

PROCEEDINGS OF SPIE

International Conference on Smart Transportation and City Engineering (STCE 2024)

**Zhengang Feng
Miroslava Mikusova**
Editors

**6–8 December 2024
Chongqing, China**

Organized by
Chongqing Jiaotong University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13575

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13575

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Smart Transportation and City Engineering (STCE 2024)*, edited by Zhengang Feng, Miroslava Mikusova, Proc. of SPIE 13575, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xv *Conference Committee*

Part One

INTELLIGENT LOGISTICS SYSTEM AND PATH PLANNING

- 13575 02 **Mixed matrix-object outlier detection algorithm based on fuzzy association rules** [13575-17]
- 13575 03 **Multiscale grid-model-based optimization algorithm for tobacco logistics distribution routes** [13575-65]
- 13575 04 **Research on task planning for truck and drone joint cargo distribution based on K-means cluster analysis and genetic algorithm** [13575-131]
- 13575 05 **Study on improvement of ship crossing efficiency of Three Gorges ship lift** [13575-24]
- 13575 06 **Research on riding behavior characteristics under internal disturbance of nonmotorized vehicles** [13575-25]
- 13575 07 **Distraction prediction based on eye movements and driving performance** [13575-135]
- 13575 08 **Research on vessel trajectory fusion method based on extended Kalman filter** [13575-52]
- 13575 09 **Research on optimization of hub-and-spoke logistics network considering hub congestion** [13575-2]
- 13575 0A **Research on the travel choice behavior analysis method of truck driver based on latent class model** [13575-10]
- 13575 0B **Data-driven multimodal transportation path optimization under uncertainty conditions** [13575-7]
- 13575 0C **Research on anti-collision algorithm for RFID electronic tags based on Q-selection** [13575-34]
- 13575 0D **Research on optimization of cigarette logistics distribution routes based on an improved African vulture optimization algorithm** [13575-19]
- 13575 0E **3D vehicle detection based on point cloud feature fusion** [13575-81]
- 13575 0F **A spatial-domain-based eco-driving trajectory planning method for connected and automated vehicles** [13575-4]

- 13575 OG **Research on the scheme of improving the bus stop efficiency: a case study of Jinan**
[13575-49]
- 13575 OH **Path planning algorithm based on the combination of Baidu map and optimized a-star algorithm** [13575-102]
- 13575 OI **Study on the structure and driving mechanism of county logistics network in Yunnan Province from the perspective of transportation flow** [13575-84]
- 13575 OJ **Application and practice of construction project planning based on large language model (LLM)** [13575-125]
- 13575 OK **Urban logistics UAV vertiport location and layout planning method** [13575-62]
- 13575 OL **Spatial syntax-based analysis of the spatial layout and road planning in Yanji City**
[13575-86]
- 13575 OM **Analysis of human-vehicle interaction patterns based on representation learning**
[13575-110]
- 13575 ON **Research on train energy optimization based on the improved atomic orbital search algorithm** [13575-90]
- 13575 OO **Feature importance analysis of eye movement metrics in drivers of different age groups under drowsiness** [13575-93]
- 13575 OP **Modeling of heavy-load train operation adjustment under temporary skylight** [13575-94]
- 13575 OQ **Study on the prediction method of regional intermodal passenger transport demand: taking Sichuan Province as an example** [13575-240]
- 13575 OR **Evaluation model construction and time-varying analysis of automotive supply chain resilience** [13575-238]
- 13575 OS **Vehicle trajectory prediction model based on transformer and GCN** [13575-163]
- 13575 OT **Research on intelligent vehicle lane changing behavior decision based on game theory**
[13575-208]
- 13575 OU **Speed optimization strategy for high-speed connected automated vehicles under the frame of vehicle-pedestrian conflict time window** [13575-151]
- 13575 OV **An integrated optimization method for airport shuttle bus timetabling and scheduling with multiple electric bus types** [13575-136]
- 13575 OW **Research on total carbon emission accounting and influencing factors in China's transportation industry: based on the input-output model and grey relational analysis**
[13575-141]

- 13575 0X **Evaluation and improvement path of inter-provincial traffic safety efficiency in China under extreme weather conditions** [13575-172]
- 13575 0Y **Data-driven simulation of train frontal collision using nonlinear lumped parameter model** [13575-191]
- 13575 0Z **Research on adaptive cruise control strategy adapted to vehicle driving conditions** [13575-219]
- 13575 10 **Optimization of highway freight vehicle distribution scheduling based on carpooling mode** [13575-143]
- 13575 11 **Research on visual application of route planning for emergency rescue vehicles based on digital twin** [13575-189]
- 13575 12 **Vulnerability analysis and response strategies of the international logistics network of the new western land-sea corridor** [13575-155]
- 13575 13 **Intelligent vehicle path tracking control with the accelerated bp neural network and dynamic model prediction** [13575-248]
- 13575 14 **Research on optimization of community medical supplies distribution route under the background of emergency logistics** [13575-237]
- 13575 15 **Research on time-sharing pricing strategy of rail transit based on the bi-level programming model** [13575-229]
- 13575 16 **Research on cooperative R&D decision-making in new energy vehicle supply chain under dual-credit policy** [13575-204]
- 13575 17 **Fault identification method of automobile drive motor based on local mean decomposition algorithm** [13575-252]

INTELLIGENT TRANSPORT AND INFRASTRUCTURE OPTIMISATION

- 13575 18 **Evaluation method for asphalt pavement condition based on intelligent inspection technology** [13575-15]
- 13575 19 **Pavement rut and flatness detection technology based on airborne LiDAR** [13575-59]
- 13575 1A **Research on operation optimization of airport pier finger terminal Cul-de-sac area** [13575-37]
- 13575 1B **Research on railway passenger volume prediction based on modified dynamic combination model** [13575-61]
- 13575 1C **Research on the usability of high-speed railway cab based on FBS model** [13575-68]
- 13575 1D **Improved automatic road damage detection for YOLOv8** [13575-45]

- 13575 1E **Analysis of influencing factors of road traffic accident severity based on generalized ordered model** [13575-58]
- 13575 1F **Effects of median strip design in enhancing safety at uncontrolled midblock crosswalks: insights from a driving simulator experiment** [13575-22]
- 13575 1G **Identification of key stations and vulnerability analysis of urban railway networks based on the improved KBKNR algorithm** [13575-78]
- 13575 1H **Loop closure detection based on descriptor fragments vertical comparison method** [13575-63]
- 13575 1I **Research on accident risk identification and drainage measures for wide-lane expressways during rainy days** [13575-124]
- 13575 1J **Study on the influencing factors and prediction of surface settlement during shield tunneling in karst strata** [13575-76]
- 13575 1K **RDD-YOLO: enhanced YOLOv9 pavement disease detection under the in-vehicle perspective** [13575-144]
- 13575 1L **Research on track test method for intelligent driving function of connected vehicles** [13575-129]
- 13575 1M **Displacement prediction for mountain road slopes based on variational mode decomposition and LSTM** [13575-16]
- 13575 1N **Ensemble learning-based prediction of road traffic accident severity** [13575-13]
- 13575 1O **Multi-factor co-occurrence influencing mechanism of driver's workload in interchange sections based on QCA** [13575-95]
- 13575 1P **Research on connected and autonomous vehicles control based on route choice model** [13575-109]
- 13575 1Q **Impact of timing faults on road freight networks: a potential destruction resistance study based on cascading faults** [13575-119]
- 13575 1R **Research on vehicle AEB road test scenarios for two-wheelers** [13575-103]
- 13575 1S **Resilience analysis of highway autonomous dedicated driving lanes facing disruptions at different locations** [13575-111]
- 13575 1T **Analysis of expressway maintenance decision based on complete information static game theory** [13575-118]
- 13575 1U **Bottleneck identification and dynamic traffic assignment on toll roads** [13575-116]

- 13575 1V **Analysis of urban road network characteristics in Xi'an City based on spatial syntax** [13575-91]
- 13575 1W **Evaluation study on the level of railway train dispatch command** [13575-96]
- 13575 1X **Research on anchor-based lane line detection algorithm** [13575-253]
- 13575 1Y **Impact resistance analysis of sandwich protective structure for electric vehicle battery module** [13575-177]
- 13575 1Z **Research on the optimal restoration decision of road network based on the integration of transportation and tourism scenarios** [13575-182]
- 13575 20 **Electric vehicle charging station placement method for freeway network system** [13575-210]
- 13575 21 **A study of road network maintenance scheduling considering pavement performance decay and traffic flow distribution** [13575-165]
- 13575 22 **Traffic flow characterization of freight cars on long steep downhill sections based on RPAS video data** [13575-205]
- 13575 23 **Research on the detection and disposal scheme of highway tunnel diseases** [13575-139]
- 13575 24 **Traffic volume prediction for highway entry and exit areas based on machine learning** [13575-193]
- 13575 25 **Simulation analysis of school traffic organization optimization in Cuihua Road primary school during peak hours** [13575-159]
- 13575 26 **Car-following model in highway tunnel sections based on risk perception and psychological field theory** [13575-215]
- 13575 27 **Research on traffic operation characteristics of highway service area exit sections based on collaborative early warning** [13575-142]
- 13575 28 **Optimizing first-mile drone routing for agricultural product pickups** [13575-249]
- 13575 29 **Research on the influence of tunnel illumination uniformity on driving comfort based on skin conductance theory** [13575-243]
- 13575 2A **Research on lighting quality optimization technology of ultra-wide lane tunnel** [13575-153]
- 13575 2B **Research of deep learning-based fire and smoke detection algorithm for highway tunnels** [13575-230]
- 13575 2C **Research on the impact of different ventilation and smoke extraction strategies on tunnel evacuation environment** [13575-195]

- 13575 2D **Research on the optimization method of key component intermediate repair process of rail vehicles based on RCM** [13575-217]
- 13575 2E **Research on intelligent prediction method of roadbed compaction parameters** [13575-171]
- 13575 2F **Design scheme for the digital infrastructure of the smart highway on national highway 314 in Kashgar region** [13575-211]
- 13575 2G **Research on surface disease perception using autonomous driving road radar detection** [13575-206]
- 13575 2H **Revitalizing Xiaoping River: a comprehensive assessment of navigational safety and hydrodynamic challenges** [13575-231]
- 13575 2I **Research on evaluation model of subway track structure health status based on fuzzy Bayesian network** [13575-228]
- 13575 2J **Research on quantification method of vehicle carbon emissions during expressway operation period based on multi-source data fusion** [13575-244]

Part Two

URBAN RAIL TRANSPORT MANAGEMENT AND DATA ANALYSIS

- 13575 2K **Study on coordination evaluation of urban rail transit and conventional buses transfer** [13575-71]
- 13575 2L **Research on the structure and robustness of multimodal composite passenger transport networks in Gansu province** [13575-64]
- 13575 2M **Research on the waiting area selection behavior of passengers at urban rail platforms** [13575-66]
- 13575 2N **Interpretable XGBoost-SHAP model for investigating car park pedestrian and vehicle emergency evacuation mechanisms** [13575-67]
- 13575 2O **Research on railroad signal station drawing recognition based on target detection algorithm** [13575-70]
- 13575 2P **Research on the prediction of vehicle-non-motor conflict risk areas at heterogeneous traffic intersections** [13575-5]
- 13575 2Q **Stimulating slow pedestrians to accelerate: an experimental analysis of sound countdown timer effects** [13575-36]
- 13575 2R **Impacts of high-speed rail network expansion on transit accessibility under multi-network integration: a case study of Guanzhong plain urban agglomeration** [13575-31]

- 13575 2S **Research on high-quality development of transport facilities in Xi'an metropolitan area based on accessibility** [13575-48]
- 13575 2T **Analysis of the influence of adding metro line 8 on the topology of Xi'an rail transit network** [13575-8]
- 13575 2U **Research on interference signal identification method in particle impact noise detection based on DTW method** [13575-60]
- 13575 2V **Research on outlier removal method for flight data of helicopter based on wavelet analysis** [13575-42]
- 13575 2W **Optimisation of conventional bus timetable for connecting to rail transit based on time control points** [13575-41]
- 13575 2X **A short-term traffic flow prediction model based on EMD-GRU-ATTENTION** [13575-38]
- 13575 2Y **The rapid detection method for electric bicycle helmet wearing based on YOLOv8** [13575-26]
- 13575 2Z **The application of visualized urban data in smart transportation data analysis** [13575-126]
- 13575 30 **Digital city and smart city transportation: integrated development and challenge response** [13575-130]
- 13575 31 **Research on dynamic timing of traffic signals in cloud edge collaborative region based on reinforcement learning** [13575-43]
- 13575 32 **Analysis of the impact of conflicts between right-turning vehicles and pedestrians at signalized intersections** [13575-44]
- 13575 33 **Density map guided vehicle detection on drone-captured scenarios** [13575-87]
- 13575 34 **Research on train operation adjustments in urban rail transit based on passenger flow OD data** [13575-104]
- 13575 35 **Study on the influencing factors of bus ridership considering spatial heterogeneity after the opening of new rail transit line** [13575-122]
- 13575 36 **Estimating the impact of peak load pricing on passenger trip scheduling: a regression discontinuity approach** [13575-108]
- 13575 37 **Neighborhood search-based genetic-simulated annealing algorithm for train schedule optimization in urban rail transit** [13575-120]
- 13575 38 **A comprehensive evaluation of transportation modes for non-local university students returning to school using the TOPSIS method** [13575-224]
- 13575 39 **Optimization of passenger flow at Xi'an North Railway Station: simulation and strategy implementation** [13575-180]

- 13575 3A **Deep learning model for predicting traffic accident severity under imbalanced data**
[13575-184]
- 13575 3B **Exploration of spatiotemporal characteristics of taxi trips based on GPS data** [13575-203]
- 13575 3C **Analysis of traffic accidents in construction zone reconstruction and expansion based on text mining** [13575-174]
- 13575 3D **Optimal congestion pricing model based on time surplus maximization bi-objective user equilibrium** [13575-213]
- 13575 3E **Important intersections identification method considering node information and network controllability** [13575-140]
- 13575 3F **Research on traffic conflict identification and classification at road intersections based on YOLOv5 and Deep-SORT algorithms** [13575-150]
- 13575 3G **Detection and warning of pedestrians in dangerous areas using YOLOv8 and bytetrack multi-target tracking technology** [13575-254]
- 13575 3H **Data-driven prediction of intersection traffic congestion** [13575-192]
- 13575 3I **Research on spatiotemporal characteristics of bike-sharing flow networks** [13575-157]
- 13575 3J **Research on the identification and comparative analysis of typical traffic accident scenarios for urban conventional buses** [13575-218]
- 13575 3K **Deep-learning-based urban intelligent traffic flow prediction and optimization research**
[13575-216]
- 13575 3L **Research on urban rail transit vehicle operation model based on passenger flow variation**
[13575-202]
- 13575 3M **Pedestrian trajectory prediction based on LSTM-NMPC** [13575-214]
- 13575 3N **Optimization study of train timetables of urban rail transit under load conditions** [13575-145]
- 13575 3O **How does urban rail transit density affect job-housing balance? A case study of Beijing**
[13575-194]
- 13575 3P **Automated driving index study** [13575-223]
- 13575 3Q **Optimizing signal light control at main road intersections using vector-stepwise regression and webster-based adaptive methods** [13575-166]
- 13575 3R **LLM-enhanced traffic editor for accelerated testing of autonomous vehicles under various pedestrian behaviors** [13575-160]

INTELLIGENT TRANSPORT SYSTEM AND SMART CITY CONSTRUCTION

- 13575 3S **Power system anomaly recognition based on distinction enhancement of positive anomaly data** [13575-20]
- 13575 3T **Research on the establishment method of container truck following model and engineering application** [13575-83]
- 13575 3U **Coherence and integrity assessment of ground systems based on performance-based surveillance** [13575-80]
- 13575 3V **Estimating travel mode choices of residents in Stockholm region based on multinomial logit model and mixed logit model** [13575-79]
- 13575 3W **Simulation study on risk control strategies for unsafe acts by aviation maintenance personnel** [13575-32]
- 13575 3X **Quality hazard diagnosis of hand-held power tools based on naive Bayes algorithm** [13575-14]
- 13575 3Y **Fault classification and diagnosis of train-controlled on-board equipment based on ADASYN-LightGBM** [13575-47]
- 13575 3Z **Research and system application of risk assessment methods for smart city rail network security** [13575-40]
- 13575 40 **Research on the trip purpose inference of shared bike based on Bayes' rule and gravity models and the analysis of service levels** [13575-75]
- 13575 41 **Research on the optimization of urban residents' low-carbon travel chains based on ArcGIS** [13575-23]
- 13575 42 **Research on integrated design mode of flight test telemetry monitoring software** [13575-56]
- 13575 43 **An integrated simulator for unmanned aerial vehicle co-simulation based on NS-3 and AirSim** [13575-46]
- 13575 44 **Research on lightweight road collection systems based on multi-sensor fusion** [13575-51]
- 13575 45 **A collaborative denoising algorithm for shared secret key extraction from atmospheric optical wireless channels** [13575-53]
- 13575 46 **The scheme and application of dynamic monitoring system for ships passing through the Three Gorges ship lift chamber** [13575-21]
- 13575 47 **Research on dynamic positioning method optimization for virtual cockpit experience platform based on ESKF visual-inertial fusion** [13575-134]
- 13575 48 **Design and implementation of a fuzzy PID system for temperature control** [13575-18]

- 13575 49 **Research on testing technology of distraction monitoring system based on driver attention transfer features** [13575-117]
- 13575 4A **Study on the cyclist protection effect of AEB system in automobile-two-wheeler accident scenario** [13575-54]
- 13575 4B **A new type of box girder structure and its optimal design** [13575-89]
- 13575 4C **Research and simulation analysis of braking longitudinal impulse of 30,000-ton heavy-duty train** [13575-3]
- 13575 4D **Study on public participation intention and influencing factors of smart city construction in Dongguan City** [13575-57]
- 13575 4E **An integrated model to optimize the shared depot location and rolling stock allocation problem in a metro network considering multiple train compositions** [13575-33]
- 13575 4F **Spatial-SLPA: uncovering overlapping communities in geospatial networks via the spatially constrained speaker-listener label propagation algorithm** [13575-138]
- 13575 4G **A street landscape perception deep learning evaluation model based on semantic segmentation** [13575-72]
- 13575 4H **Research on testing of automatic parking assistance system based on parking spot by bordering vehicle scenarios** [13575-115]
- 13575 4I **Research on autonomous navigation control of MASS within port areas based on CFDL-MFAC** [13575-101]
- 13575 4J **Research on carbon emission prediction method for urban complexes based on knowledge graphs** [13575-100]
- 13575 4K **Research on optimization method of test sequence of on-board equipment of a new type of train control system** [13575-113]
- 13575 4L **Optimization method of license plate assignment model in Guangzhou** [13575-107]
- 13575 4M **Space layout and influencing factors of public parks in healthy city development: a case study of Wuhan City** [13575-121]
- 13575 4N **Latency optimization for task offloading in space-terrestrial collaborative networks based on deep reinforcement learning** [13575-235]
- 13575 4O **A dynamic envelope extraction method of spacecraft parameters based on fast matching search** [13575-221]
- 13575 4P **Uncovering the effects of built environment on truck CO₂ emissions using multi-source big data** [13575-250]

- 13575 4Q **Identification of urban hotspots and statistical analysis of passenger flow characteristics based on mobile phone signaling data** [13575-162]
- 13575 4R **Bi-objective user equilibrium model and algorithm under tradable credit schemes** [13575-212]
- 13575 4S **Analysis and forecast of Tianjin cruise market based on structural analysis method and combined forecasting model** [13575-197]
- 13575 4T **Identification and measurement of community center spaces and evaluation of service efficiency: a case study of community spaces in Suzhou new district** [13575-246]
- 13575 4U **Highway information track: a track-level highway traffic control system based on the concept of rail transit** [13575-181]
- 13575 4V **A study on the accessibility of route network based on AHP-CRITIC: a case study of China's busy airports** [13575-137]
- 13575 4W **Research on the allocation of medical facilities based on the smart city** [13575-187]
- 13575 4X **CAS-YOLOv8: improving urban remote sensing object detection with context-aware mechanisms** [13575-154]
- 13575 4Y **Gamified eco-driver assistance system for fuel vehicles** [13575-196]
- 13575 4Z **Research on displaced left-turn intersection system based on neural network and VISSIM simulation** [13575-207]
- 13575 50 **Research on the monitoring method of train moving location based on smartphones** [13575-200]
- 13575 51 **Intelligent elevator system based on the Internet of Things: improving elevator safety and management efficiency** [13575-236]
- 13575 52 **Exploring the spatial heterogeneity effects of the urban land use characteristics on taxi CO₂ emissions** [13575-198]
- 13575 53 **Research on dynamic flow control method for urban renewal area boundary based on macroscopic fundamental diagram** [13575-201]
- 13575 54 **Urban health state estimation based on multi-source heterogeneous data of traffic and air pollution** [13575-226]
- 13575 55 **Research on anti-collision system based on the behavior of surrounding vehicles** [13575-188]
- 13575 56 **Building trust in autonomous driving: a conceptual model and design insights** [13575-161]
