**Volume 13657**

**Part One of Two Parts**

Proceedings of SPIE 0277-786X, V. 13657

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Power Electronics and Artificial Intelligence (PEAI 2025)*, edited by Qiang Yang, Parikshit N. Mahalle, Xuehe Wang, Proc. of SPIE 13657, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

xv *Conference Committee*

## Part One

### POWER ELECTRONICS AND ENERGY SYSTEM OPTIMISATION

---

- 13657 02 **Design of automatic daylight tracking photovoltaic energy storage system based on STM32**  
[13657-148]
- 13657 03 **State space average modeling and simulation analysis of the PWM parallel boost converter**  
[13657-63]
- 13657 04 **Monitoring of three-dimensional infrared temperature field of transformer based on spatiotemporal fusion analysis** [13657-241]
- 13657 05 **Time-dependent theoretical study of the dissociation probability of hydrogen molecular ion in intense laser field** [13657-112]
- 13657 06 **Research and application of rainfall prediction method based on PLS-LSTM modeling**  
[13657-239]
- 13657 07 **Research and design of intelligent analysis and management platform for wind power generation** [13657-180]
- 13657 08 **Soft-switching design and implementation of four-switch buck-boost converter** [13657-143]
- 13657 09 **Compact modeling of hafnium oxide memristors including temperature effects based on conductive filaments** [13657-174]
- 13657 0A **Household-transformer relationship and phase identification based on the AFCM-KNN**  
[13657-136]
- 13657 0B **Multi-time scale security quantitative analysis of distributed source and load based on virtual inertia** [13657-107]
- 13657 0C **Chance-constrained bidding model for wind-storage system participation in the electricity market** [13657-61]
- 13657 0D **Research on the effects of solar radiation on the temperature rise of PV grid-connected inverter** [13657-77]
- 13657 0E **Multivariate modelling and analysis for location suitability evaluation of onshore wind power station** [13657-161]

- 13657 OF **Research on power industry process knowledge mining based on artificial intelligence technology and its process optimization design** [13657-130]
- 13657 OG **Analysis of influencing factors of new energy consumption based on best worst method** [13657-229]
- 13657 OH **Design of an 8-inch silicon carbide epitaxial reactor based on internal flow patterns** [13657-118]
- 13657 OI **Design of a high frequency power supply suitable for dielectric barrier discharge** [13657-93]
- 13657 OJ **Adaptive sensing algorithm for photovoltaic solar heat pump heating situation** [13657-232]
- 13657 OK **Retrieval-augmented generation for exam question creation in power industry education** [13657-79]
- 13657 OL **The study of optical fiber dosimeter based on  $\text{Al}_2\text{O}_3\text{:C}$  optically stimulated luminescence and radioluminescence** [13657-42]
- 13657 OM **Modeling and simulation of CAM steering mechanism of new energy patrol car** [13657-24]
- 13657 ON **Simulation study of matrix converters in variable speed constant frequency wind power generation** [13657-73]
- 13657 OO **Study on the vibration characteristics induced by magnetic force on air-core reactors** [13657-83]
- 13657 OP **Design study and experimental validation of a video-imaging rain gauge** [13657-163]
- 13657 OQ **Research on space thruster design based on ammonium dinitramide with electrical ignition** [13657-196]
- 13657 OR **Analysis of factors influencing the thermal characteristics of multichip parallel packaging in power devices** [13657-72]
- 13657 OS **Permanent magnet coupling air gap magnetic field reconstruction and torque performance analysis** [13657-88]
- 13657 OT **Numerical simulation study on the electrostatic precipitator for a 300MW power unit** [13657-99]
- 13657 OU **Optimization and control of integrated energy systems based on multiagent deep reinforcement learning** [13657-52]
- 13657 OV **A long-sequence photovoltaic power generation prediction model based on improved Informer** [13657-9]
- 13657 OW **Research on energy management strategies for integrated energy systems in smart agricultural parks** [13657-230]

- 13657 0X **Sigmoid function model of Zeta converter considering sneak circuits** [13657-46]
- 13657 0Y **Forecasting China's coastal coal freight index based on the PatchTST model** [13657-34]
- 13657 0Z **Research on feature extraction and analysis of voiceprint signals in different operating states of transformers** [13657-222]
- 13657 10 **HaarSSFF-YOLOv8: a deep convolutional neural network for photovoltaic defect** [13657-169]
- 13657 11 **Research progress of carbon nanotube-based flexible devices for microwave absorption** [13657-57]
- 13657 12 **A novel efficiency promotion strategy for three-level ANPC-DAB-based DC-DC converter under new-typed optimization method** [13657-20]
- 13657 13 **Optimal configuration and solution of wind-photovoltaic hydrogen storage coupling off-grid system based on construction cost** [13657-215]

---

#### ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING IN POWER SYSTEMS

---

- 13657 14 **An AI-based autonomous driving robot for crash testing** [13657-158]
- 13657 15 **Research on NOA driving experience evaluation system for intelligent connected vehicles** [13657-133]
- 13657 16 **Infrared image early warning method for the overheating of high-voltage cable tunnels on the basis of hybrid deep learning** [13657-172]
- 13657 17 **Uand-SLAM: a multiagent collaborative SLAM method based on multisource factor optimization** [13657-92]
- 13657 18 **Simulation and design of DAC based on R2R resistor network** [13657-85]
- 13657 19 **Design and implement of carrier UAV for airphibian with deformable propeller** [13657-177]
- 13657 1A **A college entrance exam score prediction model based on improved TF-IDF and LSTM and its application in an AI admission platform** [13657-7]
- 13657 1B **Spectral cues on cone of confusion localization** [13657-170]
- 13657 1C **Over-voltage analysis and suppression of the gas switch breakdown under nanoseconds pulse** [13657-227]
- 13657 1D **Rescue robot for complex scenarios based on dual-arm structure** [13657-64]

- 13657 1E **Exploring polarization diversity in Outdoor V2I MIMO-UWB environments** [13657-151]
- 13657 1F **Application of reinforcement learning model based on random forest optimization in cost prediction of green power transmission and transformation projects** [13657-27]
- 13657 1G **An autonomous service technology of aerospace resources based on demand understanding** [13657-186]
- 13657 1H **Design of an omnidirectional mobile robot based on Mecanum wheel technology** [13657-81]
- 13657 1I **Autonomous navigation method of robot in dynamic environment based on proximal policy optimization** [13657-41]
- 13657 1J **Design of multidomain collaborative simulation platform for intelligent connected vehicles** [13657-74]
- 13657 1K **Process planning issues based on the integration of NSGA-II and reinforcement learning** [13657-66]
- 13657 1L **Deep learning-based disparity-shift stereo matching network** [13657-195]
- 13657 1M **Research on personalized federated graph learning based on embedding similarity in recommendation systems** [13657-11]
- 13657 1N **Artificial intelligence technology and its application in intelligent robotics** [13657-50]
- 13657 1O **Research on waveform classification and loss optimization using machine learning** [13657-185]
- 13657 1P **An efficient pretrain-finetune model for structured light 3D reconstruction** [13657-51]
- 13657 1Q **Time matters: enhancing speech recognition with self-supervised audio reordering tasks** [13657-192]
- 13657 1R **Improvements to the human pose estimation network based on YOLOpose** [13657-58]
- 13657 1S **Multiagent inspection system via minimax multiagent deep deterministic policy gradient** [13657-39]
- 13657 1T **Exploration of natural language processing applications in autonomous driving interaction systems based on transformer architecture** [13657-238]
- 13657 1U **Advance in integrated avionic systems** [13657-160]
- 13657 1V **Dragonfly visual multipath peak evolutionary neural network for solving constrained optimization problems** [13657-95]

- 13657 1W **Task planning method for multirobot collaboration in substation inspection** [13657-152]
- 13657 1X **A fuzzy clustering-based rule model constructed with the regularization strategy and extreme learning machine** [13657-32]
- 13657 1Y **Research on multimodal brain-computer interaction target identification technology based on eye movement and SSVEP** [13657-240]
- 13657 1Z **Research on improved A\* path planning method for agricultural unmanned aerial vehicles** [13657-171]

---

#### SMART GRID AND POWER SYSTEM CONTROL

---

- 13657 20 **Design of ridge gap waveguide slot antenna array on quadrangular platform** [13657-4]
- 13657 21 **Risk analysis of broadband oscillations in wind and photovoltaic power transmission via DC** [13657-89]
- 13657 22 **The structural health assessment method of transmission tower** [13657-135]
- 13657 23 **Construction and application of resilience evaluation index system for power industry chain** [13657-216]
- 13657 24 **Online analysis of transient stability state in power system based on multiscale spatiotemporal graph convolutional neural network** [13657-5]
- 13657 25 **Shear wave velocity prediction based on gradient boosting model enhanced with correlation features** [13657-19]
- 13657 26 **The design and implementation of management device for removed electric energy meter** [13657-137]
- 13657 27 **Application of KA representation theorem in electric vehicle charging load forecasting** [13657-49]
- 13657 28 **Study of transmission characteristics of PT-symmetry-based wireless power transfer system** [13657-224]
- 13657 29 **Optimization of key generation and update mechanism for pipeline calibration information of electric energy measurement equipment** [13657-212]
- 13657 2A **Acceleration durability test and evaluation method of fuel cell bus based on user association** [13657-217]
- 13657 2B **Multi-scenario modeling analysis of rural 10kV distribution line voltage violation based on correlation indicators** [13657-214]

- 13657 2C **Power quality disturbance identification based on gated space-time graph neural network** [13657-69]
- 13657 2D **A spaceborne low-intermodulation all-metal S-band circularly polarized array antenna** [13657-139]
- 13657 2E **Study on ADMM-GBS-based real-time electricity price forecast considering wind power consumption** [13657-128]
- 13657 2F **Analysis of the application of new steel tower in the mountainous area with high and steep slopes** [13657-134]
- 13657 2G **System dynamics-based study on the scale diffusion of rural electric vehicles and charging infrastructure in Hebei Province** [13657-116]
- 13657 2H **A recommended method of electricity sale package based on similarity matching and dual attention mechanism** [13657-65]
- 13657 2I **Research on multi-objective microgrid optimization scheduling based on improved dung beetle optimization algorithm** [13657-124]
- 13657 2J **Intelligent emergency control for power systems via spatio-temporal graph learning** [13657-159]
- 13657 2K **Dynamic analysis of the deployable support mechanism for a large spaceborne parabolic cylindrical antenna** [13657-17]

## **Part Two**

- 13657 2L **Microgrid dispatching strategy based on deep reinforcement learning** [13657-162]
- 13657 2M **The distance and height settings of antennas in the site calibration of whole aircraft HIRF test research** [13657-109]
- 13657 2N **Optimal scheduling of microgrids based on improved dung beetle optimization algorithm** [13657-167]
- 13657 2O **Short-term electricity load forecasting method based on recurrent neural network** [13657-178]
- 13657 2P **Optimization of abnormal sequence labeling for electricity consumption data based on mask-enhanced self training algorithm** [13657-173]
- 13657 2Q **Research and application of integrated inrush current suppression 1/8 brick EMI filter module** [13657-131]
- 13657 2R **Application of mathematical modeling in traffic flow prediction and signal light optimization** [13657-40]

- 13657 2S **Vulnerable transmission section determination method based on improved agglomerative hierarchical clustering** [13657-29]
- 13657 2T **Research on low voltage ride-through control strategy of grid-forming PV-BESS converters based on voltage limitation** [13657-199]
- 13657 2U **In-plane and out-of-plane 4-DOF encoder based on grating** [13657-210]
- 13657 2V **A pseudo-resistor configuration exhibiting linear behaviour over a broad voltage range** [13657-82]
- 13657 2W **Intelligent prediction method for electromagnet quality based on optimized long short-term memory network** [13657-117]
- 13657 2X **The design of an integrated broadband antenna array for radar, detection, and communication** [13657-145]
- 13657 2Y **EMC design of high-power airborne laser system** [13657-200]
- 13657 2Z **Experimental and numerical investigations on the effects of leakage on the transient pressures by considering the TVB dynamic friction** [13657-236]

---

#### INTELLIGENT DETECTION AND FAULT DIAGNOSIS

---

- 13657 30 **Prediction of bearing failure trend based on composite multiscale divergence entropy and EMD-TCN-GRU** [13657-114]
- 13657 31 **Large model object detection technology for defects in transmission line fittings based on transformer** [13657-237]
- 13657 32 **Study on the diagnostic technology of isolating switch defects** [13657-218]
- 13657 33 **Research on the detection method of microcracks in aluminum thin plates based on nonlinear ultrasonic theory** [13657-45]
- 13657 34 **Research on small object foreign object detection algorithm for transmission lines based on improved YOLOv8s** [13657-140]
- 13657 35 **An intrusion detection model for hospital business flow data based on loss-oriented and multimodal active learning** [13657-30]
- 13657 36 **Radar array-based reflection imaging for cigarette detection** [13657-187]
- 13657 37 **Bearing fault diagnosis method based on ICEEMDAN-PCA-CNN** [13657-33]
- 13657 38 **Bearing fault diagnosis via parameter optimization feature mode decomposition and improved 1DCNN** [13657-37]

- 13657 39 **Surface defect detection of cherry image based on YOLOv5 algorithm** [13657-97]
- 13657 3A **Fault estimation for multi-agent systems with actuator faults under switching topologies based on an intermediate observer** [13657-221]
- 13657 3B **Fault diagnosis of industrial robot joints based on generative domain adaptation** [13657-3]
- 13657 3C **Bolt position detection network based on key points algorithm** [13657-86]
- 13657 3D **A fault diagnosis method based on feature engineering and TranFD for battery packs** [13657-150]
- 13657 3E **Estimation of structural strength and fatigue life of a transmission housing under initial defect influence** [13657-168]
- 13657 3F **Optimization design of wet grinding rotor based on DEM-CFD simulation** [13657-70]
- 13657 3G **A rebar surface defect identification method** [13657-123]
- 13657 3H **Adaptive diagnosis technology of aging and temperature faults in intelligent power battery safety early warning system** [13657-231]
- 13657 3I **Distributed fault diagnosis of overhead lines based on traveling wave ranging technology** [13657-184]
- 13657 3J **Sensitivity enhancement of distributed strain sensing system combined  $\Phi$ -OTDR with ultraweak FBG array** [13657-204]
- 13657 3K **Generation of transmission line defect samples based on stable diffusion** [13657-213]
- 13657 3L **Small sample maintainability analysis of machining center subsystem** [13657-59]
- 13657 3M **Dynamic graph neural networks and enhanced transformer for multivariate time series anomaly detection** [13657-87]
- 13657 3N **High-voltage DC line fault location method based on discrete wavelet transform and linear regression** [13657-202]
- 13657 3O **Z-YOLO: an apple object detection algorithm in orchard scenarios based on improved YOLOv11** [13657-111]
- 13657 3P **3D point cloud uniform downsampling method for fast electrode defect detection** [13657-47]
- 13657 3Q **CMDNet: salient object detection for RGB-D video based on cross-modal feature transmission** [13657-8]

- 13657 3R **Cattle detection model based on improved YOLOv8** [13657-132]
- 13657 3S **Failure boundaries of chip solder joints under impact conditions** [13657-138]
- 13657 3T **A method for detecting the surface moisture content of expansive soil based on time-domain reflection technology** [13657-182]
- 13657 3U **Design and implementation of a tomato freshness intelligent detection system based on machine learning** [13657-207]
- 13657 3V **Research on bearing fault diagnosis using a LAOP-LSTM meta-learning model** [13657-103]
- 13657 3W **Target detection algorithm for substation equipment based on YOLOv11** [13657-54]
- 13657 3X **Optimal trajectory planning method of anchoring manipulator based on improved particle swarm optimization algorithm** [13657-101]
- 13657 3Y **Vibration noise analysis in power equipment condition monitoring: from signal processing to intelligent diagnosis** [13657-126]
- 13657 3Z **Fault diagnosis of rolling bearing based on WHO-VMD-SVM** [13657-104]
- 13657 40 **Construction of an integrated application environment for scientific research product trial production** [13657-26]
- 13657 41 **Modeling method of whole vehicle controllability based on support vector machine and its simulation application** [13657-56]
- 13657 42 **Cigarette detection in express packages for terahertz imaging based on YOLOv8** [13657-189]

---

#### INTELLIGENT CONTROL AND OPTIMISATION ALGORITHMS

---

- 13657 43 **Optimization strategy for TSN scheduling based on an enhanced stream preprocessing method** [13657-14]
- 13657 44 **Cross coupling control strategy of dual motors based on fuzzy feedback gain** [13657-100]
- 13657 45 **Speed estimation technique for flying start of medium-voltage induction machine under sensorless field-oriented control** [13657-106]
- 13657 46 **Audio-visual voice conversion using articulatory representation** [13657-141]
- 13657 47 **Research on methods for converting DWG format to SVG format** [13657-22]

- 13657 48 **The open-world object counting algorithm based on YOLO-WOLD [13657-62]**
- 13657 49 **Research on the engine speed stability control in hybrid system [13657-23]**
- 13657 4A **Construction of a knowledge base system based on multimodal information fusion [13657-149]**
- 13657 4B **Study on cost control of Dianzhong water diversion project [13657-90]**
- 13657 4C **Uncertainty-based position-constrained tracking control of spacecraft solar sail drive motors [13657-18]**
- 13657 4D **Research on control strategy of hybrid electric vehicle air conditioning based on disturbance feedforward compensation [13657-175]**
- 13657 4E **Adaptive robust control method for joint flexibility of collaborative robots based on uncertainty [13657-110]**
- 13657 4F **Research and application of screening technology based on sine basis functions in the screening of tobacco scraps and stems [13657-21]**
- 13657 4G **Improve the application of PSO-CNN algorithm in image classification of intelligent safety helmets [13657-183]**
- 13657 4H **Distributed control of DC microgrid energy storage system based on consensus algorithm [13657-198]**
- 13657 4I **Research on feedback control of the seventh-order motor system [13657-188]**
- 13657 4K **Automatic parameter selection optimization based on the Triton compiler [13657-25]**
- 13657 4L **Research on motor active discharge control in dual motor hybrid system [13657-2]**
- 13657 4M **Optimization of inland waterway transport scheduling using intelligent control algorithms [13657-84]**
- 13657 4N **Research on a traffic regulation question-answering system enhanced by knowledge graphs and large language models [13657-154]**
- 13657 4O **Closed-loop control for harmonic current suppression in DTP-PMSM based on QRESO [13657-6]**
- 13657 4P **Privacy-enhanced matrix factorization with shuffle differential privacy [13657-113]**
- 13657 4Q **A centralized proportional resonance controller for harmonic current compensation in the SAPF [13657-36]**

- 13657 4R **Research on the oscillation reduction control based on the P1 frequency control in hybrid electric vehicles** [13657-15]
- 13657 4S **An automatic staging approach of early endometrial cancer based on CUDA tree genetic programming** [13657-76]
- 13657 4T **Keypoint-guided for adversarial patch defence in vision transformer-based face recognition** [13657-60]
- 13657 4U **Research and simulation analysis of automatic emergency braking strategy based on fuzzy control** [13657-48]
- 13657 4V **Efficient feature injection model for visible and infrared images fusion** [13657-13]
- 13657 4W **Research on hierarchical control algorithm for SMES-BESS hybrid energy storage system based on multilevel power allocation** [13657-16]
- 13657 4X **Relic fragment matching based on hierarchies of features** [13657-120]
- 13657 4Y **Automatic feature matching for image rotation and scaling using MATLAB** [13657-43]
- 13657 4Z **Optimization of droop control based on deep reinforcement learning** [13657-94]
- 13657 50 **Multiscale attention fusion network for multimodal brain tumor segmentation** [13657-12]
- 13657 51 **A structured address splitting and completion model based on multi-object addresses and segmentation features** [13657-181]
- 13657 52 **Research on innovative methods for converter station operation and maintenance based on knowledge graphs** [13657-44]
- 13657 53 **Research on collaborative control of digital application requirement design based on reinforcement learning** [13657-10]
- 13657 54 **A modeling method for behavioral semantics of multimoving targets in cross-domain and multiscenario contexts** [13657-190]
