## TABLE OF CONTENTS

### **5-20-2025 TUESDAY: TRACK 1**

|                                                                                                                                                                    |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| When Ethics Are Tested: Standing Firm in Engineering Challenges .....                                                                                              | 1   |
| <i>John Hargrave, William Boze</i>                                                                                                                                 |     |
| 3815 - Defending Mass Properties .....                                                                                                                             | 14  |
| <i>Robert Zimmerman</i>                                                                                                                                            |     |
| 3821 - Developmental Aircraft Design: Quantifying Weight Maturity to Calculate Retired and<br>Remaining Developmental Weight Growth: "Agile Weight Maturity" ..... | 34  |
| <i>Roman Aman, Melissa Gray</i>                                                                                                                                    |     |
| Lockheed Martin Corporate Overview.....                                                                                                                            | 77  |
| <i>Jeremy Kruger</i>                                                                                                                                               |     |
| 3835 - Vibration Characterization for Active Damping in a 2U CubeSat Payload for Rocketry<br>Applications.....                                                     | 82  |
| <i>Ellen Froelich</i>                                                                                                                                              |     |
| Altair® Weight and Cost Analytics™ .....                                                                                                                           | 93  |
| <i>Rocco Capiello, Stefano Ciravegna, Andrea Accotto</i>                                                                                                           |     |
| 3823 - Agile RIO Weights Management Best Practices for Vehicle Development .....                                                                                   | 103 |
| <i>Mark Beyer</i>                                                                                                                                                  |     |
| General Electrodynamics Corporation .....                                                                                                                          | 138 |
| <i>Trevor Davis</i>                                                                                                                                                |     |
| Numerical Approach Based on Cuboid Splitting to Calculate the CG Shift of Liquid Filled<br>Containers Resulting from Rotations .....                               | 143 |
| <i>Marvin Siewert</i>                                                                                                                                              |     |
| Intercomp .....                                                                                                                                                    | 154 |
| <i>Johnny Redman</i>                                                                                                                                               |     |
| 3828 - Biomimetic Swimming Taxidermy Duck Robot: Design, Development, and Testing .....                                                                            | 160 |
| <i>Darion Vosbein, Kathryn McDonagh, Sean Goodyear, Mostafa Hassanalian</i>                                                                                        |     |
| 3830 - Integrating Taxidermy into Drone Engineering: A Mallard-Based Flapping-Wing Aerial<br>System .....                                                          | 169 |
| <i>Darion Vosbein, Jared Upshaw, Samuel Maimako, Mostafa Hassanalian</i>                                                                                           |     |
| Raptor Scientific.....                                                                                                                                             | 182 |
| <i>N/A</i>                                                                                                                                                         |     |

### **5-20-2025 TUESDAY: TRACK 2**

|                                                                                                                                               |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------|-----|
| 3829 - Bio-Inspired Innovations: Exploring the Aerodynamic Impacts of Wing Coloration, Shape,<br>Mass, and Spacing in Flight Efficiency ..... | 189 |
| <i>Narges Bagheri, Brenden Herkenhoff, Mostafa Hassanalian</i>                                                                                |     |

|                                                                                                               |     |
|---------------------------------------------------------------------------------------------------------------|-----|
| 3832 - Bio-Inspired Group Avian Flight: Exploring the Aerodynamic Impacts of V-Formed Flight Efficiency ..... | 206 |
| <i>Narges Bagheri, Mostafa Hassanalain</i>                                                                    |     |
| 3831 - Development of a Weight-Constrained Permissible Drone: Engineering and Regulatory Frameworks .....     | 218 |
| <i>Narges Bagheri, Mostafa Hassanalain</i>                                                                    |     |
| 3833 - Path Planning for Autonomous Unmanned Ground Vehicles in Underground Mining .....                      | 229 |
| <i>Narges Bagheri, Darion Vosbein, Hassan Khaniani, Mostafa Hassanalain</i>                                   |     |
| 3825 - A Study on Design, Simulation and Dynamic Properties of a Moving Mass Coaxial Monocopter .....         | 238 |
| <i>An Nguyen, Samuel Maimako, Mostafa Hassanalain</i>                                                         |     |
| 3826 - A Non-Conservative Assessment of the Feasibility of a Solar-Powered Airshop for Mars.....              | 254 |
| <i>Yan Pozhanka, Mostafa Hassanalain</i>                                                                      |     |
| 3817 - Mass Property Data Checking for Modular Construction .....                                             | 264 |
| <i>Robert J. Hundl, Jeff Robertson</i>                                                                        |     |

## **5-22-2025 THURSDAY**

|                                                                                                                                     |     |
|-------------------------------------------------------------------------------------------------------------------------------------|-----|
| Opportunities for Artificial Intelligence & Machine Learning in Mass Properties Applications .....                                  | 277 |
| <i>Amanda Cutright, M. Bucci, Mark Beyer, Rocco Cappiello</i>                                                                       |     |
| 3816 - Empowering Mass Properties Engineers with Artificial Intelligence: Transforming Estimation, Analysis, and Optimization ..... | 303 |
| <i>William Boze</i>                                                                                                                 |     |
| Gulfstream Aerospace Corporation: 2025 Company Overview .....                                                                       | 315 |
| <i>N/A</i>                                                                                                                          |     |
| 3822 - Enabling Digital Transformation in Weights Management: A Unified Data Model for Industry-wide Integration .....              | 328 |
| <i>Mark Beyer</i>                                                                                                                   |     |
| B&A Software AS: Weight Management Software.....                                                                                    | 380 |
| <i>N/A</i>                                                                                                                          |     |
| 3836 - Digital Transformation of Weight, Balance and Cost Data .....                                                                | 386 |
| <i>Ben Buchanan</i>                                                                                                                 |     |
| HII: Delivering the Advantage .....                                                                                                 | 395 |
| <i>N/A</i>                                                                                                                          |     |
| SAWE'S Career Development Initiatives: Mentoring, Training, Certification, Forums & Publications .....                              | 403 |
| <i>Robert Zimmerman, Darren Gamble, Dirk Petersen, Melissa Gray, Amanda Cutright</i>                                                |     |
| MassMaster: Transforming Unsung Weights Engineers into Superheroes!.....                                                            | 416 |
| <i>Mark Beyer, Victor Graham, Kishore Jayakumar</i>                                                                                 |     |
| 3827 - Dynamic Mass-Aware Trajectory Tracking of Airships Using Multi-Actors Proximal Policy Optimization.....                      | 419 |
| <i>Rongwei Liang, Duc T. A. Nguyen, Samuel Maimako</i>                                                                              |     |

Technology Development Using the Technology Readiness Assessment Insight Template (TRAIT)  
Tool..... 425  
*Amanda Cutright*
