# 2025 25th International Conference on Software Quality, Reliability and Security (QRS) **QRS 2025**

## Table of Contents

Message from the Chairs .....	xv
Steering Committee .....	xvii
Advisory Committee .....	xviii
Organizing Committee .....	xix
Program Committee .....	xxi
Chairs of Workshops .....	xxv
Plenary Panels and Keynote Speakers .....	xxviii

## Application of LLM in Software Engineering I

LLM-Empowered Scriptless Functional Testing .....	1
<i>Colin van Hooren (Open Universiteit, The Netherlands), Fernando Pastor Ricós (Open Universiteit, The Netherlands; Universidad Politecnica de Valencia, Spain), Stefano Bromuri (Open Universiteit, The Netherlands), Tanja E.J. Vos (Open Universiteit, The Netherlands; Universidad Politecnica de Valencia, Spain), and Beatriz Marin (Universidad Politecnica de Valencia, Spain)</i>	
QuAInth: A Code Comment Approach for Application-Oriented Quantum Programs via N-Version LLMs .....	13
<i>Xiaohan Yu (Beihang University, China), Yuechen Li (Beihang University, China), Jinlong Wen (Beihang University, China), Kai-Yuan Cai (Beihang University, China), and Beibei Yin (Beihang University, China)</i>	
A Hybrid Framework for Inconsistency Detection in Diversity Requirements: Combining Multi-Graph Merging and LLM .....	25
<i>zhiguo liu (Inner Mongolia Normal University, China), chunhui wang (Inner Mongolia Normal University, China), and ye zhai (Inner Mongolia Normal University, China)</i>	
Generation, Migration and Optimization of Cross-Language Static-Analysis Rules Based on Large Language Models .....	34
<i>Zhanyi Hou (Beihang University, China), Zhiyu Duan (Beihang University, China), Minghao Yang (Beihang University, China), Mengdan Wu (Beihang University, China), and Shunkun Yang (Beihang University, China)</i>	

Leveraging Retrieval Augmented Generation to Enhance LLM-Based Fault Localization for Novice Programs .....	46
<i>Bin Du (Beijing University of Chemical Technology, China), Xiaolan Kang (Beijing University of Chemical Technology, China), Hexiang Xu (Beijing University of Chemical Technology, China), Yonghao Wu (Beijing Institute of Petrochemical Technology, China), and Yong Liu (Beijing University of Chemical Technology, China)</i>	
Defending LLMs Against Jailbreak Prompts Through Key Information Protection and Selective Compression .....	58
<i>Siyu Li (Nanjing University of Aeronautics and Astronautics, China), Yu Zhou (Nanjing University of Aeronautics and Astronautics, China), Xiangyu Zhang (Nanjing University of Aeronautics and Astronautics, China), and Tingting Han (2Birkbeck, University of London, United Kingdom)</i>	
Beyond Decomposition: a LLM-Powered Automated Approach to Refactoring Monoliths into Microservices .....	68
<i>Khaled Sellami (Université Laval, Canada), Oussama Jebbar (Université du Québec à Chicoutimi, Canada), Ayyoub Gannoun (Université Laval, Canada), and Mohamed Aymen Saied (Université Laval, Canada)</i>	

## Application of LLM in Software Engineering II

AUG: An Interactive Tool for Clarifying and Generating UML Models Based on Large Language Models .....	78
<i>Jia Lu (Wuhan Textile University, China), Peiling Sun (Wuhan Textile University, China), Yi Chen (Wuhan Textile University, China), Gege Yin (Wuhan Textile University, China), and Peng Ye (Wuhan Textile University, China)</i>	
Method Name Recommendation Based on Large Language Model .....	86
<i>Qianguo Chen (Nanjing University of Aeronautics and Astronautics, China), Kui Liu (Nanjing University of Aeronautics and Astronautics, China), and Zhe Liu (Nanjing University of Aeronautics and Astronautics, China)</i>	
ChatTSS: Improving Test Suite Simplification via Large Language Models .....	96
<i>Gaolei Yi (Nanjing University, China), Yuan Zhao (Nanjing University, China), Runkang Feng (Nanjing University, China), Qunjun Zhang (Nanjing University of Science and Technology, China), and Zhenyu Chen (Shenzhen Research Institute of Nanjing University, China)</i>	
Retrieval-Augmented Generation for Software Requirement-Based Test Case Generation .....	108
<i>Zhiyao Wang (The University of Osaka, Japan), Xiuqing Guo (The University of Osaka, Japan), and Tatsuhiro Tsuchiya (The University of Osaka, Japan)</i>	
BFGGen: Basic Flow Generation for Refining Requirements via LLM and Relational Graph Attention Networks .....	120
<i>Guangyu Wang (Beihang University, China), Bangqi Li (Beihang University, China), Ji Wu (Beihang University, China), and Zhijun Shao (Beihang University, China)</i>	

Peft: Multiline Complex Patch Correctness Assessment Based on fine-Tuning Large Language Model with "Golden Data" .....	132
<i>Xiaoxi Zheng (Beijing University of Chemical Technology, China), Ruilian Zhao (Beijing University of Chemical Technology, China), and Junxia Guo (Beijing University of Chemical Technology, China)</i>	

## AI-Driven Learning for Software Engineering I

Class-Wise Representation Based Federated Learning for Non-IID Graph Data .....	144
<i>Shihao Zheng (Xinjiang Normal University, China), Yong Li (Xinjiang Normal University, China), and Qianren Yang (Xinjiang Normal University, China)</i>	
Diagnosing Deep Learning Errors with Reinforcement Learning-Driven Adversarial Examples .....	154
<i>Kaicheng Shao (Peking University, China), Yuteng Lu (China Ship Research and Development Academy, China), Ai Liu (Nanjing University of Aeronautics and Astronautics, China), and Meng Sun (Peking University, China)</i>	
An Empirical Study of Logging Practice in CUDA-Based Deep Learning Systems .....	164
<i>An Chen (University of Waterloo, Canada), Kundi Yao (University of Waterloo, Canada), Haonan Zhang (University of Waterloo, Canada), Yiming Tang (Rochester Institute of Technology, United States), and Weiyi Shang (University of Waterloo, Canada)</i>	
Prompt Learning for Source Code Summarization .....	176
<i>Tingting Xu (City University of Macau, China), Chunrong Fang (Nanjing University, China), Hanwei Qian (Nanjing University, China), Xia Feng (City University of Macau, China), and Weisong Sun (Nanyang Technological University Singapore, Singapore)</i>	
Towards Fault-Tolerant Deep Reinforcement Learning Systems: A Framework Based on N-Version Programming .....	189
<i>Wenting Yang (Beihang University, China), Yuhuan Fan (Beihang University, China), Xiaohui Wan (Beihang University, China), and Zheng Zheng (Beihang University, China)</i>	

## AI-Driven Learning for Software Engineering II

Scalable and Precise Patch Robustness Certification for Deep Learning Models with Top-k Predictions .....	199
<i>Qilin Zhou (City University of Hong Kong, Hong Kong), Haipeng Wang (City University of Hong Kong, Hong Kong), Zhengyuan Wei (The Education University of Hong Kong, Hong Kong), and W.K. Chan (City University of Hong Kong, Hong Kong)</i>	
Federated Non-IID Graph Learning Based on Graph Optimization .....	211
<i>Pan Deng (Beihang University, China), Xuefeng Liu (Beihang University, China), Jianwei Niu (Beihang University, China), and Chunming Hu (Beihang University, China)</i>	

An Empirical Study on Machine Learning-Based Risk Prediction for Petroleum Pipelines .....	223
<i>Haikang Gao (PipeChina Institute of Science and Technology, China), Ye Shang (Nanjing University, China), Gaolei Yi (Nanjing University, China), Yuan Zhao (Nanjing University, China), and Zhenyu Chen (Nanjing University, China)</i>	
Cross-Modal Contrast with Image Jigsaw for Self-Supervised Representation Learning of 3D Point Clouds .....	235
<i>Yuehui Han (Nanjing University of Information Science and Technology, China), Xinpeng Yu (University of New South Wales, Australia), Yao Wang (Nanjing University of Information Science and Technology, China), Can Xu (Nanjing University of Science and Technology, China), and Qi Liu (Nanjing University of Information Science and Technology, China)</i>	
Using Prompt Tuning to Identify Relevant API Knowledge from API Tutorial and Stack Overflow .....	246
<i>Di Wu (Nanjing University of Posts and Telecommunications, China), Wanyu Liu (Nanjing University of Posts and Telecommunications, China), and Yanfei Sun (Nanjing University of Posts and Telecommunications, China; Wuxi University, China)</i>	

## Formal Methods and Verification Techniques

Formal Methods for Residual Risk Reduction in Cyber-Physical Systems .....	258
<i>David Kaufmann (AVL List GmbH, Austria), Radu Mateescu (Univ. Grenoble Alpes, INRIA, CNRS Grenoble INP, LIG, France), Lucie Muller (Univ. Grenoble Alpes, INRIA, CNRS Grenoble INP, LIG, France), Wendelin Serwe (Univ. Grenoble Alpes, INRIA, CNRS Grenoble INP, LIG, France), and Franz Wotawa (Graz University of Technology, Austria)</i>	
Formal Verification of Preemptive Interrupt-Driven Programs Based on Partial Order Modeling .....	270
<i>Junzhe Zhao (Hebei University, China), Meng Wang (Hebei University, China), Bin Yu (Xidian University, China; Nanjing University, China), Zixuan Yuan (Xidian University, China), and Qianchen Yang (Hebei University, China)</i>	
Towards Automated and Accurate Understanding of ARINC Standard in Heterogeneous Data Formats .....	282
<i>Cuifeng Gao (University of Science and Technology of China, China), Wenzhang Yang (Institute of AI for Industries, China), Xianchang Luo (University of Science and Technology of China, China), and Yinxing Xue (University of Science and Technology of China, China)</i>	
SHARD: Securing GPU Kernels with Lightweight Formal Methods .....	294
<i>Jiacheng Zhao (University of Science and Technology of China) and Baojian Hua (University of Science and Technology of China)</i>	

# Testing, Verification, and Repair Techniques for Neural Network Systems

Boosting the Cost-Effectiveness of Metamorphic Test Case Pair Selection for DNN Testing with Surrogate Model .....	304
<i>Jialin Fan (Nanjing University, China), Jingling Wang (Nanjing University, China), Shengyou Hu (Nanjing University, China), Huayao Wu (Nanjing University, China), and Changhai Nie (Nanjing University, China)</i>	
Verifying Neural Network Controlled Systems by Combining Forward and Backward Reachability Analysis .....	315
<i>Xinyu Wang (National University of Defense Technology, China), Liqian Chen (National University of Defense Technology, China; State Key Laboratory of Complex &amp; Critical Software Environment, China), Zengyu Liu (National University of Defense Technology, China), Minghao Li (National University of Defense Technology, China), and Banghu Yin (National University of Defense Technology, China)</i>	
Multi-Objective Search-Based Repair of Deep Neural Networks .....	327
<i>Yao Yao (China University of Geosciences, China), Dongcheng Li (California State Polytechnic University - Humboldt, USA), Man Zhao (China University of Geosciences, China), and Qijia Chen (China University of Geosciences, China)</i>	
Adversarial Generation of Deep Neural Network Image Test Cases Based on Multi-Conditional Constraints .....	337
<i>Qingxia Yu (Nanjing University of Aeronautics and Astronautics, China) and Chuanqi Tao (Nanjing University of Aeronautics and Astronautics, China)</i>	
KI-GCNN: Knowledge-Informed Graph Convolutional Neural Network for Multiclass Trajectory Prediction at Signalized Intersections .....	347
<i>Zhuangzhuang Chen (Shanghai University, China) and Xi Wang (Shanghai University, China)</i>	

## Software Testing and Defect Prediction

Evaluating Static Mutant Selection Techniques for Accurate Mutation Score Approximation .....	359
<i>Magdalene Ashong (Trinity College Dublin, Ireland), Thomas Laurent (Trinity College Dublin, Ireland), and Anthony Ventresque (Trinity College Dublin, Ireland)</i>	
SPLICE: Automated Testing for Speech Translation via Syntactic Analysis .....	370
<i>Zongtai Li (Nanjing University, China), Ji Qi (software Technology Co., Ltd, China), Pin Ji (Nanjing University, China), Jia Liu (Nanjing University, China), and Yang Feng (Nanjing University, China)</i>	
Improving QA System Testing Efficiency Through White-Box Test Prioritization .....	382
<i>Hanying Shao (University of Waterloo, Canada), Zishuo Ding (The Hong Kong University of Science and Technology (Guangzhou), China), Kundi Yao (University of Waterloo, Canada), Haonan Zhang (University of Waterloo, Canada), and Weiyi Shang (University of Waterloo, Canada)</i>	

Scalable Detection of Floating-Point Errors via Adaptive Parallel Subdomain Search .....	392
<i>Zuoyan Zhang (Hunan University, China), Shihan Yuan (Hunan University, China), Hongru Yang (Hunan University, China), Jie Zhao (Hunan University, China), and Jinchen Xu (Information Engineering University, China)</i>	

An Empirical Study of the Root Causes and Consequences in Real-World App Compatibility Issues .....	404
<i>Sen Yang (Military Unit 32009 of PLA, China), Zhanwei Hui (Military Unit 32009 of PLA, China), Xiaojuan Wang (Military Unit 32009 of PLA, China), and Song Huang (Army Engineering University of PLA, China)</i>	

## Software Reliability and Regression Analysis

Self-Exciting Software Reliability Models with Pareto Base Intensity Function and Their Applications .....	416
<i>Nanxiang Qiu (Hiroshima University, Japan), Tadashi Dohi (Hiroshima University, Japan), Junjun Zheng (Hiroshima University, Japan), and Hiroyuki Okamura (Hiroshima University, Japan)</i>	

Yet Another Trace-Based Approach for the Cause of Software Regressions in JavaScript and Python .....	428
<i>Feng Dai (The University of Tokyo, Japan), Yuefeng Hu (The University of Tokyo, Japan), Tetsuro Yamazaki (The University of Tokyo, Japan), and Shigeru Chiba (The University of Tokyo, Japan)</i>	

An Empirical Study On the Short-Term Self-Admitted Technical Debt .....	440
<i>Qiao Huang (Zhejiang Gongshang University, China), Weijun Liu (Zhejiang Gongshang University, China), Zixuan Dai (Zhejiang Gongshang University, China), Ye Wang (Zhejiang Gongshang University, China), and Chengyi Lin (Zhejiang Gongshang University, China)</i>	

Dual-Temporal Dynamic Fusion with Motion-Aware Priors for Robust Object Tracking .....	452
<i>Jiangqin Fu (Wuhan Textile University, China), Ruiqi Luo (Wuhan Textile University, China), and Ran Jin (Wuhan Textile University, China)</i>	

Patterns That Break Memory: SEU Characterization of COTS LPDDR2 and LPDDR4 SDRAM via Stress Testing Under 60 MeV Proton Beam .....	462
<i>Saad Memon (University of Luxembourg, Luxembourg), Rafal Graczyk (University of Luxembourg, Luxembourg), Tomasz Rajkowski (National Centre for Nuclear Research (NCBJ), Poland), Jan Swakon (Institute of Nuclear Physics Polish Academy of Sciences (IFJ PAN), Poland), and Mike Papadakis (University of Luxembourg, Luxembourg)</i>	

## Software Defect Prediction and Bug Analysis

Refactoring Revisited: An Expanded Study on Refactoring Practices .....	473
<i>Yangyang Zhao (Zhejiang Sci-Tech University, China), Xinyang Li (Zhejiang Sci-Tech University, China), Jiaming Guo (Zhejiang Sci-Tech University, China), Chenglin Li (Zhejiang Sci-Tech University, China), and Liming Nie (Shenzhen Technology University, China)</i>	

PCBFen: Bug Detection in PCB Design Tool Chain Through Functionally Equivalent Netlist Mutation .....	485
<i>Xu Zhao (Beijing Institute of Technology, China), Xiaochen Li (Dalian University of Technology, China), Peiyu Zou (Dalian University of Technology, China), and Lukai Liu (Dalian University of Technology, China)</i>	
CAFEM: Context-Aware Feature Enhancement with Multi-Stage Sampling for Statement-Level Defect Prediction .....	497
<i>Ziyang Liu (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Jianhao Li (Jiangsu Normal University, China), and Guosheng Hao (Jiangsu Normal University, China)</i>	
Automated Bug Report Classification Using BERT: A Transformer-Based Approach for Efficient Bug Triage in Large-Scale Software Projects .....	508
<i>Beatriz Caldeira (Universidade da Beira Interior, Portugal) and Nuno Pombo (Universidade da Beira Interior, Portugal)</i>	
SURec: A Semantic-Driven and User Behavior Collaborative Bug Report Recommendation Method ....	517
<i>Xin Qiu (Jiangsu Normal University, China), Chunli Xie (Jiangsu Normal University, China), Yuanfa Hu (Jiangsu Normal University, China), and You Zeng (Jiangsu Normal University, China)</i>	
Software Defect Prediction Method Based on Multi-Feature Fusion .....	529
<i>Zijian Zhou (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Qiao Yu (Jiangsu Normal University, China), and Jianhao Li (Jiangsu Normal University, China)</i>	
TimeSAST: Cloud Workload Sequence Prediction Method Based on CLEC-SSA .....	540
<i>Qiang Liu (Hunan University of Technology, China), Xin Lin (Hunan University of Technology, China), XinPan Yuan (Hunan University of Technology, China), Ying Jiang (Henan Normal University, China), and XianChao Zhou (Hunan University of Technology, China)</i>	

## Advances in Fuzzing Techniques and Applications

CHAT4SEED: Semantic-Awareness Highly Structured Seed Generation for Fuzzing .....	552
<i>Jiarui Chen (National University of Defense Technology, China), Bin Zhang (National University of Defense Technology, China), Jiongyi Chen (National University of Defense Technology, China), Runhao Li (National University of Defense Technology, China), and Chaojing Tang (National University of Defense Technology, China)</i>	
GLMFuzz: Vulnerability Knowledge Guided Prompting for Efficient Network Protocol Fuzzing ...	564
<i>Shengkai Zhu (Jiangnan University, China), Shuitao Gan (Laboratory for Advanced Computing and Intelligence Engineering, China), Xiaofeng Wang (Pengcheng Laboratory, China), and Yan Nan (Laboratory for Advanced Computing and Intelligence Engineering, China)</i>	

RoFuBERT: Guiding Robust Fine-Tuning Using Fuzz Testing for Chinese BERT-Based PLMs ..... 576  
*Lichao Feng (Nanjing University, China), Xingya Wang (Nanjing University, China; Nanjing Tech University, China), Shiyu Zhang (Nanjing Tech University, China), and Zhihong Zhao (Nanjing University, China; Suzhou City University)*

DiFuzzNMT: A Differential Fuzzing Framework for Neural Machine Translation ..... 588  
*Haibo Chen (Jiangsu University, China), Jinfu Chen (Jiangsu University, China), Saihua Cai (Jiangsu University, China), Shengran Wang (Jiangsu University, China), and Jingyi Chen (Jiangsu University, China)*

## Autonomous Driving and Safety Systems

Testing Autonomous Driving Systems with Irregular Junctions Extracted from OpenStreetMap .... 600  
*Tiantian Sun (University of Chinese Academy of Sciences, China; State Key Laboratory of Computer Science, ISCAS, China; University of Chinese Academy of Sciences, China), Changwen Li (State Key Laboratory of Computer Science, ISCAS, China; University of Chinese Academy of Sciences, China), Rongjie Yan (State Key Laboratory of Computer Science, ISCAS, China; University of Chinese Academy of Sciences, China), and Yan Cai (University of Chinese Academy of Sciences, China; State Key Laboratory of Computer Science, ISCAS, China; University of Chinese Academy of Sciences, China)*

Quantitative Comparison of System Architectures for an SAE Level 4 Highway Pilot ..... 612  
*Manuel Drago (University of Florence, Italy), Andrea Bondavalli (University of Florence, Italy), Paolo Lollini (University of Florence, Italy), Georg Niedrist (TTTech Auto AG, Austria), and Moritz Antlanger (TTTech Auto AG, Austria)*

AT-DETR: A Multispectral Detector with Adaptive Feature Fusion and Scene Enhancement for Complex Road Scenes ..... 623  
*Quan Wang (Wuxi University, China), Ye Shen (Nanjing University of Information Science & Technology, China), Hao Wu (Wuxi University, China), and Deji Chen (Wuxi University, China; Jiangsu Foreign Expert Lab-Wuxi University, China)*

A Reinforcement Learning Algorithm for Safety Decision Making in Autonomous Driving Systems with Reward Machine Guidance ..... 634  
*Junge Huang (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Jinyong Wang (Xuzhou University of Technology, China), Ying Zhao (Jiangsu Normal University, China), and Miaoer Li (Jiangsu Normal University, China)*

Trustworthy Vision in Fog: Enhancing Detection Quality and System Reliability for Autonomous Driving ..... 644  
*Litao Ruan (Zhejiang Sci-Tech University, China), Zuohua Ding (Zhejiang Sci-Tech University, China), and Hongyun Huang (Zhejiang Sci-Tech University, China)*

Determination of Hands-Off Detection Timespan Based on Asymmetric Nash Bargaining .....	656
<i>Zhijie Feng (Wuhan University of Technology, China), Siwei Zhou (Guangdong Ocean University, China), Luyao Ye (Wuhan Textile University, China), Enrico Vicario (University of Florence, Italy), and Jianwen Xiang (Wuhan University of Technology, China; Engineering Research Center of Transportation Information and Safety, ERCTIS, China)</i>	

## Attack Analysis and Defense

Hybrid Introspection for JIT-Compilers and Interpreters in Attack Surface Analysis .....	668
<i>Pavel Dovgalyuk (Yaroslav-the-Wise Novgorod State University, Russia), Vladislav Stepanov (Institute for System Programming, Russia), Arkadiy Ivanov (Institute for System Programming, Russia), and Natalia Fursova (Institute for System Programming, Russia)</i>	
Backdoor Attacks with Hybrid Triggers: A Dual-Feature Injection Approach for Code Summarization Models .....	679
<i>Peng Nie (Army Engineering University of PLA, China), Song Huang (Army Engineering University of PLA, China), ChangYou Zheng (Army Engineering University of PLA, China), and Min Gu (Army Engineering University of PLA, China)</i>	
Flash Loan Attack Is More Than Just Price Oracle Manipulation: A Comprehensive Empirical Study .....	691
<i>Cuifeng Gao (University of Science and Technology of China, China), Jiajun Ye (University of Science and Technology of China, China), Wenzhang Yang (Institute of AI for Industries, China), and Yinxing Xue (University of Science and Technology of China, China)</i>	
WASMSEPA: Effectively Protecting WebAssembly Through Privilege Separation .....	703
<i>Zhuochen Jiang (University of Science and Technology of China) and Baojian Hua (University of Science and Technology of China)</i>	

## Software Security and Vulnerability Analysis

PinChecker: Identifying Unsound Safe Abstractions of Rust Pinning APIs .....	715
<i>Yuxuan Dai (Nanjing University, China) and Yang Feng (Nanjing University, China)</i>	
How Security Coding Knowledge Impact Software Quality: An Empirical Study of Stack Overflow Security Issues .....	727
<i>Shuqi Zuo (Yangzhou University, China), Qi Yang (Northwestern Polytechnical University, China; Xi'an Microelectronics Technology Institute, China), Tianyi Gao (Yangzhou University, China), Zarin Tasnim Progga (Yangzhou University, China), and Jinjin Shen (Northwestern Polytechnical University, China)</i>	
BloP: A Trusted Computing Scheme Integrating Blockchain and Privacy-Preserving Computation. ....	739
<i>Zhihao Zhang (Peking University, China; Nanjing Securities Co., Ltd, China), Zhonghao Pan (Nanjing University, China), Yang Feng (Nanjing University, China), and Qingni Shen (Peking University, China)</i>	

JASLOAD: Dynamically Analyzing JavaScript Bytecode via A Load-Time Instrumentation Approach .....	751
<i>Hao Jiang (University of Science and Technology of China) and Baojian Hua (University of Science and Technology of China)</i>	
WASDAM: Effectively Detecting Vulnerabilities in Wasm Smart Contracts Based on the Data Access Model .....	761
<i>Chu Chen (Qufu Normal University, China), Xuan Wang (Qufu Normal University, China), Pinghong Ren (Qufu Normal University, China), Bin Yu (Xidian University, China), and Jin Liu (Xi'an University of Technology, China)</i>	
PrivGraph: Modeling Personal Privacy Information Using Knowledge Graph .....	771
<i>Jinhui Zuo (Ajou University, South Korea) and Seok-Won Lee (Ajou University, South Korea)</i>	

## Metrics and Evaluation

An Empirical Study: Mems as a Static Performance Metric .....	783
<i>Liwei Zhang (University of Chinese Academy of Sciences, China; Chinese Academy of Sciences (CAS), China; University of Chinese Academy of Sciences, China), Baoquan Cui (Chinese Academy of Sciences (CAS), China; University of Chinese Academy of Sciences, China), Xutong Ma (Inria, France), and Jian Zhang (University of Chinese Academy of Sciences, China; Chinese Academy of Sciences (CAS), China; University of Chinese Academy of Sciences, China)</i>	
Value of Sensing: A Novel Sensor Selection Metric for Remaining Useful Life Prognostics .....	795
<i>Yunlong Zhong (Tsinghua University, China) and Zhenlin Liang (Tsinghua University, China)</i>	
An Integrated Metric for Modularity in a Microservice System .....	802
<i>Claudia Cahya Primadani (Gyeongsang National University, Republic of Korea) and Seonah Lee (Gyeongsang National University, Republic of Korea)</i>	

<b>Author Index</b> .....	<b>815</b>
---------------------------	------------
