

PROCEEDINGS OF SPIE

Fifth Symposium on Pattern Recognition and Applications (SPRA 2024)

Xiaodan Pang

Editor

11–13 November 2024

Istanbul, Turkey

Organized by

University of Bologna (Italy)

Sponsored by

Science and Engineering Institute (United States)

Published by

SPIE

Volume 13540

Proceedings of SPIE 0277-786X, V. 13540

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth Symposium on Pattern Recognition and Applications (SPRA 2024)*, edited by Xiaodan Pang, Proc. of SPIE 13540, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Conference Committee</i>
vii	<i>Introduction</i>

PATTERN RECOGNITION AND IMAGE DETECTION

13540 02	Road detection in autonomous vehicles through deep learning [13540-16]
13540 03	Truck's head and tail recognition based on depthwise separable convolution modified Efficient-Net [13540-19]
13540 04	Traffic sign recognition based on CNN vs different transfer learning techniques [13540-17]
13540 05	Hearing emotions: fine-tuning speech emotion recognition models [13540-18]
13540 06	A robust approach for recognition of QR codes with cropped sides [13540-15]
13540 07	Coffee plant disease detection using JSEG segmentation and near sets clustering [13540-8]

MACHINE LEARNING AND COMPUTATIONAL MODELS IN INTELLIGENT IMAGE PROCESSING

13540 08	A survey on deep-learning-based gaze direction regression: searching for the state-of-the-art [13540-3]
13540 09	Deep learning ensemble based on transformer and CNN features for tomato leaf disease classification [13540-2]
13540 0A	Generalization of Brady-Yong algorithm for fast Hough transform to arbitrary image size [13540-14]
13540 0B	Leveraging machine learning to predict factors that drive successful basketball team formation [13540-5]

COMPUTER-AIDED DETECTION AND MEDICAL IMAGE ANALYSIS

13540 0C	Real-time reconstruction on micro-CT setup [13540-11]
13540 0D	Stability of artificial intelligence methods in computed tomography metal artifacts reduction task [13540-12]

- 13540 OE **Orthotropic alignment for x-ray computed tomography images** [13540-1]
- 13540 OF **X-ray computed tomography traps and challenges for deep-learning scientist** [13540-13]

DIGITAL IMAGE ANALYSIS AND PROCESSING METHODS

- 13540 OG **Denoising diffusion probabilistic model for accurate super-resolution in landslide and debris flow disaster remote sensing images** [13540-4]
- 13540 OH **Trajectory refinement in SLAM: the impact of Adam, AdamW, and SGD with momentum** [13540-7]
- 13540 OI **Generation of semisynthetic natural-looking 2D barcodes for localization problems** [13540-9]
- 13540 OJ **A secret sharing scheme based on multivariable polynomials** [13540-10]
