2024 3rd International Conference on Automation, Robotics and Computer Engineering (ICARCE) **ICARCE 2024**

Table of Contents

Preface	xix
Conference Committee	xx

Robotics

Dynamic Task Sequence Allocation Based on Natural Language Instruction	1
<i>Yongchang Li (Yantai University, China; Nanjing Research Institute of Electronics Engineering, China), Jianhang Feng (Elecchronics Technology Group Corporation, China), Zhigang Tao (Elecchronics Technology Group Corporation, China), Lumeng Ma (Shanghai Institute of Technology, China), Yanzhi Dong (Yantai University, China), and Xiaohu Yuan (Tsinghua University, China)</i>	
Exploring the Capability of Deep Neural Network on Ship Sub-Assembly Weld Seam Recognition....	6
<i>Xuyue Yin (Shanghai Shipbuilding Technology Research Institute, China), Shihao Kang (Shanghai Shipbuilding Technology Research Institute, China), Ruixue Zhang (Shanghai Shipbuilding Technology Research Institute, China), Naikun Wei (Shanghai Shipbuilding Technology Research Institute, China; Shanghai Jiao Tong University, China), and Jun Jiang (Shanghai Shipbuilding Technology Research Institute, China)</i>	
Enhanced CBBA with Multi-Condition Evaluation for Multi-Robot Collaborative Exploration	12
<i>Wei Qian (Shanghai University, China), Yonghang Zheng (Shanghai University, China), Kang Xu (Shanghai University, China), Jiaying Hu (Shanghai University, China), Wenwei Qiu (Shanghai University, China), and Yangmin Xie (Shanghai University, China)</i>	
Flexible Circuits for Soft Robotics	17
<i>Li Wang (Chongqing Vocational Institute of Engineering, China), Yin Zhang (School of Big Data and Internet of Things, School of Big Data and Intelligent Engineering, China), Peijin Li (Chongqing Vocational Institute of Engineering, China), Huangyu Zhou (Chongqing Vocational Institute of Engineering, China), Fanghao Ning (Chongqing Vocational Institute of Engineering, China), and Tao Qin (Chongqing Vocational Institute of Engineering, China)</i>	

Human-Robot Interaction: A ROS2-Based Approach with Voice and Vision Integration	21
<i>Jing Zhang (Laurentian University, Canada) and MengCheng Lau (Laurentian University, Canada)</i>	
Robot Teleoperation via Virtual Reality: A Unity and ROS Approach	26
<i>Matheus Nicolás Hernandez (SENAI Innovation Institute for Manufacturing Systems, Brazil), Brenno Henrique Ramos Domingues (SENAI Innovation Institute for Manufacturing Systems, Brazil), Roberto Simoni (Universidade Federal de Santa Catarina, Brazil), Douglas Negri (SENAI Innovation Institute for Manufacturing Systems, Brazil), Diego de Souza (SENAI Innovation Institute for Manufacturing Systems, Brazil), and Luís Gonzaga Trabasso (SENAI Innovation Institute for Manufacturing Systems, Brazil)</i>	
Implementation of Rao-Blackwellized Particle Filter on LIMO ROS2	30
<i>Guangtian Gong (Laurentian University, Canada) and Mengcheng Lau (Laurentian University, Canada)</i>	
An Iterative Variable Step Error Compensation Approach for Enhancing Robot Trajectory Accuracy	36
<i>Chengzhi Wang (Harbin Institute of Technology, China), Sikai Zhao (Harbin Institute of Technology, China), Tianjiao Zheng (Harbin Institute of Technology, China), Hegao Cai (Harbin Institute of Technology, China), Jie Zhao (Harbin Institute of Technology, China), and Yanhe Zhu (Harbin Institute of Technology, China)</i>	
Development of Soccer Robot	41
<i>Supaphon Kamon (KOSEN-KMITL, Thailand; King Mongkut's Institute of Technology Ladkrabang (KMITL), Thailand), Promphak Boonraksa (Rakamangla University of Technology, Thailand), and Sanit Teavchhim (KOSEN-KMITL, Thailand; King Mongkut's Institute of Technology Ladkrabang (KMITL), Thailand)</i>	
A Dynamic Control System for Robotic Goalkeeping using YOLOv9 and Path Planning	45
<i>Wenyu Luo (Laurentian University, Canada) and MengCheng Lau (Laurentian University, Canada)</i>	
Optimization Machining Processes in Multi-User Cyber-Physical Cells: A Comparative	50
<i>Giovani S. M. Martins (University Center SENAI/SC Campus Joinville, Brazil), Thiago Martins (University Center SENAI/SC Campus Joinville, Brazil), Thiago R. Soares (University Center SENAI/SC Campus Joinville, Brazil), Ighor H. L. Zafalão (University Center SENAI/SC Campus Joinville, Brazil), Anderson C. Fernandes (University Center SENAI/SC Campus Joinville, Brazil), Álvaro P. Graziani (University Center SENAI/SC Campus Joinville, Brazil), Bruna Z. Camillo (University Center SENAI/SC Campus Joinville, Brazil), Roberto Simoni (Federal University of Santa Catarina, Brazil), and Luís Gonzaga Trabasso (SENAI Institute of Innovation in Manufacturing and Laser Processes, Brazil)</i>	
Design and Prototyping of an Robotic Exoskeleton for Rehabilitation after Total Knee Arthroplasty	55
<i>Raed Abdulameer Mahmood Alalwani (Sharif University of Technology International Campus, Iran; Alfurat Al-awsat Technical university, Iraq) and Ali Selk Ghafari (Sharif University of Technology International Campus, Iran)</i>	

A Kinematic Parameter Identification Method Based on Auxiliary Variable for Industrial Robots	60
<i>Fei Liu (Kunming University of Science and Technology, China), Guanbin Gao (Kunming University of Science and Technology, China), and Jing Na (Kunming University of Science and Technology, China)</i>	
Study on Point Cloud Processing Technology in Robotic Welding for Ship Sub-Assembly	65
<i>Ruixue Zhang (Shanghai Shipbuilding Technology Research Institute, China), Chenpeng Liang (Beibu Gulf University, China), Yan Huang (Shanghai Shipbuilding Technology Research Institute, China), Shihao Kang (Shanghai Shipbuilding Technology Research Institute, China), Naikun Wei (Shanghai Shipbuilding Technology Research Institute, China), and Xuyue Yin (Shanghai Shipbuilding Technology Research Institute, China)</i>	
Advanced Government Chatbot Featuring Multi-Source Strategy for Effective Goal-Driven Dialogues	71
<i>Zhixuan Lian (Beihang University, China; Nankai University, China), Fang Wang (Nankai University, China), Meiyin Huang (Nankai University, China), and Xiaoyu Wang (Dongbei University of Finance & Economics, China)</i>	
Energy Optimization Analysis of Robot Trajectories and Optimization Strategies of Processing Tasks Based on Time-Scaling Functions	77
<i>Jin Zhou (Chongqing University, China), Degui Qiu (Chongqing University, China), Congfu Huang (Chongqing Vocational Institute of Engineering, China), Kehan Ping (Chongqing University, China), and Xuanhao Wen (Chongqing University, China)</i>	
Design of an Intelligent Assisted Medical Robotic Arm	85
<i>Heming Wang (Jilin Agricultural Science and Technology University, China), Chunhao Yu (Jilin Agricultural Science and Technology University, China), Nan Wang (Jilin Agricultural Science and Technology University, China), Bo Fu (Jilin Agricultural Science and Technology University, China), Bo Cui (Jilin Agricultural Science and Technology University, China), and Liang Yang (Jilin Agricultural Science and Technology University, China)</i>	
Research on Aircraft Automatic Drilling and Riveting Task Planning and Simulation Technology Based on DELMIA	90
<i>Tao Jin (Southwest China Research Institute of Electronic Equipment, China), Chenyang Lin (Southwest China Research Institute of Electronic Equipment, China), and Jiancheng Shi (Southwest China Research Institute of Electronic Equipment, China)</i>	
A Structure Design and Finite Element Analysis of a Dual Servo-Driven Gripping Manipulator.....	95
<i>Jing Sheng (Nanchang Institute of Technology, China), Shuliang Wu (Nanchang Institute of Technology, China), Guoman Liu (Nanchang Institute of Technology, China), Xin Ma (Nanchang Institute of Technology, China), Tao Sun (Nanchang Institute of Technology, China), Chengjian Huang (Nanchang Institute of Technology, China), and Yongwei Chen (Nanchang Institute of Technology, China)</i>	

Automated Detection of Korean Melons Based on YOLOv10 for Use in Quadruped Robot	99
<i>Do Hyeon Lee (Sejong University, Korea), Dong Seok Shin (Sejong University, Korea), Yoel Kim (Sejong University, Korea), Young Jin Seo (Gyeongsangbuk-do Agricultural Research & Extension Services, Korea), Do Yeon Won (Gyeongsangbuk-do Agricultural Research & Extension Services, Korea), and Hyun Kwon Suh (Sejong University, Korea)</i>	
Development and Implementation of a 6-DOF Robotic Arm with Machine Vision for Sorting Application	103
<i>Angelie L. Umbay (Mapúa University, Philippines), Aldrin D. Calderon (Mapúa University, Philippines), Edward B. Ang (Mapúa University, Philippines), Ricky D. Umali (Mapúa University, Philippines), and Jaime P. Honra (Mapúa University, Philippines)</i>	
Dynamic Simulation of MNPs Particles Removed from Vessels by Micro-Nanorobots	107
<i>Jian-Feng Ju (University of Science and Technology Liaoning, China), Xue-Bo Chen (University of Science and Technology Liaoning, China), and Mei-Juan Li (University of Science and Technology Liaoning, China)</i>	
Teleoperated Mobile Robotic Manipulator for Rescue Scenarios	112
<i>Huaihang Zheng (Beijing Institute of Technology, China), Shangfei Liu (Beijing Institute of Technology, China), and Junzheng Wang (Beijing Institute of Technology, China)</i>	
Research on Control Strategy for Waist-Assisted Exoskeleton	117
<i>Yangyang Li (Guizhou Aerospace Control Technology Co., Ltd, China), Dingan Song (Guizhou Aerospace Control Technology Co., Ltd, China), Jing Hu (Guizhou Aerospace Control Technology Co., Ltd, China), Lin Li (Guizhou Aerospace Control Technology Co., Ltd, China), Chao Guo (Guizhou Aerospace Control Technology Co., Ltd, China), and Jian Lv (Guizhou University, China)</i>	

Machine Vision and Image Processing

Design and Implementation of VGA Image Transmission Based on FPGA	122
<i>Weijun Hao (Chongqing Vocational College of Culture and Arts, China)</i>	
The Aircraft Assisted Driving Method Based on Machine Vision	128
<i>Zheyuan Zhang (Shanghai Aircraft Design and Research Institute, China)</i>	
Closed-Loop Individual Music Neurofeedback Based on Brain-Computer Interaction for Student Stress Intervention	132
<i>Mengxuan Hu (Beijing Institute of Technology, China), Jingxi Zhang (Beijing Institute of Technology, China), Guangying Pei (Beijing Institute of Technology, China), and Tianyi Yan (Beijing Institute of Technology, China)</i>	

Research on Low Illumination Target Detection Method for Prefabricated Beam Field Based on Retinex	139
<i>Yisheng Zhang (Anhui Shuzhi Construction Research Institute Co., Ltd, China Railway No.4 Engineering Group Co., Ltd, China), Nan Hu (Anhui Shuzhi Construction Research Institute Co., Ltd, China Railway No.4 Engineering Group Co., Ltd, China), Zhijie Jiang (Anhui Shuzhi Construction Research Institute Co., Ltd, China Railway No.4 Engineering Group Co., Ltd, China), Jingxiang Hu (Anhui Shuzhi Construction Research Institute Co., Ltd, China Railway No.4 Engineering Group Co., Ltd, China), and Lanxi Duan (Anhui Shuzhi Construction Research Institute Co., Ltd, China Railway No.4 Engineering Group Co., Ltd, China)</i>	
A New Efficient Classification Method for Monkeypox Virus Skin Lesions Based on MPFormer	146
<i>Eryang Huan (Zhengzhou University of Light Industry, China) and Hui Dun (Zhengzhou University of Light Industry, China)</i>	
High Dynamic Range Image Processing Techniques for Automation and Machine Vision	152
<i>Chunhao Li (Zhejiang University of Science and Technology, China)</i>	
Wave-Bottleneck: An Enhanced Architecture for Decreasing Parameters in Deep Network Models.	157
<i>Xiangyang Li (Baoji University of Art and Science, China), Yafeng Li (Baoji University of Art and Science, China), Ning Li (Baoji University of Art and Science, China), Pan Fan (Baoji University of Art and Science, China), Xueya Zhang (Baoji University of Art and Science, China), and Miao He (Baoji University of Art and Science, China)</i>	
MER-MFNet: Micro-Expression Recognition Based on Multimodal Fusion Network	163
<i>Qian Wang (Baoji University of Art and Science, China), Yafeng Li (Baoji University of Art and Science, China), Ning Li (Baoji University of Art and Science, China), Pan Fan (Baoji University of Art and Science, China), Xueya Zhang (Baoji University of Art and Science, China), and Miao He (Baoji University of Art and Science, China)</i>	
SE(3) Pose Estimation for Simultaneous Localization of Objects and Sensors in Dynamic Environments	169
<i>Jiajun Lei (Chengdu University of Technology, China), Jiaxiang Wei (Chengdu University of Technology, China), and Zhihao Zhang (Sanya University, China)</i>	

Machine Language and Deep Learning

Bifurcation Investigating of a Fractional Neural Networks Involving Incommensurate Delays	176
<i>Tongxing Li (Taishan University, China), Xin Wang (Shandong Jianzhu University, China), Hui Zhang (Taishan University, China), Yan Wang (Shandong Agricultural University, China), and Yongfeng Zhang (Taishan University, China)</i>	
Multimodal Physiological Signal for the Diagnosis of Parkinson's Disease	181
<i>Yiliu He (Beijing Institute of Technology, China), Mengxuan Hu (Beijing Institute of Technology, China), Boyan Fang (Capital Medical University, China), Guangying Pei (Beijing Institute of Technology, China), and Tianyi Yan (Beijing Institute of Technology, China)</i>	

A Design of Network Security Model for Power System Based on Deep Learning	185
<i>Hongyu Chen (Beijing Guodiantong Network Technology Co., Ltd., China), Wenmao Gao (State Grid Liaoning Electric Power Co., Ltd., China), and Siyu Chen (State Grid Liaoning Electric Power Co., Ltd., China)</i>	
Few-Shot Image Classification with Meta Random Fourier Features Based on Bayesian Optimization	190
<i>Tingting Wang (Jilin University, China), Shuqing Sun (Jilin University, China), and Yunfeng Hu (Jilin University, China)</i>	
Automated Knitting Instruction Generation from Fabric Images using Deep Learning	197
<i>Xingyu Zheng (Shanghai International Fashion Education Centre, China), Haoliang Sheng (Laurentian University, Canada), Songpu Cai (Laurentian University, Canada), Meng Cheng Lau (Laurentian University, Canada), and Kaiyu Zhao (Shanghai International Fashion Education Centre, China)</i>	
Research on Imaging Detection of Defects in X-ray Oil and Gas Casings Based on MIT-MTT Combined Instrument	202
<i>Xifeng Yi (Sinopec Shengli Oilfield Company, China), Yang Zhang (Xijing University, China), Huaigu Tian (Xijing University, China), Juanli Zhang (Shaanxi Huachen Petroleum Technology Co., Ltd, China), Feng Zhang (Sinopec Shengli Oilfield Company, China), and Yubao Li (Sinopec Shengli Oilfield Company, China)</i>	
Bringing Two Worlds Together: The Convergence of Large Language Models and Knowledge Graphs	207
<i>Linyue Cai (Sichuan University Pittsburgh Institute, China), Yongqi Kang (Sichuan University Pittsburgh Institute, China), Chaojia Yu (Sichuan University Pittsburgh Institute, China), Yu Fu (Sichuan University Pittsburgh Institute, China), Heng Zhang (Zhejiang University of Finance & Economics Dongfang College, China), and Yong Zhao (Sichuan University Pittsburgh Institute, China)</i>	
A Corrosion Detection Method for Hydraulic Metal Structures Based on an Improved YOLOv10 Model	217
<i>Haodong Cheng (Dalian University of Technology, China), Fei Kang (Dalian University of Technology, China), and Sisi Zhu (China Yangtze Power Co., Ltd., China)</i>	
End-to-End Speech Recognition of Central Miao Language Based on Wav2Vec 2.0	222
<i>Danian Wu (Shanghai University, China), Yonghua Zhu (Shanghai University, China), and Hong Yao (Shanghai Jian Qiao University, China)</i>	
A Low-Cost and Energy-Efficient Real-Time Speech Isolation Model for AIoT	230
<i>Kaibo Xu (University of Macau, China), Wei-Han Yu (University of Macau, China), Ka-Fai Un (University of Macau, China), Rui P. Martins (University of Macau, China), and Pui-In Mak (University of Macau, China)</i>	
Gameplay Generation System Based on Game Description Language	235
<i>Zetao Zhang (Yunnan Daily Press Group, China), Yiran Sun (Tsinghua Shenzhen International Graduate School, China), Chaohui Du (Tsinghua Shenzhen International Graduate School, China), Jinsheng Jiang (Supercell, Finland), and Xing Sun (Tsinghua Shenzhen International Graduate School, China)</i>	

Fall Detection by 1D-CNN Based on Public Dataset using a Wrist-Worn Smartwatch	239
<i>Songsheng Li (Hong Kong College of Technology, China)</i>	
Track Prediction Method of Unmanned Platform Based on Reinforcement Learning and Improved Potential Field Method	244
<i>Liu Yang (Wuhan Digital Engineering Institution, China)</i>	

Computer Control Systems and Algorithms

Construction of Underwater Sound Field Propagation Loss Simulation Platform	250
<i>Shuo Shang (Yantai University, China), Zhongxun Wang (Yantai University, China), and Yongchang Li (Yantai University, China)</i>	
Extraction of Weld Seam Centerline Based on Improved Canny Algorithm	255
<i>Yuxuan Yang (Beijing Research Institute of Automation for Machinery Industry, China), Bing Wei (Beijing Research Institute of Automation for Machinery Industry, China), Xiaoqing Cao (Beijing Research Institute of Automation for Machinery Industry, China), Pengtao Zhu (Beijing Research Institute of Automation for Machinery Industry, China), and Yiran Guo (Beijing Research Institute of Automation for Machinery Industry, China)</i>	
Edge Computing for Industrial Dust Reduction Research Applications	262
<i>Bangxuan Sun (North Minzu University, China), Fuping Wang (North Minzu University, China), Shun Zhao (North Minzu University, China), and Peng Wang (North Minzu University, China)</i>	
Hardware Based Real-Time Processing of Online Ultrasonic Data of Railway Wheel Cracks: Multi-Sampling Rate Algorithm	270
<i>Zhilin Sun (Nanjing Pioneer Awareness Information Technology Company Ltd., China), Jie Sun (Nanjing Xiaozhuang University, China), and ZhengYing Shi (Nanjing Pioneer Awareness Information Technology Company Ltd., China)</i>	
Two-Stage Optimization Model for Parcel Replenishment Delivery Based on Mobile Lockers	275
<i>Yanbing Gao (Business School of Sichuan University, China), Qin Lei (Business School of Sichuan University, China), and Zhibin Wu (Business school of Sichuan University, China)</i>	
Intersection Feature Analysis and Signal Control Optimization Based on VISSIM	281
<i>Haoyue Wang (North China University of Technology, China), Zundong Zhang (North China University of Technology, China), and Shilin Zhang (North China University of Technology, China)</i>	
Design and Application of Communication Technology System for Mine Power Supply	286
<i>Wenqiang Xie (Xi'an Research Institute of China Coal Technology & Engineering Group, China)</i>	

Comparison of KAN, MLP, and SVM for NIR Spectra Classification	290
<i>Juan Huo (Zhengzhou University, China), Feng He (China Tobacco Hebei Industrial Co., Ltd, China), Xiaofan Zhao (China Tobacco Hebei Industrial Co., Ltd, China), Xiaohui Jia (China Tobacco Hebei Industrial Co., Ltd, China), Changtong Lu (China Tobacco Henan Industrial Co., Ltd, China), Yibo Ning (China Tobacco Henan Industrial Co., Ltd, China), Xueying Cao (China Tobacco Henan Industrial Co., Ltd, China), Wenning Feng (China Tobacco Hebei Industrial Co., Ltd, China), and Rong Ma (China Tobacco Hebei Industrial Co., Ltd, China)</i>	
Particle Swarm Algorithm Based Scheduling Method for Flexible Production Line	295
<i>Xi Zhao (AVIC Chengdu Aircraft Industry (Group) Co., Ltd, China), Huajian Tan (AVIC Chengdu Aircraft Industry (Group) Co., Ltd, China), Lin Ye (AVIC Chengdu Aircraft Industry (Group) Co., Ltd, China), and Xuebin Lu (AVIC Chengdu Aircraft Industry (Group) Co., Ltd, China)</i>	
Design of a 1700V-300A 62mm SiC MOSFET Module	301
<i>Yu Zhang (Xian Siyuan University, China) and Yang Wen (Xi'an University of Technology, China)</i>	
Participation in Vehicle-to-Grid Systems: Understanding the Role of Technology Awareness, Policy Incentives, and Personal Financial Gain	306
<i>Hanze Zhou (State Grid Zhejiang Economy Technical Research Institute, China), Zhou Lan (State Grid Zhejiang Economy Technical Research Institute, China), and Zhijian Cai (Zhejiang University of Finance and Economics, China)</i>	
Intelligent Simulation and Measurement of Dielectric Constant of Alumina in Terahertz Band.....	312
<i>Wang Sun (National Key Laboratory of Scattering and Radiation, China), Liangsheng Li (National Key Laboratory of Scattering and Radiation, China), He Cai (National Key Laboratory of Scattering and Radiation, China), and Hongcheng Yin (National Key Laboratory of Scattering and Radiation, China)</i>	
Rapid Assembly Method of Large Volume Stone for Transportation Facilities Based on BIM	316
<i>Yan Dong (China Harbour Engineering Company Ltd, China), Haotian Yang (China Harbour Engineering Company Ltd, China), Qiang Yang (China Harbour Engineering Company Ltd, China), Yuanhai Qu (Chang'an university, China), Gang Wang (China Harbour Engineering Company Ltd, China), and Xingli Jia (Chang'an university, China)</i>	
Analysis of Electric Field on the Surface of Fittings and Main Equipment Inside $\pm 800\text{kV}$ UHV Converter Valve Hall Based on the Finite Element Analysis	321
<i>Jing Wang (Pinggao Group(Henan) Power Equipment Technology Co., Ltd., China), Guohua Yang (Pinggao Group(Henan) Power Equipment Technology Co., Ltd., China), Wei Zhang (Pinggao Group(Henan) Power Equipment Technology Co., Ltd., China), Yue Zhao (Jiaotong University, China), Ruonan Hu (Jiaotong University, China), Wenwei Li (Jiaotong University, China), Yanan Wu (Jiaotong University, China), Yaoguang Yang (Jiaotong University, China), and Bo He (Jiaotong University, China)</i>	

Research on Robustness and Denoising Based on the H-F Algorithm of the Large-Aperture Optical Infrared Telescope	325
<i>Yanpeng Guo (University of Chinese Academy of Sciences, China), Shihai Yang (Chinese Academy of Sciences, China), Zhuangzhuang Deng (University of Chinese Academy of Sciences, China), Yun Li (Chinese Academy of Sciences, China), Cong Pan (University of Chinese Academy of Sciences, China), Lingzhe Xu (Chinese Academy of Sciences, China), Shuo Han (University of Chinese Academy of Sciences, China), Jun Shao (Chinese Academy of Sciences, China), and Liang Chen (Chinese Academy of Sciences, China)</i>	
Development of a Laser-Based Measuring System for the Radius and Roundness of Stator	331
<i>Yunfeng Yang (Qinghai Huanghe Hydropower Development CO., LTD, China), Xiaoliang Dou (Qinghai Huanghe Hydropower Development CO., LTD, China), Shutao Hao (Qinghai Huanghe Hydropower Development CO., LTD, China), Yonglin Shi (Qinghai Huanghe Hydropower Development CO., LTD, China), Zhiqing Zhong (Qinghai Huanghe Hydropower Development CO., LTD, China), and Jie Liang (Zhengzhou University, China)</i>	
Pedestrian Positioning Algorithm Based on Zero-Velocity Correction	335
<i>Shiying Huang (Beihang University, China), Haolin Li (Beihang University, China), Xueyan Zhang (Harbin Medical University, China), Hongwei Liu (Beijing Institute of Precision Machinery and Control, China), and Tianhua Fu (Beijing Experimental Factory Co., Ltd, China)</i>	
The PCA Fault Diagnosis Method Based on Causal Relationships	340
<i>Changqing Li (University of South China, China), Jie Liu (University of South China, China), Xiaohua Yang (University of South China, China), Ying Wei (China Nuclear Power Institute Research and Design Institute, China), Zhiqiang Wu (China Nuclear Power Institute Research and Design Institute, China), and Meng Li (University of South China, China)</i>	
Inverse Linear Quadratic Regulator Problem for Discrete-Time Systems via LMI	345
<i>Qiang Li (University of Science and Technology of China, China), Wenwu Fan (University of Science and Technology of China, China), and Junlin Xiong (University of Science and Technology of China, China)</i>	
A Large-Scale Multi-Objective Evolutionary Algorithm Based on Two-Layer Encoding Scheme for Neural Network Training	352
<i>Wanting Yang (Northeastern University, China), Jianchang Liu (Northeastern University, China), and Tianzi Zheng (Northeastern University, China)</i>	

Simulation and Optimization of On-Die Termination Based on DDR5	357
<i>Lu Zhang (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Tuo Li (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Xiaofeng Zou (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Yongzheng Zhan (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Menglong Wang (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Qi Song (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Qing Zhang (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), Jinfeng Song (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China), and Linlin Yang (Shandong Yunhai Guochuang Cloud Computing Equipment Industry Innovation Co., Ltd., China)</i>	
Calculation Method of Collision Probability for Airdropping Targets in Limited Space	362
<i>Zhanfeng Wang (95829 PLA Troops, China), Yaqin He (95829 PLA Troops, China), and Zhenfeng Cao (Centralized Funds Receipt and Payment Management CenterPLA, China)</i>	

Artificial Intelligence and Human-machine Interaction

Human-Robot Collaboration Attack Based on Perception Deception	366
<i>Yajie Liu (Yantai University, China), Jie Ren (Yantai University, China), Xianglong Meng (Yantai University, China), Chuanbin Sun (Yantai University, China), Yanzhi Dong (Yantai University, China), and Xiaohu Yuan (Qiyuan Lab, China)</i>	
Tool or Partner: Mental-Aware Human-Robot Collaboration	370
<i>Jie Ren (Yantai University, China), Yajie Liu (Yantai University, China), Peiyan Li (Columbia University, America), Xianglong Meng (Yantai University, China), Yanzhi Dong (Yantai University, China), and Xiaohu Yuan (Qiyuan Lab, China)</i>	
One-Handed Gesture Recognition Based on Improved ST-GCN and CA Attention Mechanism	375
<i>Guixin Wang (GuangDong BaiYun University, China)</i>	
Design of Forest Fire Alarm System Based on GSM	379
<i>Shibing Bai (Chongqing City Vocational College, China)</i>	
Research on Cockpit Aviation Accident Analysis Model	384
<i>Zheyuan Zhang (Shanghai Aircraft Design and Research Institute, China)</i>	
Research on Prevention and Management of Crew Errors in Aircraft Cockpit Design	388
<i>Yao Zhu (Comac Shanghai Aircraft Design & Research Institute, China) and Xinrong Liu (Comac Shanghai Aviation Industrial (Group) Co., Ltd., China)</i>	

AI-Driven Metaverse Digital Twin Cities: Prototype Platform Design for Integrated Virtual Urban Ecosystems and Services	393
<i>Xiang Li (Zhejiang University of Technology, China), Yi Yang (Zhejiang University of Technology, China; The University of Tokyo, Japan), Benhao Xie (University of Nottingham Ningbo, China), Zhen He (Tongji University, China), Jinqing Chen (Zhuhai Institute of Urban Planning & Design, China), and Wei Gan (Tongji University, China)</i>	
A Human Factors Validation Methods Incorporating the Degrees of Novelty, Complexity, and Integration of Cockpit Design Items	400
<i>Qian Shen (COMAC ShangHai Aircraft Design and Research Institute, China), Shasha Lu (COMAC ShangHai Aircraft Design and Research Institute, China), Yao Zhu (COMAC ShangHai Aircraft Design and Research Institute, China), Yiyuan Zheng (Shanghai Validation Centre, China), and Pengyu Yang (COMAC ShangHai Aircraft Design and Research Institute, China)</i>	
Students' Attitudes Towards the AI-Based Automated Essay Scoring System: An Influencing Mechanism from Perceived Interactivity to Criticism	406
<i>Ying Zhang (Shandong Ying Cai University, China), Yuna Yao (Shandong Ying Cai University, China), and Shu-Jing Wu (Guangzhou Institute of Science and Technology, China)</i>	
A Method for Cockpit Human-Machine Interface Assessment Based on Human Error Analysis	411
<i>Pengyu Yang (Comac ShangHai Aircraft Design and Research Institute, China), Shasha Lu (Comac ShangHai Aircraft Design and Research Institute, China), Yao Zhu (Comac ShangHai Aircraft Design and Research Institute, China), Qian Shen (Comac ShangHai Aircraft Design and Research Institute, China), and Yuan Wang (Comac ShangHai Aircraft Design and Research Institute, China)</i>	
Dynamic Voxel-Based Lidar Inertial Fusion SLAM Algorithm for Denial Scenarios	418
<i>Honglei Dong (SAMR Defective Product Recall Technical Center, China), Ziyang Yi (South China University of Technology, China), Wenhao Hu (SAMR Defective Product Recall Technical Center, China), Fengchong Lan (South China University of Technology, China), and Yunjiao Zhou (South China University of Technology, China)</i>	
A Practical HCI Evaluation Approach of Flight Deck	425
<i>Yuan Wang (Shanghai Aircraft Design & Research Institute, China), Yuzhou Ding (China Eastern Airlines, China), Yao Zhu (Shanghai Aircraft Design & Research Institute, China), Shasha Lu (Shanghai Aircraft Design & Research Institute, China), Qian Shen (Shanghai Aircraft Design & Research Institute, China), and Pengyu Yang (Shanghai Aircraft Design & Research Institute, China)</i>	
RELA: An Online-Offline Framework for Rules Enhanced Logs Analysis Based on Large Language Models	430
<i>Xin Ji (Big Data Center of State Grid Corporation of China, China), Ruibo Chen (Beihang University, China), Yikai Chen (Beihang University, China), Nan Xiang (Big Data Center of State Grid Corporation of China, China), and Kui Zhang (Beihang University, China)</i>	

Text Input Through Swipe Gestures Based Personalized AI Agent	435
<i>Xiangyu Qi (Beijing Institute of Technology, China), Dongdong Weng (Beijing Institute of Technology, China), Jie Hao (Beijing Institute of Technology, China), and Zihao Li (Beijing Institute of Technology, China)</i>	

Automation and Control

Development of Automatic Detection System for Explosion-Proof Test	440
<i>Wenqiang Xie (Xi'an Research Institute of China Coal Technology & Engineering Group, China)</i>	
A Language-Prompted Model for Semi-Supervised Object Detection	444
<i>Ying Zeng (Gannan University of Science and Technology, China) and Jialong Zhu (East China Jiaotong University, China)</i>	
Application Research on Dynamic Obstacle Avoidance and Navigation of Intelligent Vehicle Based on ROS	449
<i>Zhengyang He (Sichuan University Jinjiang College, China) and Dong Ran (Sichuan University Jinjiang College, China)</i>	
RANS Model-Based Constant Temperature Anemometry Examination to Validate Negligible Wind Tunnel Blockage Effect on Developed Multi-Scale Generated Grid Turbulence	453
<i>Keita Nakamura (Okayama University, China), Hiroki Suzuki (Okayama University, China), Toshinori Kouchi (Okayama University, China), and Kento Tanaka (Okayama University, China)</i>	
Research on MPPT with Improved Perturb-Observe Method	458
<i>Shengli Fang (Hubei University of Automotive Technology, China), Long Wang (Hubei University of Automotive Technology, China), Chao Zeng (Shiyan Juneng Power Design Co., Ltd, China), Peng Li (State Grid Hubei Electric Power Co., Ltd, China), Xiangping He (Shiyan Juneng Power Design Co., Ltd, China), and Chunyan Ma (Hubei University of Automotive Technology, China)</i>	
The Design and Implementation of a Control Computer Based-on FPGA Core	463
<i>Chuanfei Qiu (Arm Engineering University of PLA, China), Chunting Zhang (Arm Engineering University of PLA, China), Quanzhi Zhou (Arm Engineering University of PLA, China), Xiaofang Lou (Arm Engineering University of PLA, China), Junyong Liu (Arm Engineering University of PLA, China), and Hao Yang (Arm Engineering University of PLA, China)</i>	
Automatic Reading System for Thermometer Verification Based on Image Recognition	467
<i>Yunguang Gao (Engineering Machinery College, Hunan Sany Polytechnic College, China), Yaping Wang (Engineering Machinery College, Hunan Sany Polytechnic College, China), Jibo Wu (Engineering Machinery College, Hunan Sany Polytechnic College, China), and Lü Wan (Engineering Machinery College, Hunan Sany Polytechnic College, China)</i>	
Efficient Residual Chlorine Tracking and Automated Neutralization System	471
<i>Shixu Wang (Ocean University of China, China), Bin Wu (SINOPEC, China), Shuhao Niu (SINOPEC, China), Jixian Wang (Ocean University of China, China), Haitian Wang (Ocean University of China, China), and Min Fu (Ocean University of China, China)</i>	

Space Launch Group Planning Technique for Manned Space Station Construction	476
<i>Xue-jun Dong (Jiuquan Satellite Launch Center, China), Zheng Yan (Xichang Satellite Launch Centre, China), Xin Ye (Xichang Satellite Launch Centre, China), Shao-jiang Chen (Xichang Satellite Launch Centre, China), and Hui Xue (Jiuquan Satellite Launch Center, China)</i>	
Multidimensional Spatiotemporal Analysis of Air Quality Based on Big Data	481
<i>Wei Liu (Hainan College of Software Technology, China), Jun Ou (Hainan College of Software Technology, China), and Xirong Guo (Chengdu University of Information Technology, China)</i>	
Qasync: A Dual Network Architecture for Value Based Multi-Agent Reinforcement Learning	485
<i>Du Xu (Hefei University of technology, China), Lu Jia (Hefei University of technology, China), Yewei Wang (Hefei University of technology, China), Qian Liu (Hefei University of technology, China), and Yong Zhang (Hefei University of technology, China)</i>	
Automatic Detection Device for Ripple of Mine Power Supply	490
<i>Wenqiang Xie (Xi'an Research Institute of China Coal Technology & Engineering Group, China)</i>	
Development Status of Linear Steering Gear for Unmanned Aerial Vehicle	494
<i>Bin Wang (China Aerospace Times Electronics Co., Ltd; Aerospace Times Feihong Technology Company Limited; Beijing Institute of Technology, China), Zhen Tian (Aerospace Times Feihong Technology Company Limited; Beijing Institute of Technology, China), Zhuanghua Liu (Aerospace Times Feihong Technology Company Limited; Beijing Institute of Technology, China), Dongchang Liu (Aerospace Times Feihong Technology Company Limited, China), Saipeng Xie (Aerospace Times Feihong Technology Company Limited, China), and Jun Dai (Beijing Institute of Technology, China)</i>	
Multi-UAV Maneuvering Targets Tracking Based on Mobility-Focused Multi-Agent Deep Deterministic Policy Gradient	498
<i>Yewei Wang (Hefei University of technology, China), Yong Zhang (Hefei University of technology, China), and Lu Jia (Hefei University of technology, China)</i>	
Model Merging with Lightweight Fine-Tuning	503
<i>Yan Pan (Zhejiang University, China) and Yong Wang (State Grid Shandong Electric Power Company, China)</i>	
Research on Application of Stewart Platform in Uniform Scanning	508
<i>Fengchao Liang (Beijing Institute of Space Mechanics & Electricity, China), Shuang Tan (Beijing Institute of Space Mechanics & Electricity, China), Jiankai Fan (Beijing Institute of Space Mechanics & Electricity, China), Ai Zhang (Beijing Institute of Space Mechanics & Electricity, China), Zhe Lin (Beijing Institute of Space Mechanics & Electricity, China), and Zhicheng Shi (Beijing Institute of Space Mechanics & Electricity, China)</i>	
Research on Matching Degree of Agricultural Landscape Based on UAV Space Ranging	513
<i>He Zhang (Changchun University, China), Yixin Cai (Changchun University, China), Min Zong (Shandong Communication & Media College, China), Wenbo Zhang (Changchun University, China), Xiaofei Ma (Changchun University, China), and Da Cong (Changchun University, China)</i>	

Economic Optimal Scheduling of Microgrids Based on Model Predictive Control	518
<i>Shang Gao (State Grid Beijing Electric Power Company, China), Chi Zhang (State Grid Beijing Electric Power Company, China), and Yifan Wu (State Grid Beijing Electric Power Company, China)</i>	
Research on the Features of the Series Arc Fault Detection and Phase Selection Based on Singular Value Decomposition and Multi-Scale Norm	522
<i>Hongxin Gao (Liaoning Technical University, China), Tianfu Liang (Liaoning Technical University, China), Zhiyong Wang (Liaoning Technical University, China), Jiacheng Cai (Liaoning Technical University, China), Kunyuan Wang (Liaoning Technical University, China), and Yuze Lv (Liaoning Technical University, China)</i>	
Electrostatic Effect Intelligent Monitoring for Automatic Stirring Process	526
<i>Yue Feng (Beijing Institute of Technology, China), Fanye Meng (Beijing Institute of Technology, China), Xingfeng Shen (Beijing Institute of Technology, China), and Ruiguo Wang (Beijing Institute of Technology, China)</i>	
Extremely Low Frequency Communications: Antenna Design, System Design, and Experimental Verification	530
<i>Weidong Wan (Xidian University, China)</i>	
Research on Multiple Failure Analysis Method for Dynamic Reconfiguration Flight Control System of BWB Aircraft	536
<i>Xiaozhe Sun (Civil Aviation University of China, China) and Jiaxuan Wang (Civil Aviation University of China, China)</i>	
Analyze the User Behaviors via Network Traffic Data in Smart Home	542
<i>Xintong Li (North China University of Technology, China), Yulong Han (North China University of Technology, China), and Wenle Bai (North China University of Technology, China)</i>	
Research on the Method for Formulating Power Spectral Density of Fuel Cell Vehicle Air Compressor Bench Based on Operating Scenarios	548
<i>Ting Guo (China Auto Inspection Center (Tianjin) Co., Ltd., China Automotive Technology and Research Center Co., Ltd, China), Letian Sun (Hebei University of Technology, China), and Fang Wang (China Automotive Technology and Research Center Co., Ltd, China)</i>	
Active Lateral Riding Comfort Control Strategies of High-Speed Train	554
<i>Xianhui Su (Hefei Rail Transit Group Operation Co., LTD, China) and Yufei Zhang (School of Handicraft Arts, China)</i>	
Author Index	559
