

# **2025 International Conference on Advanced Sensing Technology and Aerospace (ASTA 2025)**

Journal of Physics: Conference Series Volume 3056

Changsha, China  
25-28 April 2025

ISBN: 979-8-3313-2481-0  
ISSN: 1742-6588

# TABLE OF CONTENTS

Preface

Peer Review Statement

|                                                                                                                                                              |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Interval Type-2 Fuzzy PID Control for Space Manipulator with Flexible Links and Joints .....                                                                 | 1   |
| <i>Mingyu Li, Menglu Zhu, Chenhao Liu, Hongzhen Li, Yi Zeng</i>                                                                                              |     |
| Design Method for Streamwise Area Distribution of Variable Cross-Section Curved Isolator .....                                                               | 9   |
| <i>Bo Wang, Fei Qin, Zhengze Zhang, Xianggeng Wei, Yajun Wang, Jinying Ye, Xing Sun, Zhen Tao</i>                                                            |     |
| Numerical Investigation of Combustion Regime and Heat Release Characteristics in RBCC Engine Under Different Dynamic Pressures .....                         | 19  |
| <i>Zhen Tao, Fei Qin, Zhengze Zhang, Yajun Wang, Jinying Ye, Bing Liu, Bo Wang</i>                                                                           |     |
| Application of Deep Learning in Flow and Heat Transfer Simulation of Supercritical Hydrocarbon Fuels .....                                                   | 29  |
| <i>Li Yeyi, Zhang Minguo, Chen Rui, Ding Ziyang, Jiang Rongqing, Jing Tingting, Qin Fei, Liu Yinlong, Sun Xing</i>                                           |     |
| Adaptive Cooperative Attitude Control of Satellite Formation System Via Fractional-Order PID .....                                                           | 37  |
| <i>Qixin Kui, Xiaolei Li, Yinhao Ju, Ruihang Wu, Jiawei Liu</i>                                                                                              |     |
| Graph-Based Trajectory Planning for Spacecraft Within Multiple High-Speed Debris Conjunctions .....                                                          | 45  |
| <i>Jikai Wang, Xiaoyi Wang, Ming Xu</i>                                                                                                                      |     |
| Combined Euler-Lagrange Method for 3D Large Droplet Collection Efficiency Prediction .....                                                                   | 58  |
| <i>Jiaxin Yu, Weijian Chen, Long Xia, Ning Guan</i>                                                                                                          |     |
| Analysis and Verification of Fluid Cooling System Leakage Fault of Manned Spacecraft.....                                                                    | 69  |
| <i>Yang Fu, Yaoyao Zhu, Zhangpeng Ming, Chunyang Niu, Shigui Zheng, Dongpu Wang, Xianlin Wu</i>                                                              |     |
| Prediction of Frost Formation on Aircraft Wing Skin Before Takeoff in Winter.....                                                                            | 77  |
| <i>Miao Zheng, Weijian Chen, Xiao Han, Ning Guan</i>                                                                                                         |     |
| Application Analysis of Temperature Prediction in UAV Equipment Compartment Based on Thermal Network Method .....                                            | 85  |
| <i>Yankun Chen, Weijian Chen, Guangya Zhu, Chaowu Xiang</i>                                                                                                  |     |
| Analysis of Contact Thermal Resistance in Space Remote Sensing Instrument: Theoretical and Experimental Study .....                                          | 96  |
| <i>Liu Fu-long, Yu Feng, GAO Chang-Chun, LIU Chang, WEI Guang-Lang</i>                                                                                       |     |
| Numerical and Experimental Study of the Phase Change Materials Heat Exchanger Coupled with Fluid Loops in Spacecraft Thermal Control .....                   | 102 |
| <i>Yan Wang, Zhendong Fu, Yuying Wang, Ling Chen, Xianlin Wu, Yu Jin, Fankong Meng, Jinyin Huang, Xingang Yu, Jianfeng Cao, Hongxing Zhang, Jianyin Miao</i> |     |
| Thermal Control Design and In-Orbit Verification of the Star Sensors on Taijing-3 01 Satellite .....                                                         | 111 |
| <i>Yinxue Yan, Jiong Zhang, Yue Zhang, Pan Lu, Qingle Kong</i>                                                                                               |     |

|                                                                                                   |     |
|---------------------------------------------------------------------------------------------------|-----|
| Research on GNSS Landslide Deformation Monitoring Method Based on Virtual Reference Station ..... | 118 |
| <i>Chen He, XiaoQing Wang, Xinye Dai, Hongzhen Yang, JunLi Wu, WeiBin Sun, Zhuang Peng</i>        |     |
| Passive Strain Sensor Based on RFID Patch Antenna .....                                           | 132 |
| <i>Shuo Yang, Xiaochen Wang, Qiaozhi Song, Xiaochuan Liu, Peng Li, Yiren Yang</i>                 |     |
