

PROCEEDINGS OF SPIE

Fifth International Conference on Signal Image Processing and Communication (ICSIPC 2025)

**Shou Feng
Zhihao Zhang**
Editors

**16–18 May 2025
Zhengzhou, China**

Organized by
Nanjing Tech University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13800

Proceedings of SPIE 0277-786X, V. 13800

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fifth International Conference on Signal Image Processing and Communication (ICSIPC 2025)*, edited by Shou Feng, Zhihao Zhang, Proc. of SPIE 13800, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

SIGNAL PROCESSING AND RADAR APPLICATIONS

- 13800 02 **Mechanical simulation analysis of satellite antenna** [13800-83]
- 13800 03 **Anti-jamming decision method for anti-ship radar seeker based on embedding deep Q-network** [13800-18]
- 13800 04 **Multigranularity penetration strategy optimization algorithm based on PER-SAC algorithm** [13800-101]
- 13800 05 **Digital workshop production information communication system based on zigbee technology** [13800-30]
- 13800 06 **Research on watermark removal methods for general bill seals based on LSGAN** [13800-81]
- 13800 07 **Model-free reinforcement learning-based radar beam multistage management method** [13800-45]
- 13800 08 **Flexible task assignment for reconnaissance and jamming based on deep Q-network** [13800-87]
- 13800 09 **Research on radar signal recognition based on deep learning** [13800-40]
- 13800 0A **Double RIS-assisted NOMA networks for secure transmission against internal eavesdropping** [13800-20]
- 13800 0B **Joint estimation of array shape correction and noise source localization when the towed array turning around** [13800-69]
- 13800 0C **Application and optimization of SRv6 in 5G bearer networks** [13800-47]
- 13800 0D **Research on SAR scene deception jamming method based on data optimization** [13800-31]
- 13800 0E **Research on radar signal pulse repetition interval identification based on periodic nested matrices** [13800-21]
- 13800 0F **Research on smart grid attack detection methods based on 5G communication and Markov-Monte Carlo model** [13800-36]
- 13800 0G **Novel chip-level security for power systems using RBF networks and sliding mode control** [13800-28]

- 13800 OH **Research on automatic verification method for voice interaction based on multidimensional data** [13800-66]
- 13800 OI **Analysis of factors affecting the efficiency of underwater magnetic coupled resonant radio energy transmission** [13800-38]
- 13800 OJ **Aircraft target sortie and type recognition method based on peak search and improved ResNet** [13800-39]
- 13800 OK **MATLAB app designer-based design of criminal investigation image processing system** [13800-76]
- 13800 OL **Design and implementation of an intelligent parcel storage and pickup system based on STM32** [13800-61]
- 13800 OM **Research on the identification method of intrapulse modulation types of radar signal in complex electromagnetic environment** [13800-78]
- 13800 ON **Optimizing exhaustive key search attacks on the data encryption standard** [13800-60]
- 13800 OO **Single-node spectrum sensing based on lightweight dual-branch neural networks** [13800-50]
- 13800 OP **Haskell language compilation and optimisation technology for domestic processor architecture** [13800-74]
- 13800 OQ **Multiobjective optimization based on NSGA-II and NSWOA in UAV-assisted MEC** [13800-19]
- 13800 OR **Comprehensive survey on communication structure adaptive control and collaborative optimization for multiagent systems based on deepseek large language model** [13800-16]
- 13800 OS **Radar anti-jamming method based on multi-agent twin delayed deep deterministic policy gradient** [13800-49]
- 13800 OT **Joint optimization scheme of physical-layer authentication and TOA estimation for integrated sensing and communication system** [13800-2]

COMPUTER VISION AND INDUSTRIAL INSPECTION

- 13800 OU **YOLO embrace transformer: a two-stage framework for video SAR moving target detection** [13800-17]
- 13800 OV **YOLOv5s-TB: a detection algorithm for small tea buds** [13800-70]
- 13800 OW **Defects detection of high precision sieve based on improved YOLOv4** [13800-89]

- 13800 0X **SST-YOLOv5: real-time helmet detection for non-motorized vehicles based on improved YOLOv5** [13800-53]
- 13800 0Y **Research on process guidance and error prevention system for ship intermediate product manufacturing based on visual recognition** [13800-24]
- 13800 0Z **Research on AI-based digital image detection of road surface damage for autonomous driving** [13800-94]
- 13800 10 **The application of AIGC technology in animation character creation** [13800-90]
- 13800 11 **A framework for processing nano-infrared images based on neural network methods** [13800-14]
- 13800 12 **Sea ice thickness recognition algorithm based on stereo vision** [13800-91]
- 13800 13 **YOLO11-HP: a high-performance YOLOv11 for occluded pedestrian detection** [13800-27]
- 13800 14 **Detection of corn pests based on multiscale feature fusion** [13800-54]
- 13800 15 **Medical image zero watermarking based on neural network InceptionNext** [13800-22]
- 13800 16 **Deep-learning-driven generation of traditional Chinese landscape painting** [13800-62]
- 13800 17 **Detection of recaptured vehicle images in automotive repair scenarios using convolutional neural networks** [13800-3]
- 13800 18 **3D object detection method based on selected state space** [13800-5]
- 13800 19 **Normal-dose DSA image generation method based on conditional adversarial generative networks** [13800-73]
- 13800 1A **Photometric stereo shape correction using laser triangulation and tensor decomposition** [13800-1]
- 13800 1B **Research on remote sensing image classification algorithm based on convolutional neural network** [13800-4]
- 13800 1C **Multisubmap-based loop closure optimization method for large-scale indoor 3D reconstruction** [13800-9]
- 13800 1D **Dynamic voxel hashing for real-time large-scale 3d reconstruction on resource-constrained platforms** [13800-10]
- 13800 1E **Ultrasparse CT reconstruction based on dual-encoder and dual-scale feature complementary attention fusion** [13800-64]
- 13800 1F **An enhanced YOLO algorithm for the detection of traffic signs** [13800-92]

- 13800 1G **Enhancement of the YOLOv8-based surface defect detection method for railroad fasteners** [13800-96]
- 13800 1H **RTL design and FPGA implementation of a real-time eye tracking system using a novel projection algorithm** [13800-75]
- 13800 1I **MCFT: multispectral cross fusion transformer for UAV target detection** [13800-25]
- 13800 1J **Stereo matching algorithm for endoscopic images based on improved census transformation** [13800-59]

BIOMEDICAL SIGNAL ANALYSIS AND PATTERN RECOGNITION

- 13800 1K **Analysis of exoplanet using lightcurve** [13800-35]
- 13800 1L **Research on methods for spatial correlation of EEG signals** [13800-79]
- 13800 1M **Leak detection method for water pipelines based on support vector machine** [13800-52]
- 13800 1N **Advancements and challenges in multiobject tracking: a comprehensive survey on detection and association techniques** [13800-13]
- 13800 1O **Axial segmentation-based compressed holography technique** [13800-37]
- 13800 1P **Epileptic EEG signal analysis and classification based on a hybrid CNN-LSTM-self-attention framework** [13800-63]
- 13800 1Q **EfficientNet-based skin cancer classification and recognition** [13800-44]
- 13800 1R **Comparative study on north-finding methods of the fiber optic inertial measurement unit in a tilted-base environment** [13800-93]
- 13800 1S **Seizure detection based on sequence dependency analysis** [13800-77]
- 13800 1T **Research on depression episode detection based on multiscale attention convolutional neural network** [13800-46]
- 13800 1U **Polyphonic sound event detection based on the fusion of LogMel and Mel pseudo-constant Q transform features** [13800-88]
- 13800 1V **Semantic alignment of oil and gas methane emission source data based on contrastive learning** [13800-15]
- 13800 1W **Evaluation of the effectiveness of region-of-interest tracking on stationary imaging photoplethysmography signals** [13800-8]

- 13800 1X **An improved PiDiNet-based edge detector based on multiscale channel-spatial attention model** [13800-7]
- 13800 1Y **Transformer-based framework for motion capture denoising and anomaly detection in medical rehabilitation** [13800-43]
- 13800 1Z **Multiclass task decomposition for diabetes model construction and compression** [13800-55]
- 13800 20 **A distributed training method for face recognition model based on data contribution evaluation** [13800-95]
- 13800 21 **Gesture recognition based on improved YOLOv8** [13800-48]
- 13800 22 **Opt-FITP: optimization approach for multiagent trajectory prediction with fused importance** [13800-6]
- 13800 23 **A multiscale image classification model fusing PVT and ResNet50** [13800-85]
- 13800 24 **Multiscale spatiotemporal dynamic graph convolution networks for traffic flow forecasting** [13800-72]
- 13800 25 **GAN-assisted NSGA-II for UAV scheduling in post-disaster relief scenarios** [13800-82]
- 13800 26 **Enhancing multiobject tracking through adaptive occlusion handling and trajectory optimization** [13800-56]
- 13800 27 **RLAT: a robust and lightweight transformer variant for speech emotion recognition** [13800-86]
