

PROCEEDINGS OF SPIE

International Conference on Remote Sensing, Surveying, and Mapping (RSSM 2025)

Jinjian Wu
Juanle Wang
Editors

10–12 January 2025
Xi'an, China

Organized by
Shandong Jianzhu University (China)

Published by
SPIE

Volume 13642

Proceedings of SPIE 0277-786X, V. 13642

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Remote Sensing, Surveying, and Mapping (RSSM 2025)*, edited by Jinjian Wu, Juanle Wang, Proc. of SPIE 13642, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- ix *Conference Committee*
- xi *Introduction*

GEOGRAPHIC INFORMATION SCIENCE AND ECOLOGICAL ENVIRONMENT RESEARCH

- 13642 02 **The impact of highway network on natural landscape and ecosystem: a case study of Tibet Autonomous Region** [13642-30]
- 13642 03 **Inversion and analysis of vegetation cover in Helan Mountains based on Landsat 8 remote sensing images** [13642-36]
- 13642 04 **Analysis on the changes of soil conservation services and influencing factors in dry-hot river valleys: a case study of the Yuanjiang-Honghe River basin** [13642-12]
- 13642 05 **Spatial distribution characteristics and influencing factors of traditional villages along the Jiangsu section of the Grand Canal** [13642-71]
- 13642 06 **Tempo-spatially distribution characteristics of CO₂ simulated based on GEOS-Chem model** [13642-21]
- 13642 07 **Study on the influencing factors of spatial distribution of settlements in Weihe River basin based on GIS spatial analysis** [13642-10]
- 13642 08 **Multi-satellite task planning algorithm based on target clustering** [13642-92]
- 13642 09 **Research on surface deformation information extraction based on LT-1A/B satellites** [13642-7]
- 13642 0A **Research on the realization of multifactor marine substrate classification function based on GIS** [13642-43]
- 13642 0B **Landslide risk assessment based on GIS and random forest algorithm: a case study of Tuojiang River basin** [13642-52]
- 13642 0C **Mass balance analysis of typical glaciers on the Tibetan Plateau based on multisource remote sensing** [13642-98]
- 13642 0D **Study of site effects in the Chongqing region using the spectral ratio method** [13642-3]
- 13642 0E **Analysis of vegetation cover and productivity changes in the Shaliu River basin based on multisource remote sensing data** [13642-51]
- 13642 0F **Spatial distribution characteristics and evolution of parks in Shenyang** [13642-42]

- 13642 OG **Study on the coupling relationship between park differentiation characteristics and spatial vitality** [13642-65]
- 13642 OH **The impact of park surface substrates on atmospheric temperature: a quantitative analysis based on remote sensing technology and CFD simulation** [13642-25]
- 13642 OI **Northwest pacific tropical cyclone activity intensity change of spatial distribution characteristics and the large-scale environment background field** [13642-60]
- 13642 OJ **Retrieval of soil moisture over different crops farmland from multisource data using ensemble learning methods** [13642-68]
- 13642 OK **Global-local semantic fusion for wetland remote sensing image segmentation** [13642-83]
- 13642 OL **Rolling potential evaluation of ultradeep and ultrathin reservoirs in M area of Tabei uplift** [13642-112]
- 13642 OM **Application and research of Guangxi traditional villages based on UAV + GIS technology: taking Sanjiang Dong Autonomous County as an example** [13642-56]
- 13642 ON **Analysis of spatiotemporal changes and driving forces of ecological environment quality in Shandong section of Yellow River Basin based on GEE** [13642-81]
- 13642 OO **Analysis of scenic spots accessibility under the combined effect of subjective and objective factors: a case study of Kunming** [13642-16]
- 13642 OP **The spatial classification of mobile vendors' aggregation preferences and diurnal-nocturnal divergence of forms a case study of Beihai city** [13642-69]
- 13642 OQ **Remote sensing estimation of surface evapotranspiration based on SEBAL model** [13642-82]
- 13642 OR **Multiscale edge perception for domain-adaptive road extraction in remote sensing imagery** [13642-54]
- 13642 OS **Application and research in underground cavern based on 3D GIS** [13642-49]
- 13642 OT **Spatial-temporal evolution characteristics and driving factors of suburbs rural natural landscape pattern: a case study of Jiashan county in Yangtze River delta, China** [13642-111]
- 13642 OU **Exploring genetic algorithms for urban pipeline data matching** [13642-14]
- 13642 OV **An INS-assisted GNSS navigation and positioning method for satellite receivers based on adaptive CKF algorithm** [13642-79]
- 13642 OW **Analysis and research on the changes of ecological land landscape pattern based on the third national land survey** [13642-26]

- 13642 0X **Comparative analysis of terrain hazard models for planetary landing hazard avoidance** [13642-19]
- 13642 0Y **Study on semantic segmentation of remote sensing images based on improved WiCoNet modeling** [13642-86]
- 13642 0Z **Analysis of heavy precipitation structure at different elevations in Sichuan region based on GPM satellite data** [13642-88]
- 13642 10 **Analysis of land use change in Xingyun Lake basin from 2009 to 2020** [13642-120]

REMOTE SENSING AND EARTH OBSERVATION TECHNOLOGY APPLICATIONS

- 13642 11 **Remote sensing of latent heat flux anomalies in earthquake prediction** [13642-24]
- 13642 12 **Research on anti-interference methods for on-orbit autonomous programming of GNSS** [13642-5]
- 13642 13 **Validation of ICESat-2 elevation accuracy using multiyear kinematic GNSS along the CHINARE traverse** [13642-61]
- 13642 14 **Research on detecting atmospheric particulate matter during sandstorms based on GNSS PWV residual signals** [13642-115]
- 13642 15 **An improved and lightweight remote sensing target detection algorithm with Yolo11n** [13642-35]
- 13642 16 **Research on rapid construction method of 3D model of hydraulic tunnel based on handheld SLAM** [13642-27]
- 13642 17 **Prediction of potential distribution areas of *Ovis ammon* in China under the SSP scenario based on MaxEnt model** [13642-29]
- 13642 18 **Application of short baseline set radar interference analysis technology in monitoring surface deformation in mining areas** [13642-37]
- 13642 19 **MRANet: multiscale remote sensing image change detection based on ratio attention mechanism** [13642-76]
- 13642 1A **Monitoring methods and data analysis of landslide** [13642-20]
- 13642 1B **Research on video moving object detection based on improved three-frame difference algorithm** [13642-113]
- 13642 1C **Analysis and prediction of long-term temporal variations of GNSS-derived precipitable water vapor in the Qinghai region** [13642-104]
- 13642 1D **Debris flow target detection and localization method based on Trans-YOLOv8** [13642-100]

- 13642 1E **Kernel density estimation method considering the behavioral state of moving objects**
[13642-66]
- 13642 1F **Incorporating convolutions into visual-transformers for cloud detection in remote sensing images** [13642-4]
- 13642 1G **Lithology identification method based on deep feature autoencoder and XGboost**
[13642-99]
- 13642 1H **Research and application of multisource heterogeneous data fusion technology for dynamic monitoring and early warning of ancient buildings** [13642-74]
- 13642 1I **Coastline detection based on landsat data by the general high tide line method in the Yellow River Delta, China** [13642-38]
- 13642 1J **Research on identification of urban functional zoning based on multimodal data fusion**
[13642-93]
- 13642 1K **A ground-to-space electromagnetic noise suppression technique based on an improved iterative least squares method** [13642-94]
- 13642 1L **CDHNet: a remote sensing image cropland change detection network combining difference feature enhancement and hierarchical adaptive feature fusion** [13642-91]
- 13642 1M **Uncertainty and quality assessment of satellite-based precipitation products using three-cornered hat method** [13642-47]
- 13642 1N **Research on SAR detection performance prediction model based on genetic algorithm and stacking ensemble learning** [13642-33]
- 13642 1O **Research on GNSS multipath error weakening method based on PSO-SVR model**
[13642-121]
- 13642 1P **The underground inspection robot technology using 400-line LiDAR ultradense mapping**
[13642-8]
- 13642 1Q **Application and evaluation of electro-optic detecting device for airport anti-UAV system**
[13642-41]
- 13642 1R **Onboard cloud detection and classification based on attentional convolutional neural networks** [13642-55]
- 13642 1S **Rapid object detection method for large-scale high-resolution optical remote sensing images based on image pyramid scene classification** [13642-70]
- 13642 1T **CPMFusion: LiDAR-camera fusion framework for 3D object detection in bird's eye view space** [13642-72]
- 13642 1U **Deep learning and edge detection coupled model for building and road extraction**
[13642-34]

RESEARCH ON GEOGRAPHIC INFORMATION AND INTELLIGENT MAPPING TECHNOLOGY

- 13642 1V **Research on the longitudinal and transverse section extraction method based on terrain key points of LiDAR point cloud** [13642-11]
- 13642 1W **Fine-grained building function recognition based on a semi-supervised framework and street-view images** [13642-40]
- 13642 1X **Research on the refinement of 3D models based on oblique photography** [13642-106]
- 13642 1Y **Research on parametric design method of landscape architecture based on ARCGIS** [13642-85]
- 13642 1Z **A differential stratified SAR imaging method based on a subset of small baselines** [13642-58]
- 13642 20 **Deploying traditional 2D semi-supervised image segmentation models for remote sensing data: an empirical study** [13642-6]
- 13642 21 **Aerial survey flight path planning system for unmanned aerial vehicles based on cesium** [13642-78]
- 13642 22 **Research on the construction of a county-level city real scene 3D digital twin foundation platform** [13642-77]
- 13642 23 **Based on the intensity scan context of LeGO-LOAM** [13642-45]
- 13642 24 **Implementation and application of 3D visualization of advanced exploration data in engineering geophysical exploration based on discrete smooth interpolation algorithm** [13642-15]
- 13642 25 **Research on super-resolution reconstruction method for gaze sequence images based on channel attention and transformer feature fusion** [13642-22]
- 13642 26 **GIS and remote sensing technology-based data acquisition system for inland waterway general survey** [13642-110]
- 13642 27 **Identifying mixed urban functional zone via multisource geographic data and multilabel learning technology** [13642-46]
- 13642 28 **High-resolution remote sensing image ground object segmentation method based on ensemble learning** [13642-96]
- 13642 29 **Automatic extrinsic calibration algorithm for LiDAR-camera fusion systems using spherical target** [13642-80]
- 13642 2A **Random forest enhanced by semi-supervised and active learning for lithology identification** [13642-107]

- 13642 2B **Research on digital design of Yangjiabu woodblock prints under the background of artificial intelligence** [13642-48]
- 13642 2C **Knowledge graph construction for historic architectural complexes: a case study of the Grand View Garden in *The Story of the Stone*** [13642-101]
- 13642 2D **A load balancing method for parallel construction of vector tiles** [13642-57]
- 13642 2E **Deep sea sound velocity profile inversion for hydrographic data correction using whale optimization algorithm** [13642-50]
- 13642 2F **Feature overlap avoidance in hyperspectral learning for mitigating catastrophic forgetting** [13642-108]
- 13642 2G **Research on knowledge graph for labeling dougong component point clouds** [13642-17]
- 13642 2H **A new edge extraction separable convolutional network for SAR image despeckling** [13642-63]
- 13642 2I **Optimization of urban green space landscape pattern and 3D numerical simulation** [13642-87]
- 13642 2J **Leveraging 3D Fourier transform for enhanced point cloud segmentation** [13642-116]
- 13642 2K **Unbalance compensation control based on unbalance mass location identification of stable platform** [13642-59]
- 13642 2L **Research on processing and application of lidar point cloud data** [13642-84]
- 13642 2M **Application of air-ground integrated 3D modeling technology in smart city planning: a case study of Danzao town, Foshan city, China** [13642-9]
- 13642 2N **A multiscale land-sea segmentation method based on U-Net** [13642-90]
- 13642 2O **Segmentation and evaluation of damaged skin images based on UNet-AT** [13642-89]
