2025 IEEE/ACM International Conference on Automation of Software Test (AST)

AST 2025

Table of Contents

Message from the Chairs ..... **viii**
AST 2025 Committees ..... **x**

Session 1: LLMs for Testing

Acceptance Test Generation with Large Language Models: An Industrial Case Study 1
Margarida Ferreira (University of Porto, Portugal), Luís Viegas (University of Porto, Portugal), João Pascoal Faria (University of Porto, Portugal), and Bruno Lima (University of Porto, Portugal)

AsserT5: Test Assertion Generation using a Fine-Tuned Code Language Model 12
Severin Primbs (University of Passau, Germany), Benedikt Fein (University of Passau, Germany), and Gordon Fraser (University of Passau, Germany)

Simulink Mutation Testing using CodeBERT 24
Jingfan Zhang (University of Ottawa, Canada), Delaram Ghobari (University of Ottawa, Canada), Mehrdad Sabetzadeh (University of Ottawa, Canada), and Shiva Nejati (University of Ottawa, Canada)

Session 2: Test Generation

Automated Test-Case Generation for REST APIs using Model Inference Search Heuristic 29
Clinton Cao (Delft University of Technology, the Netherlands), Annibale Panichella (Delft University of Technology, the Netherlands), and Sicco Verwer (Delft University of Technology, the Netherlands)

Automated Test Generation for Integration Testing 41
Elson Kurian (University of Milano-Bicocca, Italy), Giovanni Denaro (University of Milano-Bicocca, Italy), Pietro Braione (University of Milano-Bicocca, Italy), and Luca Guglielmo (University of Milano-Bicocca, Italy)

Automated Test Generation from Program Documentation Encoded in Code Comments 46
Giovanni Denaro (University of Milano-Bicocca, Italy) and Luca Guglielmo (University of Milano-Bicocca, Italy)

Session 3: When and How to Test

An Adaptive Testing Approach Based on Field Data 58
Samira Silva (Gran Sasso Science Institute (GSSI), Italy; ISTI-CNR, Italy), Ricardo Caldas (Chalmers University of Technology, Sweden), Patrizio Pelliccione (Gran Sasso Science Institute (GSSI), Italy), and Antonia Bertolino (Gran Sasso Science Institute (GSSI), Italy; ISTI-CNR, Italy)

Exceptional Behaviors: How Frequently are they Tested? 70
Andre Hora (UFMG, Brazil) and Gordon Fraser (University of Passau, Germany)

What Types of Automated Tests do Developers Write? 80
Marko Ivanković (University of Passau, Germany; Google), Luka Rimanić (Google Switzerland GmbH, Switzerland), Ivan Budiselić (Google Switzerland GmbH, Switzerland), Goran Petrović (Google Switzerland GmbH, Switzerland), Gordon Fraser (University of Passau, Germany), and René Just (University of Washington, USA; Google)

Improving Examples in Web API Specifications using Iterated-Calls In-Context Learning 91
Kush Jain (Carnegie Mellon University, USA), Kiran Kate (IBM Research, USA), Jason Tsay (IBM Research, USA), Claire Le Goues (Carnegie Mellon University, USA), and Martin Hirzel (IBM Research, USA)

Session 4: Testing of LLMs

Adaptive Probabilistic Operational Testing for Large Language Models Evaluation 103
Ali Asgari (Delft University of Technology, The Netherlands), Antonio Guerriero (Università degli Studi di Napoli Federico II, Italy), Roberto Pietrantuono (Università degli Studi di Napoli Federico II, Italy), and Stefano Russo (Università degli Studi di Napoli Federico II, Italy)

ASTRAL: Automated Safety Testing of Large Language Models 114
Miriam Ugarte (Mondragon University, Spain), Pablo Valle (Mondragon University, Spain), Jose Antonio Parejo (University of Seville, Spain), Sergio Segura (University of Seville, Spain), and Aitor Arrieta (Mondragon University, Spain)

A Taxonomy of Failures in Tool-Augmented LLMs 125
Cailin Winston (University of Washington, USA) and René Just (University of Washington, USA)

Session 5: Vulnerability Detection and Security Testing

A New Era in Software Security: Towards Self-Healing Software via Large Language Models and Formal Verification 136
Norbert Tihanyi (Technology Innovation Institute (TII), UAE), Yiannis Charalambous (The University of Manchester, UK), Ridhi Jain (Technology Innovation Institute (TII), UAE), Mohamed Amine Ferrag (Guelma University, Algeria), and Lucas C. Cordeiro (University of Manchester, UK; Federal University of Amazonas, Brazil)

Bringing Light into the Darkness: Leveraging Hidden Markov Models for Blackbox Fuzzing 148
Anne Borcherding (Fraunhofer IOSB, Germany), Mark Giraud (Fraunhofer IOSB, Germany), and Johannes Häring (Karlsruhe Institute of Technology, Germany)

Incorporating Domain Knowledge into GNNs for Advanced Vulnerability Detection in Java 160
Rosmaël Zidane Lekeufack Foulefack (University of Trento (UNITN), Italy) and Alessandro Marchetto (University of Trento (UNITN), Italy)

Author Index **171**
