

PROCEEDINGS OF SPIE

Fourth International Symposium on Control Engineering and Robotics (ISCER 2025)

Wenchao Meng
Editor

**23–25 June 2025
Shenzhen, China**

Organized by
Southern University of Science and Technology (China)

Published by
SPIE

Volume 13735

Proceedings of SPIE 0277-786X, V. 13735

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth International Symposium on Control Engineering and Robotics (ISCER 2025)*, edited by Wenchao Meng, Proc. of SPIE 13735, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii	<i>Conference Committee</i>
ix	<i>Introduction</i>

AUTONOMOUS SYSTEMS AND PERCEPTION TECHNOLOGIES

13735 02	Intelligent chilli picking robot design based on machine vision and manipulator [13735-53]
13735 03	ShapeTrack: a geometric similarity-based multiobject tracking algorithm [13735-26]
13735 04	Vehicle electromagnetic compatibility test automation test system based on big data platform [13735-19]
13735 05	Research on UAV automatic power changing system based on 3D visual guidance [13735-37]
13735 06	Research on workpiece positioning method for robotic drilling system based on touch-trigger probe [13735-23]
13735 07	YOLOv8-SGCC: improved YOLOv8-based detection algorithm for <i>Rosa roxburghii</i> [13735-42]
13735 08	Real-time velocity optimization for arbitrary trajectories of robots [13735-5]
13735 09	Research on the application of robotic technologies in photovoltaic panel cleaning: a case study of the Tengger Desert Solar Base [13735-2]
13735 0A	Motion compensation for low-speed unmanned ground vehicles based on stereo camera and inertial measurement units [13735-7]
13735 0B	Few-shot imitation learning for dexterous manipulation [13735-63]
13735 0C	A lawn care robot based on the BAS-optimised fuzzy PID control strategy and the GC-YOLOv8 target detection algorithm [13735-38]
13735 0D	Integrating reinforcement learning with YOLO for intelligent productivity analysis in object detection [13735-4]
13735 0E	Underwater image enhancement based on dark channel prior and unsupervised color correction [13735-32]
13735 0F	Infrared visual-inertia-UWB fusion positioning method for drones in cabin environments [13735-30]

- 13735 OG **EMO-YOLO: an enhanced model for cross-scenario fire and smoke detection** [13735-39]
- 13735 OH **Intelligent intestinal hydrotherapy device based on image recognition technology** [13735-35]
- 13735 OI **CDNetYOLO: a multidefect detection model for concrete walls integrating dynamic convolution and large kernel attention** [13735-58]
- 13735 OJ **Vehicle detection method in adverse weather conditions based on multitask deep learning** [13735-20]
- 13735 OK **Distributed smart farm model based on continual fine-tuning approach** [13735-59]

ROBOTIC SYSTEMS AND INTELLIGENT CONTROL

- 13735 OL **A universal method for generating trajectories of robotic spraying processes** [13735-57]
- 13735 OM **Research and analysis of intelligent control system based on the structural principle of transmission** [13735-51]
- 13735 ON **A two-armed Rubik's Cube solver robot design and mechanical step optimization method** [13735-78]
- 13735 OO **Structural design and intelligent control method of rehabilitation exoskeleton robot** [13735-12]
- 13735 OP **Smart elderly care companion robot** [13735-68]
- 13735 OQ **Research on motion control method of six-degree-of-freedom mechanical arm based on multiobjective optimization** [13735-33]
- 13735 OR **A survey of extraction and emulation fidelity in Linux-based firmware rehosting** [13735-52]
- 13735 OS **Design and debugging of self-balancing unicycle based on PID algorithm** [13735-79]
- 13735 OT **A flexible handling system based on bionic and varicellular mechanisms** [13735-24]
- 13735 OU **Flexible triboelectric nanogenerator-based tactile sensor for human-computer interaction** [13735-14]
- 13735 OV **MPC-based slip control for distributed drive electric vehicle** [13735-17]
- 13735 OW **Functional realization of industrial control configuration in the state monitoring and fault diagnosis of ship's main engine remote control system** [13735-67]
- 13735 OX **A UAV formation control algorithm based on nonlinear singular homogeneity sliding mode** [13735-71]

- 13735 0Y **Research on nonlinear state feedback control of a class of quad-rotor aircraft** [13735-72]
- 13735 0Z **Research on the design of unmanned aerial vehicle for high-altitude curtain wall cleaning** [13735-22]
- 13735 10 **Overall design of the sea cucumber harvesting robot** [13735-76]
- 13735 11 **Lightweight structure of superheater pipe inspection robot** [13735-28]
- 13735 12 **Control stability margin analysis of a class of aircraft overload control system** [13735-73]
- 13735 13 **An analysis of stability margin for altitude control of aircraft based on overload control** [13735-74]
- 13735 14 **Task planning for collaborative welding of ship dual-arm robots** [13735-40]
- 13735 15 **Dynamic logistic regression and electromechanical coupling analysis for remanufacturing suitability assessment of retired motors** [13735-11]
- 13735 16 **Design and experiment of a compact suction-capture robot for sea cucumbers** [13735-3]
- 13735 17 **Modeling and simulation of heavy-duty six-degree-of-freedom parallel platform for high-precision positioning** [13735-16]
- 13735 18 **Research on autonomous motion flexible object capture technology** [13735-60]
- 13735 19 **Design of a desktop robot** [13735-77]
- 13735 1A **Segmented PID control method with multioutput compensation for electrode current in fused magnesia smelting process** [13735-75]
- 13735 1B **Development and application of DR automated equipment for butt weld of large storage tank wall** [13735-55]
- 13735 1C **Research and design of game maze robot** [13735-8]
- 13735 1D **Research on the influence of suspension stiffness of each axle on the ride comfort of tracked vehicles** [13735-25]
- 13735 1E **Research on the thermal modeling of the in-wheel motor (IWM) based on the LPTN method** [13735-29]
- 13735 1F **Design and simulation of moving vehicle** [13735-41]
- 13735 1G **Application of particle swarm optimization algorithm in control parameter optimization of rotary modulation system** [13735-56]

- 13735 1H **Structural design of suction cup-based bionic inchworm robot and kinematic analysis of slope climbing** [13735-70]
- 13735 1I **Overall design of a land and air amphibious UAV** [13735-62]
- 13735 1J **Rapid radar work mode recognition based on knowledge distillation** [13735-13]
- 13735 1K **Design of a high-dynamic and robust servo control strategy for inertial testing turntable under unbalanced load** [13735-10]
- 13735 1L **Research on high-efficiency parallel simulation systems for unmanned mines** [13735-21]
- 13735 1M **Design of a real-time hull anode corrosion monitoring system based on microcontroller technology** [13735-54]
- 13735 1N **The design and development of photovoltaic panel cleaning robots** [13735-44]
