## TABLE OF CONTENTS

|                                                                                                                                                                         |    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Impact of Transformational Leadership on the Application of Total Quality Management .....                                                                              | 1  |
| <i>Ahmed Jasim Al Kohji, Horiya Mohamed Al Deeb, Maryam A. Aziz Al Thawadi, Abdallah Shatat</i>                                                                         |    |
| Talent Management as an Intermediary Variable Between Succession Planning and Institutional Excellence .....                                                            | 5  |
| <i>Jawaher Jamal Alajlan, Khairi Mohamed Omar, Horiya Aldeeb, Adel Alzyoud</i>                                                                                          |    |
| The Role of Job Autonomy in Enhancing Decision-Making Strategies in Engineering Projects.....                                                                           | 11 |
| <i>Islam Nasar, Ahmed Arbab, Abdallah Shatat</i>                                                                                                                        |    |
| Leveraging Conflict Management Strategies in Petrochemical Engineering Companies to Foster Managerial Creativity.....                                                   | 14 |
| <i>Ahmed Kh. Muttar, Adel Mahmoud Al Samman, Latifa Ateeq Yaqoob Mejali, Saeed Hameed Aldulaimi</i>                                                                     |    |
| Management Decision of Using Building Information Modeling in Recent Residential Construction Projects in Bahrain .....                                                 | 20 |
| <i>Hend Elzezfazy, Ali Sedki, Hamdy Mohamed, Wafeek Mohamed Ibrahim</i>                                                                                                 |    |
| Object Tracking in Surveillance System Using Particle Filter and ACF Detection.....                                                                                     | 25 |
| <i>Hanandiya Putra, Hilal H. Nuha, Muhamad Irsan, Aji Gautama Putrada, Syifak Binti Izhar Hisham</i>                                                                    |    |
| Object Tracking in Surveillance System Using Extended Kalman Filter and ACF Detection .....                                                                             | 32 |
| <i>Maria Christine, Hilal H. Nuha, Muhamad Irsan, Aji Gautama Putrada, Syifak Binti Izhar Hisham</i>                                                                    |    |
| Energy Analysis Use in Facility Management.....                                                                                                                         | 38 |
| <i>Wael Abdelhameed, Mohamed Alkoheji</i>                                                                                                                               |    |
| The Role of IoT in Optimizing Urban Infrastructure in Smart Cities.....                                                                                                 | 42 |
| <i>Abdallah Shatat, Ahmad Shatat, Mohammad Mobin Akhtar, Mohammad Al Dweiri</i>                                                                                         |    |
| Window-To-Wall Ratio Optimization to Save Energy in Housing Projects in Bahrain .....                                                                                   | 46 |
| <i>Safa Awawdeh, Mohammed Alkhaja, Wael Abdelhameed</i>                                                                                                                 |    |
| Enhancing Scalability in Reinforcement Learning for Open Spaces.....                                                                                                    | 50 |
| <i>Jamshaid Iqbal Janjua, Shagufta Kousar, Areeba Khan, Anaum Ihsan, Tahir Abbas, Ali Q Saeed</i>                                                                       |    |
| Artificial Intelligence Impact on Administrative Decision-Making at Zain Bahrain Telecommunication Company .....                                                        | 58 |
| <i>Aysha Abdulla Ghayath, Hamad Al-Kaabi, Horiya Al Deebr, Marwan M. Abdeldayem</i>                                                                                     |    |
| Management Decisions Based on Comparative Numerical Analysis of Latent Thermal Energy Storage Using Multi-Stage and Single-Stage Phase Change Materials .....           | 62 |
| <i>Ahmad W. Omari, Hamdy M. Mohamed, Hend Elzezfazy, Basil Ibrahim</i>                                                                                                  |    |
| Management Decision Strategies in Commercial Spaceflight Tourism: Exploring Stakeholder Attitudes and Environmental Implications of Suborbital and Orbital Travel ..... | 67 |
| <i>Abdulhameed Baqi, Marwan M. Abdeldayem, Saeed Hameed Aldulaimi</i>                                                                                                   |    |

|                                                                                                                                             |     |
|---------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Corporate Governance and Non-Financial Risk Disclosure: Insights from Companies Listed on the Bahrain Bourse .....                          | 72  |
| <i>Mohammed H M Qeshta, Yazan Oroud, Noora Ali Mohammed Alhajri</i>                                                                         |     |
| Crisis Management and Its Impact on the Quality of Administrative Decisions Case Study of Greater Amman Municipality/Jordan .....           | 78  |
| <i>Ibrahim Hatamleh, Adel Mahmoud Al Samman</i>                                                                                             |     |
| Applying Machine Learning to Detect Fraud of Financial Statements: A Systematic Literature Review.....                                      | 84  |
| <i>Mohamed Abbas, Dawla Almulla, Abdulla Yaseen Alghasra, Minwir Al-Shammari</i>                                                            |     |
| The Impact of Burnout and Stress on Employee Productivity at Batelco in the Kingdom of Bahrain.....                                         | 91  |
| <i>Ali Ateeq, Ranya A. Ateeq, Mohammed Abdulrazzaq Alaghbari, Abd Al-Aziz Al-Refaei, Marwan Milhem</i>                                      |     |
| Enhancing Financial Decision-Making at ALBA Company: Leveraging Financial Statement Analysis for Improved Investment Returns.....           | 99  |
| <i>Talal Al-Alkawi, Fajer Shams, Atheer Al-Rashed</i>                                                                                       |     |
| AI-Based Voice Agent for Automated Sales Calls.....                                                                                         | 104 |
| <i>Ahmed Amarak, Mohamed Igamane, Tajjeeddine Rachidi, Yousra Chtouki</i>                                                                   |     |
| Leveraging Human Expertise and AI for Engineering Regulatory Data Expansion: A Case Study with ChatGPT.....                                 | 108 |
| <i>Entesar Al Nama, Maqsood Mahmud, Huda Al Madhoob</i>                                                                                     |     |
| Visual Analytics in Decision Aid Systems: A Case Study with Tableau.....                                                                    | 114 |
| <i>Abdallah Shatat, Ahmad Shatat, Mohammad Mobin Akhtar, Yazeed Theeb Mohammad</i>                                                          |     |
| Mqtt Routing Optimizing Based Intrusion Detection for Internet of Things Using Hybrid Machine Learning .....                                | 119 |
| <i>Haider K. Hoomod, Mohammad Alaa Al-Hamami, Aqeel Kamil Kadhim, Qutaiba Humadi Mohammed, Jolan Rokan Niaf</i>                             |     |
| Artificial Intelligence Tools for Generating Design Alternatives for Interior Spaces-Literature Review.....                                 | 123 |
| <i>Nader Badawy Ahmed Sonpol, Zeinab Lotfy Abd El-Hakeem Khalifa</i>                                                                        |     |
| Machine Learning Techniques in Predicting Firms' Performance: A Bibliometric Analysis.....                                                  | 128 |
| <i>Jawaher Khaled Alanzi, Prof. Minwir Al-Shammari</i>                                                                                      |     |
| Using Machine Learning for Predicting Business Failure: A Systematic Literature Review .....                                                | 134 |
| <i>Ahmed Abdulaziz Khudhur, Minwir Al-Shammari</i>                                                                                          |     |
| Decision-Making Dynamics: Analyzing the Economic Influence of Sports Tourism on Bahrain's Growing Industry .....                            | 141 |
| <i>Saeed Hameed Aldulaimi, Marwan Abdeldayem, Mohammed Yousif Abo Keir, Radwan Alyan Kharabsheh, Ahmed Kh. Muttar, Abdulsattar Alazzawi</i> |     |
| Financial Reporting and Decision-Making in Engineering Sector: A Bibliometric Review of Scopus Database .....                               | 148 |
| <i>Maged M. Albaz, Tarek M. Hashad, Mahmoud Khalifa</i>                                                                                     |     |
| Impact of Leadership Behavior on Psychological Capital (Evidence from Kingdom of Saudi Arabia).....                                         | 153 |
| <i>Badi Bin Saad Al Dosari, Khairi Mohamed Omar</i>                                                                                         |     |

|                                                                                                                                                         |     |
