## PROCEEDINGS OF SPIE

# Laser 3D Manufacturing XII

**Bo Gu Hongqiang Chen Henry Helvajian** *Editors* 

28–30 January 2025 San Francisco, California, United States

Sponsored by SPIE

Published by SPIE

Volume 13354

Proceedings of SPIE 0277-786X, V. 13354

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings: Author(s), "Title of Paper," in *Laser 3D Manufacturing XII*, edited by Bo Gu, Hongqiang Chen, Henry Helvajian, Proc. of SPIE 13354, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X ISSN: 1996-756X (electronic)

ISBN: 9781510684560 ISBN: 9781510684577 (electronic)

Published by **SPIE** P.O. Box 10, Bellingham, Washington 98227-0010 USA Telephone +1 360 676 3290 (Pacific Time) SPIE.org Copyright © 2025 Society of Photo-Optical Instrumentation Engineers (SPIE).

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of fees. To obtain permission to use and share articles in this volume, visit Copyright Clearance Center at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher.

Printed in the United States of America by Curran Associates, Inc., under license from SPIE.

Publication of record for individual papers is online in the SPIE Digital Library.

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

• The first five digits correspond to the SPIE volume number.

• The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

### Contents

v Conference Committee

#### SPECIAL SESSION ON BIO 3D PRINTING

13354 02 Impact of exposure time and power intensity on cell viability in 3D bioprinting (Invited Paper) [13354-10]

#### **METAL 3D PRINTING I**

- 13354 03 Darkfield-scattering surface analysis in powder-based AM-processes: analysis of a multiwavelength approach (Invited Paper) [13354-16]
- 13354 04 Dependence of pure copper layer formation on substrate materials in the multibeam method using blue diode lasers (Invited Paper) [13354-17]
- 13354 05 Laser powder bed fusion process combined with infrared heating for reduced residual stress and support-free fabrication of parts [13354-19]

#### METAL 3D PRINTING II

- 13354 06 Al-assisted process monitoring and control approaches for AM: state-of-the-art and challenges in industrial application (Invited Paper) [13354-21]
- 13354 07 Computation of spatial intensity distributions for laser powder bed fusion through the solution of an inverse heat conduction problem [13354-24]

#### **MICRO-OPTICS AND FUNCTIONAL DEVICE PRINTING I**

- 13354 08 Stereolithography 3D printing of an accelerometer embedded nightguard for TMD monitoring (Invited Paper) [13354-26]
- 13354 09 CO<sub>2</sub> laser deposition of single and multilayer transparent coatings using oxide nanoparticles (Invited Paper) [13354-27]

#### MICRO-OPTICS AND FUNCTIONAL DEVICE PRINTING III

13354 0A Laser 3D printing of industrial-scale micro-reactors in glass for flow chemistry applications (Invited Paper) [13354-35]

13354 0B Laser-written liquid crystal devices for non-mechanical beam steering [13354-37]

#### POSTER SESSION

13354 OC	Laser-based directed energy deposition for micro 3D metallic current collector scaffold for supercapacitor application [13354-38]
13354 OD	Segmentation approach for enhanced DLP bioprinting [13354-40]
13354 OE	Measuring geometries with high aspect ratio and high accuracy: an investigation of 3D- printed micro-optics for optical coherence tomography fibre probes [13354-41]
