

# **2025 IEEE Conference on Electrical Insulation and Dielectric Phenomena (CEIDP 2025)**

**Manchester, United Kingdom  
14-17 September 2025**

**Pages 1-483**

**IEEE Catalog Number: CFP25CID-POD  
ISBN: 979-8-3315-8903-5**

# TABLE OF CONTENTS

|                                                                                                                                            |    |
|--------------------------------------------------------------------------------------------------------------------------------------------|----|
| Dielectrics in Semiconductor Devices.....                                                                                                  | 1  |
| <i>Enis Tuncer</i>                                                                                                                         |    |
| Comparative Conductivity Measurement on Insulating Materials for HVDC Equipment .....                                                      | 15 |
| <i>Thomas Lübeck;Tobias Müller;Myriam Koch</i>                                                                                             |    |
| Insulation Thickness Optimization: A Continuum Approach for Reliable High-Power-Density Automotive and Aerospace Electrical Machines ..... | 20 |
| <i>Hadi Naderiallaf;Michele Degano;Christopher Gerada</i>                                                                                  |    |
| A Simulation Study of Influence of Multiple Space Charge Layers on PEA Output Signals.....                                                 | 24 |
| <i>A. Saeed;B.G. Stewart</i>                                                                                                               |    |
| Surface Discharges Inception & Flashover of Polyimide Films Under Aeronautic Constraint .....                                              | 28 |
| <i>M. E. A. Slama;M. Jebli;A. Varais;M. Darques</i>                                                                                        |    |
| Enhanced Measurement Accuracy of AC Breakdown Test in Winding Wires: A Novel Approach.....                                                 | 32 |
| <i>Dayuan Qiang;Colin Rimmer;John Wale;Richard McMahon</i>                                                                                 |    |
| Characterization of the Surface Treatment Type of Silica Filler in Silicone Rubber Composite Using Broadband Dielectric Response .....     | 36 |
| <i>Yong Sun;Qian Wang;Zerui Wang;Haohan Zhou;Yanjie Cui;Chao Wu;Xidong Liang</i>                                                           |    |
| The Equivalent Electrical Model of Dielectric Elastomers Considering Distributed Resistance of the Electrodes .....                        | 40 |
| <i>Wenzhuo Dong;Shaolong Zhong;Zhimin Dang</i>                                                                                             |    |
| Influence of the Insulation Layer at the Electrode by Microarc Oxidation on the Surface Discharge .....                                    | 44 |
| <i>Zhenyu Wu;Zepeng Lv;Jianhong Song;Xianghuan Zeng;Kai Wu;Yonghong Cheng</i>                                                              |    |
| SiO <sub>2</sub> -Doped Heatproof Silicone Gel Composite with Modified Space Charge Characteristics.....                                   | 48 |
| <i>Xinyue Zhang;Zepeng Lv;Chen Zhang;Kai Wu</i>                                                                                            |    |
| Effects of Polyurethane Particle with High Aspect Ratio on Performance of Silicone Elastomer Composite.....                                | 52 |
| <i>Yi Ge;Jiacheng Zhou;Juntao Zhao;Hao Xu;Kai Wu</i>                                                                                       |    |
| The Effects of Aging and Moisture on Dielectric Properties of Insulating Paperboard.....                                                   | 56 |
| <i>Ruiqi Liu;Shengkang Wang;Fuchang Lin;Hua Li;Jingqi Liu;Geng Wang;Qin Zhang</i>                                                          |    |
| Evaluation of the Hydrophobicity Transfer of Polymeric Insulators Under Different Contaminated Conditions .....                            | 60 |
| <i>N. Kita;M. Miyoshi;H. Homma</i>                                                                                                         |    |
| Microscopic and Capacitive Characteristics of Polypropylene Films Under Multi-Physical Fields .....                                        | 64 |
| <i>Li Meng;Jiale Song;Zhaoyu Ran;Junluo Li;Xiangrong Chen;Qi Li</i>                                                                        |    |
| Influence of Multi-Physical Fields Aging on the Insulation Properties of BOPP Films for Dry DC Capacitors.....                             | 68 |
| <i>Jiale Song;Zhuohan Li;Tianyin Zhang;Yongchu Tan;Changjiang Feng;Botao Liu;Xiangrong Chen</i>                                            |    |

|                                                                                                                                                              |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Deformation Behaviour Under Compression of Silicone Rubber Used in High Voltage Cable Accessories .....                                                      | 72  |
| <i>Oscar Kayanja; Emre Kantar; Svein M. Hellesø; Julia Glaum; Sverre Hvidsten; Mari-Ann Einarsrud</i>                                                        |     |
| Millimeter-Wave Free-Space Measurement of Dielectric Properties on High-Temperature Materials .....                                                          | 77  |
| <i>Cesar A. Nieves; Zane W. Cohick</i>                                                                                                                       |     |
| Influence of Vulcanization Pressures on Charge Dynamics of 500 kV EHVDC Cable Factory Joints .....                                                           | 81  |
| <i>Tianyin Zhang; Yuyang Jin; Salman Khan; Ruobin Huang; Muhammad Awais; Botao Liu; Xiangrong Chen</i>                                                       |     |
| Dielectric Properties of XLPE Insulation of Cables Harvested from a Nuclear Power Plant .....                                                                | 85  |
| <i>Yoshimichi Ohki; Naoshi Hirai; Takashi Kurihara</i>                                                                                                       |     |
| Degradation Mechanism of Insulation Mismatch at Cable Accessories Interface in High-Speed Railway Power Supply Under Extreme Cold Operating Conditions ..... | 89  |
| <i>Guangya Zhu; Weining Wang; Xinyu Tang; Qing Shen; Kai Zhou; Jinfeng Hu; Niaohang Gu</i>                                                                   |     |
| Characterization of Degradation and Breakdown of Silicone-Epoxy Resin Interface Under DC .....                                                               | 93  |
| <i>Roger Schurch; Diego Herrera; Daniel Figueroa; Jorge Ardila-Rey</i>                                                                                       |     |
| Electrical Performance of Insulated Winding Wires for Aircraft Engines After Exposure to Airborne Dust Particles .....                                       | 97  |
| <i>R. Lowndes; I. Cotton; Q Han; F. Schulz</i>                                                                                                               |     |
| Space Charge Characters in PDMS/SiO <sub>2</sub> Nanocomposites at Different Temperatures Under DC Electric Field .....                                      | 101 |
| <i>Chen Zhang; Bassel Diban; Giovanni Mazzanti; Zepeng Lv; Kai Wu</i>                                                                                        |     |
| ALT Data Fitting for Polypropylene-Based HVDC Cable Insulation Developed in the HEU-NEWGEN Project .....                                                     | 105 |
| <i>Bassel Diban; Rolando Ezequiel Diaz; Giovanni Mazzanti; Paolo Seri; Ilkka Rytöluoto; Kari Lahti; Minna Niittymäki; Antoine Perez; Anaïs Leproux</i>       |     |
| Factors Influencing the Lifetime of an Inverter-Fed LV Insulation System at Voltages Above PDIV .....                                                        | 109 |
| <i>Fredrik Sahlén; Markus Takala</i>                                                                                                                         |     |
| Simulation-Based Analysis of TEV Sensor Sensitivity for Partial Discharge Detection .....                                                                    | 113 |
| <i>Mahdi Abbasi; Mathieu Lachance; Eric David</i>                                                                                                            |     |
| Concurrent Flashover Characteristics of Three Parallel Air Gaps with EGLAs Under Positive Short-Tail Lightning Impulse Voltage .....                         | 117 |
| <i>Ryuichi Nakane; Toru Miki; Megumu Miki</i>                                                                                                                |     |
| Physics-Based Deep Learning for Online and Onboard Prediction of Insulation Degradation Under Variable Stress Conditions .....                               | 121 |
| <i>P. Seri; A. Trotta; T. Schafberger; C. Reil; A. Cavallini</i>                                                                                             |     |
| A Comparative Study of PWM Strategies for Partial Discharge Mitigation .....                                                                                 | 125 |
| <i>P. Seri; A. Rumi; G. Rizzoli; G. Sala; A. Cavallini</i>                                                                                                   |     |
| Aging Characteristics of FR-4 at Different Frequencies .....                                                                                                 | 129 |
| <i>W. Zhao; M. G. Niasar</i>                                                                                                                                 |     |
| Impact of Frequency on the Breakdown Voltage in Litz Wire Under Square Wave Excitation .....                                                                 | 133 |
| <i>Nurun Nahar Erina; Anoy Saha; Mona Ghassemi</i>                                                                                                           |     |

|                                                                                                                                                  |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Surface Charge Accumulation on Zoning-Coating Insulator With Metal Particle in DC GIS.....                                                       | 137 |
| <i>Di Lu; Yu Gao; Pinhao Huang; Shuangying Li; Zhilong Yu; Boxue Du</i>                                                                          |     |
| Effects of Silicone Oil on Interfacial Conductivity and Interfacial Breakdown Voltage of<br>XLPE/EPDM Double-Layer .....                         | 141 |
| <i>Juntao Zhao; Qingzhuo Li; Yao Qin; Yang Lv; Li Yin; Wei Yang; Jinghui Gao; Zihao Wu; Zepeng Lv; Kai Wu</i>                                    |     |
| Enhanced Polarization of Piezoelectric Nanofibrous Mats via Constant-Current Corona Charging.....                                                | 145 |
| <i>Leonardo Gasperini; Giacomo Selleri; Enrico Liverani; Davide Fabiani</i>                                                                      |     |
| High-Performance Intrinsically Stretchable Electret Based on Perfluoroelastomer .....                                                            | 149 |
| <i>R. Wang; Y. Gu; K. Suzuki; Y. Suzuki</i>                                                                                                      |     |
| Introducing Side Groups on the Diamine Benzene Ring of Polyetherimide to Enhance the High-<br>Temperature Energy Storage Performance .....       | 153 |
| <i>Shuiting Hou; Yongbin Liu; Jinghui Gao; Ming Wu; Liang Cao; Lisheng Zhong</i>                                                                 |     |
| A Novel Composite Sensor for Partial Discharge Ultrasound and UHF Measurement Inside GIS.....                                                    | 156 |
| <i>Huan Chen; Xinyue Shi; Yan Qin; Haotian Wang; Xutao Han; Junhao Li</i>                                                                        |     |
| Effect of Metal Particle on Surface Charge Accumulation on DC-GIS/GIL Insulator: A Simulation<br>Study.....                                      | 160 |
