**Table of Contents**

| S. No | Paper Title/ Author Name                                                                                                                                                                                       | Page. No |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| 1     | A Comparative Analysis of Machine Learning Techniques for the Detection and Classification of Lung Cancer<br>Kajal Raghatate, Palash Gourshettiwar, Mansi Sharma, Naathi Naresh Babu                           | 1        |
| 2     | Design of a Dual band Star Shaped Electromagnetic Bandgap (EBG) for 5G Communication<br>J. Silva Deena, C. Mohan, Prasanna. R, Prasanth. M                                                                     | 7        |
| 3     | Multi-Controller Architecture Design and Features in Software - Defined Networking (SDN)<br>V. Prabhu, P. Balamurugan                                                                                          | 11       |
| 4     | EcoSmart AI: A Theoretical Framework for Energy-Aware Mobile Computing<br>Dhaval Gogri, Arth Jani, Shashank Kamath K M, Trupti Vinayak Parkar, Shalmali Patil, Yash Jani                                       | 19       |
| 5     | Energy Efficient LEDCA Analysis for Improved Throughput in Wireless Sensor Networks<br>Padmageetha B.G, Pramod Kumar Naik, Mallanagouda Patil                                                                  | 26       |
| 6     | AI based Decision Tree Classifier for Detecting Anomalies in IoT Wireless Sensor Networks<br>Parveen Akhther. A, Gopavaram Sreelekha, Prasanth. V. S                                                           | 34       |
| 7     | Attention-Based Robust Video Identification in Social Networks<br>Chenlep Yakha Konyak, Nagaraju Baydeti                                                                                                       | 39       |
| 8     | Congestion Control in Hybrid Wireless Networks using PSO and ACO Techniques<br>Sandeep Kumar Sunori, Shilpa Jain, Amit Mittal, Pradeep Juneja                                                                  | 46       |
| 9     | Intrusion Prevention System in SDN Environment for 6G Networks Using Deep Learning<br>Maheswaran N, Bose S, Gokulraj G, Anitha T, Shruthi T, Vijayaraj G                                                       | 53       |
| 10    | Empirical Examination of Mobile Ad Hoc Routing Protocol on Wireless Sensor Network<br>B. Nancharaiah, R. Krishnamoorthy, Neeraj Kumar, Abhijit Janardan Patankar, K. Ravikumar, Mohit Tiwari                   | 62       |
| 11    | Wireless Energy Harvesting (WEH) and Spectrum Sharing in Cognitive Radio Networks<br>Ruhisulthana Shaik, Suresh Kumar Mandala, Yuva Krishna Aluri, Vadapally Praveen Kumar, P Lakshmi Supriya, Neelima Gurrupu | 67       |
| 12    | V2V Communication Assisted Emergency Route Optimization<br>Grandhi Harshit, K H Akhil, Nisha Mishra, Posa Achyutha, Manitha P                                                                                  | 73       |

|    |                                                                                                                                                                                                                  |     |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
|    | V                                                                                                                                                                                                                |     |
| 13 | Energy-Efficient and Sustainable Cluster-based Routing in IoT based WSNs using Metaheuristic Optimization<br>M Archana, VNVLS Swathi, A Vani Vathsala, K Deepthi Reddy, Bandi Rambabu, Jakkala Ravichandar Reddy | 79  |
| 14 | Quantum-Driven Hybrid Network Architecture Leveraging 5G for High-Speed and Resilient Data Transmission<br>Kusuma Ashok Kumar, R. Mohandas, Sajja Suneel, M. R. Mahalakshmi, Avinash Kumar, Manmohan Singh       | 84  |
| 15 | Optimised Classification of Android Malware using ML Classifiers and Stacking Ensemble Algorithm<br>Preet Singh, Taniya Hasija, KR Ramkumar                                                                      | 92  |
| 16 | Integrating Fuzzy Approach in Text Mining and Summarization<br>S. Gayathri, Abinav Chandar R S, Rithicagash J, Guna A                                                                                            | 98  |
| 17 | Sign Language to Text Conversion using Random Forest<br>M JayaLakshmi, Allu Pranathi Chowdari, Andra Gowthami, Akki Deepthika                                                                                    | 103 |
| 18 | Phish Check: Content-based Phishing Website Detection Web App<br>Anil Kumar Ghadiyaram, G. Srikanth Reddy, Mohammed Abdul Basith, Naini Rithvik Reddy                                                            | 108 |
| 19 | Text Extraction from Image using OCR<br>Vijay Rajmod, Ganesh Derkar, Prashik Nagrale, Nilesh Awari, Pranali Lokhande                                                                                             | 113 |
| 20 | The Evolution of Cyber Threats and Defenses: A Review of Innovations and Challenges<br>Sairam Durgaraju, Deepan Vishal Thulasi Vel, Harikrishna Madathala                                                        | 117 |
| 21 | Design of a Smart Home Door Security System with Face Detection and Smart Bell using ESP32-CAM<br>Nurhusna Salsabila, Apri Siswanto, Luhur Bayuaji                                                               | 124 |
| 22 | Secure and Reversible Medical Image Watermarking for E-Healthcare Applications<br>Nandhini K, R. Rajkumar                                                                                                        | 130 |
| 23 | Enhancing Web Security: A Phishing Detection System Integrated with Password Managers<br>T. Subbulakshmi, G. Meghana, S. Ravi Sailendra Sunkara, V Shanmukha Sai                                                 | 140 |
| 24 | Secure Audio Steganography with Reversible Data Hiding and Encryption<br>P. S. Arthy, K. Sanjai Kumar, S. Vinson Joshua, G. Sahaana, R. Kalpana, D. David Neels Ponkumar, S. Siamala Devi, S. Jeya Lakshmi       | 146 |
| 25 | The Multi-Way Path Over the Blockchain: The Development of the Security Algorithm RB-24-1<br>Rajaprakash S, Bagath Basha C, Rathish Babu T K S, Karthik S, Subapriya V, Kavitha S                                | 151 |
| 26 | Cuckoo Search Algorithm based Intrusion Detection System of Cybersecurity<br>Shilpa Jain, Sandeep Kumar Sunori, Amit Mittal, Pradeep Juneja                                                                      | 157 |

|    |                                                                                                                                                                                                                     |     |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 27 | Identification of Medicinal Plants and Related Fungal Diseases based on Deep Learning Model<br>Mathina Kani M, Mahalakshmi R, Shunmugavel V, Abdul Kareem M                                                         | 162 |
| 28 | MathCrypt Secure Algorithm<br>Sobitha Ahila S, Amish Kedia, Manmeet Singh                                                                                                                                           | 168 |
| 29 | Exploring The Role of Interpretability in Adversarial Defense Mechanisms based Malware Classification<br>Assem Alhawari, Sahar Ebadinezhad                                                                          | 175 |
| 30 | A Blockchain-based Decentralized Framework for Trust Management and Secure Voting<br>R. Lalitha, Singam Veera Shankarreddy, Dharani V, K. Dhanalakshmi, Manju C Nair                                                | 182 |
| 31 | A Methodical Approach to Healthcare Cybersecurity: Handling Current Risks and Advancements<br>M. Husain Bathushaw, S. Nagasundaram                                                                                  | 188 |
| 32 | Energy-Efficient and Intelligent Lighting Solutions: A Prototype for Smart Cities<br>Mohamed Imran Mohamed Ariff, Batrisyia Qistina Razally, Azilawati Azizan, Samsiah Ahmad, Zalikha Zulkifli, Noreen Izza Arshad  | 195 |
| 33 | Adoption of Blockchain Technology in Digital Knowledge to Increase Transparency in Transactions using Library Resources<br>Inayatulloh                                                                              | 201 |
| 34 | Image Encryption for Ensuring Confidentiality and Security using AES Algorithm<br>M. Senthil Murugan, Udaya Kumar S, Sooraj Mano Ukram T G                                                                          | 206 |
| 35 | Fraud Detection in Credit Card Transactional Data using Hybrid Machine Learning Algorithm<br>Bhukya Dharma, D Latha                                                                                                 | 213 |
| 36 | Boosting Fault-Tolerant Scheduling with Smart Resource Management for Industrial Cyber-Physical Systems<br>K. V. S. Prasad, Ravi varman, KDV Prasad, D.Praveena, P. Chinniah, Sathyakala S                          | 219 |
| 37 | Comprehensive IoT-based Vehicle Security: License Verification and Biometric Authentication<br>Rahul J. Teradal, Sakshi J. Chougule, Sanika N. Chopade, Abhishek B. Chougule, Virupaxi Dalal, Samiksha S. Atiwadkar | 226 |
| 38 | Sustainable Industrial Symbiosis using IoT and Gradient Boosting for Efficient Waste Management<br>H. Azath, Chitra Sabapathy Ranganathan, G. Arunsankar, R. Reena Roy, M. Rajmohan, S. Murugan                     | 234 |
| 39 | Sustainable Agriculture: Integrating IoT and AI for Resource-Efficient Farming<br>Franciskus Antonius Alijoyo, Shamim Ahmad khan, Deepak Gupta, Mythili M, Rajeeb Lochan Moharana, R Saravanakumar                  | 240 |
| 40 | Integrated IoT based Smart Agriculture Monitoring System<br>R. Vijaya Saraswathi, L. Rahul, S. Lokeswar, R. Vathsav Varma, U. Ajay                                                                                  | 246 |

|    |                                                                                                                                                                                                                |     |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 41 | Federated Learning in Big Data with IoT for Intrusion Detection<br>Anitha Govindaram, J. S. Prasath, A. Suganya, K. Jayasakthi, N. Rajkumar, Jose Anand A.                                                     | 252 |
| 42 | Next-Gen Energy Management: IoT Gateway for Smart Monitoring and Appliance Control<br>Sohum Kabra, Prithvi Nadagouda, Yash Nikam, Manoj S. Kavedia                                                             | 259 |
| 43 | Conversational Chatbot with RASA for Educational Facilitation<br>Varun Kale, Khumarya Rana, Aayush Wade, Krish Patel, Ajay Sirsat                                                                              | 267 |
| 44 | Self-Organizing Micro Service Composition for IoT Ecosystem<br>Sharon Poornima, Ashok Immanuel                                                                                                                 | 273 |
| 45 | Revolutionizing Residential EV Charging Through IoT-Enabled Smart Energy Metering for Sustainability<br>N. Sivakumar, S. Charles Raja, M. Meenakshi Devi, Saraswathi Meena. R                                  | 280 |
| 46 | Analysis of Gesture based Control System in Infotainment of Hybrid Car using Internet of Things<br>Vinoth Kumar K, Reena Purohit, K Vidhya, Aravinda K, T A Aruni Purohith, Vinay V Badigar, Nikhita G Ghalagi | 286 |
| 47 | MARK-1: Autonomous Robot Assistant for Healthcare Support and Mobility<br>Vijay Mane, Aaditya Patil, Sujay Patil, Varad Patil                                                                                  | 293 |
| 48 | Customized IoT based Smart Irrigation for Terrace Plants<br>S. Padma priya, S. Pavalarajan, P S Abarna, C. Manjula devi, B. Abinaya, S. Sukaina                                                                | 301 |
| 49 | Enhancing IoT Security: Performance Evaluation of RSA and ECC in QR Code-based Authentication Systems with Cloud Integration<br>R. Yuvarani, R. Mahaveerakannan                                                | 308 |
| 50 | IoT based Leakage Detection and Emergency Shutdown<br>PS. Abarna, S. Padma Priya, S. Pavalarajan, S. Sivatharani, M. Manshi                                                                                    | 316 |
| 51 | Education and Teaching Research of IoT Embedded Subject under the National Vocational and Technical Skills Standards<br>Yanglu, Xingchen Wang, Amit Yadav, Abhishek Pratap shah                                | 324 |
| 52 | IoT Enhanced Dual Battery Pack Management System: Ensuring Safety and Continuous Power in Electric Vehicles<br>S. Sujith, S.Dharsan, N. Ramakrishnan, T. Rajavenkatesan                                        | 330 |
| 53 | Design and Development of IoT Smart Driving Protocol for Unmanned Ground Vehicles<br>Santhosh Kumar Seelam, S Nagakishore Bhavanam, Vasujadevi Midasala, Edara Sreenivasa Reddy                                | 336 |
| 54 | Chatbot for Mutual Fund Assistance<br>Shaik Mohammad Waseem, Akshai Krishna A, Divya Komati, Lathika D, Noufa Haneefa, Batini Dhanwanth                                                                        | 342 |
| 55 | Internet of Things: An Aggregated Proof based Secure Healthcare Monitoring System- Comparative Analysis<br>Aswathy R H, Suresh P, G. Jenifa                                                                    | 348 |
| 56 | Edge-Centric IoT Health Monitoring: Optimizing Real-Time Responsiveness, Data Privacy, and Energy Efficiency                                                                                                   | 354 |
