

PROCEEDINGS OF SPIE

International Conference on Remote Sensing, Mapping, and Image Processing (RSMIP 2025)

**Fabio Tosti
Román Alvarez**
Editors

**17–19 January 2025
Sanya, China**

Organized by
University of Shanghai for Science and Technology (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13650

Proceedings of SPIE 0277-786X, V. 13650

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Remote Sensing, Mapping, and Image Processing (RSMIP 2025)*, edited by Fabio Tosti, Román Alvarez, Proc. of SPIE 13650, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

REMOTE SENSING INFORMATION EXTRACTION AND POSITIONING TECHNOLOGY APPLICATION

- 13650 02 **Research on AGV localization based on vision and 3D LIDAR** [13650-88]
- 13650 03 **Applicability analysis of GPM IMERG satellite precipitation data in cloudy and foggy regions: a case study of Guizhou Province, China** [13650-69]
- 13650 04 **Research on regional identification of Haihe River project based on unmanned aerial vehicle remote sensing** [13650-127]
- 13650 05 **Research on the compression algorithm for GNSS observation data** [13650-52]
- 13650 06 **Snow grain size retrieval method based on radiative transfer model** [13650-82]
- 13650 07 **Analysis of spatial distribution characteristics and main influencing factors of landslide hazards in typical basins of central Sichuan province** [13650-65]
- 13650 08 **The macroscopic site selection plan for solar thermal power plants based on geographic information system and neural network model** [13650-123]
- 13650 09 **Research on integrated development of rural tourism resources based on spatial information analysis** [13650-93]
- 13650 0A **PHIM: heterologous remote sensing image matching method based on PC-Harris for UAV visual navigation** [13650-9]
- 13650 0B **Study on the spatial heterogeneity in premarital examination rates and disease detection rates** [13650-116]
- 13650 0C **Spatiotemporal characterization of vegetation based on remote sensing technology: a case study of Urumqi** [13650-37]
- 13650 0D **Design of high-speed tracking and display based on FPGA and DSP** [13650-42]
- 13650 0E **Analysis of Kyagar Glacial Lake outburst floods in the Yarkand River Basin since 1998 using multisource remote sensing data** [13650-122]
- 13650 0F **Optimization of UAV-based close-range flight strategy for geological surveys over complex terrain in Southwest China** [13650-41]

- 13650 OG **Analysis of atmospheric particulate pollutants using multisource remote sensing data during the spring festival in Shenyang** [13650-1]
- 13650 OH **Exploration of the primary controlling factors of soil organic carbon in agricultural land based on the CatBoost model and multisource data** [13650-6]
- 13650 OI **Precision single-point positioning method for UAV aerial survey based on dynamic GPS** [13650-119]
- 13650 OJ **Construction of a high-standard farmland digital management platform driven by remote sensing technology** [13650-31]
- 13650 OK **Research on UAV refusal positioning technology based on multisensor fusion** [13650-43]
- 13650 OL **Parallel terrain node processing and rendering: a GPU-accelerated approach** [13650-45]
- 13650 OM **An improved U-shape Kolmogorov-Arnold network for bridge detection of remote sensing images** [13650-25]
- 13650 ON **A Mamba-based bridge detection method for optical remote sensing images** [13650-26]
- 13650 OO **Study on ecological protection and vegetation restoration model of power transmission and transformation project construction in typical ecologically fragile areas in western China in the new period** [13650-94]
- 13650 OP **Slope stability analysis based on stereographic projection and limit equilibrium analysis: a case study of the Baiyanzi Houqing limestone mine in Jianchuan County** [13650-105]
- 13650 OQ **U-Tracker: efficient multiobject tracking for drone vision** [13650-89]
- 13650 OR **Behavior cloning for active object detection in UAV remote sensing** [13650-85]
- 13650 OS **Research on drought driving factors in karst regions of Southwest China based on multisource remote sensing data** [13650-18]
- 13650 OT **Spatiotemporal characteristics analysis of atmospheric delay in spaceborne SAR based on IRI2020 and ERA5** [13650-61]
- 13650 OU **Research on accuracy optimization of coastal zone remote sensing images based on deep learning** [13650-53]
- 13650 OV **A prospect of applying UAV remote sensing in off-road navigation** [13650-80]
- 13650 OW **Analysis of spatiotemporal changes and degradation in grassland net primary productivity in northern Xinjiang** [13650-126]

INTELLIGENT MAPPING AND TARGET RECOGNITION TECHNOLOGY

- 13650 0X **Foreign tourists exploring China: a multidimensional evaluation-based tourism optimization model** [13650-7]
- 13650 0Y **Improving the efficiency of selecting chart soundings automatically based on weighting triangles dynamically** [13650-114]
- 13650 0Z **Spatial and temporal distribution monitoring of photovoltaic land based on high-resolution remote sensing time series images** [13650-47]
- 13650 10 **A field pest and disease recognition system based on YOLOv9** [13650-87]
- 13650 11 **Prototypical contrastive learning-based transformer for occluded person re-identification** [13650-16]
- 13650 12 **Overview of video synthetic aperture radar moving target detection algorithms** [13650-111]
- 13650 13 **Crop recognition based on generative adversarial networks** [13650-8]
- 13650 14 **Monitoring of ecological environment quality in the Yangtze River delta region** [13650-14]
- 13650 15 **Multimodal fusion for severity detection of tomato bacterial wilt using hyperspectral and RGB imaging data** [13650-100]
- 13650 16 **Military aircraft identification algorithm based on coordinate channel attention mechanism** [13650-12]
- 13650 17 **A novel hybrid framework for landslide susceptibility mapping using entropy-weighted fuzzy overlay and random forest: case study of Changshan County, China** [13650-118]
- 13650 18 **Monitoring of mining subsidence based on UAV photogrammetry technology** [13650-96]
- 13650 19 **A new feed-forward deep neural network: mobile dense neural network** [13650-75]
- 13650 1A **A YOLO-based behavior detection and analysis system for smart classrooms** [13650-112]
- 13650 1B **Route planning of UAV transmission line inspection based on multiresolution grid and optimized RRT* algorithm** [13650-97]
- 13650 1C **A deep-sea sound velocity profile inversion method combining World Ocean Atlas 2023 data and real-time surface sound velocity** [13650-46]
- 13650 1D **EANet: point cloud analysis based on edge attention mechanism** [13650-98]
- 13650 1E **NeRF-based defect detection** [13650-83]

- 13650 1F **Improved highway abandoned objects detection algorithm of YOLOv5** [13650-59]
- 13650 1G **CDS-YOLO: a real-time infrared small target detection model** [13650-84]
- 13650 1H **Projectile clearance measurement technology based on linear laser displacement sensing** [13650-102]
- 13650 1I **Signal abrupt point detection based on wavelet transform** [13650-23]
- 13650 1J **Extraction and analysis of tidal level data based on time-frequency transformation** [13650-103]
- 13650 1K **Research on data assimilation of aerosol optical parameters in the coastal area of Guangzhou based on ensemble Kalman filter** [13650-107]
- 13650 1L **Visual attention mechanism bolt defect detection model based on YOLOv8** [13650-13]
- 13650 1M **Identification of marine mesoscale eddy fine structure based on satellite synthetic aperture radar data** [13650-58]
- 13650 1N **Simulation method for the characteristics of sea clutter driven by statistics** [13650-108]
- 13650 1O **Road defect detection based on improved YOLOv8** [13650-106]
- 13650 1P **Research on simultaneous localization and mapping based on MATLAB** [13650-17]
- 13650 1Q **Blood cell target detection based on improved YOLOv10** [13650-55]
- 13650 1R **Method for detection and optimisation of vein boundaries on the back of the hand based on U-Net and Canny algorithms** [13650-60]
- 13650 1S **Automatic measurement of image points in cross-scale satellite line array images under the constraint of EFP method** [13650-101]

IMAGE PROCESSING AND COMPUTER VISION TECHNOLOGY

- 13650 1T **Image style transfer based on improved detail retaining** [13650-67]
- 13650 1U **The method of underwater image enhancement and dense mapping based on ORBSLAM3** [13650-99]
- 13650 1V **Research on deepfakes images detection technology and anti-fraud application for social media** [13650-78]
- 13650 1W **Lightweighting aircraft type recognition technology for synthetic aperture radar imagery** [13650-4]

- 13650 1X **Review of airborne downward looking 3D imaging systems and algorithms** [13650-109]
- 13650 1Y **A trigonometric extension of Bézier curve and surface which automatically satisfy G^2 continuity** [13650-120]
- 13650 1Z **Research on scattering characteristics of buildings under trees in polarimetric SAR images based on polar decomposition** [13650-36]
- 13650 20 **Ship target detection in SAR images based on lightweight SNC-HL model** [13650-11]
- 13650 21 **Research and application of key technologies for refined management of urban infrastructure: a case study of 3D reality modeling of squares and roads** [13650-29]
- 13650 22 **Method for segmenting steel rail lines in video frames using the Rail-UNet model** [13650-22]
- 13650 23 **Improved PoseConv3D for human action recognition based on CBAM** [13650-30]
- 13650 24 **Research on personalised thangka image generation** [13650-33]
- 13650 25 **Attention fusion source channel coding for wireless image transmission networks** [13650-20]
- 13650 26 **Current developments and future trends in face recognition technology based on artificial intelligence** [13650-2]
- 13650 27 **Foggy image enhancement algorithm based on dynamic weighting** [13650-74]
- 13650 28 **Non-uniform illumination image enhancement based on high-dynamic range** [13650-49]
- 13650 29 **Wave factors affecting the clarity of sea wave stripes in SAR images** [13650-121]
- 13650 2A **Feature blend-based multiscale semantic segmentation** [13650-57]
- 13650 2B **Research on image dehazing based on deep learning CGAN model** [13650-62]
- 13650 2C **CAA-YOLO: an improved YOLOv11 model for ship detection in SAR images based on context anchor attention module** [13650-79]
- 13650 2D **Texture-specific image editing with TALC-Net** [13650-3]
- 13650 2E **Few-shot hyperspectral image classification method based on lightweight multiscale transformer** [13650-28]
- 13650 2F **Image inpainting based on Mamba-GAN network** [13650-5]

- 13650 2G **FFT-based interpolation for faster 3D coil sensitivity map computation in multichannel MRI** [13650-56]
- 13650 2H **Diff-Lighten: low-light image enhancement with Retinex-based diffusion models** [13650-76]
- 13650 2I **A survey of deep-learning-based image matching algorithms** [13650-115]
- 13650 2J **SFT-Net: low-light image enhancement network based on spatial feature transformation** [13650-15]
- 13650 2K **Review of image compression technology: from traditional methods to deep learning** [13650-44]
