., Ltd, China)

Research on Asset Valuation of Power Grid Data Based on Optimizing Multi Factor Cost Correction Model - Taking Huzhou Company as an Example 44
Zhong Wang (State Grid Corporation of Zhejiang Province, P.R. China), Lifeng Fang (State Grid Corporation of Zhejiang Province, P.R. China), Hongxu Li (State Grid Zhejiang Power Supply Company, P.R. China), Jianfei Shen (North China Electric Power University, P.R. China), Siyao Wang (North China Electric Power University, P.R. China), and Xiaomeng Li (North China Electric Power University, P.R. China)

Discussion on Computer-Aided Automatic Generation of Distribution Network Dispatching Operation Tickets for Load Transfer, Power Outage, and Power Restoration in Power Dispatch..... 50
Xiao Yang (Power Dispatch and Control Center of Guangxi Power Grid Co., Ltd., China), Xin Wei (Power Dispatch and Control Center of Guangxi Power Grid Co., Ltd., China), Lianrong Pan (Power Dispatch and Control Center of Guangxi Power Grid Co., Ltd., China), Yuyang Hu (Power Dispatch and Control Center of Guangxi Power Grid Co., Ltd., China), and Shangbin Yuan (Power Dispatch and Control Center of Guangxi Power Grid Co., Ltd., China)

Power System Visualization Enhancement Technology Guided by Force-Oriented Algorithms 55
Xurong Huang (Guangxi Power Grid Company Limited, China), Siyu Chen (Guangxi Power Grid Company Limited, China), Dan Duan (Guangxi Power Grid Company Limited, China), Yunjie Qin (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), Rui Chen (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), and Pei Xie (Guangxi Power Grid Company Limited, China)

Evaluation of Green and Low Carbon Benefits and Collaborative Optimization of Electrical Carbon Coupling in Power Systems 60
Jinman Luo (Dongguan Power Supply Bureau of Guangdong Power Grid Corporation, China) and Yuqing Li (Dongguan Power Supply Bureau of Guangdong Power Grid Corporation, China)

Construction of Intelligent Grid Automation Dispatching System Based on SVG Technology 65
Ruman Yang (Infomation Center of Guizhou Power Grid Co, Ltd, China), Junfeng Qian (Infomation Center of Guizhou Power Grid Co, Ltd, China), Yuan Ji (Infomation Center of Guizhou Power Grid Co, Ltd, China), and Meng Wang (Infomation Center of Guizhou Power Grid Co, Ltd, China)

Design and Implementation of Intelligent Operation and Maintenance System for Power Information Room Based on MR Hybrid Reality Technology 71
Weilun Lao (Guangzhou Southern Investment Group Co., Ltd., China) and Xingxiang Zhou (Guangzhou Southern Investment Group Co., Ltd., China)

Application of Digital Sustainable Engineering Technology in the System of Smart Grid Construction 75
Guangpeng Li (Shandong Institute of Commerce and Technology, China)

Intelligent Evaluation System of Power Grid External Information Based on Hierarchical Analysis Method 81
Yuanfei Li (State Grid Fujian Electric Power Economic and Technical Research Institute, China), Yi Du (State Grid Fujian Electric Power Economic and Technical Research Institute, China), Nan Zheng (State Grid Fujian Electric Power Economic and Technical Research Institute, China), and Simin Chen (State Grid Fujian Electric Power Economic and Technical Research Institute, China)

Industrial Power Flexible Load Scheduling for Demand Side Management Considering Machine Buffer 87
Hui Li (Shanwei Power Supply Bureau, Guangdong Power Grid Corporation Limited, China), Jiajie Gao (Shanwei Power Supply Bureau, Guangdong Power Grid Corporation Limited, China), Siying Chen (Shanwei Power Supply Bureau, Guangdong Power Grid Corporation Limited, China), Wenhui Liu (Shanwei Power Supply Bureau, Guangdong Power Grid Corporation Limited, China), Zefan Shen (Shanwei Power Supply Bureau, Guangdong Power Grid Corporation Limited, China), and Yuting Zhang (Shanwei Power Supply Bureau, Guangdong Power Grid Corporation Limited, China)

Efficient Optical Character Recognition based Text Detection Method in Robotic Process Automation in Power Systems 95
Chao Yin (China Southern Power Grid Shenzhen Power Supply Co., LTD., China), Yilun She (China Southern Power Grid Shenzhen Power Supply Co., LTD., China), Yangyang Yu (China Southern Power Grid Shenzhen Power Supply Co., LTD., China), Jingling Zhao (China Southern Power Grid Shenzhen Power Supply Co., LTD., China), Dong Chen (China Southern Power Grid Shenzhen Power Supply Co., LTD., China), and Yongqian Ning (China Southern Power Grid Shenzhen Power Supply Co., LTD., China)

Domestic Solar Photovoltaic Generation Prediction Based on Hybrid Machine Learning Models in the Presence of Uncertain Weather 102
Linna Ni (State Grid Zhejiang Marketing Service Center, China), Li Yao (State Grid Zhejiang Marketing Service Center, China), Yinzhou Jin (State Grid Jiaxing Electric Power Supply Company, China), Chi Jiang (State Grid Zhejiang Marketing Service Center, China), Jiewen Zhong (State Grid Jiaxing Electric Power Supply Company, China), and Jiali Yu (State Grid Zhejiang Marketing Service Center, China)

Digital Design of Power Supply based on Three-Level Regulation 108
Fangquan Wu (Guizhou Power Grid Co., Ltd., China), Yichi Liu (Guizhou Power Grid Co., Ltd., China), Xiong Li (Guizhou Power Grid Co., Ltd., China), and Zhiyi Yin (Guizhou Power Grid Co., Ltd., China)

Detection and Identification of Abnormal Topology Relationships in Three-Phase Power System Transformers using ResNet Model 113
Xudong Wang (Shanxi Yitong Power Grid Protection Automation Co, China), Jie Duan (State Grid Shanxi Electric Power Company Information Communication Branch, China), Zhuangzhuang He (State Grid Corporation of Shanxi Province, China), Wei Chen (Shanxi Yitong Power Grid Protection Automation Co, China), and Zhengyi Liu (Digital Department of State Grid Shanxi Electric Power Company, China)

Design and Implementation of a Green Supply Chain Management System for the Power Industry 118
Ye Zhou (State Grid Electric Power Co., Ltd., Dandong Power Supply Company, State Grid Corporation of China Limited, China), Na Liu (State Grid Electric Power Co., Ltd., Dandong Power Supply Company, State Grid Corporation of China Limited, China), Weibing Tao (State Grid Electric Power Co., Ltd., Dandong Power Supply Company, State Grid Corporation of China Limited, China), Chao Zhou (State Grid Information and Communication Industry Group Co., Ltd, State Grid Corporation of China Limited, China), and Qichong Li (Far Eastern State Transport University, Dalian Jiaotong University, China)

Development and Verification of a Machine Learning Based Motor Energy Consumption Prediction Algorithm 124
Qi Yuan (Nantong Products Quality Supervision & Inspection Institute, China)

Uncertainty Risk Assessment of Virtual Power Plants Using Bayesian Network Models 129
Yaoheng Du (Yantai Power Supply Company of State Grid Shandong Electric Power Company, China), Meng Dong (Peking University, China), Peixin Zhu (Yantai Power Supply Company of State Grid Shandong Electric Power Company, China), and Liangliang Wang (Yantai Power Supply Company of State Grid Shandong Electric Power Company, China)

Development of IC Scheduling Management System 135
Tingduo Chen (Zhejiang University of Water Resources and Electric Power, China), Nan Xie (Zhejiang University of Water Resources and Electric Power, China), Xilong Zhong (Zhejiang University of Water Resources and Electric Power, China), and Weimin Chen (China Jiliang University, China)

Short Term Prediction of Wind Power Generation Power Based on Variable Time Scales 140
Ting Xu (College of Science and Technology, Changchun Humanities and Sciences College, China), Xuhao Lv (College of Science and Technology, Changchun Humanities and Sciences College, China), Dong Pan (College of Science and Technology, Changchun Humanities and Sciences College, China), Lu Song (College of Science and Technology, Changchun Humanities and Sciences College, China), Wenchao He (College of Science and Technology, Changchun Humanities and Sciences College, China), and Xin Gong (College of Science and Technology, Changchun Humanities and Sciences College, China)

Construction of an Artificial Intelligence Standard Knowledge Computing Engine System for Power Grid Equipment 145
Shengchao Jiang (Guangxi Power Grid Co., Ltd., Electric Power Science Research Institute, China), Yuzhong Zhou (Electric Power Research Institute of China Southern Power Grid Company, China), Zhengping Lin (Electric Power Research Institute of China Southern Power Grid Company, China), Yuan La (China Southern Power Grid Co., Ltd., China), Feifeng Wang (Guangxi Power Grid Co., Ltd., Electric Power Science Research Institute, China), and Yunqing Pei (Guangxi Power Grid Co., Ltd., Electric Power Science Research Institute, China)

Regional Weather Sensitivity Analysis and Power Outage Risk Assessment Algorithm Combining GIS and AI 150
Buyun Su (Southern Power Grid Energy Development Research Institute Co., Ltd, China), Aoyu Lei (China Southern Power Grid Company Limited., China), Zhanzhi Liu (Southern Power Grid Energy Development Research Institute Co., Ltd, China), Yong Mei (China Southern Power Grid Company Limited., China), Yuwen Wu (Southern Power Grid Energy Development Research Institute Co., Ltd, China), and Jialu Li (China Southern Power Grid Company Limited., China)

Research and Application of Motor Fault Diagnosis Algorithm Based on Neural Network 155
Tianqiu Ji (Nantong Products Quality Supervision & Inspection Institute, China)

Blockchain-Based New Power System Plant-grid Coordination Sunshine Service and Scheduling Technology 161
Lina Wang (Dongguan Power Supply Bureau of Guangdong Power Grid Corporation, China), Weidong Xu (Dongguan Power Supply Bureau of Guangdong Power Grid Corporation, China), and Jinman Luo (Dongguan Power Supply Bureau of Guangdong Power Grid Corporation, China)

Power System Reliability Analysis for Demand Response in Electricity Market Environments 166
Wenbo Li (National Nuclear Power Planning and Design Institute Co., Ltd., China), Xiaojie Zhou (National Nuclear Power Planning and Design Institute Co., Ltd., China), Lisong Bi (National Nuclear Power Planning and Design Institute Co., Ltd., China), Qian Li (National Nuclear Power Planning and Design Institute Co., Ltd., China), and Yanqing Jing (National Nuclear Power Planning and Design Institute Co., Ltd., China)

Multi-Microgrid Distribution Network Hierarchical Collaborative Scheduling Strategy under Network Intelligence Algorithms 173
Zhenyong Niu (Guangzhou Power Supply Bureau, Guangdong Power Grid Co., Ltd, China), Haochuan Ding (NR Electric Co., Ltd. Nanjing, China), Meng Ye (Guangzhou Power Supply Bureau, Guangdong Power Grid Co., Ltd, China), Xiangzhui Ma (NR Electric Co., Ltd. Nanjing, China), Dongxu Li (Guangzhou Power Supply Bureau, Guangdong Power Grid Co., Ltd, China), and Jun Li (NR Electric Co., Ltd. Nanjing, China)

Data Model Transformation Method for Distribution Network Management System Based on CIM 179
Guilian Wu (State Grid Fujian Economic Research Institute, China), Shiyuan Ni (State Grid Fujian Economic Research Institute, China), Lu Tang (State Grid Fujian Economic Research Institute, China), and Sudan Lai (State Grid Fujian Economic Research Institute, China)

Machine Learning-Based Transformer Station Construction Safety Detection System 184
Dapeng Zhang (Chengdu Chengdian Electric Power Engineering Design Co., Ltd, China), Li Quan (Chengdu Chengdian Electric Power Engineering Design Co., Ltd, China), Jinghao He (Chengdu Chengdian Electric Power Engineering Design Co., Ltd, China), Xiaoli Song (Chengdu Chengdian Electric Power Engineering Design Co., Ltd, China), and Yanling Luo (Chengdu Chengdian Electric Power Engineering Design Co., Ltd, China)

Transformer High Voltage Equipment System Based on Machine Learning 189
Qingchuan Zhang (State Grid Xinjiang Electric Power Co., Ltd. Electric Power Science Research Institute, China)

Big Data Analysis and Intelligent Prediction Technology Based on Intelligent Digital Power System 194
Jianyi Li (Zhongshan Power Supply Bureau of Guangdong Power Grid Co., Ltd, China) and Jiawei Wei (Zhongshan Power Supply Bureau of Guangdong Power Grid Co., Ltd, China)

Integrated Algorithm for Electronic Power Management and Three-Level LLC Topology in the Field of Electrical Engineering 199
Xudong Song (Shanghai JARI Zhaoxin Information Science & Technology Co., LTD., China)

Intelligent Error Prevention and Security Algorithm for Power Dispatch Based on Data Analysis 204
Wei Jiang (Guangzhou Novasein Digital Technology Co., Ltd., China), Jun Wan (Guangzhou Novasein Digital Technology Co., Ltd., China), Ziqiang Hu (Guangzhou Novasein Digital Technology Co., Ltd., China), Zhaozhao Wang (Guangzhou Novasein Digital Technology Co., Ltd., China), and Qiankuan Ren (Guangzhou Novasein Digital Technology Co., Ltd., China)

Optimization and Management Strategies of Electric Two Wheeled Vehicle Battery Exchange Network Based on Artificial Intelligence 209
Leilei Jiang (National Network (Shandong) Electric Vehicle Service Co., Ltd., China), Bingqi Zhao (National Network (Shandong) Electric Vehicle Service Co., Ltd., China), Zikai Li (National Network (Shandong) Electric Vehicle Service Co., Ltd., China), Zhongtang Zhou (National Network (Shandong) Electric Vehicle Service Co., Ltd., China), and Gaobo Sun (Nanyang Technology University, China)

Research and Applications of Autonomous Driving Technology Based on Mechanical and Electrical Control 214
Yufei Tao (University of Debrecen, Hungary) and Lan Luo (Central South University, China)

Built in Power Status Detection Component Based on Deep Learning in Multi Source Data Acquisition Devices 219
Yifeng Zhu (China Southern Power Grid Co., Ltd. EHV Transmission Company, China), Renxin Li (China Southern Power Grid Co., Ltd. EHV Transmission Company, China), Hualu Yuan (China Southern Power Grid Co., Ltd. EHV Transmission Company, China), and Chengliang Zhang (China Southern Power Grid Co., Ltd. EHV Transmission Company, China)

Multi-Objective Planning of Transfer Capacity Distribution System Based on ESGA Genetic Algorithm 225
Jingjing Huang (Economics and Technology Research Institute of State Grid Zhejiang Electric Power Co., LTD., China), Qiu Liang (State Grid Taizhou Power Supply Company, China), and Yuanhong Che (State Grid Jiaxing Power Supply Company, China)

EMD-LSTM Based Demand Forecasting Research on Power Engineering Banded Framework Procurement Materials 231
Kangjun Liu (Shenzhen Power Supply Co., Ltd, China Southern Power Grid, China), Bo Wei (Shenzhen Power Supply Co., Ltd, China Southern Power Grid, China), Yiliang Chen (Shenzhen Power Supply Co., Ltd, China Southern Power Grid, China), Zhenqiu Huang (Shenzhen Power Supply Co., Ltd, China Southern Power Grid, China), and Wanyi Ma (Shenzhen Power Supply Co., Ltd, China Southern Power Grid, China)

Fault Identification Method for Power Measurement Terminal Communication under Ant Colony Algorithm 237
Dawei Zhang (State Grid Shanghai Marketing Service Center, China), Xun Zhang (State Grid Shanghai Marketing Service Center, China), and Zhengyu Hu (State Grid Shanghai Marketing Service Center, China)

Optimization of Power Grid Maintenance Cost Management Based on Intelligent Fuzzy Algorithm and Standard Operation Cost Method 243
Xiang Gao (State Grid Anhui Electric Power Co.Ltd. Economic Research Institute, China), Ying Yang (China Energy Engineering Group Anhui Electric Power Design Institute, China), and Jiahui Zhang (Faculty of economic and manage, North China Electric Power University, China)

Fault Diagnosis Technology of Large Electromechanical Equipment Based on Machine Learning ... 249
Guifu Jia (Lanzhou Resources & Environment VOC-TECH University, China) and Yanhui Jing (Lanzhou Resources & Environment VOC-TECH University, China)

Power System Cycle Impact Data Based on Electric Internal Combustion Engines 254
Bin Ma (Automobile College, Jinan Vocational College, China) and Shan Deng (Automobile College, Jinan Vocational College, China)

Research on Autonomous Detection Algorithms for Spoofed Interference in Civil Aircraft Airborne Navigation Systems 260
Jia Chen (Beijing Aeronautical Science & Technology Research Institute of COMAC, Commercial Aircraft Corporation of China, Ltd., China)

Research on Fault Monitoring and Early Warning System of Elevators Based on Internet of Things 265
Chaolan Zhang (Guizhou Aerospace Vocational and Technical College, China) and Xiaojun Jiang (Guizhou Aerospace Vocational and Technical College, China)

Research on Sorting System of Industrial Robot Based on Machine Vision 270
Yuntian Luo (Southwest Jiaotong University, China)

Analysis of Electrical Automation Transformation Model Based on Matra Offset Algorithm 275
Shanshan Tang (Anhui Vocational and Technical College, China)

Research on the Algorithm for Detecting Appearance Defects of Automotive Precision Parts Based on Computer Vision 280
Xiaobing Cai (EDPR APAC, Singapore)

Research on Safety Analysis and Prediction Technology for Crane Operation Based on Intelligent Algorithms 285
Yun Liu (Sinohydro Jiajiang Hydraulic Machinery Company Limited, China) and Yang Gao (Sichuan Police College, China)

Network Security Threat Prevention and Control System for Wind Farm Power Monitoring System 290
Lianghao Huang (Power Dispatch Control Center, Jiangmen Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), Weiquan Ye (Power Dispatch Control Center, Jiangmen Power Supply Bureau of Guangdong Power Grid Co., Ltd, China), and Jianwei He (Power Dispatch Control Center, Jiangmen Power Supply Bureau of Guangdong Power Grid Co., Ltd, China)

Design of a Facial Recognition System for Power Grid Video Surveillance Based on Deep Learning Algorithms 296
Yuan Liu (State Grid Henan Information & Telecommunication Company (Date Center), China), Chunyuan Miao (State Grid Henan Information & Telecommunication Company (Date Center), China), Lin Mei (State Grid Henan Information & Telecommunication Company (Date Center), China), Jin Lv (Nanjing NARI Information and Communication Technology, Co., Ltd, China), and Geli Jiang (Nanjing NARI Information and Communication Technology, Co., Ltd, China)

Electronic Information Intelligent Decision and Control Technology Integrating Big Data and Intelligent Algorithms 301
Guojing Bai (Chongqing Communication Design Institute Co.Ltd, China)

Risk Assessment Framework for Intelligent Transmission and Distribution Systems Based on Runtime Validation 306
Yunshuo Li (China Electric Power Research Institute, China), Xiangjun Duan (China Electric Power Research Institute, China), Yuanyuan Xu (China Electric Power Research Institute, China), and Cheng Zhao (Electric Power Research Institute State Grid Anhui Electric Power Co., Ltd., China)

Calculation of Neutral Grounding Method and Grounding Transformer Capacity for Photovoltaic Power Plants 311
Fuhua Liu (Huadian Hainan Materials Co., Ltd, China)

Study on the Planning Scheme of DC Outgoing Power with a High Proportion of Renewable Energy Sources and the Formulation of DC Delivery Curves 316
Na Lei (National Nuclear Power Planning and Design Institute Co., Ltd., China), Lisong Bi (National Nuclear Power Planning and Design Institute Co., Ltd., China), Xiaojie Zhou (National Nuclear Power Planning and Design Institute Co., Ltd., China), Zhanzequn Yuan (National Nuclear Power Planning and Design Institute Co., Ltd., China), Wenbo Li (National Nuclear Power Planning and Design Institute Co., Ltd., China), and Xin Chen (National Nuclear Power Planning and Design Institute Co., Ltd., China)

Hierarchical and Partitioned Collaborative Scheduling Strategy for Virtual Power Plants Based on Network Intelligence Algorithms 322
Junbo Tang (Guangzhou Power Supply Bureau, Guangdong Power Grid Co., Ltd, China), Hao Jin (NR Electric Co., Ltd. Nanjing, China), Li Ma (Customer Service Center, Guangzhou Power Supply Bureau, Guangzhou 523072, China), Jun Li (NR Electric Co., Ltd. Nanjing, China), Jinheng Fan (Customer Service Center, Guangzhou Power Supply Bureau, China), Ye Shi (NR Electric Co., Ltd. Nanjing, China), and Xiangzhui Ma (NR Electric Co., Ltd. Nanjing, China)

Simulation of an Artificial Intelligence Behavior Analysis Model Based on Neural Network Algorithm 328
Shanshan Lin (Weifang Engineering Vocational College, China) and Fengqi Jia (Weifang Engineering Vocational College, China)

Efficient, Reliable, and Scalable Distributed Data Processing Based on Hadoop 334
Yingwei Liang (CSG Guangdong Power Grid Co., Ltd. Information Center, China), Taipeng Zhu (CSG Guangdong Power Grid Co., Ltd. Information Center, China), Chenghui Liu (CSG Guangdong Power Grid Co., Ltd. Information Center, China), Yue Chen (CSG Guangdong Power Grid Co., Ltd. Information Center, China), and Yufei Yang (CSG Guangdong Power Grid Co., Ltd. Information Center, China)

Simulation of Environmental Damage Assessment Model in Mining Area Based on Deep Convolutional Neural Network Algorithm 340
Xun Ouyang (Human Resources Development Center of the Ministry of Natural Resources, China), Qibin Zhao (Chinese Academy of Natural Resources Economics, China), and Xin Ouyang (Chinese Academy of Natural Resources Economics, China)

Construction of Cloud Edge Integrated Data Model and Design of Efficient Processing Algorithm in Distribution Network 345
Yu Zhang (Guangdong Power Grid Co., Ltd., China), Hui Lu (Guangdong Power Grid Co., Ltd., China), and Qiuhui Zhang (Guangdong Power Grid Co., Ltd., China)

Application and Effectiveness Evaluation of Bayesian Optimization Algorithm in Hyperparameter Tuning of Machine Learning Models 351
Yuchen Lai (University of California, USA)

Energy Consumption Optimization Method for Intelligent IoT Buildings Based on Big Data Analysis 356
Yuding Liu (Harbin Huade University, China), Xin Li (Harbin Huade University, China), and Lingyu Gao (Harbin Huade University, China)

Research on Low-Power Microprocessor Design and Optimization Technology 362
Yiqun Zhang (Weifang Engineering Vocational College, China), Shuai Zhang (Weifang Engineering Vocational College, China), and Luyao Feng (Weifang Engineering Vocational College, China)

Mechatronics Integration Technology for Unmanned Aerial Vehicle Flight Control Systems 367
Xintong Han (Weifang Engineering Vocational College, China), Songling Zhao (Weifang Engineering Vocational College, China), Yike Sang (Weifang Engineering Vocational College, China), and Mingsheng Chang (Weifang Engineering Vocational College, China)

Algorithm Optimization and Fraud Feature Mining in Audit Data Analysis 372
Jianlin Li (Hebei University of Economics and Business, China; Research Center for Corporate Governance and Enterprise Growth of Hebei University of Economics and Business, China), Wanli Liu (Finance Department, Hebei University of Economics and Business, China), and Jie Zhang (Office of Scientific Research, Hebei University of Economics and Business, China)

Research on Fault Detection and Self-Healing Technology in Smart Grid 377
Li Zheng (State Grid Shandong Electric Power Company, China)

Multi-Source Information Data Fusion Method between Heterogeneous Platforms 382
Jiacheng Fu (Guangxi Power Grid Co., Ltd., China), Anni Huang (Guangxi Power Grid Co., Ltd., China), Junbing Pan (Guangxi Power Grid Co., Ltd., China), Xiaoying Mo (Guangxi Power Grid Co., Ltd., China), Boling Chen (Guangxi Power Grid Co., Ltd., China), and Dengbin Liao (Guangxi Power Grid Co., Ltd., China)

Intelligent Standardization Method for Multidimensional Information System Logs 389
Anni Huang (Guangxi Power Grid Co., Ltd., China), Jiacheng Fu (Guangxi Power Grid Co., Ltd., China), Dengbin Liao (Guangxi Power Grid Co., Ltd., China), Boling Chen (Guangxi Power Grid Co., Ltd., China), Xiaoying Mo (Guangxi Power Grid Co., Ltd., China), and Junbing Pan (Guangxi Power Grid Co., Ltd., China)

Algorithmic Research on Cross-Border E-commerce Logistics Forecasting Models 395
Xiaoqin Luo (Guangdong University of Science and Technology, China)

Power Data Identification of Smart Grid: Application of Multi-Source Semantic Analysis 401
Lei Sun (State Grid Sijie Cybersecurity Technology (Beijing) Co., Ltd., China), Hua Chen (State Grid Sijie Cybersecurity Technology (Beijing) Co., Ltd., China), Yang Yang (State Grid Sijie Cybersecurity Technology (Beijing) Co., Ltd., China), Yu Huo (State Grid Sijie Cybersecurity Technology (Beijing) Co., Ltd., China), and Youtao Wei (State Grid Sijie Cybersecurity Technology (Beijing) Co., Ltd., China)

Construction of College English Teaching Quality Evaluation Model Based on RBF Neural Network Algorithm 407
Chunmei Xia (University of Electronic Science and Technology of China, China)

Development of Automotive Adaptive Cruise Control Algorithm Based on Reinforcement Learning 412
Chunpeng Li (Tianjin University of Technology and Education, China)

Research on Data Privacy Protection and Identity Verification Mechanism in Smart Power System 417
Huance Xu (Guangdong Power Grid Co., Ltd., CSG., China), Shirong Zou (Guangdong Power Grid Co., Ltd., CSG., China), Chao Liu (Guangdong Power Grid Co., Ltd., CSG., China), and Peikang Lin (Guangdong Power Grid Co., Ltd., CSG., China)

Automatic Irony Detection for Chinese Social Media based on BERT-GDPCNN-ATTN Model 422
Xiaofan Qi (Shanghai Maritime University, China) and Aihua Wu (Shanghai Maritime University, China)

Design of Industrial Control Communication Encryption and Authentication System Based on Artificial Intelligence Algorithm 429
Wei Li (Data Company of Petro China Xinjiang Oilfield Company, China), Yinquan Wang (Data Company of Petro China Xinjiang Oilfield Company, China), Guoming Xian (Data Company of Petro China Xinjiang Oilfield Company, China), Gang Chen (Data Company of Petro China Xinjiang Oilfield Company, China), Lei Han (Data Company of Petro China Xinjiang Oilfield Company, China), Changmin Zheng (Data Company of Petro China Xinjiang Oilfield Company, China), and Hanlin Tu (Data Company of Petro China Xinjiang Oilfield Company, China)

Application of Intelligent Diagnosis System in Fault Prediction and Maintenance of Vacuum Circuit Breaker 434
Chunyu Ni (State Grid Liaoning Electric Power Co., Ltd., Tieling Power Supply Company Tieling, China), Shicheng Wang (State Grid Liaoning Electric Power Co., Ltd., Tieling Power Supply Company Tieling, China), Yanzhe Lv (State Grid Liaoning Electric Power Co., Ltd., Tieling Power Supply Company Tieling, China), and Chengfeng Li (State Grid Liaoning Electric Power Co., Ltd., Tieling Power Supply Company Tieling, China)

Design of Vulnerability and Attack Detection System of Industrial Control System Based on Improved Genetic Algorithm 438
Guowei Shi (Data Company of PetroChina Xinjiang Oilfield Company, China), Zeyang Zhao (Data Company of PetroChina Xinjiang Oilfield Company, China), Shiyi Chen (Data Company of PetroChina Xinjiang Oilfield Company, China), Huan Li (Data Company of PetroChina Xinjiang Oilfield Company, China), Xin Ren (Data Company of PetroChina Xinjiang Oilfield Company, China), and Jing Zhang (Data Company of PetroChina Xinjiang Oilfield Company, China)

Simulation of Intrusion Response Model for Industrial Control Network Based on Fuzzy Clustering Algorithm 442
Junjun Sun (Data Company of PetroChina Xinjiang Oilfield Company, China), Youchen Shi (Data Company of PetroChina Xinjiang Oilfield Company, China), Yang Li (Data Company of PetroChina Xinjiang Oilfield Company, China), Peng Li (Data Company of PetroChina Xinjiang Oilfield Company, China), Lin Huang (Data Company of PetroChina Xinjiang Oilfield Company, China), and Xiaoting Qi (Data Company of PetroChina Xinjiang Oilfield Company, China)

Design and Implementation of Digital Power Grid Monitoring and Intelligent Analysis System Based on Internet of Things Platform 447
Miao Chen (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Minglei Huang (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Jiayuan Lai (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Wenyang Cai (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), and Huaming Ling (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China)

Design and Optimization of an Intelligent Question Answering System Integrates Natural Language Processing and Knowledge Graph 454
Shanliang Chou (Jiangsu Vocational College of Tourism, China)

Optimization of Library Book Classification and Retrieval System Based on Deep Learning 459
Ying Fan (Wuhan University of Science and Technology, China)

Development of Intelligent Fault Diagnosis and Predictive Maintenance Algorithm in Photovoltaic Power Generation System 465
Junning Guan (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Guosheng Lei (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Daofang Jiang (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), and Yifan Zhou (Zhuhai Power Supply Bureau of Guangdong Power Grid Co., Ltd., China)

Research and Implementation of Intelligent Security Protection Algorithm for 5G Communication 471
Lina Hu (State Grid Hubei Electric Power Co. Ltd., China), Yi Tang (State Grid Hubei Electric Power Co. Ltd., China), and Jun Sun (State Grid Hubei Electric Power Co. Ltd., China)

Research on Medical Equipment Operation State Monitoring and Early Warning Technology of Failure 477
Hangliang Huang (Shengzhou Hospital of Traditional Chinese Medicine, China)

Research on Fault Diagnosis and Prediction Technology of Digital Power Grid Based on Big Data Analysis 482
Minglei Huang (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Dishen Liu (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Miao Chen (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Hanwu Lin (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), and Xiaopeng Guo (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China)

Design of Remote Monitoring and Maintenance System for Electrical and Electronic Equipment Based on Internet of Things 488
Heping Jia (Ordos Vocational College of Eco-Environment, China), Wenli Jiang (Ordos Vocational College of Eco-Environment, China), and Rong Zhou (Ordos Vocational College of Eco-Environment, China)

Research on Mechanical Equipment Fault Diagnosis and Prediction Technology Based on Vibration Signal Analysis 494
Wenli Jiang (Ordos Vocational College of Eco-Environment, China), Rong Zhou (Ordos Vocational College of Eco-Environment, China), and Heping Jia (Ordos Vocational College of Eco-Environment, China)

Simulation of Virtual Market Model of Tourism Industry Based on Generative Adversarial Networks Algorithm 499
Xuejing Jing (Lianyungang Committee of Chinese Peasants and Workers Democratic Party, China)

Application of Machine Learning Algorithm in Structural Safety Assessment of Building Engineering 504
Jianjun Lin (Weifang Engineering Vocational College, China), Shun Lu (Weifang Engineering Vocational College, China), and Mingyun Cai (Rizhao Polytechnic, China)

Networking and Information Security Algorithms of Industrial Automation Control Systems 509
Sen Lin (Harbin Huade University, China)

Research and Application of Efficient Detection Algorithm for Harmful Substances in Food 515
Hongyan Liu (Jiangsu Vocational College of Tourism, China), Yanchun Ruan (Jiangsu Vocational College of Tourism, China), Wei Wang (Jiangsu Vocational College of Tourism, China), Xinglin Zeng (Jiangsu Vocational College of Tourism, China), and Ruichen Bu (Jiangsu Vocational College of Tourism, China)

Visual and Language Information Fusion Algorithm in Multimodal Discourse Analysis 520
Fangyu Men (Sichuan University Jinjiang College, China)

Algorithm Design and Application of Intelligent Metering Device in Solving the Problem of Changing Households 526
Xuemei Qiu (Huizhou Huicheng Power Supply Bureau of Guangdong Power Grid Co.Ltd., China), Baolun Zhu (Huizhou Huicheng Power Supply Bureau of Guangdong Power Grid Co.Ltd., China), and Xiaoyu Wei (Huizhou Huicheng Power Supply Bureau of Guangdong Power Grid Co.Ltd., China)

Design of Intelligent Decision System for Information and Communication Network Attacks and Protection Based on Artificial Intelligence 532
Jun Sun (State Grid Hubei Electric Power Co. Ltd., China), Yi Tang (State Grid Hubei Electric Power Co. Ltd., China), Lina Hu (State Grid Hubei Electric Power Co. Ltd., China), and Lu Ye (State Grid Hubei Electric Power Co. Ltd., China)

Application of Network Anomaly Detection Algorithm Based on Deep Learning in Information Communication 538
Yi Tang (State Grid Hubei Electric Power Co. Ltd., China), Lu Ye (State Grid Hubei Electric Power Co. Ltd., China), and Lina Hu (State Grid Hubei Electric Power Co. Ltd., China)

Analysis Technology of Surface Characteristics of Archaeological Relics Fragments Based on Image Processing 544
Geren Wang (Nanjing Museum, China)

Simulation Analysis of a New Improved P&O Algorithm in Photovoltaic Controllers 550
Kun Wang (Luoding Polytechnic, China) and Wenke Zhang (Luoding Polytechnic, China)

Prediction Algorithm of Dance Movement Rhythm and Coordination Based on Time Series Analysis 556
Xinxiu Wang (Weifang Engineering Vocational College, China)

Design of Real-time Monitoring and Management System for Digital Power Grid Equipment Based on Intelligent Analysis 562
Zipeng Xia (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Yao Liu (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Huaming Ling (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), Wenyang Cai (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China), and Minglei Huang (Zhuhai Power Supply Bureau Guangdong Power Grid Co., Ltd., China)

Security Transmission Control Strategy for End-to-end Network Link Layer of Medical IoT Devices 568
Tingyu Xu (Southeast University, China), Guanya Zhu (Huatai Securities Company Limited, China), Lindu Zhao (Southeast University, China), Zhongmin Wang (Nanjing Medical University, China), and Jianjun Guo (Nanjing Medical University, China)

Intelligent Energy Meter Data Analysis and Anomaly Detection Combined with Big Data Technology 574
Shaokui Yan (State Grid Ningxia Marketing Service Center, China), Rui Hou (State Grid Ningxia Marketing Service Center, China), and Pengyuan Liu (State Grid Ningxia Marketing Service Center, China)

Application and Optimization Algorithms of Multi-Party Secure Computing in Information Communication 580
Lu Ye (State Grid Hubei Electric Power Co. Ltd., China), Yi Tang (State Grid Hubei Electric Power Co. Ltd., China), and Jun Sun (State Grid Hubei Electric Power Co. Ltd., China)

Algorithm for User Profile Construction on New Media Platforms Driven by Artificial Intelligence 586
Shuai Yin (Weifang Vocational College of Engineering, China) and Dongmei Shi (Weifang Vocational College of Engineering, China)

Optimization of Human Resource Recruitment Efficiency Based on Machine Learning Algorithms. 592
Ting Yu (Beijing Xindazheng Aviation Technology Service Co., Ltd, China)

Research on Enterprise Financial Risk Early Warning System Model Based on BP Neural Network 599
Jiaxu Zhang (Beijing Rural Commercial Bank, China)

Development and Application of Agricultural Automation Control System Based on Internet of Things 604
Rong Zhou (Ordos Vocational College of Eco-Environment, China), Heping Jia (Ordos Vocational College of Eco-Environment, China), and Wenli Jiang (Ordos Vocational College of Eco-Environment, China)

Optimization and Application of Machining Process Based on Intelligent Control Algorithm 610
Binhai Zhu (Harbin Huade University, China) and Li Yu (Harbin Huade University, China)

Research on the Application of Target Detection and Recognition Technology Based on Deep Learning in Industrial Automation 615
Mengmeng Zu (China Tobacco Henan Industrial Co. Ltd, China), Jia Jia (Henan Haoce Information Technology Co., Ltd, China), Yuan Wang (Henan Haoce Information Technology Co., Ltd, China), and Weiwei Zeng (New Trend International Logis-Tech Co., Ltd, China)

Design and Implementation of Standardized Billing Models in Heterogeneous Computing Power Transactions 621
Lin Zhang (China Mobile Information Technology Co., Ltd., China), Huan Wang (China Mobile Information Technology Co., Ltd., China), Xiaoli Zhang (China Mobile Information Technology Co., Ltd., China), Xianyao Gu (China Mobile Information Technology Co., Ltd., China), Tian Tian (China Mobile Information Technology Co., Ltd., China), and Jiangtao Kang (China Mobile Information Technology Co., Ltd., China)

Real-Time Monitoring and Quality Evaluation of Medium and High Temperature Daqu Fermentation Process by Computer Vision Technology 625
Hui Lv (Bioengineering College of Chongqing University, China; Sichuan Vocational College of Chemical Industry, China), Lei Zheng (Luzhou Laojiao Co. Ltd, China), Yu Hu (Sichuan University of Science & Engineering, China), and Jing He (Sichuan Vocational College of Chemical Industry, China)

Risk Prediction Model of Human Resource Management Based on Data Mining 631
Qiuying Tang (Guangdong Songshan Vocational and Technical College, China), Kaibin Dong (Guangdong Ocean University, China), Jieyi Yang (Guangdong Ocean University, China), Chengyu Liu (Guangdong Ocean University, China), Xinyi Zuo (Guangdong Ocean University, China), and Zhenyan Liao (Guangdong Ocean University, China)

Algorithm Design and Application of Multi-Modal Large Model in Intelligent Sorting of Image Data 637
Jianbo Ma (Anhui Jiyuan Software Co., Ltd, China), Li Sun (Anhui Jiyuan Software Co., Ltd, China), Yipu Li (Anhui Jiyuan Software Co., Ltd, China), Guangkuo Ma (Anhui Jiyuan Software Co., Ltd, China), and Fei Xiong (Anhui Jiyuan Software Co., Ltd, China)

Research on Application of Digital Twin Technology in Optimal Control of Distributed New Energy System 642
Shu Wang (State Grid Information and Communication Industry Group Co., Ltd., China), Xingtao Wang (State Grid Information and Communication Industry Group Co., Ltd., China), Wenpu Li (State Grid Information and Communication Industry Group Co., Ltd., China), Xiaomeng Di (China Electric Power Research Institute Co., Ltd, China), and Xiaodong Du (State Grid Hebei Electric Power Co., Ltd., China)

Design and Implementation of Intelligent Computing Simulation Platform for Future Network Architecture 648
Chi Gao (AVIC Chengdu Aircraft Design & Research Institute, China), Bin Li (AVIC Chengdu Aircraft Design & Research Institute, China), and Zhen Dai (AVIC Chengdu Aircraft Design & Research Institute, China)

Research on Rural Landscape Feature Recognition and Classification Based on Machine Learning 655
Yuezi Liu (Shandong Business Institute, China), Shaohua Wang (Shandong Business Institute, China), and Youwen Kang (Shandong Business Institute, China)

Algorithm Design and Intelligent Analysis for Optimizing Reservoir Development Strategies 662
Houchun Miao (Daqing Oilfield NO.5 Production Plant, China)

Research on Abnormal Detection and Intelligent Diagnosis Algorithm of Reservoir Test Data 668
Delan Sun (The 7th Operation Area of the 5th Oil Production Plant of Daqing Oilfield Co., Ltd, China)

Research on Algorithm Design and Control Strategies for Complex Systems Based on Mathematical Models 673
Lihua Guo (Shandong Business Institute, China)

Smart Urban and Rural Planning Decision Support System Based on GIS and Geographic Information Big Data 678
Yao Chen (Wuhan Donghu University, China)

Pattern Recognition and Prevention Algorithm of Complex Network Attack Based on Genetic Optimization Neural Network 683
Li Di (State Grid Henan Electric Power Company, China), Lijing Yan (State Grid Henan Information & Telecommunication Company, China), Minghao Dong (State Grid Queshan Electric Power Supply Company, China), Ying Yang (State Grid Henan Information & Telecommunication Company, China), and Han Liu (State Grid Henan Information & Telecommunication Company, China)

Design and Development of an Intelligent Advertising Placement Decision System 688
Minjing Dong (Guangxi Normal University for Nationalities, China)

Artificial Intelligence Driven Optimization Management Algorithm for User Side Multi-Source Data in Digital Electric Rooms 694
Zhede Gu (Information Center of Guangxi Power Grid Co., Ltd, China), Jincan Li (Marketing Department of Guangxi Power Grid Co., Ltd, China), Wanting Zhu (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), Xiaqin Yang (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), Ying Dai (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), and Haipeng Bi (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China)

The Practice and Application of Edge Deployment Technology in Power Scene Action Recognition System 700
Mingguo Hou (Nari Group Corporation, China), Kai Tang (Nari Group Corporation, China), and Dongsheng Liu (Nari Group Corporation, China)

Research on Clothing Image Recognition and Classification Algorithm Based on Deep Learning.... 706
Guifen Li (Guangxi Normal University for Nationalities, China)

Small Radius Curve Negotiation Performance Analysis of Electromagnetic Suspension (EMS) High-Speed Maglev Train 711
Xiaoqing Li (Tongji University, China), Junqi Xu (Tongji University, China), Wen Wang (Tongji University, China), Junxiong Hu (Tongji University, China), Lijun Rong (Tongji University, China), and Zhao Xu (Tongji University, China)

Design and Optimization of Real-time Power Scene Action Recognition System Based on Edge Deployment 716
Zhiying Lin (Nari Group Corporation, China), Fenfang Li (Nari Group Corporation, China), and Weican Jin (Nari Group Corporation, China)

Consumer Behavior Analysis Model of Cross-Border E-commerce Based on Big Data 722
Huishan Lu (Guangdong University of Science and Technology, China) and JiaHui Liang (Guangdong University of Science and Technology, China)

Edge Deployment and Real-time Warning: Architecture Design and Optimization of Action Recognition Systems in Power Scenarios 727
Jian Shen (Nari Group Corporation, China), He Wang (Nari Group Corporation, China), and Liliang Ding (Nari Group Corporation, China)

Application of Artificial Intelligence Algorithms in Monitoring and Prediction of Four Rate Integration in Power Grid 733
Chao Xun (State Grid Fujian Electric Power Co., Ltd, China), Shida Lai (State Grid Fujian Electric Power Co., Ltd, China), and Dengfeng Xie (Fujian Yili Information Technology Co., Ltd, China)

Intelligent Accounting Cost Fusion Analysis and Prediction Model Based on Multi-Source Heterogeneous Data 739
Shuang Zhang (Dalian University of Finance and Economics, China)

Research on Deep Learning Algorithm Optimization for Data Classification and Grading in the Power Industry 745
Xixiang Zhang (Southern Power Grid Guangxi Power Grid Co., Ltd, China), Yun Dong (Southern Power Grid Guangxi Power Grid Co., Ltd, China), Yuan Yin (Southern Power Grid Guangxi Power Grid Co., Ltd, China), Zonghui Wei (Southern Power Grid Guangxi Power Grid Co., Ltd, China), Yiting Huang (Southern Power Grid Guangxi Power Grid Co., Ltd, China), Xuhua Ai (Southern Power Grid Guangxi Power Grid Co., Ltd, China), and Jie Wei (Guangxi Industrial Technology Research Institute Artificial Intelligence and Big Data Application Research Co., Ltd, China)

Real-time Application of Intrusion Detection Algorithm Based on Machine Learning in Security System 752
Xueqi Zhao (Wuhan University of Science and Technology, China)

Reinforcement Learning-Based Dynamic Scheduling Algorithm for User-Side Multi-Source Data in Digital Electrical Rooms 758
Wanting Zhu (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), Jincan Li (Department of Guangxi Power Grid Co., Ltd, China), Haipeng Bi (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), Pei Li (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), Dongdong Deng (Nanning Power Supply Bureau of Guangxi Power Grid Co., Ltd, China), and Zongtao Qin (Guilin Power Supply Bureau of Guangxi Power Grid Co., Ltd, China)

Development of Intelligent Analysis and Visualization Software Tools for Environmental Monitoring Data 763
Jingyue Bao (Wuhan Technology and Business University, China) and Jiajie Li (ZheJiang University of Technology Engineering Design Group Co. Ltd, China)

Application of Intelligent Detection and Maintenance Algorithms in Road Engineering 769
Sheng Bi (Fushun Vocational Technology Institute, China)

Intelligent Algorithms and Real-Time Monitoring Systems in Social and Psychological Crisis Intervention 775
Di Cao (Jilin Open University, China), Hao Xue (Jilin Open University, China), Qiao Zhou (Jilin Open University, China), and Lei Yu (Jilin Open University, China)

Feature Extraction and Reconnaissance Algorithm of Radar Signal Based on Support Vector Machine Learning 781
Xiangping Guo (Southwest Institute of Electric Equipment, China) and Yi Mu (Southwest Institute of Electric Equipment, China)

Virtual Reality Technology and Algorithm Application in Intelligent Combat Training Simulation System 787
Jing Kang (Officers College of PAP, China), Zhihua Chen (Officers College of PAP, China), and Weijun Kang (Officers College of PAP, China)

Research on the Range and Location of Faults in Distribution Networks 792
Tao Lin (State Grid Pingxiang City Anyuan District Electric Power Supply Branch, China), Li He (State Grid Pingxiang City Anyuan District Electric Power Supply Branch, China), Chengpeng Feng (State Grid Pingxiang City Anyuan District Electric Power Supply Branch, China), Qi Hu (State Grid Pingxiang City Anyuan District Electric Power Supply Branch, China), and Liang Wen (State Grid Pingxiang City Anyuan District Electric Power Supply Branch, China)

Fault Early Warning and Judgment System of Low-Voltage Substation Based on Deep Learning and Knowledge Map 797
Zhe Liu (Guangzhou Power Supply Bureau Co. Ltd., China), Haisheng Hong (Guangzhou Power Supply Bureau Co. Ltd., China), Yan Deng (Guangzhou Power Supply Bureau Co. Ltd., China), Qianying Li (Guangzhou Power Supply Bureau Co. Ltd., China), Mingyuan Shang (Guangzhou Power Supply Bureau Co. Ltd., China), and Xian Tang (Guangzhou Power Supply Bureau Co. Ltd., China)

Traffic Analysis and Optimal Control Technology in Computer Network 803
Junping Luo (Wuchang University of Technology, China)

Dimension Reduction Algorithm of Power and Government-Enterprise Data Fusion Based on Principal Component Analysis 809
Xingjia Yuan (Guangdong power Grid Co., Ltd., CSG., China), Shirong Zou (Guangdong power Grid Co., Ltd., CSG., China), Xueqing Liang (Guangdong power Grid Co., Ltd., CSG., China), and Chao Liu (Guangdong power Grid Co., Ltd., CSG., China)

Research on Application and Algorithm Optimization of UAV in Agricultural Monitoring 814
Bin Zhang (Xinjiang University, China)

Research on Application of Data Mining and Analysis in Aviation Technology Management 819
Yihui Zhang (Chengdu Aircraft Industrial (Group) Coporation Ltd., China)

Application of Cloud Computing in Power Grid Dispatch System 824
Zhengnan Cai (Wuhan University, China)

Edge Detection and Feature Extraction Techniques in Image Processing of Dangerous Rock Bodies 830
Duomin Di (Sichuan Liangshan Shuiluohe Electric Power Development Co., Ltd, China), Chao Hua (Sichuan Liangshan Shuiluohe Electric Power Development Co., Ltd, China), and Ke Kang (Sichuan Liangshan Shuiluohe Electric Power Development Co., Ltd, China)

Intelligent Radio Spectrum Management and Dynamic Spectrum Allocation Algorithm 836
Xuechao Fan (Suzhou College of Information Technology, China)

Dynamic Balance Detection Method of High-Speed Cutting Tool Based on Computer Vision 842
Zhaozhang Ouyang (Jiangmen Polytechnic, China)

Intelligent Decision-Making Algorithm in the Steering Guidance System of Railway Locomotive Crew Based on Domain-Specific Language 847
Zongying Song (China Shenhua Energy Company Limited, China), Wenbin Wang (China Shenhua Energy Company Limited, China), Xingzhong Wang (China Shenhua Energy Company Limited, China), and Shuzhong Wang (Department of Guoneng Xinshuo Railway Co., Ltd., China)

Adaptive Adjustment Strategy of Train Attendant's Control Guidance System Based on Machine Learning 853
Shuzhong Wang (Department of Guoneng Xinshuo Railway Co., Ltd., China), Junxiang Li (Department of Guoneng Xinshuo Railway Co., Ltd., China), Zhong Wang (Department of Guoneng Xinshuo Railway Co., Ltd., China), Liang Yin (Department of Guoneng Xinshuo Railway Co., Ltd., China), and Zongying Song (China Shenhua Energy Company Limited, China)

Simulation of Camera Visual Range Based on Three-Dimensional Model 859
Yating Wang (State Grid Jiangxi Electric Power Co., Ltd., Economic and Technological Research Institute, China), Hui Yuan Chen (State Grid Jiangxi Electric Power Co., Ltd., Economic and Technological Research Institute, China), and Min Sheng (State Grid Jiangxi Electric Power Co., Ltd., Economic and Technological Research Institute, China)

Research on Student Behavior Pattern Recognition and Personalized Management Based on Intelligent Algorithm 865
Yilei Wang (Chongqing University of Arts and Sciences, China) and Xiaofeng Liu (Chongqing University of Arts and Sciences, China)

Data Processing Technology of UAV Tilt Photogrammetry Based on Multi-source Geographic Information 870
Fan Yang (Jilin Communications Polytechnic, China) and Cong Jing (Jilin Polytechnic of Water Resources and Electric Engineering, China)

Design of Intelligent Image Recognition Algorithms Based on Optical Sensors and Generative Adversarial Networks 875
Cong Ye (Suzhou College of Information Technology, China)

Optimization of Artificial Intelligence Network Resource Allocation by Reinforcement Learning Algorithm 880
Yuan Zhuang (Amity Global Institute, Singapore)

High Reliability Implementation of 5G Slicing Technology in Unmanned Aerial Vehicle Communication System 886
Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Bo Jin (State Grid Hubei Information & Telecommunication Company Limited, China), Ting Zhao (State Grid Hubei Information & Telecommunication Company Limited, China), Jinhua Zhang (State Grid Hubei Information & Telecommunication Company Limited, China), Zheng Zeng (State Grid Hubei Information & Telecommunication Company Limited, China), and Lujie Sui (State Grid Hubei Information & Telecommunication Company Limited, China)

Application of High Reliability 5G Slice in Smart Grid 892
Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Fan Xia (State Grid Hubei Information & Telecommunication Company Limited, China), Xiaoyan Wei (State Grid Hubei Information & Telecommunication Company Limited, China), Qingyao Zhao (State Grid Hubei Information & Telecommunication Company Limited, China), Ziwei Mei (State Grid Hubei Information & Telecommunication Company Limited, China), and Ying Li (State Grid Hubei Information & Telecommunication Company Limited, China)

Design of Real-time Industrial Communication System Based on TSN 897
Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Zheng Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Jie Xu (State Grid Hubei Information & Telecommunication Company Limited, China), Xuejing Qiu (State Grid Hubei Information & Telecommunication Company Limited, China), Ting Zhao (State Grid Hubei Information & Telecommunication Company Limited, China), and Zheng Zeng (State Grid Hubei Information & Telecommunication Company Limited, China)

Analysis of Time Synchronization Technology of 5G Slice Based on TSN 902
Bo Jin (State Grid Hubei Information & Telecommunication Company Limited, China), Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Junfeng Dai (State Grid Hubei Information & Telecommunication Company Limited, China), Haohua Meng (State Grid Hubei Information & Telecommunication Company Limited, China), Lei Zheng (State Grid Hubei Information & Telecommunication Company Limited, China), and Fei Long (State Grid Hubei Information & Telecommunication Company Limited, China)

Design of Industrial Automation Network Based on TSN and 5G Slice 909
Bo Jin (State Grid Hubei Information & Telecommunication Company Limited, China), Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Zheng Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Zheng Yu (State Grid Hubei Information & Telecommunication Company Limited, China), Peng Zhan (State Grid Hubei Information & Telecommunication Company Limited, China), and Dai Hou (State Grid Hubei Information & Telecommunication Company Limited, China)

Real-time Data Processing Strategy Based on Edge Computing in 5G Network 915
Zheng Zhou (State Grid Hubei Information & Telecommunication Company Limited, China), Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Bo Jin (State Grid Hubei Information & Telecommunication Company Limited, China), Hongwei Wang (State Grid Hubei Information & Telecommunication Company Limited, China), Jinhua Zhang (State Grid Hubei Information & Telecommunication Company Limited, China), and Jingru Li (State Grid Hubei Information & Telecommunication Company Limited, China)

Optimization and Evaluation of Highly Reliable Data Transmission Strategies in 5G Networks..... 920
Junfeng Dai (State Grid Hubei Information & Telecommunication Company Limited, China), Jialin Chen (State Grid Hubei Information & Telecommunication Company Limited, China), Zhiyong Zha (State Grid Hubei Information & Telecommunication Company Limited, China), Lei Zheng (State Grid Hubei Information & Telecommunication Company Limited, China), Wei Zhan (State Grid Hubei Information & Telecommunication Company Limited, China), and Mingzhen Zhou (State Grid Hubei Information & Telecommunication Company Limited, China)

Deep Learning-Based Modeling of Demand Response with Bilateral Uncertainty of Source and Load 925
Yue Guo (State Grid Hubei Information & Telecommunication Company, China), Xiang Li (State Grid Hubei Information & Telecommunication Company, China), Qiang Rao (State Grid Hubei Electric Power Co. Ltd., China), Jie Huang (State Grid Hubei Electric Power Co. Ltd., China), and Jing Jin (State Grid Hubei Electric Power Co. Ltd., China)

Research on Bi-directional Cooperative Optimal Scheduling of Novel Power System Source and Load Based on Particle Swarm Optimization Algorithm 931
Lei Li (State Grid Hubei Information & Telecommunication Company, China), Hao Ning (State Grid Hubei Information & Telecommunication Company, China), Xiangli Peng (State Grid Hubei Electric Power Co. Ltd., China), Wen Liu (State Grid Hubei Electric Power Co. Ltd., China), and Shan Yang (State Grid Hubei Electric Power Co. Ltd., China)

Power Load Forecasting and Accurate Early Warning Model Simulation of Power Theft Based on Data Mining Algorithm 937
Xiang Li (State Grid Hubei Information & Telecommunication Company, China), Yue Guo (State Grid Hubei Information & Telecommunication Company, China), Qiang Rao (State Grid Hubei Electric Power Co. Ltd., China), Jie Huang (State Grid Hubei Electric Power Co. Ltd., China), and Jing Jin (State Grid Hubei Electric Power Co. Ltd., China)

Intelligent Financial Decision Support System Based on RPA Financial Robot and Artificial Intelligence 943
Weiyun Tang (Shanghai Urban Construction Vocational College, China), Hongtao Cao (Shanghai Urban Construction Vocational College, China), Shengfan Ye (Shanghai Wu Yuan Rord Kindergarten, China), Lu Yang (Shanghai Communications Polytechnic, China), and Fei Chen (Shanghai Urban Construction Vocational College, China)

Simulation of a Novel Wide-area Source-load Interaction Scheduling Model for Power Systems Based on Improved Genetic Algorithm 949
Shengwei Wang (State Grid Hubei Information & Telecommunication Company, China), Yujie Zhang (State Grid Hubei Information & Telecommunication Company, China), Xiangli Peng (State Grid Hubei Electric Power Co. Ltd., China), Wen Liu (State Grid Hubei Electric Power Co. Ltd., China), and Shan Yang (State Grid Hubei Electric Power Co. Ltd., China)

Software Defect Prediction Model Based on Deep Learning 954
Yajie Zhang (Harbin Far East Institute of Technology, China)

Application of Computer Vision-Based Optoelectronic Target Tracking Algorithm in Command and Control System 960
Bo Feng (China Academy of Electronics and Information Technology, China) and Yanyan Jia (North China University of Technology, China)

Integrated Application of BIM Technology and Data Mining Algorithms in Substation Engineering 965
Xin Ju (State Grid Ningxia Electric Power Co. Ltd Eco-Tech Research Institute, China), Ye Wan (State Grid Ningxia Electric Power Co. Ltd Eco-Tech Research Institute, China), Shangke Liu (State Grid Ningxia Electric Power Co. Ltd Eco-Tech Research Institute, China), and Zheng Wang (State Grid Ningxia Electric Power Co. Ltd Eco-Tech Research Institute, China)

Algorithm Development for Prediction and Control of Pollutant Emissions in Chemical Production 970
Shanshan Li (Guizhou Industry Polytechnic College, China), Jianchun Hu (Guizhou Industry Polytechnic College, China), and Hui Tian (Guizhou Industry Polytechnic College, China)

Research on Artificial Intelligence-Based Energy Management and Optimization Algorithms in Energy-Saving Buildings 975
Huaizhu Wang (Shandong Polytechnic College, China)

Reinforcement Learning-Based Autonomous Driving Path Planning for Smart Connected Vehicles 981
Haixing Du (Tianjin University of Technology and Education, China) and Juan Chen (Tianjin Vocational Institute, China)

Intelligent Algorithm Evaluation and Optimization of the Impact of Exercise Training on Cognitive Function 986
Yuchen Liu (Beijing Sport University, China) and Hongtao Ma (Beijing Sport University, China)

Design of Intelligent Transportation Multi-Target Recognition and Tracking Algorithm Combining YOLOv8 992
Bowen Yang (Harbin Engineering University, China) and Chenhui Liu (Harbin Engineering University, China)

Research and Application of Image Recognition and Automatic Translation Technology in English Translation Software 998
Zurui Zhang (Qinhuangdao Open University, China)

Design and Simulation of Health Monitoring Software for Smart Pension System Based on Collaborative Recommendation Algorithm 1003
Xi Xiao (Shandong Institute of Commerce and Technology, China)

Dynamic Response Characteristics and Control Strategies of Mechanical Systems 1008
Guiping Xie (Erdos Vocational College of Eco-Environment, China), Jian Fan (Erdos Vocational College of Eco-Environment, China), Heping Jia (Erdos Vocational College of Eco-Environment, China), and Guili Xie (Erdos Vocational College of Eco-Environment, China)

Quantitative Analysis and Optimal Control Model of Information Flow for Energy Internet 1014
Dangdang Dai (State Grid Hubei Electric Power Company, China), Guowei Zhu (State Grid Hubei Electric Power Company, China), Qiang Rao (State Grid Hubei Electric Power Company, China), Jin Li (State Grid Hubei Electric Power Company, China), and Lei Li (State Grid Hubei Electric Power Company, China)

Heterogeneous Mapping Mechanism of Energy Internet Information Model Based on Big Data ... 1020
Lei Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Yujie Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)

Research on Clustering and Pattern Mining Technology for Power Business Mapping Analysis of Power Grid 1026
Rongtao Liao (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Qiang Rao (State Grid Hubei Electric Power Company, China), Lei Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Shengwei Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)

Design and Performance Analysis of Communication Signal Processing Algorithm Based on Cognitive Radio 1031
Shiyuan Han (Xi'an University of Technology, China), Feilong Qin (Chengdu Technological University, China), and Hongjin Zhu (Chengdu Technological University, China)

Research on the 3D Reconstruction Method of Structural Landforms by Combining Airborne LiDAR and Photogrammetry 1037
Bin Yang (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China), Hongtai Xu (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China), Yuhua Liu (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China), Hongbin Wu (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China), Jundong Fu (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China), Lei Wang (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China), and Sili Su (Shandong Earthquake Agency, China; Shandong Provincial Institute of Land Surveying and Mapping, China)

Durability Simulation and Life Prediction Algorithm for Anti-Corrosion Coatings 1044
Senbuer Bao (State Grid Inner Mongolia Eastern Power Co., LTD, China), Wenjiang Shi (State Grid Inner Mongolia Eastern Power Co., LTD, China), Peng Wang (State Grid Inner Mongolia Eastern Power Co., LTD, China), Yanwei Wang (State Grid Inner Mongolia Eastern Power Co., LTD, China), and Shuwei Zhang (State Grid Inner Mongolia Eastern Power Co., LTD, China)

Agricultural Automated Greenhouse Environmental Monitoring and Control Model Based on the Internet of Things and Intelligent Algorithms 1050
Guoxin Han (City College of Huizhou, China), Huan Dong (City College of Huizhou, China), Jing Wu (City College of Huizhou, China), Suyan Che (City College of Huizhou, China), and Suijie Zhong (City College of Huizhou, China)

Advanced Feature Extraction Algorithms for Deep Learning in Image Recognition 1055
Xiao Tan (Beijing Normal University, China)

Deep Learning Application and Optimization in Autonomous Driving Environment Sensing 1061
Yiming Huang (Harbin Huade University, China), Yuding Liu (Harbin Huade University, China), Xiaoying Xia (Harbin Huade University, China), Xinyu Wang (Harbin Huade University, China), and Shu Liu (Harbin Huade University, China)

Algorithm of Robot Visual Perception and Environment Interaction Based on Deep Learning 1066
Boyang Zhang (Nanjing University of Aeronautics and Astronautics, China)

Research on Application and Optimization of Intelligent Algorithms in Digital Reservoir Management 1071
Long Xu (Daqing Oilfield Co., Ltd., China)

Research on Optimization of Water Conservancy Project Construction Schedule Control Based on Multi-Objective Genetic Algorithm 1076
Jiayi Huang (Xiamen Institute of Technology, China)

Implementation and Performance Analysis of Communication Encryption API in Distributed Database Systems 1082
Yaowen Wei (University of Jinan, China)

Application of Artificial Intelligence Computer 3D Image Reconstruction Technology in Ceramic Restoration System 1087
Chao Xu (National Institute of Development Administration, Thailand) and Xiumei Wu (Jingdezhen Ceramic University, China)

Research on Optimal Size Routing Operation Scheme based on Multi-Objective Programming Model 1092
Yuzhou Li (Southwest Jiaotong University, China)

Design and Simulation Optimization of a New Impedance Composite Muffler 1098
Lisong Tang (State Grid Hunan Electric Power Co., Ltd., Economic and Technological Research Institute, China), Dongdong Huang (State Grid Hunan Electric Power Co., Ltd., Economic and Technological Research Institute, China), and Wei Chen (Hunan University of Science and Technology, China)

Research on the Change of New Energy Vehicle Indicators based on ARIMA Algorithm and Machine Learning 1102
Dongting Xie (Yunnan University, China)

Research on the Assets Calculation Method of New Energy Vehicle Brand based on a Hybrid Model of Projection Tracking + Computer Simulation 1109
Fan Zhang (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China), Huiying Hu (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China), and Yishu Zhao (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China)

Research on Factors Related to the Development of New Energy Vehicles Based on ARIMA Time Series Forecasting 1115
Hongyi Jiang (Shanghai Lixin University of Accounting and Finance, China), Yang Chen (Donghua University, China), Yuyang Liu (Shanghai Lixin University of Accounting and Finance, China), and Zuobin Li (Shanghai Lixin University of Accounting and Finance, China)

Intelligent Decision System of Financial Robot Based on Computer Artificial Intelligence and Automatic Control 1120
Yuheng Zhou (Yunnan University of Finance and Economics, China)

Research on Agricultural and Animal Husbandry Ecological Evolution in North China Based on Computer Machine Learning and GIS Spatial Analysis 1125
Chengyu Wang (Xi'an Shiyou University, China), Runqiao Zhang (Peking University Shenzhen Graduate School, China), and Zhongguan Wen (Yangtze University, China)

Application of AI in Capturing and Rendering Animated Character Movements 1133
Jingxin Wang (Chengdu Neusoft University, China)

Design of Dynamic Interactive Simulation System for Ship Damage Management and Command Training 1138
Gang Zhao (China State Shipbuilding Corporation Limited Systems Engineering Research Institute, China), Ming Li (China State Shipbuilding Corporation Limited Systems Engineering Research Institute, China), and Jiawang Wang (China State Shipbuilding Corporation Limited Systems Engineering Research Institute, China)

Motion Analysis of the Combined Linkage Mechanismauxiliary Assembly System for the Space Station 1143
Peng Zheng (Beijing Institute of Spacecraft Environment Engineering, China), Wang Pengfei (Beijing Institute of Spacecraft Environment Engineering, China), and Chengli Zhang (Beijing Institute of Spacecraft Environment Engineering, China)

Application of Deep Learning Based Inventory Optimization and Intelligent Demand Prediction in E-commerce 1150
Lan Wang (Shanghai University, China)

Research on Insurance Decision-Making Model for Extreme Weather Based on ARIMA Algorithms 1154
Wei Huang (Henan University, China), Shitao Zheng (Xi'an University of Posts and Telecommunications, China), and Zhaoxinzi Du (Xi'an University of Posts and Telecommunications, China)

Underwriting Decision Analysis Based on Autoregressive Moving Average Models and Random Forest Algorithms 1158
Bokun Zhao (Northwestern Polytechnical University, China)

Application and Research on Fusion Model and XGBoost Based on Linear Regression and Gray Prediction 1162
Fangtong Liu (Chengdu University of Information Technology, China) and Lihong Zhou (Chengdu University of Information Technology, China)

Application Analysis of Clustering Improvement Algorithm in Cost Evaluation of Power Engineering 1167
Xiaobin Gao (Guangdong Grid Co., China), Dakui Ma (Guangdong Grid Co., China), and Min Wu (Guangdong Grid Co., China)

Cost Analysis of Power Engineering Based on Improved Random Forest Algorithm 1172
Qijie Lai (Guangdong Grid Co., China), Zhifei Yang (Guangdong Grid Co., China), and Yuliang Jiang (Guangdong Grid Co., China)

Construction of Computer Mathematical Model Based on Improved Genetic Algorithm 1178
Minfeng Yu (Chengdu Neusoft University, China)

Analysis of Emotional Tendencies In American Literature Quotes Based on Python 1182
Ruomei Zhang (Sichuan University, China)

Analysis of Similar Words in English Movie Lines Based on Machine Learning 1188
Ying Zhang (Sichuan University, China)

Predictive Analysis of CPI Based on Machine Learning Algorithms 1193
Xiawei Wang (Sichuan University, China)

Analysis of English Sentence Dependency Syntax Based on Python 1199
Yang Wang (Sichuan University, China)

Classification and Prediction of English News Text Based on Machine Learning 1205
Lantian Zheng (Sichuan University, China)

Prediction of Emotional Tendency In English Movie Reviews Based on Python 1211
Xiangyu Wang (Sichuan University, China)

Research on English Text Keyword Generation Based on Machine Learning 1217
Su Wang (Sichuan University, China)

Annual Academic Achievement Level Prediction Based on Machine Learning 1222
Li Li (Sichuan University, China)

A New Optimization Method for Power Resource Allocation Based on Data Analysis 1229
Shuai Li (State Grid Henan Information & Telecommunication Company, China), Kezhen Liu (Zhengzhou University, China), Fangfang Dang (State Grid Henan Information & Telecommunication Company, China), Dingding Li (State Grid Henan Information & Telecommunication Company, China), and Ruimin Wang (Zhengzhou University, China)

Competitive Model Analysis Based on Volterra Prey-Predator Model and Multisubjective Model. 1233
Yilin Zhu (Southwest University, China), Lulu Ao (Southwest University, China), and Xingyu Xia (Southwest University, China)

Athletic Prediction and Momentum Study Based on LightGBM Algorithm 1239
Hongyi Gan (China University of Geosciences, China)

ECG Signal Classification Algorithm Based on Improved VGG Network 1245
Xiaozhen Li (Nanyang Institute of Technology, China), Zhongchao Liu (Nanyang Institute of Technology, China), Tiansong Zhai (Nanyang Institute of Technology, China), and Xu Yang (Nanyang Institute of Technology, China)

Research on Submarine Localization Based on K-means Clustering Algorithm 1249
Haoling Xie (Fuzhou University, China), Yuyang Hua (Fuzhou University, China), and Weixiang Qiu (Fuzhou University, China)

Neural Network Prediction and Sensitivity Analysis of Concrete Compressive Strength: Sensitivity and Feature Importance Analysis 1254
Jingchen Liu (China University of Geosciences, China)

Development of a Performance Evaluation Model for Tennis Players Using Event-Based Scoring and Non-Linear Regression with Differential Evolution Algorithm 1260
Junjie Sun (Nanjing Institute of Technology, China), Zhenxiao Chu (Wuhan University of Technology, China), and Jiaqi Li (China Agricultural University, China)
