## Table of Contents

Message from the Chairs .....	xvi
Organizing Committee .....	xvii
Program Committee .....	xix
Steering Committee .....	xxii
Reviewers .....	xxiii

## Conference Program

### Session 1: Big Data and AI Applications I

Examining the Performance of Mamba Tab for Software Defect Prediction .....	1
<i>Saranya Manikandan (Jeonbuk National University, South Korea), Shivani Jadhav (Jeonbuk National University, South Korea), Duksan Ryu (Jeonbuk National University, South Korea), and Sungsoo Ahn (Gyeongsang National University, South Korea)</i>	
Optimizing PROTAC Design: A Novel Approach using Exposure Scores for Linker Site Selection.....	9
<i>Yeonju Jeong (Chungnam National University, South Korea), Jae-Mun Choi (Calici Co., Ltd., South Korea), and Young-Kuk Kim (Chungnam National University, South Korea)</i>	
Refining Long-Term Predictions: Two-Stage Spatial-Temporal Feature Learning for 3D Human Motion Prediction .....	13
<i>Wenming Cao (Shenzhen University, China), Yixin Yang (Shenzhen University, China), Jianqi Zhong (Shenzhen University, China), and Yicha Zhang (UTBM, France)</i>	

### Session 2A: Generative AI

CubeDimAE: Automatic Autoencoder Generation Based on Dimension Estimation by Tessellation .	20
<i>Byungrok Kim (KENTECH, South Korea), Myeong-Ha Hwang (KEPRI, South Korea), Jeonghyun Joo (KEPRI, South Korea), Yoojin Kwon (KEPRI, South Korea), and Hyunwoo Lee (KENTECH, South Korea)</i>	
Diffusion-Based Portrait Image Generation Scheme using Plug-in Adapters .....	26
<i>Junha Hwang (Korea University, Republic of Korea), Jonghwa Shim (Korea University, Republic of Korea), Eunbeen Kim (Korea University, Republic of Korea), and Eenjun Hwang (Korea University, Republic of Korea)</i>	

Financial Data Generation Utilizing Graph Information from Transaction Networks .....	33
<i>Kim Kwanggeun (Sogang University, South Korea), Seonkyu Lim (Korea Financial Telecommunications and Clearings Institute, South Korea), Seungho Choi (Korea Financial Telecommunications and Clearings Institute, South Korea), and Suk-Ju Kang (Sogang University, South Korea)</i>	
From Data to Decisions: Enterprise-Level Domain-Specific Graph Retrieval-Augmented Generation Systems for Advanced Question Answering .....	41
<i>Sandeep Varma (ZS Associates, India), Shivam Shivam (ZS Associates, India), Sarun Natarajan (Rockwell Automation, India), Ankita Banerjee (ZS Associates, India), and Sourodeep Roy (ZS Associates, India)</i>	

## Session 2B: Big Data and AI Applications II

Exploring Flooded Fraction Prediction through Machine Learning Models Focusing on Medical Infrastructure in the Southeast U.S. Coastal Areas .....	49
<i>Jihoon Chung (Rensselaer Polytechnic Institute, USA), Kazuki Neo (Rensselaer Polytechnic Institute, USA), Muhammad Khan (Rensselaer Polytechnic Institute, USA), Ethan Cruz (Rensselaer Polytechnic Institute, USA), Zhi Zheng (Rensselaer Polytechnic Institute, USA), Thilanka Munasinghe (Rensselaer Polytechnic Institute, USA), and Jennifer C. Wei (NASA Goddard Space Flight Center, USA)</i>	
Multi-objective Optimization and Dynamic Water Level Regulation Algorithms a Case Study of the US Great Lakes System .....	57
<i>Junlin Zeng (National University of Defense Technology, China), Tao Wang (National University of Defense Technology, China), Yinhao Wang (National University of Defense Technology, China), and Xiaogang Pan (National University of Defense Technology, China)</i>	
Time Sensitive Multiple POIs Route Planning on Bus Networks .....	65
<i>Simu Liu (Yantai University), Kailin Jiao (Shandong University), Junping Du (Beijing University of Posts and Telecommunications), Yawen Li (Beijing University of Posts and Telecommunications), Zhe Xue (Beijing University of Posts and Telecommunications), Xiaoyang Sean Wang (Fudan University), Ziqiang Yu (Yantai University), and Yunchuan Shi (Yantai University)</i>	

## Poster Session

Secure Retrieval of Brain Tumor Images using Perceptual Encryption .....	73
<i>Ijaz Ahmad (Korea University, Korea), Md Shahriar Uzzal (Chosun university, Korea), and Seokjoo Shin (Chosun University, Korea)</i>	
Assessing the Impact of Reference Genomes on the Quality of a Reference-Guided Genome Assembly .....	75
<i>Suyeon Wy (Konkuk University, Republic of Korea), Junyoung Kim (Konkuk University, Republic of Korea), Mikang Sim (Konkuk University, Republic of Korea), Daehong Kwon (Konkuk University, Republic of Korea), and Jaebum Kim (Konkuk University, Republic of Korea)</i>	

Entropy-Based Sentence-Level Hallucination Score in Large Language Models .....	77
<i>Eojin Joo (KAIST, South Korea), Young-Jun Lee (KAIST, South Korea), and Ho-Jin Choi (KAIST, South Korea)</i>	
PIE Text Encoder : Padding is Enough to Generate Image in Diffusion Based Text-to-Image Model .....	79
<i>JongHyun Han (Seoul National Univ. of Sci. &amp; Tech., Korea), SooHyun Lee (Seoul National Univ. of Sci. &amp; Tech., Korea), and JongYoul Park (Seoul National Univ. of Sci. &amp; Tech., Korea)</i>	
Multimodal Learning for Just-In-Time Software Defect Prediction in Autonomous Driving Systems .....	88
<i>Faisal Mohammad (Jeonbuk National University, South Korea) and Duksan Ryu (Jeonbuk National University, South Korea)</i>	
DefectGRANDE: Hybrid Approach for Class Imbalance in Software Defect Prediction .....	90
<i>Eunjeong Ju (Jeonbuk National University, South Korea), Jeonghaw Lee (Jeonbuk National University, South Korea), and Duksan Ryu (Jeonbuk National University, South Korea)</i>	
Alu as the Driver of CNV Formation: A Computational Approach to Reveal NAHR .....	92
<i>Charyeong Heo (Konkuk University, Republic of Korea), Nayoung Park (Konkuk University, Republic of Korea), and Jaebum Kim (Konkuk University, Republic of Korea)</i>	
Effective Detection Technique of Copyright Infringement Illegal Sharing Sites .....	94
<i>Gyu Hyeon Choi (Korea Advanced Institute of Science and Technology, Korea), Kyeong Seok Lee (Korea Advanced Institute of Science and Technology, Korea), and Ho Mook Cho (Korea Advanced Institute of Science and Technology, Korea)</i>	
Smooth Categorical Cross-Entropy: An Improved Approach to Overcome the Limitations of CCE ...	96
<i>Minseo Kwon (Chungnam National University, Republic of Korea), Sungyoon Jeong (Chungnam National University, Republic of Korea), Jeongmin Choi (Chungnam National University, Republic of Korea), Gwanghee Lee (Chungnam National University, Republic of Korea), and Kyoungson Jhang (Chungnam National University, Republic of Korea)</i>	
Enhancing the Software Defect Prediction using AutoInt .....	103
<i>Shivani Jadhav (Jeonbuk National University, South Korea), Saranya Manikandan (Jeonbuk National University, South Korea), and Duksan Ryu (Jeonbuk National University, South Korea)</i>	
Survival Sequences: Win Prediction from a Strategy Sequence Approach .....	105
<i>Chaeyeon Sagong (Korea University, Republic of Korea) and Huy Kang Kim (Korea University, Republic of Korea)</i>	
Exploring Performance and Consistency in Mathematical Reasoning Across Problem Types .....	107
<i>Yechan Hwang (KAIST, South Korea), Jinsu Lim (KAIST, South Korea), Young-Jun Lee (KAIST, South Korea), and Ho-Jin Choi (KAIST, South Korea)</i>	
Predicting Protein-Ligand Binding Residue with Token Classification .....	111
<i>Keumseok Kang (Pusan National University, Republic of Korea), Sanghun Sel (Pusan National University, Republic of Korea), Jeongmu Kim (Pusan National University, Republic of Korea), and Giltae Song (Pusan National University, Republic of Korea)</i>	

Enhancing Software Defect Prediction: Integrating SAINT with Ant Colony Optimization and Explainable AI .....	113
<i>Sriman Mohapatra (Jeonbuk National University, South Korea), Eunjeong Ju (Jeonbuk National University, South Korea), Jeonghwa Lee (Jeonbuk National University, South Korea), and Duksan Ryu (Jeonbuk National University, South Korea)</i>	
Examining the Impact of Expression Fragmentation and Number Redundancy on Financial QA Task .....	115
<i>Yoonjae Lee (Seoul National University, South Korea), Kyung Seo Ki (Seoul National University, South Korea), Gahgene Gweon (Seoul National University, South Korea), and Bugeun Kim (Chung-Ang University, South Korea)</i>	
TNIM: A Unified Text-to-Noise Influence Mapping Approach for Diffusion Models .....	117
<i>Seung-Ho Han (KAIST, Republic of Korea) and Ho-Jin Choi (KAIST, Republic of Korea)</i>	
Enhancing Gender Prediction Model Performance through Automatic Individual Entity Extraction and Class Balance .....	120
<i>Chaeyun Kim (Ewha Womans University, South Korea), Eunseo Kim (Ewha Womans University, South Korea), Yeonhee Kim (Ewha Womans University, South Korea), Jaehyeong Sim (Ewha Womans University, South Korea), and Jongkil Kim (Ewha Womans University, South Korea)</i>	

### Session 3A: Text and Natural Language Processing

Mixterm Topic Model: A Short Text Topic Model in Low-Resource Scenarios .....	122
<i>Chuangying Zhu (Guilin University of Electronic Technology, China), Yongyu Liang (Guilin University of Electronic Technology, China), Limiao Zhong (Guilin University of Electronic Technology, China), Xinyuan Liang (Guilin University of Electronic Technology, China), and Fei Xie (Guilin University of Electronic Technology, China)</i>	
Code Summarization using Mamba-SoTaNa .....	129
<i>Jeonghwa Lee (Jeonbuk National University, South Korea), Eunjeong Ju (Jeonbuk National University, South Korea), and Duksan Ryu (Jeonbuk National University, South Korea)</i>	
Sentence Embedding using Supervised Contrastive Learning on Hierarchical Categories .....	136
<i>Byungil Yun (Lomin, South Korea), Dahye Kim (FS, South Korea), Yungjin Kim (FS, South Korea), and Young-Seob Jeong (Chungbuk National University, South Korea)</i>	

### Session 3B: Infrastructure and Platform for Big Data I

eCommTouch: A Benchmark Dataset for Touch-Based Continuous Mobile Device Authentication for e-Commerce .....	140
<i>Masashi Kudo (Waseda University, Japan), Tsubasa Takahashi (LY Corporation, Japan), Isao Echizen (National Institute of Informatics, Japan), and Hayato Yamana (Waseda University, Japan)</i>	

CWODL: Cross-Platform Data Analytics Workflow Optimization with Deep Learning .....	148
<i>Qinghua Du (Fudan University), Kai Zhang (Fudan University), Zhenying He (Fudan University), Yinan Jing (Fudan University), X. Sean Wang (Fudan University), Zhenqiang Chen (Transwarp Technology(Shanghai) Co., Ltd.), and Changchun Zhang (Transwarp Technology(Shanghai) Co., Ltd.)</i>	
CXLSim: A Simulator for CXL Memory Expander .....	156
<i>Seongbeom Kim (Samsung Electronics; Sungkyunkwan University), Jintaek Kang (Samsung Electronics), Kyoungsoon Kim (Samsung Electronics), Seungwook Lee (Samsung Electronics), and Beomseok Nam (Sungkyunkwan University)</i>	
Trusted and Privacy-Preserving Billing System for Smart Grids .....	160
<i>Abduaziz Kayumov (Sejong University, South Korea), Shincheol Lee (Sejong University, South Korea), and Ji Sun Shin (Sejong University, South Korea)</i>	

## Session 4A: Infrastructure and Platform for Big Data II

Dynamic Computing First Network Multi-Dimensional Resource Collaborative Allocation Based on Federated Segmentation Learning .....	167
<i>Yi Liu (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), and Zeli Guan (Beijing University of Posts and Telecommunications, China)</i>	
MSformer: Joint Prediction of Multi-Dimensional Resources in Computing Power Network Based on Multi-Granularity Sampling .....	175
<i>Jiuzhao Yang (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), Yingxia Shao (Beijing University of Posts and Telecommunications, China), Yawen Li (Beijing University of Posts and Telecommunications, China), Ang Li (Beijing University of Posts and Telecommunications, China), and Guanhua Ye (Beijing University of Posts and Telecommunications, China)</i>	
Few-Shot Learning-Based Machine Fault Diagnosis using EMD-Gammatone Spectrogram with Limited Labeled Audio Dataset .....	183
<i>Mahe Zabin (Korea Advanced Institute of Science and Technology, Republic of Korea), Syed Tasnimul Karim Ayon (BRAC University, Bangladesh), Farhan Md Siraj (BRAC University, Bangladesh), Mehedi Hasan Shuvo (Dhaka University of Engineering &amp; Technology, Bangladesh), Ho-Jin Choi (Korea Advanced Institute of Science and Technology, Republic of Korea), and Jia Uddin (Woosong University, Republic of Korea)</i>	
Enhancing Speech Emotion Recognition through Segmental Average Pooling of Self-Supervised Learning Features .....	191
<i>Jonghwan Hyeon (KAIST, South Korea), Yung-Hwan Oh (KAIST, South Korea), Young-Jun Lee (KAIST, South Korea), and Ho-Jin Choi (KAIST, South Korea)</i>	

## Session 4B: Security and Fraud Detection

FrAug: Enhanced Fraud Detection in Interbank Transfers via Augmented Account Features .....	199
<i>Seonkyu Lim (Korea Financial Telecommunications and Clearings Institute, South Korea), Jeongwhan Choi (Yonsei University, South Korea), Jaehoon Lee (LG AI Research, South Korea), and Noseong Park (Korea Advanced Institute of Science and Technology, South Korea)</i>	
A Framework for Anti-Money Laundering Based on AI and SATP in CBDC Transactions .....	207
<i>Soyoung Kim (Konkuk University, South Korea), Harang Lee (Konkuk University, South Korea), and Keecheon Kim (Konkuk University, South Korea)</i>	
Automated Machine Learning for Predicting Corporate Tax Non-Compliance .....	214
<i>Mário Papík (Comenius University, Slovakia) and Lenka Papíková (Comenius University, Slovakia)</i>	
Advancing Android Malware Detection with Deep Learning & LLMs in Big Data Ecosystem: A Forward Vision .....	221
<i>Juan Rodriguez-Cardenas (Kennesaw State University, USA), Nazmus Sakib (Kennesaw State University, USA), and Sweta Sneha (Kennesaw State University, USA)</i>	

## Session 5A: Learning Techniques I

Continual Learning with Flexible Preservation .....	228
<i>Juhyeon Kim (Korea Institute of Science and Technology Information, Republic of Korea) and Hyunjung Shin (Ajou University, Republic of Korea)</i>	
A Novel Feature Filtering Mechanism to Avoid Concept Shifts from Deteriorating Model Predictability .....	236
<i>Yi-Cheng Shih (National Yang Ming Chiao Tung University, Taiwan), Tian-Shyr Dai (National Yang Ming Chiao Tung University, Taiwan), Yen-Wu Ti (Xiamen Ocean Vocational College, Taiwan), Yun Kuo (National Yang Ming Chiao Tung University, Taiwan), Wun-Hao Wang (National Yang Ming Chiao Tung University, Taiwan), and Ying-Ping Chen (National Yang Ming Chiao Tung University, Taiwan)</i>	
An Approach to Enhancing Fairness in a Dynamically Growing Federated Learning Environment	244
<i>Sean Vucinich (University of Michigan - Ann Arbor, USA), Qiang Zhu (University of Michigan - Dearborn, USA), and Niccolo Meneghetti (University of Michigan - Dearborn, USA)</i>	
Dual-Branch Residual CNN-LSTM Model for Emotion Classification using PPG and GSR .....	252
<i>Muhammad Saleem (Inha University, South Korea), Shan Ullah (Inha University, South Korea), and Deok-Hwan Kim (Inha University, South Korea)</i>	

## Session 5B: Knowledge and Question Answering

Attribute-Controlled Summarization: Enhancing Semantic Approach for Numerical Attribute Prediction on Knowledge Graphs .....	256
<i>Wa Ode Zuhayeni Madjida (University of Tsukuba, Japan) and Toshiyuki Amagasa (University of Tsukuba, Japan)</i>	

Multilingual Table Question Answering for Low-Resource Languages via Selective Question Translation and Cross-Lingual Adaptation .....	264
<i>Sanghyun Cho (Pusan National University, South Korea), Minho Kim (Korea Maritime and Ocean University, South Korea), Hye-Lynn Kim (HDC LABS, South Korea), Jung-Hun Lee (Dong-Eui University, South Korea), and Hyuk-Chul Kwon (Pusan National University, South Korea)</i>	
SWING: Weakly Supervised Table Question Answering with Self-Training via Reinforcement Learning .....	273
<i>Sanghyun Cho (Pusan National University, South Korea), Hye-Lynn Kim (HDC LABS, South Korea), Jung-Hun Lee (Dong-Eui University, South Korea), and Hyuk-Chul Kwon (Pusan National University, South Korea)</i>	
MERNet: Multimodal Emotion Recognition in Conversation Network via Cross-Modal Knowledge Distillation and Contrastive Learning .....	279
<i>Sooyeon Hwang (Seoul National University, South Korea), Gahgene Gweon (Seoul National University, South Korea), and Eunseong Kwon (POSTECH, South Korea)</i>	

## Session 6: Data Mining and Analysis I

CoDAQ: Congressional-Based Data Imputation for Aggregate Queries .....	287
<i>Mohamed A. Sharaf (UAE University, United Arab Emirates), Nishi Kochunni (UAE University, United Arab Emirates), Heba Helal (UAE University, United Arab Emirates), and Omar El Harrouss (UAE University, United Arab Emirates)</i>	
Relaxed HLP: A Metric for Flexible High-Level Plan Evaluation in Embodied Environments .....	295
<i>Suyeon Shin (Seoul National University, Korea) and Byoung-Tak Zhang (Seoul National University, Korea)</i>	
InsightCube: Accelerating Interactive Insight Discovery in Exploratory Data Analysis .....	299
<i>Hanbing Zhang (Fudan University, China), Yinan Jing (Fudan University, China; Shanghai Key Laboratory of Data Science, China; Shanghai Key Laboratory of Computer Software Evaluating and Testing, China), Wei Zhang (Fudan University, China), Zhenying He (Fudan University, China; Shanghai Key Laboratory of Data Science, China), Kai Zhang (Fudan University, China; Shanghai Key Laboratory of Data Science, China), X. Sean Wang (Fudan University, China; Shanghai Key Laboratory of Data Science, China), Zhenqiang Chen (Transwarp Technology(Shanghai) Co., Ltd., China), and Changchun Zhang (Transwarp Technology(Shanghai) Co., Ltd., China)</i>	
Attention GCN-LSTM Model for Dementia Identification using Functional Brain Networks .....	307
<i>Abdulyekeen T. Adebisi (Kyungpook National University, Republic of Korea), Ho-Won Lee (Kyungpook National University, Republic of Korea), and Kalyana C. Veluvolu (Kyungpook National University, Republic of Korea)</i>	

## Session 7A: Data Mining and Analysis II

IoT Anomaly Detection with Sound-Based Spectral Analysis and Lightweight Model .....	315
<i>HyeYoung Lee (SPILab Corporation) and Muhammad Nadeem (SPILab Corporation)</i>	

MUEU: Meta-Learned User Preference Estimation for Cold-Start Recommendation via Enriching the Representations of Users .....	323
<i>Qiang Cai (Beijing Technology and Business University, China), Jing Han (Beijing Technology and Business University, China), Xiao Zhang (Beijing Technology and Business University, China), and Yi Wang (Beijing Technology and Business University, China)</i>	
An Improved Recommendation System using K-Means Clustering and Matrix Factorization .....	329
<i>Parth N. Thakrar (Dhirubhai Ambani Institute of Information and Communication Technology (DAIIC), India), Vedant V. Patel (Dhirubhai Ambani Institute of Information and Communication Technology (DAIIC), India), and Abhishek Jindal (Dhirubhai Ambani Institute of Information and Communication Technology (DAIIC), India)</i>	
SNP Position Filtering and Multimodal Approach in Heart Failure Risk Prediction .....	337
<i>Seungyun Shin (Pusan National University, Republic of Korea), Subin Lee (Pusan National University, Republic of Korea), Kibeom Kim (Pusan National University, Republic of Korea), Hyeon Lee (Pusan National University, Republic of Korea), and Giltae Song (Pusan National University, Republic of Korea)</i>	

## Session 7B: Learning Techniques II

Big Data Time Series Prediction Based on Feature-Enhanced Transformer Model .....	341
<i>Runqing Tang (Beijing University of Posts and Telecommunications, China), Yawen Li (Beijing University of Posts and Telecommunications, China), Zhe Xue (Beijing University of Posts and Telecommunications, China), Junping Du (Beijing University of Posts and Telecommunications, China), and Guanhua Ye (Beijing University of Posts and Telecommunications, China)</i>	
Time-Series Forecasting in Healthcare: A Dual-Framework Approach with Latent Class Integration .....	349
<i>Ruiying Chen (University College London, United Kingdom) and Qingang Tang (University of Oxford, United Kingdom)</i>	
MOAT: An Improved Multi-Modal Matching Algorithm Based on Object Attention and Tensor Fusion .....	357
<i>Qian Xiong (Guilin University of Technology, China), Xuanyi Wang (Guilin University of Technology, China), and Chao Jing (Guilin University of Technology, China)</i>	

## BIGDAS 2025: Big Data Service Society 2025 International Academic Seminar

### Session 1

A Comprehensive Deep Learning Approach for Real-Time Detection and Classification of Large and Small Defects in Industrial Applications .....	361
<i>Joo In (Chungbuk National University, South Korea), Kim Sung Hoon (Chungbuk National University, South Korea), Kim Gi Nam (Chungbuk National University, South Korea), Kwan Hee Yoo (Chungbuk National University, South Korea), and F M Fahmid Hossain (Chungbuk National University, South Korea)</i>	

AI-Based Color Prediction Analysis for Recycled Polyester Dyeing Processes .....	365
<i>Kim Sung Hoon (Chungbuk National University, South Korea), F M Fahmid Hossain (Chungbuk National University, South Korea), Kwan Hee Yoo (Chungbuk National University, South Korea), Shimaa Kotb (Chungbuk National University, South Korea), Kim Ah Rong (DyTech Institute, South Korea), Kim Hyun Jong (Electronics and Telecommunications Research Institute, South Korea), and Chi Su Young (Electronics and Telecommunications Research Institute, South Korea)</i>	
An Automated Scenario Generation Model for Anti-Phishing using Generative AI .....	368
<i>Jin Yong Park (Chungbuk National University, South Korea) and Tae-Sung Kim (Chungbuk National University, South Korea)</i>	
Comparison of Crop Image Classification Model Performance According to Image Augmentation Techniques .....	371
<i>Dong Kyu Yun (Chungbuk National University, Republic of Korea), Seong Ju Joe (Chungbuk National University, Republic of Korea), Ki Tae Park (Chungbuk National University, Republic of Korea), Seok Kee Lee (Hansung University, Republic of Korea), and Sang Hyun Choi (Chungbuk National University, Republic of Korea)</i>	
DVSMOT: Dual View Sharing for Enhanced Multi-Object Tracking and ID Switch Reduction .....	375
<i>Heon Jun Shin (Chungbuk National University, South Korea), Joohyung Oh (Chungbuk National University, South Korea), Woo-Seok Choi (Chungbuk National University, South Korea), Joong Hun Cho (Chungbuk National University, South Korea), Yeonseok Lee (Chungbuk National University, South Korea), and Tae-Kyung Kim (Chungbuk National University, South Korea)</i>	

## Session 2

Enhancement Strategies for the AI Platform for Accelerated Materials Development and Innovation .....	379
<i>Su-Young Chi (Electronics and Telecommunications Research Institute, South Korea), Hyun Jong Kim (Electronics and Telecommunications Research Institute, South Korea), Choi Kang Il (Electronics and Telecommunications Research Institute, South Korea), and Yo Han Choi (Electronics and Telecommunications Research Institute, South Korea)</i>	
Estimation of Compensation Scheme Functions According to the Level of Image Data De-Identification .....	382
<i>You-Jeong Choi (Chungbuk National University, South Korea) and Tae-Sung Kim (Chungbuk National University, South Korea)</i>	
Framework for Effective Information Security Investments: A Data-Driven Model Recommendation for Information Security Investment Decision-Making .....	386
<i>Byeongjo Park (Chungbuk National University, South Korea) and Tae-Sung Kim (Chungbuk National University, South Korea)</i>	
Proposing a Business Model Analysis Framework for IoT Bigdata .....	390
<i>Junghwan Lee (Chungbuk National University, Korea) and Yeonseok Lee (Chungbuk National University, Korea)</i>	

Solar Data Analysis for Efficient Green Hydrogen Production .....	394
<i>Syed Shehryar Ali Naqvi (Jeju National University, South Korea), Harun Jamil (Jeju National University, South Korea), Muhammad Faseeh (Jeju National University, South Korea), Murad Ali Khan (Jeju National University, South Korea), Su Young Chi (Electronics and Telecommunications Research Institute, South Korea), and Do Hyeun Kim (Jeju National University, South Korea)</i>	
Development of a Construction Type Classification Model for Construction using the KLUE-BERT .....	397
<i>Seung-Hyeon Shin (Chungbuk National University, Republic of Korea), Jeong-Hun Won (Chungbuk National University, Republic of Korea), Moon Gyu Kim (Ministry of Employment and Labor, Republic of Korea), and Doo Hwan Shin (Gangdong University, Republic of Korea)</i>	

## IWDS 2025: The Eighth International Workshop on Dialog Systems

### Session 1: Natural Language Understanding

Quality Assurance Framework for Multimodal Assessment Datasets on AI Risk Factors .....	401
<i>Seung-Ho Han (KAIST, Republic of Korea), Jeongyun Han (University of Seoul, Republic of Korea), Dongkun Lee (KAIST, Republic of Korea), and Ho-Jin Choi (KAIST, Republic of Korea)</i>	
An Analysis of Unsafe Responses with Magic Expressions Across Large Language Models .....	406
<i>Eojin Joo (KAIST, South Korea), Chae-Gyun Lim (KAIST, South Korea), Jeongyun Han (University of Seoul, South Korea), and Ho-Jin Choi (KAIST, South Korea)</i>	
Exploring the Visual Perspective Taking of Vision-and-Language Model .....	410
<i>Young-Jun Lee (Korea Advanced Institute of Science and Technology, South Korea) and Ho-Jin Choi (Korea Advanced Institute of Science and Technology, South Korea)</i>	

### Session 2: Chatbots and Applications

Analytical Approach for Truthfulness Detection using Multimodal Features: A Case Study with Vision and Audio Data .....	412
<i>Jangkyum Kim (Sejong University, South Korea), Ji-Won Choi (Sejong University, South Korea), Donghyeon Park (Sejong University, South Korea), and Young Dae Ko (Sejong University, South Korea)</i>	
Personalized Conversation Management with Emotional Memory .....	415
<i>Chae-Gyun Lim (KAIST, Republic of Korea), Young-Seob Jeong (Chungbuk National University, Republic of Korea), and Ho-Jin Choi (KAIST, Republic of Korea)</i>	

## BigDefense2025

Time Series Data Classification using the Knowledge-Augmented Transformer Model .....	419
<i>Hyun-seok Chung (SmartLabs, Republic of Korea), Sun-young Hyun (SmartLabs, Republic of Korea), Chang-eun Lee (ETRI, Republic of Korea), and Young-guk Ha (Konkuk University, Republic of Korea)</i>	
Evaluation of LLM-Based VQA Models for Enhancing Battlefield Situation Awareness .....	421
<i>Choulsoo Jang (ETRI, Korea), Yoon-Seok Choi (ETRI, Korea), Kwang-Yong Kim (ETRI, Korea), Jaehwan Kim (ETRI, Korea), Sungwoo Jun (ETRI, Korea), and Changeun Lee (ETRI, Korea)</i>	

## STP 2025: The Fifth International Workshop on Science and Technology Policy

### Session 1: Energy Diffusion and the Climate Environment

Case Study and Qualitative Comparison of Global Legal Frameworks for Platform Labor .....	424
<i>Byeongsu Koo (Ajou University, South Korea), Jooyeoun Lee (Ajou University, South Korea), and Myoungsuk Chung (Ajou University, South Korea)</i>	
Decomposition Analysis of Household Electricity Consumption in South Korean Municipalities....	430
<i>Yeolhoon Sung (Ajou University, Republic of Korea), Jooyeoun Lee (Ajou University, Republic of Korea), and Myoungsug Chung (Ajou University, Republic of Korea)</i>	
Author Index .....	435
