PROCEEDINGS OF SPIE

Second International Conference on Frontiers of Applied Optics and Computer Engineering (AOCE 2025)

Bikash Nakarmi
Dayan Liu
Gefeson Mendes Pacheco
Editors

17–19 January 2025
Kunming, China

Organized by
Wuhan Textile University (China)
The Chinese University of Hong Kong, Shenzhen (China)

Sponsored by
Xi'an Jiaotong University (China)
Universidade de Aveiro (Portugal)
McMaster University (Canada)
Politecnico di Bari (Italy)

Published by
SPIE

Volume 13564

Proceedings of SPIE 0277-786X, V. 13564

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Second International Conference on Frontiers of Applied Optics and Computer Engineering (AOCE 2025)*, edited by Bikash Nakarmi, Dayan Liu, Gefeson Mendes Pacheco, Proc. of SPIE 13564, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*
ix *Introduction*

APPLIED OPTICS AND INTERDISCIPLINARY APPLICATION

13564 02 **HUD projection correction method based on equal optical path difference** [13564-4]

13564 03 **Wave structure function and spatial coherence radius of plane waves propagating through atmospheric and oceanic turbulence** [13564-7]

13564 04 **Efficient spin beam splitter based on PB metasurfaces** [13564-14]

13564 05 **Design and application of a multiphysics simulation process for fiber optic coils based on CAE** [13564-29]

13564 06 **Surface-enhanced circular dichroism by butterfly frame structure** [13564-40]

13564 07 **FPGA-based image signal processing CEPST module design** [13564-22]

13564 08 **A joint calibration method of IMU-visible light camera for unmanned ship** [13564-46]

13564 09 **Design and realization of hexapod bionic transport vehicle** [13564-10]

13564 0A **GILV: an integrated GNSS/IMU positioning method enhanced by lane line and template matching VO** [13564-44]

13564 0B **Design of signal acquisition and waveform generation based on CX8242K** [13564-47]

ADVANCES IN COMPUTER SCIENCES AND ENGINEERING

13564 0C **Pilot gaze intent classification using BiLSTM and gated transformer model** [13564-6]

13564 0D **Design and application of a high-protection micro outdoor cabinet for edge servers based on diagnostic system algorithms** [13564-9]

13564 0E **Research progress on algorithms for micromouse maze navigation** [13564-43]

13564 0F **Research and discussion on CNN and GNN for soil erosion prevention and control** [13564-8]

13564 0G **The study of optimizing the RITnet model for pupil recognition using an adaptive threshold method** [13564-15]

13564 0H **Hazard identification of college chemical laboratory based on image recognition** [13564-13]

13564 0I **Research on QR code spraying technology for road surface in tunnels for car recognition and positioning** [13564-41]

13564 0J **Research on morphological analysis of derived low-resource languages** [13564-17]

13564 0K **Age-based morphological prediction for automated bone age assessment: a deep learning approach** [13564-27]

13564 0L **A study and discussion on the development of the pet industry using convolutional neural networks (CNN) optimized by improved particle swarm optimization (PSO)** [13564-31]

13564 0M **A survey of IPv6 address scanning techniques** [13564-33]

MODELING, SIMULATION, AND ENGINEERING APPLICATION

13564 0N **Research on modeling and simulation of elevator evacuation in high-rise buildings** [13564-2]

13564 0O **Numerical simulation of carbon fiber composite catapult base** [13564-21]

13564 0P **Analysis and research of chassis design for WYSZ10A type intelligent transport vehicles** [13564-11]

13564 0Q **Numerical simulation of microstructure and hardness distributions during dual-medium quenching of high-temperature carburized 18Cr2Ni4WA steel** [13564-18]

13564 0R **Comparative study of settlement calculation and manual calculation based on computer modeling** [13564-20]

13564 0S **A CFD-based study on the optimization and performance analysis of propeller boss cap fins for a 76,000-ton bulk carrier** [13564-26]

13564 0T **Gait research of transport vehicle based on bionic hexapod robot** [13564-25]

13564 0U **The performance analysis on dual heat source heat pump system based on micro heat pipe-heat exchanger** [13564-38]

13564 0V **Design improvement of ropeway hydraulic tensioning system** [13564-37]

13564 0W **Comparative study on derivation algorithm of rebound recompression deformation of pump station structure based on computer finite element modeling** [13564-36]

13564 0X **Leakage due to alkali corrosion perforation of thin-walled stainless steel pipe** [13564-39]

13564 0Y **Design and experiment of hydroforming equipment for magnetic pump spacer** [13564-42]

13564 0Z **Research on distributed photovoltaic access capacity based on electricity information collection** [13564-34]

13564 10 **Design and implementation of anchor digging machine** [13564-49]

13564 11 **Structural design and analysis for applying WZF400_10-A bionic chassis** [13564-24]

13564 12 **Experimental study on the performance of vibration isolation modules for optical fiber hydrophone towed array** [13564-28]

13564 13 **Mechanical characterization of posture adjustment carts under the multi-posture condition of the ship block** [13564-48]

13564 14 **Failure analysis of corrosion perforation in stainless steel seamless pipes** [13564-51]

13564 15 **Analysis of flow field characteristics of leakage-lubrication-trapped oil-cooling medium in high speed magnetic gear pump** [13564-52]
