# TABLE OF CONTENTS

Preface

Peer Review Statement

|                                                                                                                                                                                                                 |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Green Synthesizes of Silver Nanoparticles (AgNP) from Henna Leaf Extract ( <i>Lawsonia Inermis</i> ) and Its Chemical and Physical Properties as Photo-Sensitizers in the DSSC.....                             | 1   |
| <i>Ida Usman, Aisyah D. Saputri, Waode S. Arsyad, La O. A. N. Ramadhan, La Aba, Rahmat Hidayat, Toto Winata</i>                                                                                                 |     |
| The Influence of Annealing Temperature on the Grain Size of a Nickel Metal Catalyst Suitable for Carbon Nanotube Growth.....                                                                                    | 12  |
| <i>Rustan Ruslan, A. Wahidin Nuayi, Ajeng Eliyana, Fatimah A. Noor, Toto Winata</i>                                                                                                                             |     |
| Fabrication of Fe <sub>3</sub> O <sub>4</sub> /PVDF Magnetic Nanofiber Membranes for Magnetic Field Sensor .....                                                                                                | 25  |
| <i>Nabila P. Aulia, Lya R. Herawati, S. U. I. Subadra, Arif Hidayat, Samian, Ahmad Taufiq</i>                                                                                                                   |     |
| Optimization of Electrospinning Parameters using Box-Behnken-Based Design of Experiments (DoE) for the Fabrication of Ninjaflex/CaCl <sub>2</sub> Nanofibers as Potential Application in Flexible Sensors ..... | 33  |
| <i>Riris Sukowati, William X. Waresindo, Dian A. Hapidin</i>                                                                                                                                                    |     |
| The Role of Collagen Addition on the Mechanical Properties of PVA/Chitosan Composite Nanofiber Membranes as Wound Dressing Materials .....                                                                      | 48  |
| <i>Ni N. Rupiasih, Dewa A. S. Pranastia, Made Sumadiyasa, I. Made Sukadana, I. G. E. Wiratnaya, Anung Syampurwadi, Maykel Manawan</i>                                                                           |     |
| Interfacial Properties Improvement of AEC Surfactant via Titanium Dioxide Nanoparticles.....                                                                                                                    | 59  |
| <i>Taufan Marhaendrajana, Miftah Hidayat, Rima Megayanti, Ndaru Cahyaningtyas, Mahruri Sanmurjana, Zeta N. M. Yahya</i>                                                                                         |     |
| The Effect of Substrate Temperature on CNT Deposition with Ni Catalyst as Precursor .....                                                                                                                       | 65  |
| <i>Ajeng Eliyana, Rustan Ruslan, Aveni C. Keintjem, Jasruddin D. Malago, Toto Winata</i>                                                                                                                        |     |
| Study on Gamma-Ray Buildup Factor of TeO <sub>2</sub> -B <sub>2</sub> O <sub>3</sub> -TiO <sub>2</sub> -ZnO Glasses using Py-MLBUF Simulation .....                                                             | 73  |
| <i>Ahmad Marzuki, Ari H. Ramelan, Devara E. Fausta, Rivina Oktafiani, Lita Rahmasari</i>                                                                                                                        |     |
| The Effect of Deposition Bead Pattern and Multilayer Hardfacing on Wear Resistance of Q55 Rail using SMAW .....                                                                                                 | 80  |
| <i>Defi Pramesti, Winarto, Muhammad A. Ramadhanu</i>                                                                                                                                                            |     |
| Influence of Annealing Treatment on Electrical Characteristics of Ce-Doped MoS <sub>2</sub> Thin Film Grown by DC-Unbalanced Magnetron Sputtering .....                                                         | 92  |
| <i>Aljufri Hadju, Indris S. Sianturi, Kholik Hidayatullah, Idawati Supu, Yudi Darma</i>                                                                                                                         |     |
| Graphene Growth by HW-PECVD Method and Its Suitable Characteristics as P-Type Layer in P-I-N Amorphous Silicon-Based Solar Cells.....                                                                           | 101 |
| <i>A. Momang Yusuf, Jasruddin</i>                                                                                                                                                                               |     |
| Thermodynamic Assessment of Phase Transformation During Carbothermic Ilmenite using Non-Carbonization Palm Kernel Shell Biomass.....                                                                            | 107 |
| <i>Boy Attaurrazaq, Sri Harjanto, Reza M. Ulum</i>                                                                                                                                                              |     |

|                                                                                                                                                                                                           |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Development of Bentonite-Cellulose-Lignin Composite for Fire-Retardant Roof Tile Applications .....                                                                                                       | 116 |
| <i>Arie J. F. P. Siahaan, Deni Purnomo, Ismadi, Dian Burhani, Ria Y. Arundina, Ester R. S. Togatorop, Sukma S. Kusumah, Dede Hermawan, Resti Marlina</i>                                                  |     |
| Green Synthesis of Silver Nanoparticles using Extract of Unbaked Cilembu Sweet Potato with the Presence of Microwave Irradiation in Alkaline Condition .....                                              | 128 |
| <i>Bryan S. Aliwarga, A'Rifaturohmah, Lia A. T. W. Asri, Akfity H. Aimon, Arie Wibowo</i>                                                                                                                 |     |
| Fabrication and Characterization of Low-Cost Dye-Sensitized Solar Cells (DSSCs) with Natural Light Absorbers of Henna-Based Natural Dye and N719 Mixtures .....                                           | 135 |
| <i>Waode S. Arsyad, M. Oheo Bijaksawan, La O. M. N. Arsyad, La Aba, La O. A. N. Ramadhan, Ida Usman, Rahmat Hidayat</i>                                                                                   |     |
| Production of HHO Gas by Water Electrolysis with High Electrical Currents: New Technique to Measure Gas Released.....                                                                                     | 146 |
| <i>Messiah C. Sangian, Hanny F. Sangian, Fatimah A. Noor</i>                                                                                                                                              |     |
| Effect of Manganese Alloy Concentration on the Intercalation Voltage Variation in $\text{Na}_3\text{V}_{2-x}\text{Mn}_x(\text{PO}_4)_3$ Cathode Material .....                                            | 161 |
| <i>Himawan Widiyanto, Ganes Shukri, Mohammad K. Agusta, Qory C. Scientika, Afthon I. H. Isyfi, Dhias P. Lazuarfy</i>                                                                                      |     |
| The Influence of Nickel and Cobalt Alloy Modifications on Intercalation Voltage in Sodium-Ion Battery Cathodes $\text{Na}_3\text{V}_2(\text{PO}_4)_3$ .....                                               | 172 |
| <i>A. Hafizh Rifa'I, Qory C. Scientika, Fadjar Fathurahman, Ganes Shukri, Dhias P. Lazuarfy, Afthon I. H. Isyfi</i>                                                                                       |     |
| On the Variation of Intercalation Voltage in Si-Doped $(\text{Na}_{3+y}\text{V}_2(\text{PO}_4)_{3-y}(\text{SiO}_4)_y)$ Cathode Material: A First-Principles Study .....                                   | 183 |
| <i>Qory C. Scientika, Sasfan A. Wella, Fadjar Fathurrahman, Ahmad Nuruddin, Isa Anshori, Aditya W. Sakti, Ganes Shukri</i>                                                                                |     |
| Optical Characterization of Intrinsic Silicon Thin Films Growth via Hot Wire in Plasma-Very High-Frequency PECVD .....                                                                                    | 197 |
| <i>A. W. Nuayi, R. Ruslan, F. A. Noor, T. Winata, Irzaman</i>                                                                                                                                             |     |
| Effect of Microwave Roasting in the Leaching of the Transition Metals Ni, Fe, and Co from the Low-Grade Nickel Laterite.....                                                                              | 211 |
| <i>La Agus, W. O. S. Arsyad, I. N. Sudiana, A. Alimin, M. Z. Firihi, L. O. Ahmad, L. M. Darusman, A. J. Muhammad, S. Mitsudo, T. Asano, K. Nakagawa, T. Nishiumi, Y. Ishikawa, Y. Fujii, Y. Tatematsu</i> |     |
| Prediction of Intercalation Voltage Variation in Ti-and Cr-Doped $\text{Na}_x\text{V}_{1.5}\text{M}_{0.5}(\text{PO}_4)_3$ (M=Ti, Cr) as Sodium-Ion Battery Cathode .....                                  | 222 |
| <i>Dhias P. Lazuarfy, Fadjar Fathurahman, Ganes Shukri, Qory C. Scientika, A. Hafizh Rifa'I, Afthon I. H. Isyfi</i>                                                                                       |     |
| Effect of Iron-Alloyed Concentration Modification on Intercalation Voltage in Sodium-Ion Battery Cathodes $\text{Na}_x\text{V}_{2-y}\text{Fe}_y(\text{PO}_4)_3$ .....                                     | 235 |
| <i>Afthon I. H. Isyfi, Ganes Shukri, Mohammad K. Agusta, Qory C. Scientika, Himawan Widiyanto, A. Hafizh Rifa'I</i>                                                                                       |     |
| A Preliminary Study on Silica/Zinc Ferrite Nanocomposite as Drug Delivery Agent.....                                                                                                                      | 251 |
| <i>Anindya B. Monica, Darminto, Ahmad Taufiq, Ainun Nimah</i>                                                                                                                                             |     |
| Preparation of $\text{TiO}_2/\text{Fe}_3\text{O}_4/\text{DMSO}$ Ferrofluid as an Antimicrobial Agent .....                                                                                                | 259 |
| <i>Fatimah Yamani, S. U. I. Subadra, Nandang Mufti, Ahmad Taufiq</i>                                                                                                                                      |     |

|                                                                                                                                                                                                        |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Isolation and Characterization of Chitosan from Nacre of the Oyster Pearl Shell ( <i>Pinctada Maxima</i> ) as Biopolymer .....                                                                         | 268 |
| <i>Susi Rahayu, Masruroh, D. J. D. H. Santjojo, Nonik Septiani, Rahadi Wirawan</i>                                                                                                                     |     |
| Optimization of Green Synthesis of Nanogold using Red Ginger Rhizome Extract and Polyvinylpyrrolidone (PVP)K60 .....                                                                                   | 278 |
