**Volume 13246**

Proceedings of SPIE 0277-786X, V. 13246

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Quantum and Nonlinear Optics XI*, edited by Qiongyi He, Dai-Sik Kim, Chunhua Dong, Proc. of SPIE 13246, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510682207

ISBN: 9781510682214 (electronic)

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Symposium Committees*

ix *Conference Committee*

---

## SESSION 2

13246 09 **Stability of single-cavity dual-wavelength-comb fiber laser with significant difference of pulse characteristics** [13246-7]

13246 0A **Dual-pump optical parametric amplification in bilayer silicon-rich nitride waveguides** [13246-8]

---

## SESSION 3

13246 0C **Frequency tuning of a squeezed vacuum state using interferometric enhanced Bragg diffraction effect** [13246-10]

13246 0D **Investigating multidimensional solitons in passive Kerr cavities through dimension reduction** [13246-11]

---

## SESSION 5

13246 0R **Soliton-like mode of (2D+1) spatiotemporal vortex pulse pairs in quadratic nonlinear crystal with transversal inhomogeneity** [13246-24]

13246 0S **Wavelength-switchable dual-wavelength pulse emission from a practical-filter-free all-fiber ring cavity** [13246-25]

---

## SESSION 6

13246 0T **Critical behavior of pulse parameters in heavily doped erbium fiber lasers** [13246-27]

---

## SESSION 8

13246 10 **Quantum control and quantum precision measurement of silicon carbide color centers** [13246-35]

13246 13 **Pure quartic spatiotemporal solitons in graded-index media** [13246-38]

## POSTER SESSION

---

- 13246 16 **Quantum internet and prospects of its creation in the near future** [13246-26]
- 13246 17 **Soliton propagation and frequency down-conversion in the medium with combined nonlinear response** [13246-41]
- 13246 19 **Parametric waves trapping in active periodic structures with quadratic nonlinearity under strong group velocity mismatch** [13246-43]
- 13246 1A **Kerr solitons generation in cylindrical microresonators** [13246-44]
- 13246 1B **Multirate and multiprotocol OFDM-based multicarrier continuous-variable quantum key distribution** [13246-45]
- 13246 1D **Observation of synchronous nanosecond and femtosecond pulse propagation in a low-repetition-rate Er-doped fiber laser** [13246-48]
- 13246 1E **Velocity demodulation of near-field time-stretched photon Doppler velocimetry system uses Gerchberg–Saxton algorithm** [13246-49]
- 13246 1F **Suppression of decoherence in multipulse pumped supercontinuum in normal dispersion fibers** [13246-50]
- 13246 1G **Suppression of light shifts in pulsed CPT atomic clock using combined error signal in Ramsey spectroscopy** [13246-51]
- 13246 1H **Role of cross-phase modulation with the pump wave for the narrow generation regime of a random fiber laser** [13246-52]
- 13246 1I **Interaction of electromagnetic waves with and thermal processes in the two-layer spherical nanostructures** [13246-53]
- 13246 1J **Propagation of electromagnetic waves, bistability, and multistability in optically nonlinear materials exposed to the laser radiation field** [13246-54]
- 13246 1K **Propagation of electromagnetic waves in planar waveguide with non-linear properties: a repulsive Casimir-Lifshitz force and optical bistability** [13246-55]
