# TABLE OF CONTENTS

|                                                                                                                                                             |    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Computational Analysis Using Multi-Ligand Simultaneous Docking of Withaferin a and Garcinol Reveals Enhanced BCL-2 and AKT-1 Inhibition .....               | 1  |
| <i>Pronama Biswas, Dishali Mathur, Jinal Dinesh, Hitesh Kumar Dinesh, Belaguppa Manjunath Ashwin Desai</i>                                                  |    |
| Optimizing BLDC Motor Performance: A Study of PID, Artificial Neural Network and Fuzzy Logic Controllers.....                                               | 7  |
| <i>Aditya Singh, Shivam Yadav, Saumendra Sarangi, Souradip De, Asheesh K. Singh, Ravindra K. Singh</i>                                                      |    |
| Different DNA Encoding Schemes for Filter Bank Based Tandem Repeat Detection .....                                                                          | 13 |
| <i>Sonakshi Sural, Shaik Basheeruddin Shah, Nazar T. Ali, Vijay Kumar Chakka</i>                                                                            |    |
| Drone Design for Object Detection Using YOLOv8.....                                                                                                         | 18 |
| <i>Prem Prakash, Venu Gopal Yamalakonda, Abhinoy Kumar Singh</i>                                                                                            |    |
| A Generic System Architecture for the Design and Development of a Humanoid Digital Twin.....                                                                | 24 |
| <i>Alan Jimcy, Vivek Goutam, Sudarshan Sridhar, Srinivas A</i>                                                                                              |    |
| Design and Analysis of Second Generation Voltage Conveyor Using FVF and Resistive Compensation Technique .....                                              | 30 |
| <i>Jyoti Singh, Shweta Kumari, Maneesha Gupta</i>                                                                                                           |    |
| Recent Trends in Speech Recognition for Diverse Indian Languages.....                                                                                       | 36 |
| <i>Saswati Rabha, Rohnak Agarwal, Siddhant Sarthak, Chintan Parikh, Anjul Sharma, Bibekananda Buragohain, Divyesh Rajpura, Sainath Reddy, Siva Prasad V</i> |    |
| Spectrally Efficient Generation of Optical Frequency Comb by Employing Cascading of Modulator with EDFA.....                                                | 41 |
| <i>Priyanka Verma, Sukhbir Singh</i>                                                                                                                        |    |
| An Interpretable Brain Tumour Classification Approach Using Machine Learning and CNN-Based Features .....                                                   | 45 |
| <i>S L Saran Kumar, Arjun Dileep, Shreya Sujith, Vivek Venugopal, Susmitha Vekkot</i>                                                                       |    |
| Comparison of 2D & 3D LiDAR SLAM Algorithms Based on Performance Metrics.....                                                                               | 51 |
| <i>N Sai Pranay Kumar, G Nithish Chandra, Prithvi Sekhar P, Rajesh Sola, Prof. Mohan K G</i>                                                                |    |
| A Comprehensive Review of Communication Methodologies in Various Industries: Challenges and Opportunities in the Age of AI .....                            | 57 |
| <i>Ashwini Kumar, Rekha Agarwal, Archana Singh</i>                                                                                                          |    |
| Hysteresis Current Controlled Single-Phase AC to DC Converter with Unity Power Factor and Low Losses.....                                                   | 63 |
| <i>Nageswararao V, Dinkar Prasad</i>                                                                                                                        |    |
| Going Beyond Keywords in Text .....                                                                                                                         | 68 |
| <i>Kinshuk Goel, Priyanshi Tiwari, Anubhav Bhattacharyya, Avni Verma, Oshin Sharma</i>                                                                      |    |
| LegalBERT for Small Business Contract Analysis: An Advanced NLP Tool for Identifying High Risk Clauses .....                                                | 74 |
| <i>Kavya Shanker, Mayank Maurya, Pratham Mayekar, Ketan Shah</i>                                                                                            |    |

|                                                                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| A Holistic Approach to DDoS Mitigation: Leveraging NS-3 Simulation and Traceback for Enhanced Network Resilience.....                                                    | 80  |
| <i>Jeyadev Meka, Abhishek Jain, Nikhil Kumar</i>                                                                                                                         |     |
| Supervised Machine Learning Classifier for Mechanical Property Estimation of Friction Stir Spot Welded Acrylonitrile Butadiene Styrene Sheet in Butt Configuration ..... | 86  |
| <i>Sushil Madheshiya, Vijaykumar S. Jatti, Jiyaul Mustafa, Saiyathibrahim A</i>                                                                                          |     |
| 4 Element Linear Conformal CDRA Phased Scanning Array .....                                                                                                              | 92  |
| <i>Manshree Mishra, Pramod Kumar Gupta, Garima Tiwari, Atul Kumar, Biswajeet Mukherjee</i>                                                                               |     |
| Wide Tri-Band Metamaterial Absorber for C, X, Ku, and K Band Applications .....                                                                                          | 98  |
| <i>Garima Tiwari, Manshree Mishra, Trivesh Kumar, Biswajeet Mukherjee</i>                                                                                                |     |
| Adaptive Privacy and Lightweight Security in Healthcare IoT: Challenges, Solutions and Future Directions .....                                                           | 103 |
| <i>Mukul Chauhan, Tayyab Khan</i>                                                                                                                                        |     |
| Global Music Recommendation Using Deep Contrastive Learning and Hybridized Filtering .....                                                                               | 108 |
| <i>Madhav Gupta, Jayaraman K. Valadi</i>                                                                                                                                 |     |
| Identification of Biomarkers for Colorectal Cancer Using Machine Learning and Bioinformatics Approaches.....                                                             | 113 |
| <i>Rohit Kumar Verma, Prashant Kumar Srivastava, Ashutosh Singh</i>                                                                                                      |     |
| Exploring Human Non-Speech Sound Recognition: Insights from the Nonspeech7K Dataset.....                                                                                 | 119 |
| <i>Ch. V. N. Vaibhav Simha, Ramesh K. Bhukya</i>                                                                                                                         |     |
| Predicting Fetal Health Using Cardiotocography and Machine Learning: A Study on Prenatal Care.....                                                                       | 125 |
| <i>Ribhav Bansal, Indra Ballav Sonowal, Ramesh K. Bhukya</i>                                                                                                             |     |
| Explainability to Image Captioning Models: An Improved Post-Hoc Approach Through Grad-CAM.....                                                                           | 131 |
| <i>Harsh Kumar, Kamalnath M S, Ashwanth Ram A S, Jiji C V</i>                                                                                                            |     |
| CNN-Based Approaches for Tuberculosis Detection in Medical Imaging: A Comparative Analysis .....                                                                         | 137 |
| <i>Riya Agarwal, Anamika Garg, Arnav Goel, Ramesh K Bhukya</i>                                                                                                           |     |
| Diplexer for Sub-6 GHz, 4G and 5G Applications Using Coupled Line Filters with Parallel Stub Lines .....                                                                 | 143 |
| <i>Shaurya Srivastava, Harshiv Gupta, Madhur Deo Upadhayay, Jitendra Prajapati</i>                                                                                       |     |
| Comprehensive Analysis of Deep Learning Approaches for Yoga Pose Detection.....                                                                                          | 149 |
| <i>Devendra K Tayal, Aananya Nagpal, Akshita Jain, Hiteshi Dattatreya, Reva Arya, Hunny Gaur</i>                                                                         |     |
| Double Square Ring Metamaterial Based Backward Wave Oscillator for Microwave Generator .....                                                                             | 155 |
| <i>Nameesha Chauhan, Jitendra Prajapati, Naveen Babu</i>                                                                                                                 |     |
| Empirical Evaluation of Obstacle Range Estimation Techniques in Diverse Environments Using mmWave Radar .....                                                            | 160 |
| <i>Yash Soni, Pranabesh Maji, Dhiraj</i>                                                                                                                                 |     |
| A Novel Machine Learning Framework for Predicting Desertification Trends.....                                                                                            | 166 |
| <i>Karan Singh Samyal, Rajeev Kumar Singh, Vedanta Vivek Patil</i>                                                                                                       |     |

|                                                                                                                                                          |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Design and Performance Analysis of a Two-Switch Forward Converter with RC Snubber for Battery Charging Applications .....                                | 172 |
| <i>Aanchal Surjewala, Kirshan Kumar Gautam, Sandeep Kumar Soni, Amitabh Chatterjee, Devendra Kataria, Dinkar Prasad</i>                                  |     |
| Design and Analysis of a Thyristor Based Three Point Automated Starter for DC Motor .....                                                                | 177 |
| <i>Adrija Goswami, Kirshan Kumar Gautam, Nageswararao V, Devendra Kataria, Amitabh Chatterjee, Dinkar Prasad</i>                                         |     |
| Graphene Based Frequency Tunable Octagon-Shaped Dielectric Resonator MIMO Antenna (DRMA) for Future THz Wireless Application .....                       | 182 |
| <i>Pradnya A Gajbhiye, Satya P. Singh, Madan Kumar Sharma</i>                                                                                            |     |
| Augmented Reality Manipulator .....                                                                                                                      | 188 |
| <i>Naman Malik, Vaibhav Nijhawan</i>                                                                                                                     |     |
| Deciphering Email Threads: A Comparative Study of Large Language Models.....                                                                             | 194 |
| <i>Sonia Khetarpaul, Dolly Sharma, Ananya Barakoti, Anika Sharma, Arjav Jain</i>                                                                         |     |
| Explainable AI with SHAP and Grad-CAM: A Novel Approach to Visualizing Cassava Leaf Health Using CIVE, ECI Indices, and an Advanced UNet Framework ..... | 199 |
| <i>R Srivats, Abhiram Sharma, Kalyanasundaram V, Srisakthi Saravanan</i>                                                                                 |     |
| EMI-Based Damage Prediction of Blended Concrete Under Sulphuric Acid Exposure Using ML and ANN Models.....                                               | 205 |
| <i>Ramesh Gomasa, Visalakshi Talakokula, Sri Kalyana Rama Jyosyula, Tushar Bansal</i>                                                                    |     |
| Automating Defect Detection for the Preservation of Historical Structures.....                                                                           | 209 |
| <i>Balakumar G, Bhuvaneswarran T, Sreehari Veeramachaneni</i>                                                                                            |     |
| Exploring Character Networks in Assamese Cinema: A Graph-Based Analysis.....                                                                             | 215 |
| <i>Rhishikanya Batswa, Parthajit Borah, Subrat Jyoti Neog</i>                                                                                            |     |
| Finite Element Analysis of Concrete Bridge Under Moving Load Across and Along the Span.....                                                              | 221 |
| <i>Bimal Sharma, Shilpa Pal, Naveet Kaur, Pardeep Kumar</i>                                                                                              |     |
| Strength Prediction of Graphene Oxide Concrete Composite Using Machine Learning with EMI Data .....                                                      | 227 |
| <i>Jai Srivastava, Tushar Bansal</i>                                                                                                                     |     |
| Development of Drone Based Concrete Homogeneity Testing Device Suitable for Inaccessible Structures.....                                                 | 232 |
| <i>Naveen Kumar, Naveet Kaur, Pardeep Kumar</i>                                                                                                          |     |
| Efficiently Fine-Tuned Flan T5 LLM for Happiness Oriented Dialogue Summarization .....                                                                   | 237 |
| <i>Vivek Mehta, Mohit Agarwal, Sanskriti Yadav, Jahnvi Sahni</i>                                                                                         |     |
| Markerless Sagittal Gait Analysis of Cerebral Palsy in Children Using Pose Estimation Techniques .....                                                   | 243 |
| <i>Vinay Kumar Vats, Chandra Prakash, Amandeep Kaur, Rajesh Kumar</i>                                                                                    |     |
| Enhanced Prediction of Early-Age Concrete Compressive Strength Utilizing Non-Bonded Piezo Sensors and Deep Learning Methods .....                        | 249 |
| <i>Trushna Jena, T. Jothi Saravanan, Tushar Bansal</i>                                                                                                   |     |
| Intelligent Road Condition Monitoring and Analysis for Safer Highways.....                                                                               | 255 |
| <i>M. Mohamed Iqbal, Nandhana S, Vijay V, Sreehari Veeramachaneni</i>                                                                                    |     |

|                                                                                                                 |     |
