

PROCEEDINGS OF SPIE

# ***Fifth International Conference on Telecommunications, Optics, and Computer Science (TOCS 2024)***

**Witold Pedrycz**  
**Sos S. Agaian**  
*Editors*

**27–29 December 2024**  
**Guangzhou, China**

*Organized by*  
Guangdong Polytechnic Normal University (China)  
Zhengzhou University (China)

*Sponsored by*  
Guangdong Society of Automotive Engineering (China)  
International Artificial Intelligence Industry Alliance (China)  
International Association of Applied Science and Technology (China)  
Guangdong Promotion Association for Intelligent Connected Vehicle E/E Industry (China)

*Published by*  
SPIE

**Volume 13629**

Proceedings of SPIE 0277-786X, V. 13629

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Telecommunications, Optics, and Computer Science (TOCS 2024)*, edited by Witold Pedrycz, Sos S. Agaian, Proc. of SPIE 13629, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

## OPTICS AND OPTICAL COMMUNICATION

---

- 13629 02 **Parametric design of ecological park landscape with DLA-GIS and GANs-GIS based on remote sensing data** [13629-1]
- 13629 03 **Application and optimization of adaptive control algorithm in optical communication** [13629-2]
- 13629 04 **Study of an x-ray phase-contrast imaging system based on circular aperture array mask** [13629-4]
- 13629 05 **Dual-channel capsule shape detection system based on computer vision and optical imaging technologies** [13629-7]
- 13629 06 **Underwater vortex optical multiplexing communication demodulation based on random forest algorithm** [13629-9]
- 13629 07 **Research on underwater composite vortex beam communication based on amplitude and radial mode encoding** [13629-11]
- 13629 08 **SynPolSAR: Augmenting PolSAR and optical image-mask pairs using diffusion models** [13629-12]
- 13629 09 **The application of intelligent optical sensor networks in industrial automation** [13629-14]
- 13629 0A **Design of material sorting control system based on machine vision** [13629-18]
- 13629 0B **Robot autonomous navigation system based on improved Gmapping algorithm and optical sensing techniques** [13629-23]
- 13629 0C **Few-shot classification of surface defects in silicon steel based on controllable convolutional data augmentation network and optical imaging** [13629-25]
- 13629 0D **A convolutional neural network-based platform for clothing style feature extraction and new style generation: integrating optical feature extraction for enhanced design** [13629-26]
- 13629 0E **A large number of optical turbidimeter designs** [13629-28]
- 13629 0F **Bogie fault diagnosis method based on optical imaging and SIBOS-SVM** [13629-33]

- 13629 OG **Investigation on color rendering of four-color LED system with constant luminous flux** [13629-34]
- 13629 OH **Design and implementation of a traveler positioning application navigation system based on ant colony algorithm with optical beacon** [13629-35]
- 13629 OI **Remote measurement of citrus fruit volume based on fluorescence Scheimpflug-LiDAR system** [13629-36]
- 13629 OJ **Design of deep well water level measurement device based on power line carrier communication with consideration of optical sensing techniques** [13629-43]
- 13629 OK **Research on face feature extraction algorithm based on OpenCV with optical enhancements** [13629-45]
- 13629 OL **Optimizing UAV decoy deployment against infrared and optical-guided missiles using an adaptive genetic algorithm approach** [13629-46]
- 13629 OM **Progressive artistic image and multispectral image inpainting via multi-scale diffusion and dense contrastive learning** [13629-47]
- 13629 ON **Numerical analysis of inter-valley electrons transferring behavior in GeSn alloys for optoelectronic applications** [13629-50]
- 13629 OO **The method of soil moisture prediction based on hyperspectral imaging and two-stage attention mechanism** [13629-56]
- 13629 OP **A dark channel prior dehazing algorithm based on adaptive window filtering and dual channel weighted atmospheric light value estimation** [13629-57]
- 13629 OQ **Rapid 3D reconstruction of photomasks based on differential structured illumination microscopy** [13629-62]
- 13629 OR **Research on low-light image enhancement method based on UNet** [13629-67]
- 13629 OS **Research on safety risk prediction model of working at height based on fusion technology of radar imaging and optical imaging** [13629-70]
- 13629 OT **Influence of medium temperature on digital radiographic parameters during online inspection of pressure piping systems** [13629-72]
- 13629 OU **Comparison of optical see-through and video see-through schemes in augmented reality display technology** [13629-75]
- 13629 OV **Research and practice on a water environment pollution monitoring system based on the 51 single chip microcomputer and wireless optical sensing technology** [13629-76]
- 13629 OW **Optimization design of THz photoconductive antenna based on EOT** [13629-82]
- 13629 OX **Application of Otsu multi-threshold segmentation based on artificial bee colony and wolf pack algorithm optimization in optical images** [13629-86]

13629 0Y **Swin-UNet with integrated attention mechanisms for precise retinal layer segmentation in optical coherence tomography images** [13629-94]

---

**COMPUTER SCIENCE AND COMMUNICATION TECHNOLOGY**

---

13629 0Z **Research on the prediction of stock prices in the food and media sectors based on the random forest algorithm** [13629-6]

13629 10 **Classification of fine-grained skin lesions based on ES-ResNet50V2** [13629-13]

13629 11 **Field programmable gate array-based data processing and early warning system design** [13629-15]

13629 12 **Defect detection and analysis in composite insulators based on ultrasonic flaw detection technology** [13629-16]

13629 13 **Intelligent course scheduling method and its optimization based on multi-stage heuristic algorithm** [13629-20]

13629 14 **Design and implementation of a real-time visual analysis platform for enhancing real estate brokerage efficiency** [13629-21]

13629 15 **Research on construction of effective function sets for general aviation aircraft products based on ant colony algorithm** [13629-24]

13629 16 **Research on the optimization of simple linear iterative clustering algorithm in superpixel segmentation** [13629-27]

13629 17 **Abnormal detection of electric power marketing data based on BiLSTM-CNN-CRF** [13629-29]

13629 18 **A SQL automatic generation method based on prompt learning** [13629-30]

13629 19 **Research on CT image segmentation technology based on hybrid intelligent algorithm** [13629-32]

13629 1A **A deep learning model for cigarette package surface defect detection integrating multi-scale features** [13629-37]

13629 1B **Research on classroom attention algorithm for student facial expression recognition based on CF-YOLO** [13629-38]

13629 1C **TMPVT: few-shot classification of Tibetan medicinal plants using vision transformer** [13629-39]

13629 1D **Study on the method of identifying indicator diagram of sucker rod pump based on bionic pattern recognition** [13629-40]

- 13629 1E **Frequency-guard: defense against data poisoning attacks to local differential privacy protocols [13629-41]**
- 13629 1F **Research on brush generation oil painting algorithm based on DCGAN-RBCA [13629-42]**
- 13629 1G **Real-time data flow processing and optimization scheduling scheme for power system based on Kafka [13629-44]**
- 13629 1H **Research on differential solution based on aligned transformer [13629-48]**
- 13629 1I **Design and implementation of cooperative multi-agent based on MAPPO [13629-49]**
- 13629 1J **Research on user profiling based on Apriori algorithm for power marketing big data [13629-51]**
- 13629 1K **Estimating method for power marketing data based on multi-scale convolutional variational autoencoder [13629-52]**
- 13629 1L **Blockchain-based verifiable data deletion and software management for cloud storage [13629-53]**
- 13629 1M **Design and implementation of image classification method based on deep metric learning [13629-54]**
- 13629 1N **Research on MPSK signal modulation identification technology based on higher-order cumulants [13629-55]**
- 13629 1O **An automatic SQL translation method for domestic database migration [13629-58]**
- 13629 1P **CMFD-CC: image copy-move forgery detection via context clustering [13629-59]**
- 13629 1Q **UMIF-Net: unified framework for multi-type image forgery detection and localization [13629-60]**
- 13629 1R **Research and implementation of intelligent parking lot path planning algorithm based on breadth-first search [13629-63]**
- 13629 1S **Research on power grid harmonics recognition based on improved YOLOv5 algorithm [13629-64]**
- 13629 1T **Research on Russian language teaching quality evaluation based on the KNN algorithm [13629-65]**
- 13629 1U **Enhanced classification of traditional Chinese medicine syndromes in primary lung cancer patients using stacking ensemble machine learning algorithms [13629-66]**
- 13629 1V **Voiceprint recognition model based on Ecapa-Tdnn and ResNet [13629-68]**

- 13629 1W **Sanda posture recognition using feature extraction algorithms** [13629-69]
- 13629 1X **Intelligent prediction of trademark registration appeal outcomes based on natural language processing and CatBoost algorithm** [13629-71]
- 13629 1Y **Research on patent classification technology based on deep learning** [13629-73]
- 13629 1Z **Task offload optimization for digital management in cloud computing environments** [13629-74]
- 13629 20 **Research on the application of deep neural networks in predicting English language proficiency** [13629-77]
- 13629 21 **Analyzing user behavior in online communities using data crawling and machine learning algorithms** [13629-78]
- 13629 22 **Design of a deep learning-based voice recognition and control system for autonomous vehicle cockpits** [13629-79]
- 13629 23 **Research on vulnerability optimization strategies in smart contracts based on Smartcheck** [13629-80]
- 13629 24 **Design and construction of remote data disaster recovery center based on cloud storage** [13629-81]
- 13629 25 **Research on test methods for high-speed transmission cables** [13629-83]
- 13629 26 **Two-stream adaptive graph convolutional network with multi-head attention mechanism for industrial safety detection** [13629-84]
- 13629 27 **Optimization of MOOC resource recommendation algorithm for art studies based on the google dataflow architecture** [13629-85]
- 13629 28 **Research on fault and display defect detection system of watt-hour meter based on image processing** [13629-87]
- 13629 29 **Research on the automated process of three-dimensional modeling of substation assisted by artificial intelligence and its accuracy improvement** [13629-88]
- 13629 2A **Improved support vector machine and deep neural network-based rural education platform for data analysis and network education enhancement** [13629-89]
- 13629 2B **GaitSFF: improving gait recognition performance based on selective feature fusion in video surveillance** [13629-93]
- 13629 2C **Optimized design and implementation of sensor for portable external insulation equipment fouling degree measurement device** [13629-90]

- 13629 2D **Research on optimization algorithm in grid engineering survey data acquisition and processing based on cloud computing [13629-91]**
- 13629 2E **Optimization of transmission line defect identification algorithm based on UAV images and application case study [13629-92]**
