# TABLE OF CONTENTS

|                                                                                                                                              |    |
|----------------------------------------------------------------------------------------------------------------------------------------------|----|
| Optimal LQR/LQG Output Feedback Control of Three-Phase Grid Connected Inverter with LCL Filter in Dq Frame .....                             | 1  |
| <i>Sara Ibrahim, Jiajun Yang, Sandro Guenter, Salman Ijaz, Ahmed Nasr, Giampaolo Buticchi</i>                                                |    |
| Safe Reinforcement Learning for Social Motor Coordination in Two Dimensional Space.....                                                      | 7  |
| <i>Fan Yang, Yuening Huang, Chao Zhai, Hehong Zhang</i>                                                                                      |    |
| Data Imputation Techniques Using the Bag of Functions: Addressing Variable Input Lengths and Missing Data in Time Series Decomposition ..... | 13 |
| <i>David Orlando Salazar Torres, Diyar Altinses, Andreas Schwung</i>                                                                         |    |
| Application of Particle Swarm Optimization Algorithm Based on Adaptive Inertia Adjustment Strategy in Scheduling of the Coking Process.....  | 20 |
| <i>Yiheng Chen, Fan Yin, Xiaochong Chen, Yi Ren, Jie Hu, Min Wu</i>                                                                          |    |
| A Hybrid Compensation Topology with Constant Voltage and Constant Current for EV Bidirectional Wireless Charging.....                        | 26 |
| <i>Shuo Tian, Helin Wang, Hailong Zhang</i>                                                                                                  |    |
| Transient Voltage Injection Based Synchronization Method for Bidirectional Wireless Power Transfer Systems .....                             | 34 |
| <i>Zhaozheng Zhu, Xiaosheng Wang, Junhui Yang, Chen Chen, Sheng Ren, C. Q. Jiang</i>                                                         |    |
| Comparative Analysis of Steganographic Methods for Covert Embedding Information into Speech Signals .....                                    | 39 |
| <i>Mishina Olga, Yaqin Zhao, Longwen Wu, Liang Zhao, Chentong Wu, Dongming Luo</i>                                                           |    |
| Enhanced EPS-PSM Hybrid Control of CLLC Resonant Converter with Improved Light-Load Efficiency .....                                         | 45 |
| <i>Zitong Huang, Xiangjun Zhang, Yifan Zhao, Yijie Wang, Yueshi Guan, Dianguo Xu</i>                                                         |    |
| Big Data Analytics in Industry 4.0: Automating Production Metrics with an Edge-Based Architecture .....                                      | 51 |
| <i>Arthur Kretzer, Denise Costa, Gabriel Pardini, Jardel Wolkers, Renato Luz, Frank Siqueira</i>                                             |    |
| Adaptive PD Neural Network Tracking Control for the Uncertain Robot Manipulator with Unmatched Disturbance* .....                            | 57 |
| <i>Jingdong Wen, Ling Ren, Chenchen Peng, Runhua Qi</i>                                                                                      |    |
| An Adaptive MPPT Method for Electrical Power System of CubeSats Based on Real-Time Temperature.....                                          | 63 |
| <i>Zhi Yin, Tianxing Chen, Rui Sun, Xueqin Chen, Jian Chen, Xiaming Xie</i>                                                                  |    |
| Coal-Rock Identification While Drilling Method and Application Based on Multi-source Data Fusion.....                                        | 70 |
| <i>Youzhen Zhang, Gang Chen, Quanxin Li, Qiang Fan, Wangnian Li, Tao Chen</i>                                                                |    |
| Distributed Energy Storage Aggregation Coordinated Regulation Strategy in Active Distribution Networks .....                                 | 76 |
| <i>Changyuan Zhou, Chongyu Liu, Hao Lei, Zhipeng Chen, Wenyu Gao</i>                                                                         |    |

|                                                                                                                                   |     |
|-----------------------------------------------------------------------------------------------------------------------------------|-----|
| Improved Model-Free Adaptive Control and Line-of-Sight Guidance for Autonomous Vehicle Path Following .....                       | 82  |
| <i>Zhanguo Xu, Yunfei Yin, Yuanlong Wei, Wangyang Jiang</i>                                                                       |     |
| An Improved ADRC Method Based on Time Segement Strategy and Weighted Observer Fusion for UWM Systems .....                        | 88  |
| <i>Jiahao Rao, Jianqi An, Jinhua She, Terano Takao</i>                                                                            |     |
| Design of a Constant Current Output High Frequency AC-DC Converter for Battery Charging Applications.....                         | 94  |
| <i>Zihao Wei, Xiaoxian Song, Liangwei Jin, Dingbang Huang, Sheng Zhang, Zhijian Fang</i>                                          |     |
| A Novel Fixed-Time Distributed Convex Optimization Load Control Algorithm .....                                                   | 100 |
| <i>Xurong Jin, Chunsheng Hou, Xiaoye Gu, Wentao Xu, Wensheng Guo, Guobin Wang, Wei Gao, Ting Yu, Xiaolong Ding, Hui Liu</i>       |     |
| Grasp-CLIP: Pick Up What You Want .....                                                                                           | 106 |
| <i>Zhao Gao, Jieren Deng, Zihao Wan, Haojian Zhang, Yunkuan Wang, Jianhua Hu</i>                                                  |     |
| Multi-Objective Cooperative Control of Vehicle Platoon Based on Fuzzy MPC.....                                                    | 112 |
| <i>Wanying Zhu, Yunfei Yin, Zhanguo Xu, Yuanlong Wei, Shenjun Zeng</i>                                                            |     |
| Optimized Design and Fabrication of a Soft Pneumatic Crawling Robot for Cost-Effective Motion Control.....                        | 118 |
| <i>Hengtai Dai, Xin Dong, En Li, Gang Chen</i>                                                                                    |     |
| Optimal Locations and Sizing for Dynamic Wireless Charging Facilities in Sustainable Transportation Systems .....                 | 124 |
| <i>Zijian Yuan, Guangyao Li, Tao Wang</i>                                                                                         |     |
| A Detection Algorithm for Distribution Network Insulators Based on YOLOv8n-EdgePro.....                                           | 130 |
| <i>Jiming Tian, Yunong Tian, Binru Liu, Yanrong Liu, Zize Liang</i>                                                               |     |
| GLD-YOLO: A Lightweight Realtime Object Detection Algorithm Based on Improved YOLOv8.....                                         | 136 |
| <i>Jiuqing Yu, Yinglei Guan, Zheng Lei, En Li, Lirong Xie, Wendi Dong, Mingguang Li</i>                                           |     |
| Modelling of the Solid Electrolyte Interface Growth Using Physics-Based Equivalent Circuit Model .....                            | 142 |
| <i>Ziqi Wang, Mo-Yuen Chow, Zhiping Tan, Huiqin Jin</i>                                                                           |     |
| Dynamic Parallel Feedforward Compensator-Based Generalized Negative Imaginary Synthesis Allowing Poles at the Origin * .....      | 148 |
| <i>Zhining Cheng, Zhen He, Fanwei Meng, Di Zhou</i>                                                                               |     |
| Model-Free Predictive Control Strategy for Inverter Based on Adaptive Super- Twisting Sliding Mode Observer .....                 | 155 |
| <i>Zejian Shu, Wensheng Luo, Ruifang Zhang, Jose I. Leon, Abraham M. Alcaide, Leopoldo G. Franquelo</i>                           |     |
| Optimized Design of an Aviation PM-Assisted Synchronous Reluctance Starter-Generator Considering Anti-Short-Circuit Ability ..... | 162 |
| <i>Yandong Sun, Ningfei Jiao, Xuan Zhang, Shoujun Song, Weiguo Liu</i>                                                            |     |
| Research on System Integration Development and Experiment for a Tomato Harvesting Robot .....                                     | 168 |
| <i>Bingyuan Zhang, Xinyu Lu, Lingli Zhou, Meina Zhang, Ni Ren, Jizhan Liu</i>                                                     |     |

|                                                                                                                                                 |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| An Overview of Wireless Charging Systems for Electric Vehicles: from Historical Evolution to Modern Applications .....                          | 176 |
| <i>Ruoning Liu, Zhanguo Xu, Jiangchuan Chen, Yun Wang</i>                                                                                       |     |
| High-Frequency Square-Wave Voltage Injection Based Parameter Identification of Three-Phase PMSM Drives Fed by CHB Inverters.....                | 182 |
| <i>Heng Cai, Zheng Wang, Minrui Gu, Yunchong Wang, Ruiwu Cao, Wanqing Chen</i>                                                                  |     |
| Event Triggered Fractional-Order Distributed Kalman Filtering with Random Deception Attacks.....                                                | 188 |
| <i>Yantong Mu, Zhenlei Wang</i>                                                                                                                 |     |
| Bearing Fault Diagnosis Under Variable Working Conditions Based on Domain Adaptation and Improved Depthwise Separable Convolution Network ..... | 194 |
| <i>Zehui Kuang, Fan Mao, Xingyu Zhao, Xiongbo Wan</i>                                                                                           |     |
| A Following Control Method for Lower Limb Rehabilitation Robots Using MPC and Fiducial Marker System .....                                      | 200 |
| <i>Zihan Liu, Xiaoli Qiu, Yan Xing</i>                                                                                                          |     |
| Analysis of Loss and Efficiency for Cascaded H-Bridge Converters with Different Modulation Strategies and Control Methods .....                 | 206 |
| <i>Yijia Yu, Zheng Wang, Bolun Zhang, Guanghui Shi, Yulin Qiu, Bo Du</i>                                                                        |     |
| A Helium Bubble Damage Model Based on Population Balance Equation for Focused Helium Ion Beam Processing .....                                  | 212 |
| <i>Shaoshuai Yao, Qi Li, Yan Xing</i>                                                                                                           |     |
| Event-Triggered Secondary Control Strategy of DC Microgrid in Islanded Mode .....                                                               | 216 |
| <i>Haibin Li, Wensheng Luo, Haofei Li, Zhongqi Jin, Chaoyi Li</i>                                                                               |     |
| The Study of a Nonlinear Rapid Simulation of a Dual-Winding Interior Permanent Magnet Synchronous Motor Drives.....                             | 222 |
| <i>Han Guang, Rui Wang, Fan Zhang, Qianfan Zhang</i>                                                                                            |     |
| Transient Overcurrent Quantification Method of Grid-Forming Inverter Under Large Disturbances.....                                              | 228 |
| <i>Boyuan Cui, Liang Huang, Poh Chiang Loh, Frede Blaabjerg</i>                                                                                 |     |
| Event-Driven Consensus-Based Voltage-Frequency Control Strategy for Microgrids.....                                                             | 233 |
| <i>Xurong Jin, Chunsheng Hou, Guobin Wang, Xiaoye Gu, Wentao Xu, Wensheng Guo, Xiaolong Ding, Ting Yu, Wei Gao, Hui Liu</i>                     |     |
| A Real-Time RRT-APF Approach for Efficient Multi-Robot Navigation in Complex Environments .....                                                 | 239 |
| <i>Kaihuai Zhang, Mohsen Zahmatkesh, Martin Stefanec, Farshad Arvin, Junyan Hu</i>                                                              |     |
| Design of Magnetic Coupler for a 3 Km Underwater AUV Wireless Charging System .....                                                             | 245 |
| <i>Qingxuan Zhang, Yonglu Liu, Fengshuo Yang, Yu Lan, Mingxing Xiong, Jinhai Jiang, Kai Song</i>                                                |     |
| Conductivity Invariant Phenomenon of Eddy Current Sensor: Metal Magnetic Permeability and Probe Parameters.....                                 | 249 |
| <i>Fenglong Wang, Jianhui Ma, Fengying Zeng, Yating Yu, Cheng Sun, Haipeng Yang</i>                                                             |     |
| A SUMO-Simulated Reinforcement Learning Framework for Bidirectional Charging of Electric Vehicles .....                                         | 254 |
| <i>Paul Bauer, Joan Reina I Carbonell, Stefan Wilker, Thilo Sauter</i>                                                                          |     |

|                                                                                                                                               |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Modeling Load-, Velocity-, and Temperature-Dependent Transmission Errors of Cycloidal Drives for Industrial Robots Using Fourier Series ..... | 261 |
| <i>Christian J. E. Bauer, Valentin Kamm, Marcel Dzubba, Lukas Steinle, Armin Lechler, Alexander Verl</i>                                      |     |
| Comparative Analysis of Active Capacitor Voltage Balancing Method for Flying Capacitor Multilevel Converters .....                            | 268 |
| <i>Javad Ebrahimi, Fatemeh Nasr Esfahani, Suzan Eren, Alireza Bakhshai, Laili Wang</i>                                                        |     |
| Reconfigurable Leader-Follower Swarm Formation in Complex Environments .....                                                                  | 274 |
| <i>Mazen Bahaidarah, Mohsen Zahmatkesh, Martin Stefanec, Ognjen Marjanovic, Farshad Arvin</i>                                                 |     |
| A Fast, Square-Spiral, Finite Element Interest Point Detector .....                                                                           | 280 |
| <i>John Fegan, Sonya Coleman, Dermot Kerr, Justin Quinn</i>                                                                                   |     |
| Adaptive Model Predictive Control for Permanent Magnet Synchronous Motor .....                                                                | 287 |
| <i>Zhiwei Zhang, Wensheng Luo, Ruifang Zhang, Haoifei Li, Zhongqi Jin, Chaoyi Li</i>                                                          |     |
| Transformer-Based Super-Resolution Scanning Acoustic Imaging for Industrial Inspection .....                                                  | 293 |
| <i>Trong Nhan Nguyen, Vu Hoang Minh Doan, Tan Hung Vo, Jaeyeop Choi, Junghwan Oh</i>                                                          |     |
| Hybrid Deep Clustering-Based Algorithm for Anomaly Detection in Network Attacks .....                                                         | 300 |
| <i>Mingdi Xu, Wei Wang, Zhaoyang Jin, Zhengxiao Li, Feng Cui, Haipeng Fan</i>                                                                 |     |
| Improved Dynamic Model Identification of Cobots Based on a Nonlinear Friction Model .....                                                     | 308 |
| <i>Hang Ruan, Bitao Yao, Wenjun Xu</i>                                                                                                        |     |

| Deep Reinforcement Learning for Overtaking Decision-Making and Planning of Autonomous Vehicles .....                                           | 763 |
| <i>Ailipaer Aihaiti, Farshad Arvin, Junyan Hu</i>                                                                                              |     |
| TMTCIL-St: Spatio-Temporal Tensor Multi-Task Continuous Incremental Learning for Multi-Fertiliser Management.....                              | 769 |
| <i>Yu Zhang, Gaoshan Bi, Simon Jeffery, Max Davis, Yang Li, Qing Xue, Po Yang</i>                                                              |     |
| Copper Loss Minimization Control for the Main Machine in Two-Stage Starter-Generator Under Wide Speed Range and Variable Load Conditions ..... | 777 |
| <i>Xin Gao, Weiguo Liu, Ningfei Jiao, Ye Zhou, Pu Yao, Zhihong Wang</i>                                                                        |     |
| FSC-MPC Switching Phase Control for Interleaved DC/DC Vehicle Charger.....                                                                     | 782 |
| <i>Matías Aguirre, Sergio Vazquez, Jose I. Leon, Leopoldo G. Franquelo</i>                                                                     |     |
| Influence Analysis of Mutual Entrainment at the Hip Joint on the Degree of Synchronization Between Gait Cycle and the Cycle of Stimuli .....   | 788 |
| <i>Koichiro Kubota, Takeo Hagiwara, Toshiyuki Murakami</i>                                                                                     |     |
| Design and Implementation of a Modular Switch Circuit Board for Dynamic Battery Reconfiguration .....                                          | 794 |
| <i>Enkai Mao, Dezhi Ren, Xinyi Zheng, Hao Yv, Changyou Geng, Weiji Han</i>                                                                     |     |
| Key Technologies and Applications of Smart Maintenance for Metro Rails Based on Lifecycle Management .....                                     | 800 |
| <i>Lei Bai, Qing Li, Saijia Wu, Jinhai Du, Ming Ding, Chen Chi</i>                                                                             |     |
| A Sliding Mode Active Disturbance Rejection Control Based on Bidirectional DC-DC Converter .....                                               | 804 |
| <i>Fuwang Yang, Yuqi Zhang, Yitong Zhang, Junxiong Wang, Yaoxiong Wang, Wenfan Li</i>                                                          |     |
| Multi-Level Features Fusion for Zero-Shot Object Pose Estimation .....                                                                         | 811 |
| <i>Nanxin Huang, Chi Xu</i>                                                                                                                    |     |
| Timetable Rescheduling for High-Speed Trains Based on a Multi-Agent Game Reinforcement Learning Method .....                                   | 817 |
| <i>Xiaomin Zhou, Min Zhou, Junfeng Cui, Haifeng Song, Hairong Dong</i>                                                                         |     |
| Efficiency Evaluation and Optimization for the Combined Application of Reconfigurable Battery Systems and DC-DC Converters .....               | 823 |
| <i>Dezhi Ren, Xinyi Zheng, Hao Yv, Enkai Mao, Changyou Geng, Weiji Han</i>                                                                     |     |
| Attitude Control Method for Drilling Tools Accounting for Fluctuations in Rate of Penetration and Time-Varying Delays.....                     | 829 |
| <i>Zhongzheng Liu, Xiang Wang, Zhen Cai, Weiguo Feng, Xiaofen Wang</i>                                                                         |     |
| An Introduction to Normal-Operating-Zones for Process Monitoring .....                                                                         | 835 |
| <i>Mengyao Wei, Jiandong Wang, Ziyang Ma, Mingchen Zhu</i>                                                                                     |     |
| Generating 3D Models for Game Characters from Hand-Drawn Illustrations .....                                                                   | 841 |
| <i>Ningxin Yan, Takahiro Yakoh</i>                                                                                                             |     |
| Highly Reliable Information Interaction and Sharing Based on Distributed Collaboration Communication .....                                     | 847 |
| <i>Mingxuan Xu, Haifeng Song, Shourong Wu, Min Zhou, Hairong Dong</i>                                                                          |     |
| Emotion Recognition Through Computer Vision: Challenges, Techniques, and Applications.....                                                     | 853 |
| <i>Argemiro Oliveira, Marcelo Pellenz, Marco Teixeira</i>                                                                                      |     |

|                                                                                                                                       |     |
|---------------------------------------------------------------------------------------------------------------------------------------|-----|
| Phase-Locked Loop Structure Optimization Method for Grid-Following Inverters Based on Higher-Order Orthogonal Signal Generators ..... | 860 |
| <i>Xinming Lu, Wensheng Liu, Kai Song, Fulin Fan, Jinhai Jiang, Rui Xue, Chuanyu Sun, Wenbo Hao, Ke Hua</i>                           |     |
| Noise-Robust Image Jacobian Estimation for Visual Servoing Using BP Neural Network and Robust Kalman Filtering .....                  | 867 |
| <i>Ze-Zhi Long, Jia-Le Guo, Xin-Mei Wang</i>                                                                                          |     |
| Pipeline Anomaly Detection Based on KPCA and Cosine Distance Prototypical Network .....                                               | 872 |
| <i>Kang Yi, Xin Liu, Wenkai Hu, Yupeng Li</i>                                                                                         |     |
| Trajectory Tracking for Directional Drilling in Underground Coal Mine Using Robust Model Predictive Control.....                      | 878 |
| <i>Jiajun Wu, Chengda Lu, Hao Li, Hongchao Wei, Min Wu</i>                                                                            |     |
| Belt Blockage Detection on Low-Visibility Environment Based on YOLOv8s and MobileVit.....                                             | 884 |
| <i>Zhihao Zhou, Yuwei Meng, Xiaoyan Jia, Rongdong Yu, Xingwei He, Yingchi Zhang, Zhan Wang</i>                                        |     |
| Predicting Execution Time of Concurrent Applications Using Performance Counters .....                                                 | 890 |
| <i>Shamoon Imtiaz, Moris Behnam, Gabriele Capannini, Jan Carlson, Marcus Jägemar</i>                                                  |     |
| IoT-Based Automation System for Vertical Hydroponic Farms .....                                                                       | 897 |
| <i>D. K. Kumburage, H. V. T. G. Hewavitharana, M. N. T. Perera, Y. W. R. Amarasinghe, W. A. D. M. Jayathilaka</i>                     |     |
