

Combined Proceedings International Plant Propagators' Society 2024

IPPS Volume 74

Held 2024

Editors:

**Robert L. Geneve
Ranjith Pathirana
William Barnes Jr.
Masanori Tomita**

**Jill Reader
Elsa du Toit
Fred T. Davies Jr.
Ryan Stewart**

ISBN: 979-8-3313-2700-2

Table of Contents

Southern Africa Region

Andy de Wet	Our breeding of endemic southern African plants	1-9
Robert L. Geneve	Auxin use in propagation – then and now	10-15
Tom Saunders	Thinking outside the box(wood)	16-19
Gayle R.L. Suttle	Lessons learned: my 43-year journey with commercial micropropagation	20-21

Japan Region

Ayaka Ohuchi and Hiroaki Ohashi	Investigation of the propagation of pink-flowered <i>Haemanthus</i> by inflorescence culture	22-27
Masaki Ochiai, Kazumasa Okuda, Yuta Kawahara, Yuki Matsumoto and Hirokazu Fukui	Polyploidy induction by colchicine treatment in kenaf (<i>Hibiscus cannabinus</i> L.)	28-33
Chinatsu Kaneko and Wakanori Amaki	Induction of adventitious buds from unopened flower buds and expanded petals of African violet	34-38
Mitsuteru Goto and Wakanori Amaki	Effect of cytokinin in tissue culture in the ornamental aquatic plant – pearl grass	39-43
Masamichi Torii and Wakanori Amaki	Effect of light quality on the tuber sprouting of <i>Pinellia ternata</i> (Thunb.) Makino	44-48
Ayano Shiraki and Masahiro Hayami	Consideration of planting materials for <i>Phalaenopsis</i> seedlings taken out of the bottle	49-51

Australian Region

Ranjith Pathirana, Bruce Higgs and Tim Hills	A breath of fresh air: 51 st Conference of the International Plant Propagator's Society – Australia Region	52-75
Stewart Angus	Kangaroo paws – from wildflowers to world market	76-81
Carl Barry	From a miniscule ball of cells to a giant: how meristems are involved in producing giant trees	82-86
Samantha Birkwood	Cultivating success: my journey into the nursery industry	87-92
Des Boorman	<i>Brachychiton</i> breeding: what's happened so far and where to next	93-99
Des Boorman	My horticultural journey: rare, unusual or reimagined	100-108
John Daly, Margaret Burchett and Fraser Torpy	Plants in the classroom can improve student performance	109-117
Mark Dunphy	Rainforest seed propagation	118-123
David Hancock	New nursery built on the back of IPPS seeking and sharing	124-132
Jayeni Chathurika Amarathunga Hiti-Bandaralage and Shaun O'Brien	Tissue culture of red bayberry, a new industry for Australia	133-143
Puthiyaparambil Josekutty	Micropropagation and applications of in vitro systems for grapevine (<i>Vitis</i> spp.)	144-151
Clive Larkman	Understanding evolutionary biology of lavender for successful nursery production	152-161

John McDonald	Red imported fire ant – the multi-million dollar impact on nursery production	162-170
Gary Murdoch-Brown	Cleaning irrigation systems and preventing blockage problems coming back	171-175
Nosipho Phiwokuhle Ndlovu	South African region student exchange	176-186
Ranjith Pathirana	Tissue culture technologies and their applications	187-219
Sabine Suess	Plant quality control in action!	220-232
Joshua Taylor	South African exchange	233-236
Mark Thomson and Anya Rodic	Designing fresh air – future strategies for built environments	237-250
Luke Weisenberger	KW Automation: Excellence in nursery automation	251-257
Lisa Wightwick	Paclobutrazol trials in commercial micropropagation of <i>Grevillea</i> species	258- 267
New Zealand Region		
Phil Dunn	Some observations on the plants of the Chatham Islands	268-271
Gagandeep Jain	Monochromatic red LED light supplementation: a dual solution for disease resistance and yield enhancement in glasshouse production in New Zealand	272-277

Paul Schroeder	Forestry roles for propagation	278-289
----------------	--------------------------------	---------

Western Region - USA

Randy Baldwin	Acquiring and marketing “new” plants	290-296
James L. Booman	Rex begonia propagation: propagation tips and wives’ tales. Keeping plants true-to-type for 30-plus years	297-299
Raul I. Cabrera	Water use efficiency and water footprint in ornamental crops	300-303
Kristopher S. Criscione and Jeb S. Fields	Growing with less: substrate stratification can improve crop productivity and resource efficiency	304-306
Eric G. Middleton	Aloe and Agave mites	307-308
Bruno J.L. Pitton	Nitrogen management in nursery production	309-312
Chris Shogren	Emerging pests and pathogens	313-316
Jacob Shreckhise	How container color and root zone temperature affect plant growth and fertilizer	317-322
Gerry Spinelli	Measuring pressure, distribution uniformity, and improving irrigation management in nurseries and greenhouses	323-325
Nicholas Staddon	New and underused plants for the western region of the United States	326-333
Clint M. Taylor	Biocontrol in controlled environment agriculture	334-335

Southern Region – USA

Cheryl R. Boyer	Technical sessions of the International Plant Propagators' Society – Southern Region of North America (SRNA) annual meeting – Presidential address	336-340
Amanda Mizella and Jeb S. Fields	Wood fiber type and substrate temperature affect growth of knockout rose	341-350
Landon Erbrick, Mel Hill, and Paul Bartley	Rooted in plastics: cultivating sustainability in horticulture	351-359
Grace Carapezza and Sandra B. Wilson	The Effects of population and temperature on seed germination of <i>Garberia</i> : A Florida native with ornamental and ecological value	360-367
Mia Cabrera, Sandra B. Wilson, Vanesa Rostán and P. Christopher Wilson	Influence of thiamethoxam application method, timing, and rate on contamination of floral resources in lantana	368-375
Lilin Chen, Julia Rycyna and Ping Yu	Investigating the effect of hydrafiber and biochar as a substitute for peat-based substrate for zinnia and snapdragon production	376-383
Yulong Chen, Julia Rycyna and Ping Yu	Assessing the impact of plant hormones on <i>Osmanthus</i> spp. cutting propagation	384-390
David Knaus	Leaf sap analysis for plant resilience	391-398
Steve Larson	Improving your success with granular pre-emergence herbicides	399-404
Justin Leavitt	Improving irrigation water quality for crop health	405-412

Tom Marting	Plastic horticulture containers: environmental impacts and regulatory trends	413-427
Chris Murphey	Air-root pruning: a great step forward in propagation and liner production	428-433
Jeff Nunes	Chemical free water treatment: unleashing the true potential and power of water	434-438
Kevin Ong	Rose rosette disease – where from? what now?	439-445
James Robbins and Joe Mari Maja	Drone applications in nursery production	446-454
Caleb Saunders	Innovative trends in irrigation technology: enhancing efficiency in container nurseries	455-468
Mike Serant	Building an ecosystem in your container	469-473
Jason Stoll	Managing plant nutrition for resistance to pests and diseases	474-479
Teagan H. Young	IPPS European Exchange 2023	480-495
Eastern Region - USA		
Ben Averitt	Prenatal care: Healthy stock for healthy cuttings	496-500
Anna Baloh and Robert Geneve	An overview of the ant plant (<i>Hydnophytum</i>)	501-503
Mark Brand and Jackie Edgett	Propagation of northern bayberry (<i>Morella pensylvanica</i> ‘Bobzam’) through tissue culture	504-508
Marie Chieppo	Redesigning the future of plastic plant containers	509-516

Daniel M. Dlugos, Jennifer L. Koch, and David J. Burke	Propagation of <i>Tsuga canadensis</i>	517-519
Deborah Hardwick	<i>Clematis</i> and <i>Hydrangea</i> : An avid collector shares a passion for plants	520-526
Rachel Kappler	Propagation in ash for emerald ash borer resistance	527-529
Josheph LaMent	Propagation of <i>Packera aurea</i> , <i>Eutrochium fistulosum</i> and <i>Sagittaria latifolia</i> at Kind Earth Growers	530-539
Olivia Liebing and W. Garrett Owen	Optimizing rooting for efficient nursery production	540-542
Jessica Lubell-Brand	Substituting hemp hurd fiber for peat in plant production	543-545
Gale Martin	Sowing seeds of change	546-552
Casey McKay, Yuta Inoue, Victor Zayas, Neil Mattson, Mark Bridgen	Optimizing hemp growth: harnessing the synergy of aquaponics through a split root system	553-558
Ryan Munroe	Tree root management trials at NVK Nurseries	559-567
Freedom Shelley	Starting and sustaining a beneficial insect program	568-572
Harmeet Singh-Bakala, Francia Ravelombola, Cheryl Adeva, Jessica Argenta, Grover Shannon and Feng Lin	Assessing variation in photosynthetic performance of soybean using MultispeQ phenotyping	573-579

Hilary Sowa and Brian Maynard	<i>Taxus canadensis</i> : Can we do without synthetic auxins and a mist tent?	580-584
Kevin Zuidervliet	Sand bed propagation	585-589
Claire Zuidervliet	Native seed cleaning: The Oregon seed blower	590-593
Shelby French	New Plant Forum 2024 – Eastern Region IPPS	594-607
