

PROCEEDINGS OF SPIE

International Conference on Computer Application and Information Security (ICCAIS 2024)

**Ali Safaa Sadiq
Hari Mohan Pandey
Farid Boussaid**
Editors

**20–22 December 2024
Wuhan, China**

Organized by
Hubei Zhongke Institute of Geology and Environment Technology (China)

Published by
SPIE

Volume 13562

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13562

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Computer Application and Information Security (ICCAIS 2024)*, edited by Ali Safaa Sadiq, Hari Mohan Pandey, Farid Boussaid, Proc. of SPIE 13562, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xiii Conference Committee

Part One

COMPUTER APPLICATION AND ARTIFICIAL INTELLIGENCE

- 13562 02 **Automatic test case generation for multiple coverage criteria: towards more efficient bug localization** [13562-27]
- 13562 03 **Asphalt identification technology based on infrared spectroscopy and four-component test method** [13562-38]
- 13562 04 **Research on the identification model of excessive crosswind during flight landing on wet and slippery runways** [13562-108]
- 13562 05 **Optimization of parameter combination for deepening design of injection port in baggage handling system based on orthogonal experiment** [13562-120]
- 13562 06 **Trajectory planning for distributed multi-UAVs based on improved DWA** [13562-125]
- 13562 07 **Design of batch inspection system for automotive gearbox bearings based on PLC** [13562-26]
- 13562 08 **Generalization memorization machine for regression** [13562-44]
- 13562 09 **Enhancing landslide risk assessment through the optimization of anomaly detection techniques** [13562-63]
- 13562 0A **Accuracy reliability evaluation of trusted CNC machine tool based on belief reliability** [13562-73]
- 13562 0B **Analysis of key factors affecting chili growth and research on predictive data model in the context of smart farms** [13562-123]
- 13562 0C **Application of natural language processing in foreign language artificial intelligence translation system** [13562-50]
- 13562 0D **Spatiotemporal prediction framework for detecting illegal online transactions in the digital economy** [13562-32]
- 13562 0E **Analysis and evaluation system for intestinal detection reports based on OCR** [13562-85]
- 13562 0F **Human-AI collaboration in digital innovation decision-making: a case-based reasoning model** [13562-3]

- 13562 OG **Electricity market clearing price prediction based on mode decomposition and improved transformer** [13562-34]
- 13562 OH **Efficiency evaluation of blockchain-based IoT network** [13562-83]
- 13562 OI **Research on the construction of intelligent knowledge service platform of university library based on artificial intelligence** [13562-67]
- 13562 OJ **Research on the application of deep learning in data mining** [13562-134]
- 13562 OK **An innovative study on an intelligent logistics handling robots** [13562-145]
- 13562 OL **Artificial intelligence drives teaching resource platform construction and ecological construction** [13562-147]
- 13562 OM **Study on the fractal characteristics of indoor air supply temperature field** [13562-157]
- 13562 ON **Analysis of driving moment characteristic of multi-section wing based on the centroid self-trim compensation morphing** [13562-175]
- 13562 OO **Innovative visualizations in aviation safety training leveraging artificial data for educational advancement** [13562-187]
- 13562 OP **Anti-interference model of intelligent control for high-precision regulation of pressure in industrial low-pressure area based on neural network** [13562-194]

ELECTRONIC IMAGING AND SIGNAL PROCESSING

- 13562 OQ **Research on traffic signal image processing technology for autonomous vehicles** [13562-54]
- 13562 OR **YOLO-FAD: enhancing small-object detection in high-resolution remote sensing images** [13562-60]
- 13562 OS **Parameter estimation of LFM signal intercepted by Nyquist folding receiver based on particle swarm optimization and fractional Fourier transform** [13562-127]
- 13562 OT **Intermediate domain-based unsupervised domain adaptive visual-infrared cross-modal person re-identification** [13562-148]
- 13562 OU **Enhanced multi-branch network for 3D human pose estimation from single-frame skeletons** [13562-110]
- 13562 OV **Vanilla-Yolo: a lightweight underwater object detector via reparameterization and multi-scale feature fusion** [13562-115]
- 13562 OW **Perceptual characteristics of urban street landscapes in Gaoling District based on street view image data** [13562-129]

- 13562 0X **Corn leaf disease spot image classification and recognition algorithm based on improved Yolov8** [13562-130]
- 13562 0Y **Research on key technologies of special shape glass recognition** [13562-2]
- 13562 0Z **Accurate calculation method of the throat area for turbine guide vanes based on the point cloud** [13562-20]
- 13562 10 **Deep K-median: a robust unsupervised image segmentation method** [13562-41]
- 13562 11 **Image segmentation algorithm using maximum dependency of variable precision rough set** [13562-59]
- 13562 12 **Lie algebra-based multivaldiation model for 3D human pose estimation** [13562-6]
- 13562 13 **CBS-YOLO for ship target detection in complex marine environments** [13562-68]
- 13562 14 **Fatigue detection method for UAV operators based on depth perception technology** [13562-79]
- 13562 15 **Research on the application of vision transformer model in 14-visual-field classification of fundus images** [13562-80]
- 13562 16 **Vehicle attribute recognition methods incorporating attention mechanisms** [13562-87]
- 13562 17 **Dynamic convolution with complementary attention for image classification** [13562-142]
- 13562 18 **A deep image segmentation method with deep parameterized priors** [13562-146]
- 13562 19 **DIC study of the room-temperature tensile experiment of low-carbon steel** [13562-167]
- 13562 1A **A comparative study on the lateral bearing capacity of pile between using theoretical calculation models and experimental investigation** [13562-177]
- 13562 1B **Application of image recognition technology in road defect recognition** [13562-179]
- 13562 1C **Temperature effect on the natural frequency of the Canton Tower** [13562-184]
- 13562 1D **Fatigue life prediction of parallel stay cable wires with multiple corrosion pits under variable stress ratios** [13562-190]
- 13562 1E **Design of companion aging and early warning service system based on speech emotion recognition** [13562-89]

COMPUTER ALGORITHMS, MODELLING AND SIMULATION

- 13562 1F **Research on UAV path planning algorithm under electromagnetic interference environment** [13562-113]
- 13562 1G **Design and practice of a whole network balancing system considering multiple types of loads** [13562-126]
- 13562 1H **Novel DOA estimation based on human behavior algorithm** [13562-141]
- 13562 1I **Research on multi-UAV task allocation for power inspection based on multistrategy improved particle swarm algorithm** [13562-17]
- 13562 1J **Application of computer simulation technology in fluid-solid coupling analysis of mixing equipment** [13562-24]
- 13562 1K **Research on improved HotStuff consensus algorithm utilizing SM2 ring signature and reputation** [13562-25]
- 13562 1L **Parameter selection for primal least squares twin support vector regression** [13562-30]
- 13562 1M **Research on highway pavement crack detection algorithm based on improved YOLOv8** [13562-31]
- 13562 1N **Research on hardware-in-the-loop test technology for hybrid vehicle VCUs** [13562-36]
- 13562 1O **Usability evaluation study of the interface of a guided diagnosis robot based on eye movement experiments** [13562-37]
- 13562 1P **Transformer oil temperature prediction method based on DLinear and KAN** [13562-40]
- 13562 1Q **Design of a Linux-based FPGA simulation acceleration platform** [13562-12]
- 13562 1R **Kernel norm-similarity based group pruning for compressing CNNs** [13562-45]
- 13562 1S **Confidence-balanced contribution-based XLNet framework for detecting anomalous product prices and sales** [13562-48]
- 13562 1T **An improved decision method based on GAIL for cognitive jamming against MPAR** [13562-82]
- 13562 1U **Simulation control and intelligent evaluation system for ship power station based on Web3D** [13562-5]
- 13562 1V **ArmorCLIP: a hybrid defense strategy for boosting adversarial robustness in vision-language models** [13562-51]

- 13562 1W **Research on LLM speculative inference in training-inference integrated computing infrastructure scenarios** [13562-53]
- 13562 1X **MSIEC: in-place merge sort leveraging equivalence classes** [13562-55]
- 13562 1Y **Chaotic particle swarm optimization with golden section strategy** [13562-69]
- 13562 1Z **Method for identifying vital nodes in the scientific-citation double-layer hypernetwork based on the h-index** [13562-72]
- 13562 20 **Layered consensus mechanism of comprehensive value based on primary-secondary chain in industrial edge computing environment** [13562-76]
- 13562 21 **Simulation verification method of complex control system based on SysML** [13562-77]
- 13562 22 **Fuzzy control of electric vehicle compound braking system based on multi-objective optimization NSGA-II algorithm** [13562-78]
- 13562 23 **Prediction of rolling force deviation in the hot rolling process of strip steel based on LSTM-attention and process knowledge** [13562-114]
- 13562 24 **Research on real flow measurement systems for full-scenario flow velocity and discharge** [13562-116]
- 13562 25 **Research on working characteristics of the oil discharge valve in the clutch** [13562-118]
- 13562 26 **Ontology-based method for automatic generation of fit tolerances** [13562-119]
- 13562 27 **A dynamic pricing model for civil aviation data based on the T-EPI framework** [13562-132]
- 13562 28 **Empirical study on digital technology relieving financing constraints of private enterprises** [13562-133]
- 13562 29 **Sentiment-based SRT-ELECTRE III algorithm for movie and TV show recommendation optimization** [13562-135]

Part Two

- 13562 2A **Method for detecting inconsistent flight data using multi-logical extended functional dependencies** [13562-136]
- 13562 2B **An extended MDP-PROMETHEE algorithm for MAGDM based on social media data mining under probabilistic linguistic environment** [13562-137]
- 13562 2C **A mixed approximation algorithm for matching preclusion number in bipartite graphs** [13562-139]

- 13562 2D **Railway tunnel lining structural damage detection algorithm based on improved YOLOv5s** [13562-140]
- 13562 2E **Research progress on consolidated diamond wire saw for brittle materials** [13562-144]
- 13562 2F **Review of progress in EFDC modeling research and application** [13562-149]
- 13562 2G **Experimental study on ceiling temperature distribution under fire conditions at diverging points of underground branching roads** [13562-153]
- 13562 2H **The impact of big data analytics on total factor productivity: the role of corporate equity concentration in Chinese enterprises** [13562-161]
- 13562 2I **Fuzzy and extensible comprehensive evaluation of the seepage characteristics of dam foundation faults based on projection pursuit determined indicators** [13562-163]
- 13562 2J **Study on the influence of damping property of dam materials on the dynamic response of a CFRD** [13562-166]
- 13562 2K **Using KD-Tree and DBSCAN to clean hydropower units monitoring data** [13562-168]
- 13562 2L **Analysis of stability against lateral overturning during construction period using small-radius curved girder bridge step-by-step method** [13562-169]
- 13562 2M **A U-Net-based inversion model for underground cavity detection** [13562-172]
- 13562 2N **Research on fault diagnosis of wind power gearbox bearings based on transfer learning** [13562-173]
- 13562 2O **Earth pressure prediction of high-fill open-cut tunnel based on BP neural network** [13562-176]
- 13562 2P **Simulation of static and dynamic liquefaction characteristics of sand based on discrete element method** [13562-178]
- 13562 2Q **Explicit modelling of grain crushing using hypoplasticity for soils and interfaces** [13562-180]
- 13562 2R **Support bearing mechanism and numerical simulation analysis of a tunnel and underground space** [13562-181]
- 13562 2S **Evaluating feature contribution to wall deflection of braced excavation using interpretable XGBoost-SHAP model** [13562-183]
- 13562 2T **Maize quality prediction method based on the PIC-former model** [13562-185]
- 13562 2U **Stability analysis and treatment plan for a loess landslide in Yan'an City** [13562-186]
- 13562 2V **Research on the stability of cigarette ventilation rate** [13562-188]

- 13562 2W **An enhanced differential evolution with ensemble of mutation strategies for numerical optimization** [13562-191]
- 13562 2X **Research on the service quality evaluation model of engineering cost consulting firms based on analytic hierarchy process and fuzzy rating model** [13562-192]
- 13562 2Y **Research on the process and tools of building MEP design based on data model** [13562-193]
- 13562 2Z **Application of BIM technology in engineering project construction** [13562-195]
- 13562 30 **Model test study on cavitation noise and vibration characteristics of fixed-cone valve for ecological energy dissipation in hydropower station** [13562-196]
- 13562 31 **Experimental and prediction model research on creep performance of alkali activated concrete** [13562-197]
- 13562 32 **Review of evolutionary computation** [13562-16]
- 13562 33 **Advancements in cheating detection algorithms in FPS games** [13562-90]
- 13562 34 **Optimization of process manufacturing parameters through integration of CNN-mLSTM and whale algorithm** [13562-162]
- 13562 35 **Generate MC/DC test case based on black box SysML state machine** [13562-189]
- 13562 36 **Landslide knowledge graph construction** [13562-65]
- 13562 37 **Current status and modeling of mobile health management for chronic diseases: a case study of diabetic patients** [13562-18]
- 13562 38 **Travel APP usability testing based on eye movement experiment** [13562-4]
- 13562 39 **Research on intimate relationships among college students based on LDA theme model** [13562-7]

COMMUNICATIONS AND INFORMATION TECHNOLOGY

- 13562 3A **Research on the design of an Internet of Things intelligent irrigation system based on NB-IOT wireless communication** [13562-74]
- 13562 3B **Advanced compressed sensing photoacoustic imaging techniques using iteratively enhanced L1 regularization** [13562-121]
- 13562 3C **Inductance-capacitance-capacitance compensation circuit-based wireless power transmission** [13562-10]

- 13562 3D **Experimental study of bidirectional and decoder-only embeddings in text-to-SQL parser** [13562-106]
- 13562 3E **A fuzzy information combination approach to multi-winner voting** [13562-70]
- 13562 3F **Building operations data analysis based on edge intelligence technology** [13562-150]
- 13562 3G **Research and implementation of false review recognition based on semantic and non-semantic fusion of migrated sentiment features** [13562-23]
- 13562 3H **Rapid identification of rumors based on BERT and CNN** [13562-43]
- 13562 3I **Construction and validation evaluation of a high-quality dataset in the national defense mobilization domain based on large language models** [13562-49]
- 13562 3J **Document-level event extraction framework based on prompt learning** [13562-58]
- 13562 3K **Legal long-text case retrieval method based on multiscale feature fusion technology** [13562-62]
- 13562 3L **Multi-dimensional approach to knowledge graph completion: integrating entity types, relations, and paths** [13562-95]
- 13562 3M **Research on the construction of a data service platform for major emergencies under the perspective of multi-source heterogeneity** [13562-47]
- 13562 3N **Optimization and application of multifeature fusion similarity indices in hyperlink prediction** [13562-143]
- 13562 3O **Seismic response analysis of ship lift tower structure considering the influence of the mass of the top plant room and the equipment** [13562-152]
- 13562 3P **Study of heat and moisture transfer processes in ventilation corridors of underground plants** [13562-154]
- 13562 3Q **A physical information-assisted method for efficient system reliability analysis of soil slope** [13562-156]
- 13562 3R **Stability reassessment and optimization of construction procedure for left bank dam shoulder slope** [13562-158]
- 13562 3S **Enhanced process-aware memory deduplication with dynamic fine-tuning method: implementation and applications** [13562-159]
- 13562 3T **Research on the design of non-dense cavity monitoring system behind tunnel cracks based on distributed optical fiber** [13562-160]
- 13562 3U **Numerical study on the influence of rock bridge on failure process of flawed rock exposed to dynamic cyclic loading** [13562-164]

- 13562 3V **Simulation analysis of gas-solid characteristics and vibration improvement of marine natural gas depressurization pipelines** [13562-165]
- 13562 3W **Design of a strawberry stereoscopic cultivation device** [13562-170]
- 13562 3X **Design on tidal irrigation cultivation device** [13562-171]
- 13562 3Y **Application of deep reinforcement learning and data fusion in foundation settlement control** [13562-182]
- 13562 3Z **The research on a reasonable seismic resistance system for urban rail transit bridges in high-intensity areas** [13562-198]
- 13562 40 **Research on active retrieval enhancement for large language models based on multi-model integration** [13562-151]

INFORMATION SECURITY AND RISK MONITORING

- 13562 41 **Blockchain-based predictive framework for security authentication in 5G ultra-dense networks** [13562-122]
- 13562 42 **Malicious traffic detection method based on field feature deep learning** [13562-131]
- 13562 43 **Dynamic multidimensional data privacy protection algorithm** [13562-52]
- 13562 44 **Research on abnormal traffic classification algorithm based on CGAN and TabTransformer** [13562-14]
- 13562 45 **Network anomaly traffic detection method based on ensemble learning and feature fusion** [13562-22]
- 13562 46 **Power analysis attacks based on LSTM and MHA** [13562-128]
- 13562 47 **FXBoost: darknet user behavior classification based on two-stage ensemble learning** [13562-28]
- 13562 48 **Behavioral profiling of abnormal network traffic in security** [13562-1]
- 13562 49 **Comprehensive quantitative evaluation of security and trustworthiness of trusted CNC system** [13562-71]
- 13562 4A **Modeling disseminating behavior based on explicit duration recurrent networks for microblog misinformation detection** [13562-35]
- 13562 4B **Multisignature authentication and simulation extractability security optimization for account-based blockchain anonymous systems** [13562-33]

- 13562 4C **Safety helmet detection method for underground coal mine scenarios based on improved YOLOv10** [13562-39]
- 13562 4D **Research on gradient leakage defense in federated learning for vehicular networks based on reputation mechanism** [13562-46]
- 13562 4E **Phishing email uniform resource locator detection based on large language model** [13562-64]
- 13562 4F **Research on data security and privacy protection in machine learning scenarios leveraging blockchain technology** [13562-88]
- 13562 4G **Research on flight operation risk probability assessment based on pilot competency** [13562-107]
