

PROCEEDINGS OF SPIE

# ***Quantum Optics and Photon Counting 2025***

**Ivan Prochazka  
Roman Sobolewski  
Josef Vojtech**  
*Editors*

**7–9 April 2025  
Prague, Czech Republic**

*Sponsored by*  
SPIE

*Cosponsored by*  
ELI Beamlines, ELI-ERIC (Czech Republic)  
Inprentus, Inc. (United States)  
CeramOptec® (Latvia)

*Cooperating Organisations*  
HiLASE (Czech Republic)  
AWE (United Kingdom)  
Czech and Slovak Optical Society (Czech Republic)

*Published by*  
SPIE

**Volume 13525**

Proceedings of SPIE 0277-786X, V. 13525

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:  
Author(s), "Title of Paper," in *Quantum Optics and Photon Counting 2025*, edited by Ivan Prochazka, Roman Sobolewski, Josef Vojtech, Proc. of SPIE 13525, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

---

## PHOTON COUNTING I

---

- 13525 02 **Characterizing and exploiting cross-talk effect in SPAD arrays for two-photon interference**  
[13525-5]

---

## PHOTON COUNTING II

---

- 13525 03 **High performance and broadband nanoscale thermoelectric single-photon detector**  
**(Invited Paper)** [13525-6]
- 13525 04 **Integration of cryogenic on-chip resistors for enhanced readout and modulation precision**  
**of quantum detectors and actuators** [13525-7]
- 13525 05 **Space qualified four channel Si SPAD detector (Best Student Paper Award)** [13525-8]
- 13525 06 **Microcavity integration with 2D Paul trap** [13525-9]

---

## PHOTON COUNTING III

---

- 13525 07 **Single photon detectors based on superconducting nano/microstrips for applications at**  
**short-wavelength infrared (Invited Paper)** [13525-11]
- 13525 08 **Superconducting nanostrip single-photon detectors for quantum key distribution**  
**applications** [13525-12]
- 13525 09 **Microchannel plate based photon counting at UV wavelengths for astronomy applications**  
[13525-15]

---

## QUANTUM OPTICS I

---

- 13525 0A **Automated polarization basis adjustment and security monitoring in quantum**  
**communication via coincidence entropies** [13525-19]

## QUANTUM OPTICS II

---

- 13525 0B **Towards generation of entangled photon in system of two interacting semiconductor position-based qubits (Invited Paper) [13525-21]**
- 13525 0C **Effect of temporal fluctuation of control pulse on the evolution of a two-level system single-photon source [13525-22]**

## POSTER SESSION

---

- 13525 0D **Implementation of a rapid data processing quantum imaging system with high contrast [13525-34]**
