

PROCEEDINGS OF SPIE

Third International Conference on Advanced Materials and Equipment Manufacturing (AMEM 2024)

**Michele Penza
Shunli Wang**
Editors

**28–30 December 2024
Kunming, China**

Organized by
International Association of Applied Science and Technology (China)

Published by
SPIE

Volume 13691

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13691

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Third International Conference on Advanced Materials and Equipment Manufacturing (AMEM 2024)*, edited by Michele Penza, Shunli Wang, Proc. of SPIE 13691, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

Part One

ADVANCED MATERIALS

- 13691 02 **Design of composite structure of plastic parts for car seat couplings** [13691-2]
- 13691 03 **Analysis of the ageing mechanism of transformer oil-paper insulation** [13691-3]
- 13691 04 **Research on liquid film simulation technology for corrosion protection optimization design**
[13691-7]
- 13691 05 **Analysis of thermal-mechanical effect in XLPE cables based on Comsol** [13691-9]
- 13691 06 **Study on the influence of 2,2',4,4',6,6'-hexanitrostilbene-IV particle size and loading density
on the detonation behavior of slapper detonator** [13691-11]
- 13691 07 **Preparation of $\text{CaCu}_3\text{Ti}_4\text{O}_{12}$ films and study of their dielectric properties** [13691-8]
- 13691 08 **Corrosion-sensitive structures stored in the marine environment liquid film prediction
method** [13691-12]
- 13691 09 **Preparation and pore structure of Ni-Cr-Mo-Cu first order gradient porous materials**
[13691-19]
- 13691 0A **Study on the preparation process of nano TATB stabilization** [13691-22]
- 13691 0B **Research on fabrication of water collection surface on transparent and brittle quartz glass**
[13691-40]
- 13691 0C **Preparation and pore structure of Ni-Cr-Mo-Cu porous materials with second order gradient
pore size** [13691-31]
- 13691 0D **Study on the preparation of structured glass with surface pit arrays** [13691-77]
- 13691 0E **Optimization study of antibacterial biomimetic micro-nano texture for oral restoration
based on AI-ACM** [13691-35]
- 13691 0F **Effect of TiC addition on pressureless sintering of B_4C** [13691-36]
- 13691 0G **Numerical study on impact performance of phosphogypsum foam concrete** [13691-37]

- 13691 OH **Microstructure evolution of tin coatings prepared by dual-pulse power magnetron sputtering** [13691-82]
- 13691 OI **Study on surface physical characteristics of titanium alloy diaphragm in high-speed cutting** [13691-39]
- 13691 OJ **Simulation analysis and application research of nanofiber piezoelectric function** [13691-83]
- 13691 OK **Research on thermal runaway of automobile power battery based on liquid film ion channel corrosion** [13691-41]
- 13691 OL **Mix ratio of graphite tailings foam concrete based on orthogonal theory** [13691-45]
- 13691 OM **Study on the radiation frequency of ultra-low frequency mechanical antenna based on soft magnetic material** [13691-52]
- 13691 ON **BNCP doped HMX laser loading materials for initiating device** [13691-93]
- 13691 OO **Review of recycling process routes for waste power batteries** [13691-54]
- 13691 OP **Research on the sulfuric acid erosion resistance of coal gangue-based geopolymer** [13691-56]
- 13691 OQ **Performance evaluation of lost circulation materials and their exploration in the development of future energy storage technologies** [13691-57]
- 13691 OR **The application advances of cordierite materials in photolithography** [13691-96]
- 13691 OS **Effect of particle morphology on the hygrothermal aging properties of aluminum powder/epoxy resin composites** [13691-58]
- 13691 OT **Research on microbial regulation technology in transformer oil using doped tungsten trioxide nanoparticles** [13691-61]
- 13691 OU **A review: progress in first-principles studies of nitride ceramics** [13691-97]
- 13691 OV **The influence of the filling method and porosity of porous media on the heat storage characteristics of the heat storage chamber** [13691-63]
- 13691 OW **Wear and residual strength analysis of casing** [13691-71]
- 13691 OX **Study to 3D reconstruction of oral restorations based on AI driven binocular stereo vision technology** [13691-72]
- 13691 OY **Research on magnetic particle control based on optical and magnetic dual drive** [13691-103]

- 13691 0Z **Study on the preparation process of C₄ olefins based on multiple regression** [13691-73]
- 13691 10 **Study on influence of width to thickness ratio on axial compressive behavior of concrete-filled horizontal corrugated steel tubular columns** [13691-76]
- 13691 11 **Structural evolution and properties of Cr coatings on rings deposited by high power pulsed magnetron sputtering** [13691-81]
- 13691 12 **Preparation of sludge-based high-entropy oxide catalyst and its ozone-catalyzed degradation of perfluorinated compounds** [13691-112]
- 13691 13 **Application of computer-aided clustering analysis of anions and cations in explosive traceability** [13691-87]
- 13691 14 **Anion exchange membrane with quaternary ammonium cation/cation strings for electrochemical devices: effect of cationic charge density** [13691-89]
- 13691 15 **Numerical simulation of temperature field of 45 steel under different strategies of rust removal by scanning electron beam** [13691-91]
- 13691 16 **Optical measurement-based flow stress characteristics and model modification of 20CrMnTi hardened steel under high temperature and high strain rate** [13691-123]
- 13691 17 **Numerical simulation of heat treatment and hardness reduction measures for P91 steel pipe welded joints** [13691-99]
- 13691 18 **Study on influence factors of composite oil phase material and its influence on storage stability of emulsion explosive** [13691-101]
- 13691 19 **Pressureless sintering and mechanical performance of B₄C ceramics with SiC additions** [13691-102]
- 13691 1A **Enhanced performance and stability of MAPbI₃ perovskite solar cells via PTS additive treatment** [13691-124]
- 13691 1B **Research on key parameters determination of epoxy resin curing at custom temperature through simulation** [13691-105]
- 13691 1C **Simulation study on the mixing process of foamed polyurethane sealing materials** [13691-107]

EQUIPMENT MANUFACTURING

- 13691 1D **Research on curved surface reconstruction based on Geomagic Design X** [13691-1]
- 13691 1E **An automatic static Rockwell hardness tester using air bearing and spiral grading loading technology** [13691-4]
- 13691 1F **Research of hypervelocity gouging based on two-stage light-gas gun** [13691-5]

- 13691 1G **Design and performance evaluation of wind turbines incorporating a variable deflection angle structure** [13691-6]
- 13691 1H **Study on controlling deformation in high-speed milling of torque transfer flanges** [13691-13]
- 13691 1I **Optical stress detection and safety assessment of spiral welds in an old oil pipeline** [13691-14]
- 13691 1J **Offline programming and simulation of logo handling workstation based on Robotstudio** [13691-15]
- 13691 1K **Design of lateral secondary core pulling structure mold for hollow products** [13691-16]
- 13691 1L **Vibration-coupled and multimodal perception-driven high-precision autonomous landing for flapping-wing aircraft: system framework, edge-cloud validation, and future challenges** [13691-23]
- 13691 1M **Reliability model and analysis of long wall coal shearer machine** [13691-17]
- 13691 1N **Design of virtual collaborative control system for robot and CNC machine based on Robotstudio** [13691-18]
- 13691 1O **High-speed milling surface topography simulation study of aluminum alloy 7475 based on laser scanning technology** [13691-92]

Part Two

- 13691 1P **Vibration characteristics and fault analysis of helicopter pedals** [13691-20]
- 13691 1Q **Optimization design of wind turbine based on simple small wind tunnel construction** [13691-21]
- 13691 1R **A novel simplified dynamic model for planetary gear transmission system in traction unit of coal mining machine** [13691-24]
- 13691 1S **Development of oil and gas wellhead equipment certification standards, technical gaps, and optical empowerment prospects: a systematic review** [13691-98]
- 13691 1T **Pose measurement method for kilometer-level directional pilot hole drilling tools in coal mines based on dual-axis electronic inclinometer** [13691-25]
- 13691 1U **Research on intelligent assembly system based on machine vision inspection** [13691-26]
- 13691 1V **Intelligent optimization of magnetic circuit for damping rollers in belt conveyors based on optical image recognition** [13691-100]
- 13691 1W **Experimental study on thermodynamic characteristics of Stirling engine** [13691-27]

- 13691 1X **Analysis on vibration characteristics of cutting section of roadheader under horizontal cutting conditions** [13691-28]
- 13691 1Y **Modular structural design and finite element analysis of six-rotor agricultural UAV based on optical techniques** [13691-104]
- 13691 1Z **Finite element simulation of coal rock cutting by cutting gear of cantilever type roadheader** [13691-29]
- 13691 20 **Implementation of pipeline wall thinning detection using 3D convolutional neural network with transfer learning** [13691-30]
- 13691 21 **Research on adaptive algorithm for welding torch attitude in automatic clamping of oil and gas pipeline** [13691-106]
- 13691 22 **Joint application of improved rotating repulsive field algorithm and trajectory optimization in robotic arm path planning** [13691-32]
- 13691 23 **Feasibility study on high-pressure liquid carbon dioxide jet cutting of high-sensitivity HTPB propellant** [13691-33]
- 13691 24 **Influence of sampling conditions on the separation performance of respirable dust virtual impactors and error control** [13691-42]
- 13691 25 **A new type of ball screw design and loaded experimental research** [13691-43]
- 13691 26 **Design of intelligent adherent oil spill recovery device combining visible light and infrared recognition** [13691-108]
- 13691 27 **Design of PID steam pressure control system** [13691-44]
- 13691 28 **A bionic hexapod robot control system integrating multisensor fusion and advanced navigation for complex environments** [13691-47]
- 13691 29 **Evaluation of mobile performance of a certain type of wheeled armored vehicle** [13691-49]
- 13691 2A **Research on the performance of wind damper for high-pole lamps** [13691-50]
- 13691 2B **Opto-mechanical design of jettisonable oil recovery tanks: integrating UV fluorescence monitoring with thickness-adaptive control** [13691-109]
- 13691 2C **Research on the influence of suspension and tire characteristics on vehicle stability performance under extreme conditions** [13691-51]
- 13691 2D **Design and application of fully automatic drilling cuttings box cleaning equipment** [13691-53]
- 13691 2E **Fluid structure interaction resonance assessment of ultra-high head pump turbine head cover** [13691-55]

- 13691 2F **In the context of advances in AI and optical measurement: a machine learning-based airfoil optimization method** [13691-111]
- 13691 2G **Structural design of elevator overspeed governor clamp device** [13691-59]
- 13691 2H **Simulation and optimization design of cabinet fire in nuclear power plant** [13691-64]
- 13691 2I **Research on precision machining technology of semiconductor testing equipment parts** [13691-65]
- 13691 2J **Diagnostic study of RF-discharge plasma parameters** [13691-113]
- 13691 2K **Numerical calculation of crack growth in cantilever beam based on extended finite element method** [13691-66]
- 13691 2L **6-DOF platform and motion design for electro-hydrostatic direct drive system** [13691-69]
- 13691 2M **Research on the chassis wire control system and control technology of intelligent connected vehicle** [13691-70]
- 13691 2N **Vibration impact analysis of water pipeline in urban road under vehicle loads** [13691-74]
- 13691 2O **Design and application research of separable electrical interface for spacecraft based on laser displacement monitoring** [13691-115]
- 13691 2P **A study on rigid-flexible coupling virtual prototype modeling for motorcycle dynamics** [13691-78]
- 13691 2Q **Numerical simulation of flow and heat transfer in capillary pumps** [13691-79]
- 13691 2R **Robot for wind turbine support column oil cleaning applied research** [13691-80]
- 13691 2S **Comprehensive benchmark analysis of the subsea christmas tree standard system based on the AHP-entropy weight fuzzy evaluation method** [13691-84]
- 13691 2T **Hydro-vibration resonance analysis of ultra high head pump turbine submerged in water** [13691-85]
- 13691 2U **Development and intelligent application research of microwave hot air coupling drying technology based on optical monitoring** [13691-116]
- 13691 2V **The application of 6R bricard linkage: deployable blackboard** [13691-86]
- 13691 2W **Advancements in airship design and construction: a comprehensive review of structure, propulsion, and aerodynamics** [13691-88]
- 13691 2X **Optimization of bionic leg mechanism based on neural network modeling and genetic algorithm optimization** [13691-90]

- 13691 2Y **Extreme environment adaptability testing technology for offshore oil and gas extraction equipment** [13691-94]
- 13691 2Z **Research on optical testing and monitoring technology for key systems of deepwater Christmas trees based on shallow water environment simulation** [13691-117]
- 13691 30 **Ship-type paddle blade scraper oil spill recovery device and oil spill recovery method** [13691-95]
- 13691 31 **Study about pressure drop of downhole vane type pipe separator for oil-water separation** [13691-110]
- 13691 32 **Fatigue life prediction of hydraulic end pump body** [13691-114]
- 13691 33 **Testing equipment and key technology analysis for ultra-high temperature and high-pressure oil and gas exploitation** [13691-118]
- 13691 34 **Intelligent manufacturing digital twin creation based on BIM and reinforcement learning** [13691-119]
- 13691 35 **A petri net-based digital modeling and optimization method for flexible manufacturing systems with integrated optical perception** [13691-120]
- 13691 36 **Development of post-processing vector fields for a 5-axis CNC machining tool of impellers** [13691-121]
- 13691 37 **Research on data-driven energy efficiency optimisation algorithm for air compressors** [13691-122]
