

PROCEEDINGS OF SPIE

Third International Conference on Environmental Remote Sensing and Geographic Information Technology (ERSGIT 2024)

Kun Tan
Guobiao Yao
Editors

22–24 November 2024
Xi'an, China

Organized by
Shandong Jianzhu University (China)
Leshan Normal University (China)

Published by
SPIE

Volume 13565

Proceedings of SPIE 0277-786X, V. 13565

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Third International Conference on Environmental Remote Sensing and Geographic Information Technology (ERSGIT 2024)*, edited by Kun Tan and Guobiao Yao, Proc. of SPIE 13565, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii	<i>Conference Committee</i>
ix	<i>Introduction</i>

REMOTE SENSING INFORMATION EXTRACTION AND IMAGE PROCESSING

13565 02	Fire monitoring methods in scenic areas combining low-altitude remote sensing and ground detection [13565-84]
13565 03	Multiple models comparison for topographic correction of GF-2 satellite images [13565-58]
13565 04	A study on multiscale landscape character extraction combining GIS and graphic processing algorithms [13565-17]
13565 05	Satellite remote sensing applications in estuarine morphodynamic studies: a comprehensive overview [13565-55]
13565 06	Reconstruction and accuracy analysis of landfill piles-based aerial imagery [13565-47]
13565 07	EDSFINet: efficient double stages feature interaction network for remote sensing image change detection [13565-13]
13565 08	Edge-aware feature learning for fine-grained ship detection in high-resolution satellite images [13565-16]
13565 09	Multifeature-based PolSAR image classification using superpixels and DBN model [13565-3]
13565 0A	Adapting SAM for remote sensing change detection: feature alignment and discrepancy enhancement [13565-31]
13565 0B	Monitoring and analysis of leaf area index of vegetation along expressway based on satellite remote sensing images [13565-49]
13565 0C	Optimized Gaussian kernel regression for x-ray pulsar signal profile construction [13565-72]
13565 0D	Semantic segmentation algorithm for remote sensing images based on PSPNet [13565-7]
13565 0E	An even segmentation method for navigation star catalogue based on Goldberg polyhedron [13565-81]
13565 0F	3D modeling of unmanned aerial vehicle night images based on improved retinex [13565-76]

- 13565 OG **Remote sensing inversion of particle size characteristics of surface sediments on tidal flats in the Yellow River Delta** [13565-74]
- 13565 OH **Application of image completion in remote sensing image desensitization** [13565-59]
- 13565 OI **Segment anything model for multiclass building change detection in remote sensing images** [13565-6]
- 13565 OJ **Collaborative optimization of channel attention and weighted dice loss for remote sensing image water extraction algorithm** [13565-82]
- 13565 OK **Research on ecosystem change monitoring and intelligent analysis system based on remote sensing data** [13565-48]

GEOLOGICAL MONITORING AND ECOLOGICAL ASSESSMENT TECHNOLOGY

- 13565 OL **Visual-LiDAR 3D semantic mapping for the unconstructed, large-scale field environment** [13565-8]
- 13565 OM **Landslide hazard assessment in Dadu River Basin based on GIS and BP neural network** [13565-53]
- 13565 ON **The risk assessment of forest wildfires in Guangxi Province** [13565-62]
- 13565 OO **Coastal ecological restoration engineering elevation transformation method analysis** [13565-79]
- 13565 OP **Land subsidence monitoring in Xiongxi area of China by time series SAR interferometry combining permanent and distributed scatterers** [13565-88]
- 13565 OQ **FRMT: RMT with frequency feature learning framework for land cover classification** [13565-71]
- 13565 OR **Evaluation of accuracy and consistency in a multisource cultivated land dataset: a case study of the Pengqu Basin at the northern foot of Mount Qomolangma** [13565-32]
- 13565 OS **Spatiotemporal variation and attribution analysis of water bodies in Bayinguoleng Mongol autonomous prefecture based on Google Earth Engine** [13565-66]
- 13565 OT **Piecewise polynomial fitting of the mass change trend of the Greenland ice sheet** [13565-78]
- 13565 OU **PACDNet: a landslide extraction network based on parallel attention** [13565-77]
- 13565 OV **Study on the strength characteristics of desert plant root aeolian sandy soil** [13565-60]
- 13565 OW **Monitoring and analysis of deformation in some areas of Xingtai City from 2019 to 2022 based on MCTSB-InSAR technology** [13565-5]

- 13565 0X **Accuracy verification of sulfur dioxide data based on ultraviolet hyperspectral solar radiometer observations** [13565-23]
- 13565 0Y **Monitoring seasonal water level changes in global lakes and reservoirs** [13565-51]
- 13565 0Z **Stability evaluation of Sanjiaoao landslide area in Mayang County, Hunan based on van Genuchten/GeoStudio** [13565-11]
- 13565 10 **Wetland information extraction and dynamic change monitoring with joint multifeature optimization and time-series imaging** [13565-45]
- 13565 11 **Analysis of changes and attribution of inflow runoff in Xidayang reservoir** [13565-27]
- 13565 12 **A constellation design method for forest fire monitoring** [13565-4]
- 13565 13 **A study on influence factors of soil erosion in Guizhou based on optimal parameter geodetector model** [13565-36]
- 13565 14 **Multiscale feature fusion-based pavement crack detection using TransUNet** [13565-20]
- 13565 15 **Response of the intensity of human activity to water quality in ecologically fragile karst areas** [13565-75]

GEOGRAPHIC INFORMATION PLANNING AND DATA FUSION

- 13565 16 **Study on the spatial characteristics of village and town settlements based on spatial gene theory: a case study of the Wuyi area in Guangdong, China** [13565-54]
- 13565 17 **A single-baseline InSAR phase unwrapping algorithm based on outlier position and fringe line** [13565-43]
- 13565 18 **Conservation and planning design of industrial heritage along canal under heritage corridor mode: a case study of the Guangzhou section of the Pearl River** [13565-40]
- 13565 19 **Low-altitude 3D traffic maps for UAV: current technology, key issues, and future development** [13565-28]
- 13565 1A **Research on detection and recognition method of large area fixed target at sea based on multisource satellite data** [13565-50]
- 13565 1B **EFEIR: enhanced feature expression for instance-level hierarchical relation learning in few-shot wildlife object detection** [13565-70]
- 13565 1C **Applicability analysis of World Magnetic Model 2020 in China** [13565-44]
- 13565 1D **A comprehensive optimization framework for airport site selection** [13565-64]

- 13565 1E **Simulation study of decision-making behavior in urban flood drainage and rescue operations based on ABM** [13565-2]
- 13565 1F **Study on spatial and temporal differences in ecosystem service synergistic and trade-offs and driving factors in Jilin Province** [13565-29]
- 13565 1G **Analysis of the spatio-temporal distribution pattern of cropland in Guanzhong Plain urban agglomeration from 2000 to 2020** [13565-52]
- 13565 1H **WTUNet: a U-shaped semantic segmentation network combined with wavelet convolution** [13565-68]
- 13565 1I **Automatic mapping method of place name categories considering context information** [13565-9]
- 13565 1J **Parameter inversion of probability integral method based on robust PSO algorithm** [13565-22]
- 13565 1K **Research on improving YOLOX foreign body identification method under freight train** [13565-67]
- 13565 1L **A real-time deviation detection method for coal conveyor belt based on REDLNet** [13565-63]
- 13565 1M **Research on mountain search path planning and isochronous circle construction** [13565-61]
- 13565 1N **Geometrical calibration of pendulum-sweeping satellites based on the detector element pointing angle method** [13565-37]
- 13565 1O **A extensive pipeline model for spatial data processing based on streaming computation** [13565-35]
- 13565 1P **Structural analysis and reconstruction of box culvert based on point cloud** [13565-73]
- 13565 1Q **Urban distribution network design and path optimization based on subway-truck intermodal transportation** [13565-30]
- 13565 1R **China temporal administrative map: a multitemporal database for Chinese historical administrative divisions (2009–2023)** [13565-14]
- 13565 1S **Research on GNSS-like indoor navigation signal system** [13565-18]
