

PROCEEDINGS OF SPIE

Tenth International Conference on Electromechanical Control Technology and Transportation (ICECTT 2025)

**Hui Hwang Goh
Jinsong Wu**
Editors

**6–8 June 2025
Guilin, China**

Organized by
Guilin University of Electronic Technology (China)

Sponsored by
Nanning University (China)
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13781

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13781

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Tenth International Conference on Electromechanical Control Technology and Transportation (ICECTT 2025)*, edited by Hui Hwang Goh, Jinsong Wu, Proc. of SPIE 13781, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

LIBRARY**

SPIDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xiii Conference Committee

Part One

OPTICAL AND VISION TECHNOLOGIES

- 13781 02 **Three-dimensional space calculation method for tunnel lighting quality** [13781-59]
- 13781 03 **Study on the identification of aerodynamic and other noise spectrum characteristics of electric kettles** [13781-208]
- 13781 04 **Preliminary orbit assessment prior to SVOM's handover to scientific users** [13781-82]
- 13781 05 **A method of transportation situation deduction for urban rail transit under train delay scenarios** [13781-212]
- 13781 06 **Analysis of the impact of alignment errors on press-fitting displacement curves** [13781-7]
- 13781 07 **Simulation analysis of tire viscous hydroplaning on wet pavement** [13781-193]
- 13781 08 **SSP-YOLO: a small object segmentation algorithm for road scenes in autonomous driving** [13781-138]
- 13781 09 **Rotor profile optimization for aerodynamic noise suppression in dry twin-screw air compressors** [13781-36]
- 13781 0A **Analysis of influencing factors on injury characteristics in highway traffic accidents** [13781-232]
- 13781 0B **Application of grouting lifting plate technology in the emergency repair of airport runway subsidence: a case study on the mitigation of subsidence issues on airport runways** [13781-91]
- 13781 0C **Evaluation of the comprehensive effectiveness of specific new combination of sight-guiding facilities at tunnel exit sections** [13781-104]
- 13781 0D **Study on the installation technique of highway guardrails for photovoltaic facilities in roadside slopes areas** [13781-67]
- 13781 0E **Effects of edge-rate markings on driving behavior in the middle section of a freeway tunnel** [13781-201]
- 13781 0F **Modeling and verification of ZC switching scenario in overlapping area** [13781-99]

- 13781 OG **Research on harmonic current optimization control based on the dead zone control in dual motor hybrid system** [13781-101]
- 13781 OH **Evaluation of the effect of edge rate marking within tunnel clusters based on the VIKOR method** [13781-23]
- 13781 OI **Dynamical analysis of wideband coaxial switch reed structure** [13781-102]
- 13781 OJ **Elastic aperiodic traffic adaptive signal control method based on rolling horizon** [13781-14]
- 13781 OK **Edge-accelerated model predictive control with heterogeneous sensor fusion for energy-efficient robotic manipulation** [13781-245]
- 13781 OL **Study on preliminary rapid prediction method for adaptability of pantograph parameters under overhead conductor rail conditions** [13781-86]
- 13781 OM **Modelling and validation of RBC handover for high-speed train control system based on CPN** [13781-95]
- 13781 ON **Research on the coupling control and optimization of heat-oxygen environment for high-speed train under extreme tunnel conditions** [13781-241]
- 13781 OO **Application of unsupervised optical flow method based on CamLiRAFT for vehicle relative pose estimation** [13781-74]
- 13781 OP **Integrated evaluation of driver takeover strategies in SAE level 3 automation** [13781-3]
- 13781 OQ **Research on abnormal vehicle behavior monitoring system in road and bridge scenarios based on deep learning target detection model** [13781-56]
- 13781 OR **The application of machine learning in the identification of casualties in road traffic accidents** [13781-167]
- 13781 OS **Resilience analysis of port operation system based on transshipment mechanisms** [13781-72]
- 13781 OT **IGWO-optimized CNN-BiLSTM model for short-term traffic prediction incorporating environmental factors** [13781-5]
- 13781 OU **Analysis of the impact of non-cooperative lane-changing behavior of vehicles on autonomous driving decision-making in basic sections of freeway** [13781-105]
- 13781 OW **Design and optimization of operating system architecture for intelligent and connected vehicles** [13781-24]
- 13781 OX **LSTM-attention-based thermal management for electric vehicles** [13781-153]
- 13781 OY **Trajectory prediction based on Monte Carlo BiGRU-attention model** [13781-164]

- 13781 0Z **Lane-changing decision-making model for autonomous vehicles in dense traffic scenarios: integrating game-theoretic framework with social force modeling** [13781-126]
- 13781 10 **Reduced-order modeling approaches for the fluid dynamics model of aerostatic bearings** [13781-125]
- 13781 11 **Dyadic-enhancement network for navigable region and obstacle segmentation of unmanned surface vehicles** [13781-234]
- 13781 12 **Trajectory and driving intention prediction method based on joint data-knowledge-driven** [13781-60]
- 13781 13 **Scramble crossing applicability study considering e-bike crossing** [13781-132]
- 13781 14 **Abnormal elastic vibration analysis of car body for power-concentrated electric multiple units** [13781-159]

TRANSPORTATION ELECTROMECHANICAL CONTROL AND OPTIMIZATION

- 13781 15 **Calculation and simulation design of a forced air cooling heat dissipation method for the testing device** [13781-199]
- 13781 16 **Reinforcement learning control of interior pressure variations in high-speed trains traversing tunnels** [13781-194]
- 13781 17 **Experimental investigation of tunnel pressure wave simulation system for high-speed trains** [13781-196]
- 13781 18 **Structural design and numerical simulation of a novel low wind resistance antenna array for massive MIMO systems** [13781-21]
- 13781 19 **Research on mileage error correction methods for track irregularities** [13781-62]
- 13781 1A **Research and improvement on enhancing the navigation efficiency of navigation aids in frozen ports** [13781-84]
- 13781 1B **A subsection measurement method of closed NURBS curve of blade section** [13781-209]
- 13781 1C **Design and application of a UAV system for dropping tobacco stiff *Aphidius gifuensis* Ashmead** [13781-190]
- 13781 1D **A novel PSFB converter for diode voltage oscillation suppression and efficiency enhancement** [13781-166]
- 13781 1E **Simulation analysis on the mechanical environmental adaptability of secondary power supply products** [13781-179]

- 13781 1F **Analysis of the dynamic characteristics of a spur gear transmission system with consideration of hydrodynamic lubrication** [13781-85]
- 13781 1G **Application of polymer film and aerogel composites in thermal protection of power batteries** [13781-69]
- 13781 1H **Research on comprehensive performance optimization of switched reluctance generator** [13781-222]
- 13781 1I **Active disturbance rejection control for automatic driving of high-speed train** [13781-61]
- 13781 1J **Research on the optimization of patrolling route of law enforcement boat based on ant colony algorithm** [13781-15]
- 13781 1K **Position tracking control of permanent magnet synchronous motor based on improved active disturbance rejection** [13781-34]
- 13781 1L **Study on the transfer scheme of urban rail transit considering the utilization of line transmission capacity** [13781-54]
- 13781 1M **Motion control of automatic parking system based on vehicle kinematics model and model predictive control (MPC)** [13781-228]
- 13781 1N **Considering the maintenance strategy for train control system on-board equipment under random shocks and imperfect maintenance** [13781-48]
- 13781 1O **Design of tile type launch component scheme** [13781-152]
- 13781 1P **Design of a self-charging intelligent connected vehicle control system based on DSP** [13781-158]
- 13781 1Q **Design of T-type dynamic impedance matching network for piezoelectric transducer** [13781-27]
- 13781 1R **Research on motor mode control based on the motor frequency control in dual motor hybrid system** [13781-2]
- 13781 1S **Optimization design and application study of electric vehicle gear transmission system based on microshaping technology and firefly algorithm** [13781-169]
- 13781 1T **Electric heating furnace temperature control via dung beetle optimization-enhanced fuzzy PID** [13781-57]
- 13781 1U **Research on vector control of permanent magnet synchronous motor based on MTPA and flux-weakening control** [13781-4]
- 13781 1V **Design method for wind-disturbance rejection controller of UAVs based on geometric control theory** [13781-137]
- 13781 1W **Genetic algorithm-based model predictive control for train operation optimization** [13781-29]

- 13781 1X **A low-noise, high-precision operational amplifier** [13781-90]
- 13781 1Y **Rail corrugation damage detection based on vibration frequency domain signals**
[13781-244]
- 13781 1Z **Research on interaction technology of vehicle virtual maintenance system** [13781-191]
- 13781 20 **The finite element analysis and optimization of the turntable in the connector intelligent assembly system** [13781-204]
- 13781 21 **Dynamic analysis and optimization of the folding ferry plate mechanism for carrier carts**
[13781-79]
- 13781 22 **Design of an electrobrush plating machine tool for remanufacturing hydraulic cylinders in construction machinery** [13781-136]
- 13781 23 **Integrated automatic refueling device and method for nuclear power plants** [13781-146]
- 13781 24 **Design of engraving and milling machine control system based on path planning**
[13781-122]
- 13781 25 **Adaptive microscopic positioning control using a magnetostrictive microgripper based on multimodal visual-force fusion** [13781-139]
- 13781 26 **Kinematic modeling and simulation of a dual-arm robot for intelligent cockpit testing**
[13781-51]
- 13781 27 **An improved A* algorithm strategy and its application in UAV threat avoidance problem**
[13781-235]

Part Two

TRAFFIC FLOW MODELING AND SMART MANAGEMENT

- 13781 28 **Research on the benefit distribution of road freight industry transportation unit pooling and sharing system** [13781-115]
- 13781 29 **Research on delayed traffic flow prediction based on continuous bidirectional spatiotemporal graph neural differential equations** [13781-58]
- 13781 2A **Traffic network design model with highway maintenance factors under uncertainty**
[13781-93]
- 13781 2B **Optimisation of shared bicycle parking site location based on improved particle swarm algorithm** [13781-236]

- 13781 2C **Study on traffic warning and dynamic speed limit methods for highways under the foggy conditions** [13781-18]
- 13781 2D **Research on the prediction of the number of charging piles in residential areas based on deep learning combination model** [13781-133]
- 13781 2E **Lattice modeling and simulation of traffic flow in speed-limited and free-flowing regions considering speed limit coefficients** [13781-180]
- 13781 2F **A traffic simulation method based on a multi-task travel time estimation model** [13781-71]
- 13781 2G **Analysis of passenger flow characteristics of Lanzhou Metro Line 1** [13781-20]
- 13781 2H **Water level prediction model for river channels based on CNN-BiLSTM-ABKDE** [13781-162]
- 13781 2I **Fuzzy multi-attribute group decision method for equipment maintenance in urban rail transit** [13781-75]
- 13781 2J **Design of an intelligent dimming control system for highway tunnel lighting** [13781-181]
- 13781 2K **Optimization of RGV dwell point in planar mobile stereo garage** [13781-41]
- 13781 2L **Optimized CNN-LSTM model for urban traffic flow prediction using dung beetle algorithm** [13781-202]
- 13781 2M **Research on the road transportation network structure of urban agglomerations based on supply-demand matching** [13781-111]
- 13781 2N **Research and application of large models in the field of traffic management: a technological and status view** [13781-65]
- 13781 2O **Predicting operating carbon emissions in Jiaxing's tram system based on scenario analysis** [13781-198]
- 13781 2P **Traffic state identification method based on GA-EWFCM** [13781-197]
- 13781 2Q **Visual characteristics of drivers with different myopia degree on expressway** [13781-186]
- 13781 2R **Comparative analysis of the effects of sight-inducing facilities on drivers' visual behavior at the entrance road of tunnel clusters** [13781-184]
- 13781 2S **Interactive scheduling strategy of charging pile considering uncertainty and flexibility clustering** [13781-220]
- 13781 2T **Analysis of electric vehicles regulation potential under incentive-based demand response** [13781-223]

- 13781 2U **Carbon reduction and energy flexibility assessment of low-carbon parks: a review**
[13781-55]
- 13781 2V **An optimization scheme for signalized intersection traffic passage based on cyber-physical system by combining reinforcement learning and MPC** [13781-116]
- 13781 2W **Research on the optimization of public transportation networks: the big data and NetworkX framework** [13781-233]
- 13781 2X **Boarding station inference from bus card data using reinforcement learning-based clustering and commuter spatiotemporal stability** [13781-64]
- 13781 2Y **OD prediction for Baltimore City's transportation network based on the gravity model**
[13781-178]
- 13781 2Z **Urban congestion and carbon emission management: a road reservation cum incentive scheme** [13781-94]
- 13781 30 **A dynamic multifactor risk assessment model for arctic navigation safety** [13781-219]
- 13781 31 **Ship traffic flow prediction model integrating linear attention mechanism and spatiotemporal graph convolutional network** [13781-210]
- 13781 32 **Effects of speed limits value and traffic volume on carbon emission characteristics in highway expansion** [13781-213]
- 13781 33 **Modeling driver risk perception and response mechanism based on psychological field theory** [13781-188]
- 13781 34 **Optimization of energy scheduling for tunnel lighting consumption** [13781-120]
- 13781 35 **Research on traffic simulation and cooperative control of narrow road and dense network based on cloud-edge collaboration** [13781-183]
- 13781 36 **Performance evaluation strategy of autonomous driving algorithms based on driving simulator** [13781-187]
- 13781 37 **Risk assessment of short-distance maritime transport by UAV** [13781-121]
- 13781 38 **Study on axle box load spectrum construction method based on damage consistency**
[13781-218]
- 13781 39 **Feedback control scheme for traffic jam based on a modified coupled map car-following model considering communication delay under V2X environment** [13781-63]
- 13781 3A **Research and analysis of the dynamic weighing system for aggregates in cement stabilized soil mixing plant based on machine learning** [13781-243]

INTELLIGENT INFRASTRUCTURE INSPECTION

- 13781 3B **Research progress overview of intelligent identification technology and defect detection technology for power cables** [13781-88]
- 13781 3C **Ultrasonic phased array testing technology for large curved honeycomb sandwich structures with thick envelope for spacecraft** [13781-238]
- 13781 3D **Research on the development and application of railway flaw detection technology** [13781-173]
- 13781 3E **Dynamic and static error identification method for 5-axis CNC machine tools based on feature extraction** [13781-53]
- 13781 3F **Research on target detection algorithm for unmanned vehicle** [13781-182]
- 13781 3G **Research and application of tunnel cable lifting device based on intelligent control and new energy drive** [13781-19]
- 13781 3H **Research on autonomous vehicle path planning based on an improved A* algorithm** [13781-66]
- 13781 3I **Research and application of intelligent monitoring and early warning technology for high altitude highway guardrails** [13781-26]
- 13781 3J **Tower tilt monitoring terminal based on multimode communication fusion** [13781-22]
- 13781 3K **Fault diagnosis of switch machine based on EMD and Transformer-LSTM** [13781-47]
- 13781 3L **Research on the decision-making of emergency lane activation on expressways based on random forest model** [13781-215]
- 13781 3M **Research on improved bidirectional Dijkstra shortest path based on heap structures** [13781-157]
- 13781 3N **Research and engineering practice of intelligent upgrading and transformation scheme of substation** [13781-97]
- 13781 3O **High-risk test road selection method in open road test scenarios for autonomous vehicles** [13781-10]
- 13781 3P **Integration of IoT-based electromechanical control charts for real-time quality monitoring in asphalt pavement construction** [13781-77]
- 13781 3Q **Application of multimodal large model in railway foreign object detection scene** [13781-81]
- 13781 3R **Research on the application of cellular V2X and 6G technology in in-vehicle networks** [13781-185]

- 13781 3S **A review of fault diagnosis technology for temperature measuring instruments based on simulation** [13781-28]
- 13781 3T **Research on detection of illegal personnel intrusion into railway yard based on YOLOv8** [13781-141]
- 13781 3U **Traffic accident disability level assessment method based on hybrid prompt learning** [13781-25]
- 13781 3V **Research on magnetic leakage signal detection method for defects in steel wire rope of ship lock bridge crane** [13781-49]
- 13781 3W **Research on detection technology of monorail beam section using laser scanner** [13781-118]
- 13781 3X **Design of a tool-less quick-installation device for real-time monitoring and control of drilling wells** [13781-168]
- 13781 3Y **Research on defect detection method of rail fasteners based on deep learning** [13781-109]
- 13781 3Z **Research on fault detection of railway track fasteners with improved YOLOv8n algorithm** [13781-33]
- 13781 40 **Research on foreign object intrusion detection on railway tracks with complicated weather** [13781-130]
- 13781 41 **A LiDAR/IMU integrated localization method using dual iterative extended Kalman filter** [13781-189]
- 13781 42 **Real-time foreign object detection method integrating dynamic track modeling and lightweight YOLOv8s** [13781-155]
- 13781 43 **Design and performance verification of an emergency communication system for deep-buried long-distance urban rail transit tunnels under extreme disasters** [13781-226]
- 13781 44 **Knowledge representation of train air conditioning faults based on k-order neighborhood perception and graph attention** [13781-30]
- 13781 45 **Research on optimization of license plate location algorithm based on transformer** [13781-237]
- 13781 46 **Rail corrugation maintenance limit based on axle-box vibration spectrum** [13781-239]
- 13781 47 **Wheel polygon detection method based on fiber grating research** [13781-127]
- 13781 48 **Analysis of railway operational safety risk events based on an enhanced TPLinker joint extraction model** [13781-46]

- 13781 49 **Intelligent cockpit touch testing system based on multimodal large models: design and validation** [13781-12]
- 13781 4A **Applications of deep learning in fault early warning of industrial automation production line** [13781-160]
- 13781 4B **Condition-dependent RoBERTa-TextCNN multilabel classification method for track circuit fault diagnosis** [13781-170]
- 13781 4C **Improved multiscale fusion traffic sign detection algorithm based on YOLO11n** [13781-165]
