SPIE

Volume 13624

Proceedings of SPIE 0277-786X, V. 13624

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Astronomical Optics: Design, Manufacture, and Test of Space and Ground Systems V*, edited by Tony B. Hull, Daewook Kim, Pascal Hallibert, Proc. of SPIE 13624, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

HIGH PERFORMANCE TELESCOPE TECHNOLOGY I

- 13624 05 **The manufacturing development of the 1.1 meters aluminium mirror for the Ariel mission** [13624-1]
- 13624 08 **On-orbit commissioning phase three mirror anastigmat telescope alignment using blind scanning search** [13624-4]
- 13624 09 **Stages of commissioning alignment for three-mirror anastigmat (TMA) telescopes** [13624-5]
- 13624 0A **Stray light suppression for a large etendue monolithic space telescope** [13624-6]

HIGH PERFORMANCE TELESCOPE TECHNOLOGY II

- 13624 0B **Modeling metrology systems between primary and secondary mirrors at the Large Binocular Telescope** [13624-7]
- 13624 0C **Coming next in ZERODUR** [13624-9]
- 13624 0D **Manufacturing development and results of the largest lens with a sub-nanometric surface quality for enhancing Virgo's detector sensitivity** [13624-10]
- 13624 0E **Active optics alignment using field-dependent point spread functions from the large binocular camera's science images** [13624-11]

ASTRONOMICAL OPTICS AND OPTOMECHANICS TECHNOLOGY I

- 13624 0G **Development and calibration of sky end of the fibre cable for the affordable multiple aperture spectroscopy explorer (AMASE)** [13624-13]
- 13624 0I **Optical design of a wide field of view space telescope system with integrated adaptive optics** [13624-15]
- 13624 0J **Telescope design optimization for time-delay integration over wide fields of view and long integration intervals** [13624-16]
- 13624 0K **Thermal design modification of GrainCams for lunar south pole environments** [13624-66]

ASTRONOMICAL OPTICS AND OPTOMECHANICS TECHNOLOGY II

- 13624 OM **Analysis of aluminum alloys to produce optically functional surfaces in the IR-VIS spectrum** [13624-19]
- 13624 ON **Improving simulations of scattering by black pigments: a case study of a ground-based telescope for detecting faint sources near the moon** [13624-21]

OPTICAL METROLOGY AND EVALUATION TECHNOLOGY

- 13624 OP **Metrology for efficient assembly, integration, and testing of space telescopes (Invited Paper)** [13624-23]
- 13624 OQ **Binary pseudo-random array for transfer function calibration of interferometers with transmission spheres and cylinders** [13624-25]
- 13624 OR **Rotating source illumination deflectometry for metrology** [13624-26]
- 13624 OS **Evaluation of telescope optical performance using the phase diversity method with multiple focus phase shifts** [13624-27]
- 13624 OT **Concept manufacturing of wide field of view silicon carbide camera** [13624-24]

INSTRUMENTATION CONCEPTS AND TECHNOLOGY I

- 13624 OU **Programmable logic controllers for sounding rocket payloads** [13624-28]
- 13624 OW **Opto-mechanical and thermal analysis of Formosa Lunar Ultraviolet Telescope Experiment (FLUTE) with environmental testing** [13624-33]

INSTRUMENTATION CONCEPTS AND TECHNOLOGY II

- 13624 OX **Machine learning-based optical alignment simulation for K-DRIFT: off-axis freeform three mirror system** [13624-37]
- 13624 OY **High dynamic range (HiDRa) spectrometer for high-performance optical coating metrology** [13624-38]
- 13624 OZ **The large fiber array spectroscopic telescope: active primary mirror shape control using phase diversity** [13624-39]
- 13624 11 **Optical alignment and ambient performance of the Near-Earth Object Surveyor telescope** [13624-36]

HIGH PERFORMANCE TELESCOPE TECHNOLOGY III

- 13624 12 **Closed back lightweight ZERODUR mirrors with adhesive-free fusing** [13624-40]
- 13624 13 **Alignment and optical performances of Eastern Anatolia Observatory (DAG) 4m-class telescope** [13624-41]
- 13624 14 **Stray and scattered light considerations in a non-contiguous array of commercial CMOS sensors in a space mission** [13624-42]
- 13624 16 **HWO mirror segment selection can be informed by statistical ZERODUR data** [13624-44]
- 13624 17 **Review of TMS operations on the large binocular telescope: challenges and recommendations for ELT integration** [13624-45]

ADVANCED ASTRONOMICAL OPTICS MANUFACTURING

- 13624 19 **Thermal considerations for photopolymer-based in-space manufacturing** [13624-47]
- 13624 1A **Developments of an empirical approach for free form slumping of large thin shells** [13624-48]
- 13624 1B **Development of Polibot: a novel robotic solution for large optics polishing** [13624-49]
- 13624 1C **Parallel dwell time optimization in zonal optics fabrication for large mirror polishing** [13624-50]
- 13624 1D **Polishing thin cordierite substrates using diamond particles and cerium oxide for high-precision optical applications** [13624-51]

KOREAN SPACE TELESCOPES AND VISIONS I

- 13624 1E **History and vision for wide field electro-optical payload development (Invited Paper)** [13624-52]
- 13624 1F **Science missions of the Korean space telescope: a wide-field optical and infrared surveyor** [13624-53]
- 13624 1G **Development of primary mirrors for space-borne telescopes by KRISS (Korea Res. Inst. of Standards and Sci.)** [13624-54]
- 13624 1H **Preliminary orbit thermal analysis for the development of Korean space telescope** [13624-55]

KOREAN SPACE TELESCOPES AND VISIONS II

- 13624 1I **Optical design and performance evaluation of a diffraction-limited space telescope: leveraging high-resolution earth observing camera expertise for a Korean space telescope (Invited Paper)** [13624-56]
- 13624 1J **Attitude control sensor and actuator for the Korean space telescope** [13624-57]
- 13624 1K **Top-level design and performance analysis of visible detectors and focal plane for a Korean space telescope** [13624-58]
- 13624 1L **Preliminary orbit design and analysis for the development of Korean Space Telescope** [13624-59]

INSTRUMENTATION CONCEPTS AND TECHNOLOGY III

- 13624 1M **CoLoRS as the new spectroscopic capability for small robotic telescopes: on-sky performance and image quality** [13624-63]
- 13624 1O **An investigation into the high contrast performance of the IMX492 and IMX571 imaging sensors** [13624-65]

INSTRUMENTATION CONCEPTS AND TECHNOLOGY IV

- 13624 1Q **POKEMON: print optimization for kilo-fiber experiments using micro-optics and nanostructures** [13624-68]
- 13624 1R **IQUEYE at Gemini South: instrument, science commission, and first results** [13624-70]
- 13624 1S **Advancing remote sensing with SHEUVI: experimental validation of dual-ruled grating for extreme ultraviolet applications** [13624-69]

POSTER SESSION

- 13624 1T **High precision assemble method for compact Korsch-type CubeSat telescope** [13624-72]
- 13624 1U **Development of Hindle array prototype for Keck adaptive secondary mirror** [13624-73]
- 13624 1V **Alignment and testing of off-axis freeform three-mirror system K-DRIFT generation 1** [13624-74]
- 13624 1W **Impact of subaperture density, DM actuator patterns, and Zernike correction order on AO performance for the APF telescope** [13624-75]

- 13624 1X **Scatterometer for measuring the BRDF of the heat rejecting mirrors of the CCOR compact coronagraphs** [13624-76]
- 13624 1Y **Additive manufacturing in aluminium of a primary mirror for a CubeSat application: manufacture, testing, and evaluation** [13624-77]
- 13624 20 **A test setup for characterizing glass surfaces for large format deformable mirrors** [13624-79]
- 13624 21 **Design overview of the fiber feed for the Hobby-Eberly telescope's HRS** [13624-80]
- 13624 22 **High-resolution echelle spectroscopy for solar system planets: a planet-as-point-source analogy** [13624-81]
- 13624 23 **Optical design and analysis of TMT's MCAO system (NFIRAOS) on the Keck telescope** [13624-82]
- 13624 24 **Characterization of optomechanical joints through lap shear testing** [13624-83]
- 13624 25 **Reverse telescope test bed optical alignment for the pathfinder off-plane grating rocket experiment (OGRE-P)** [13624-84]
- 13624 26 **Optimizing dwell time matrix computations: a GPU-accelerated approach for CCOS** [13624-86]
- 13624 27 **Design and assembly of the telescope simulator for continuous wavefront sensing and control** [13624-87]
- 13624 28 **PANDORA: new avenues in sub-percent photometric precision for ground-based astronomy** [13624-88]
- 13624 2B **Advancements in large-aperture optical systems for Taiwan's space program** [13624-93]
- 13624 2C **Prime focus corrector design enabling wide-field performance for the Catalina Sky Survey** [13624-94]
