

PROCEEDINGS OF SPIE

Second International Conference on Computing, Machine Learning, and Data Science (CMLDS 2025)

**Benjamin W. Wah
Yanan Sun
Jixin Ma**
Editors

**25–27 April 2025
Xiamen, China**

Organized by
International Computing and Engineering Association (Hong Kong)

Published by
SPIE

Volume 13730

Proceedings of SPIE 0277-786X, V. 13730

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Computing, Machine Learning, and Data Science (CMLDS 2025)*, edited by Benjamin W. Wah, Yanan Sun, Jixin Ma, Proc. of SPIE 13730, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

SECOND INTERNATIONAL CONFERENCE ON COMPUTING, MACHINE LEARNING, AND DATA SCIENCE

- 13730 02 **Beef cattle mounting behavior detection based on an improved YOLOv8n algorithm**
[13730-2]
- 13730 03 **Large-scale power domain model fine-tuned with ranked responses to align human preferences** [13730-3]
- 13730 04 **HE-YOLOv8: a heatmap-enhanced and modularly optimized detector for UAV-based small object detection** [13730-5]
- 13730 05 **Neural network and image processing-based automatic netlist generation for complex analog circuits** [13730-6]
- 13730 06 **Comprehensive learning-based particle swarm optimization for numerical function optimization** [13730-7]
- 13730 07 **Combating domain shift in federated learning with density-aware prototype reinforcement**
[13730-8]
- 13730 08 **Somali news headlines classification** [13730-9]
- 13730 09 **TDOA passive localization method combining particle swarm and trust region** [13730-10]
- 13730 0A **YOLO annotation of mango trees from aerial field image data** [13730-11]
- 13730 0B **Custom shared encoder for enhanced recall in e-commerce product search task**
[13730-13]
- 13730 0C **Traffic violation detection using YOLOv8 with custom datasets** [13730-14]
- 13730 0D **Water toxin and heavy metal quantification using a color sensor system** [13730-15]
- 13730 0E **The homomorphic encryption scheme combines split learning to perform privacy protection training on two-dimensional data** [13730-17]
- 13730 0F **Research on a mixed expert model capability enhancement method based on chain-of-thought reasoning and prompt optimisation** [13730-18]
- 13730 0G **Continual test-time dynamic speech recognition via adaptive threshold** [13730-19]
