

PROCEEDINGS OF SPIE

Sixth International Conference on Geoscience and Remote Sensing Mapping (GRSM 2024)

**Zhiliang Qin
Jun Chen
Huaichun Wu**
Editors

**25–27 October 2024
Qingdao, China**

Organized by
Harbin Engineering University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13506

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13506

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sixth International Conference on Geoscience and Remote Sensing Mapping (GRSM 2024)*, edited by Zhiliang Qin, Jun Chen, Huaichun Wu, Proc. of SPIE 13506, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xiii Conference Committee

Part One

REMOTE SENSING SIGNAL PROCESSING AND SYSTEM RESEARCH

- 13506 02 **Multi-floor indoor pedestrian pattern recognition based on improved LSTM network**
[13506-92]
- 13506 03 **Effect of mantle anelastic dispersion on ocean tide loading displacement modeling in French Polynesia region** [13506-123]
- 13506 04 **Wave height forecasting correction model based on transformer improved UNet**
[13506-135]
- 13506 05 **Robust carrier phase tracking in the GNSS space-time array processing anti-interference receiver** [13506-133]
- 13506 06 **Multipath error processing and application of CEEMDAN joint wavelet packet algorithm**
[13506-167]
- 13506 07 **Safe landing site selection based on estimated terrain hazards positional risk** [13506-105]
- 13506 08 **Research on key technologies for constructing LOD1.3 urban 3D models based on high-resolution satellite stereo imagery** [13506-26]
- 13506 09 **A fusion-perception-based zebra crossing warning system for pedestrian safety** [13506-164]
- 13506 0A **Research on error modeling and decoupling techniques based on INS + 5G** [13506-41]
- 13506 0B **Research on influence factors of orbit determination accuracy of satellites with ultra-low orbits** [13506-27]
- 13506 0C **Denoising study of InSAR interferograms based on bitonic filter and morphological filtering**
[13506-107]
- 13506 0D **Wind turbine detection based on high spatial resolution four-band reflectance images**
[13506-61]
- 13506 0E **Sea surface wind field retrieval under typhoon sea state using DenseNet** [13506-46]
- 13506 0F **SWOT: new radar altimeter for internal solitary waves detection** [13506-32]

- 13506 OG **Characterisation of ground penetrating radar anomalies of typical buried oil pipelines in the South China region** [13506-168]
- 13506 OH **Analysis of land use type in Dadukou District of Chongqing using remote sensing image inversion** [13506-44]
- 13506 OI **Satellite-based multisource trajectory fusion based on Ascend310 algorithm design and implementation** [13506-111]
- 13506 OJ **Inversion of land surface temperature in Beibei District of Chongqing using remote sensing images** [13506-56]
- 13506 OK **The application and effectiveness evaluation of tilt optimization in multibeam measurement systems for extremely shallow water bathymetric surveys** [13506-129]
- 13506 OL **Analysis of surface humidity retrieval outcomes in the Jiulongpo District of Chongqing utilizing remote sensing imagery** [13506-64]
- 13506 OM **Research on the inversion method of vegetation cover in Liupan Mountain area based on spatiotemporal fusion algorithm** [13506-42]
- 13506 ON **Design and realization of marine map service platform based on microservice** [13506-102]
- 13506 OO **Research on time-varying characteristics of ocean tide loading displacement amplitudes based on global navigation satellite system** [13506-95]
- 13506 OP **MFE-Net: a remote sensing image dehazing model for the visual system of a flight simulator** [13506-143]
- 13506 OQ **Study on the coupling relationship between carbon emission and urban thermal field** [13506-98]
- 13506 OR **Performance evaluation method for GNSS/INS integrated navigation system** [13506-72]
- 13506 OS **Research on high-precision time difference of arrival positioning method** [13506-69]
- 13506 OT **Study of multibeam line measurement problems based on geometric modeling** [13506-67]
- 13506 OU **Study on the influence mechanism of aerosol on extreme precipitation over China based on satellite remote sensing data** [13506-160]
- 13506 OV **Research on classification method of seafloor sediment based on multibeam single array echo** [13506-166]
- 13506 OW **A cloud rendering approach based on multinode resource allocation** [13506-120]
- 13506 OX **Performance evaluation of atmospheric profiles of microwave radiometer in Guangzhou** [13506-83]

SPACE INFORMATION TECHNOLOGY AND DATA ANALYSIS

- 13506 0Y **An efficient spatial grid encryption algorithm based on optimized KD-Tree** [13506-51]
- 13506 0Z **Construction of geographic knowledge graph based on sea area and islands supervision data** [13506-132]
- 13506 10 **Analysis of the global Earth's outgoing radiation reconstruction from disk-integrated measurements** [13506-21]
- 13506 11 **Inversion of spatial-temporal distribution and analysis on variation characteristics of glaciers in the Qinghai-Tibet Plateau from 2000 to 2020 based on multisource data fusion** [13506-140]
- 13506 12 **GNSS time series machine learning modeling and prediction via hydrological, atmospheric pressure, and temperature data constraints** [13506-37]
- 13506 13 **Applicability analysis of deformation prediction model of tunnel monitoring measurement** [13506-81]
- 13506 14 **Spatial-temporal evolution analysis of Dongting Lake using multisource remote sensing data** [13506-88]
- 13506 15 **An effective feature-to-template matching algorithm for multimodal geospatial data** [13506-146]
- 13506 16 **Analysis of DEM interpolation accuracy based on radial basis kernel function in different topographic conditions** [13506-53]
- 13506 17 **Inversion of precipitable water vapor based on BDS real-time PPP and analysis of rainstorm processes** [13506-93]
- 13506 18 **Estimation and analysis of temporal and spatial changes in aboveground carbon storage of grassland in Qilian Mountain National Nature Reserve of China over the past 33 years** [13506-142]
- 13506 19 **Research on reservoir capacity calculation based on model keypoints in a dense matched point cloud** [13506-28]
- 13506 1A **Comparison of the applicability of spatiotemporal fusion algorithms in the Sanjiang confluence area of Yibin City** [13506-71]
- 13506 1B **A cross-domain crop recognition method for bridging distribution discrepancies in remote sensing data** [13506-3]
- 13506 1C **Comparative study of landslide susceptibility assessment in Karst mountainous areas based on data-driven methods** [13506-6]
- 13506 1D **Implementation of dynamic simulation of Enteromorpha distribution and area estimation technique** [13506-99]

- 13506 1E **Dynamic development of spatial and temporal distribution of air pollution in Northeast China from a health perspective** [13506-10]
- 13506 1F **Return path planning for Enteromorpha salvage ships based on improved A* algorithm** [13506-86]
- 13506 1G **SSBH: a remote sensing building height dataset for deep learning** [13506-48]
- 13506 1H **Research on digital protection of linear cultural heritage in Xianghe section of North Canal based on modern spatial information technology** [13506-119]
- 13506 1I **Applicability analysis of multiple survey methods for coastal ecological restoration projects** [13506-5]
- 13506 1J **Quality evaluation and comparative analysis of GF-5 and ZY-1 02D hyperspectral image data** [13506-159]
- 13506 1K **Ecological environment quality assessment supported by remote sensing big data** [13506-12]
- 13506 1L **The application of cloud characteristic parameters in the identification of potential area of artificial precipitation enhancement during spring vortex processes** [13506-29]
- 13506 1M **Application of point cloud data in collapse identification under gully terrain conditions** [13506-141]
- 13506 1N **Multivariate spatiotemporal analysis of environmental factors affecting power grid icing: a regression-based approach to risk assessment in Bijie's complex terrain** [13506-153]
- 13506 1O **A method to calculate the attenuation of underground medium with continuous time based on the observation data of air gun: take the Qilian Mountain area as an example** [13506-104]
- 13506 1P **Analysis on the R&D trend of intelligent lithology (mineralization) identification technology for small bore drilling machines** [13506-131]
- 13506 1Q **Comparative analysis of temporal coherence optimization approaches for polarimetric time-series InSAR with dual polarization Sentinel-1 data** [13506-152]
- 13506 1R **Study on the nonlinear trend of water vapor and its response to ENSO events in Mainland China** [13506-43]
- 13506 1S **Spatial autocorrelation analysis of employment deprivation research on local labour markets** [13506-57]
- 13506 1T **Research and application on visualization of ocean scalar field** [13506-65]

Part Two

- 13506 1U **Towards stabilized and efficient 3D Gaussian splatting training for limited data point cloud rendering** [13506-70]
- 13506 1V **Efficient and precious surface subsidence monitor using continuous InSAR data based on Kalman filter** [13506-150]
- 13506 1W **Application of CSAMT and microtremor exploration to geothermal resource assessment in Qufu Haitang Town** [13506-126]
- 13506 1X **3D geographic information modeling based on multisource data fusion and its application in subway planning for complex geological structures in karst areas** [13506-144]

REMOTE SENSING AND 3D SCANNING TECHNOLOGY INNOVATION AND APPLICATION

- 13506 1Y **A fast parallel algorithm for image elevation datum conversion based on multicore technology** [13506-87]
- 13506 1Z **Research on fast registration method for realistic 3D models of construction caverns** [13506-78]
- 13506 20 **Application of ground 3D laser scanning technology in the quick construction of 3D models of reservoir hubs** [13506-16]
- 13506 21 **Joint classification of hyperspectral and LiDAR using multiscale spatial adaptive calibration** [13506-161]
- 13506 22 **Investigation into the impact of airwaves on the detection capability of marine controlled-source electromagnetic methods** [13506-82]
- 13506 23 **Research on the characterization of layered seafloor surface sediment properties and its acoustic measurement technology** [13506-80]
- 13506 24 **A forest point cloud registration method based on improved two-dimensional feature descriptors** [13506-13]
- 13506 25 **Few shot skylight detection with StyleGAN2-ADA and YOLOv9-PSA** [13506-68]
- 13506 26 **Optimized modeling of speckle noise for CFOSAT SWIM measurements** [13506-90]
- 13506 27 **Review of denoising algorithms for ICESat-2 photon point clouds** [13506-34]
- 13506 28 **Radiometric resolution transformation of remote sensing based on histogram matching** [13506-158]

- 13506 29 **Efficient self calibration of three-dimensional multibeam laser scanning based on hierarchical data selection** [13506-4]
- 13506 2A **SASNet: road extraction from remote sensing images based on spatial attention stacking** [13506-75]
- 13506 2B **Building extraction based on multifeature iterative method from remote sensing images** [13506-22]
- 13506 2C **Super-resolution reconstruction of remote sensing images based on deep learning** [13506-11]
- 13506 2D **A traffic sign extraction method integrating road linear topology relationship constraints** [13506-96]
- 13506 2E **Information extraction of wetlands based on GEE cloud platform and Landsat time series: a case study of Zaozhuang City, China** [13506-38]
- 13506 2F **Remote sensing image fusion method in NSST domain combining multiscale morphological gradient and neural network** [13506-59]
- 13506 2G **Improved DeepLabV3+ model for cloud detection in remote sensing images** [13506-15]
- 13506 2H **Application study of rigid guide deformation monitoring based on 3D laser scanner technology** [13506-134]
- 13506 2I **Learning feature description network for image and depth map matching** [13506-20]
- 13506 2J **Motion ship tracking method based on ship wake recognition in GF-4 remote sensing images** [13506-9]
- 13506 2K **Estimation of the surface emission spectra from remotely sensed data based on the physics informed deep neural network** [13506-122]
- 13506 2L **FAttFormer: feature attention refinement model for semantic segmentation in high-resolution remote sensing images** [13506-24]
- 13506 2M **Application of target detection technology based on UAV images and YOLOv7 in flood impact assessment of traditional villages** [13506-106]
- 13506 2N **Water body extraction in Nansi Lake Basin by integrating surface object types and spectral features** [13506-35]
- 13506 2O **Evaluating multimodal image matching algorithms for remote sensing applications** [13506-157]
- 13506 2P **Research on rapid measurement technology of railway line based on 3D coordinate acquisition trolley** [13506-14]
- 13506 2Q **On-orbit yaw calibration method of hyperspectral detector** [13506-79]

- 13506 2R **Research on the expression method of we-map symbolic traditional villages based on object importance** [13506-30]

EARTH SCIENCE AND ENVIRONMENTAL MONITORING RESEARCH

- 13506 2S **Study on the suitability of residential area layout in Lvchun Village based on spatial analysis** [13506-74]
- 13506 2T **Application of region selection network-based monitoring in blurring degradation of high-resolution optical remote sensing images** [13506-154]
- 13506 2U **Soil organic carbon density in Mexico under future climate change** [13506-103]
- 13506 2V **Building change detection based on improved PSPNet** [13506-125]
- 13506 2W **Land subsidence monitoring using time-series InSAR based on coherence matrix decomposition of distributed scatterers** [13506-31]
- 13506 2X **Vertical correction model of ZTD in China region based on polynomial residual compensation** [13506-163]
- 13506 2Y **Fine structural interpretation of the M oil layer in block M of XX oilfield** [13506-76]
- 13506 2Z **Surface deformation and volume change caused by North Korea's sixth nuclear test** [13506-109]
- 13506 30 **Change characteristics and causes of short-term heavy precipitation in Shenyang** [13506-138]
- 13506 31 **The genetic analysis and their mineralogical, petrological characteristics of magnetite breccia, Ghana** [13506-62]
- 13506 32 **3D CLP-gb: an unsupervised embedding-based method for dense prediction of 3D salt bodies** [13506-17]
- 13506 33 **Monitoring of suspended sediment concentration in Hong Kong coastal waters based on singular value decomposition (SVD)** [13506-2]
- 13506 34 **High-precision DEM study of airborne LiDAR point cloud construction under complex terrain conditions in mining areas** [13506-136]
- 13506 35 **Reservoir dam safety monitoring method based on BeiDou positioning** [13506-130]
- 13506 36 **Wellbore water leakage detection method based on point cloud reflection intensity** [13506-63]

- 13506 37 **Temporal and spatial evolution and driving force analysis of surface temperature in Kunming City** [13506-118]
- 13506 38 **Wheat yellow rust remote monitoring based on UAV multispectral images** [13506-19]
- 13506 39 **Reservoir prediction method and application based on seismic waveform indication simulation** [13506-128]
- 13506 3A **Combined application of geophysical measurements in the detection of karst tunnels** [13506-110]
- 13506 3B **Spatiotemporal evolution of vegetation water-use efficiency in the Yunnan-Guizhou Plateau, China** [13506-7]
- 13506 3C **Application of micro-motion and geomagnetic bathymetry in geothermal survey: an example of geothermal survey in Taiyuan Basin** [13506-139]
- 13506 3D **Two-dimensional surface deformation time series monitoring and analysis of mining areas based on multitrack SBAS-InSAR** [13506-25]
- 13506 3E **Spatial matching evaluation of water and soil resources in endorheic drainage based on FLUS-InVEST model** [13506-113]
- 13506 3F **Research on time-series monitoring of surface deformation in mining areas based on multisource SAR data fusion** [13506-149]
- 13506 3G **Research on the construction of a subsidence basin model for the working face of the Loess Plateau mining area using airborne laser point cloud** [13506-58]
- 13506 3H **Research on mangrove monitoring in Pearl Bay of Beilun River based on long times remote sensing images (1978–2024)** [13506-77]
- 13506 3I **Integrated remote sensing monitoring modeling and application for drought prevention during the whole growth period of wheat** [13506-148]
- 13506 3J **Study on risk assessment of geological hazards in Western Sichuan Plateau based on information method and system clustering method** [13506-54]
- 13506 3K **Double-end fusion: research on the remote sensing dynamic monitoring system of air-earth integrated mine** [13506-85]
- 13506 3L **Shallow braided river delta front and reservoir quality** [13506-147]
- 13506 3M **Research on the resilience measurement of urban network structure in the Yellow River Basin** [13506-100]
- 13506 3N **Monitoring crop growth at Redstar Farm based on Sentinel-2** [13506-45]
- 13506 3O **Research on the analysis of three-dimensional spatial pattern based on multiscale geographically weighted regression** [13506-36]

- 13506 3P **The effect of annual cycle background on ENSO anomalous wind patterns** [13506-55]
- 13506 3Q **Characteristic analysis of a longitudinal shear front in a well-mixed tidal channel**
[13506-108]
- 13506 3R **Deep-learning-based inversion method for oceanic temperature and salinity structures**
[13506-127]
- 13506 3S **Discussion of Shandong Province's modern surveying and mapping datum system
construction** [13506-89]
