

PROCEEDINGS OF SPIE

Sixth International Conference on Mechanical Engineering, Intelligent Manufacturing, and Mechatronics (MEIMM 2025)

Qiuyun Mo

Editor

27–29 June 2025

Guilin, China

Organized by

School of Mechanical and Electrical Engineering, Guilin University of Electronic Technology (China)

Guangxi Mechanical Engineering Society (China)

Guangxi Key Lab of Manufacturing System and Advanced Manufacturing Technology (China)

Guilin University of Aerospace Technology (China)

Guangxi Minzu University (China)

Guangxi University (China)

Shanghai Jiaotong University (China)

Dalian Jiaotong University (China)

South China University of Technology (China)

Northwestern Polytechnical University (China)

Institute of Semiconductors, Guangdong Academy of Sciences (China)

Macao Technology and Cultural Exchange Association (Macao)

Sponsored by

Guilin University of Electronic Science and Technology (China)

Published by

SPIE

Volume 13809

Proceedings of SPIE 0277-786X, V. 13809

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sixth International Conference on Mechanical Engineering, Intelligent Manufacturing, and Mechatronics (MEIMM 2025)*, edited by Qiuyun Mo, Proc. of SPIE 13809, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii	<i>Conference Committee</i>
ix	<i>Introduction</i>

INTELLIGENT MANUFACTURING AND MECHANICAL ENGINEERING

13809 02	Simulation of the influence of ultrasonic parameters on the cutting forces of ultrasonic vibration assisted cutting of titanium alloy [13809-6]
13809 03	Hydraulic flow channel planning-based on 3D forming technology and RRT algorithm [13809-23]
13809 04	Research on simulation calculation of Tri-Flo heavy-medium cyclone under different structures [13809-14]
13809 05	Dual-chain error modeling and sensitivity analysis of a thin-walled deep-hole internal thread grinder [13809-8]
13809 06	Design and research of a hydraulic lock hook for radar array transportation [13809-18]
13809 07	Simulation and calculation analysis of the sorting efficiency of the first gangue heavy-medium cyclone [13809-12]
13809 08	Modeling and analysis of straightness evolution mechanism of ball linear guides based on heat-force coupling [13809-7]
13809 09	Study on the axial force characteristics of the connecting bolts of the shale oil fracturing pump [13809-3]
13809 0A	Study on the influence of tightening sequence on the axial stiffness of bolted joints [13809-22]
13809 0B	Research on genetic algorithm-optimized fuzzy PID control for paver screed [13809-9]
13809 0C	Dynamic knowledge graph modeling method for customized furniture panel production process [13809-5]
13809 0D	Design of an unmanned boat for waste collection and an automatic sorting device based on image recognition [13809-21]
13809 0E	Development of a horizontally driven multistage scissor lift platform [13809-16]
13809 0F	Fractal dimension-based damage characterization of solid propellant under different loading conditions [13809-11]

- 13809 OG **Multistrategy improved zebra optimization algorithm** [13809-19]
- 13809 OH **An automatic tree trunk whitewashing robot control scheme based on the YOLOv5 visual model** [13809-32]
- 13809 OI **Process failure mode and effects analysis for rail transit vehicles** [13809-15]
- 13809 OJ **Design and optimization of a novel diaphragm structure for MEMS piezoresistive pressure sensors** [13809-29]
- 13809 OK **Design and development of a prototype orchard-oriented mowing agricultural machinery** [13809-28]
- 13809 OL **Implementation of ultrasound amplitude control method based on adaptive evolution fuzzy inference** [13809-34]
- 13809 OM **Structural design of a microcontroller detection system based on shock absorption and fixation mechanisms** [13809-54]
- 13809 ON **Research on micro-geometry modification of planetary gear reducers based on the rigid-flexible coupled dynamic model** [13809-44]
- 13809 OO **Research on registration technology of steel structure parts** [13809-33]
- 13809 OP **Research on radial-axial near-net rolling feed process of large 42CrMo ring** [13809-38]
- 13809 OQ **Research on BGA solder joint morphology in convection reflow soldering based on Fluent** [13809-40]
- 13809 OR **The surface quality study of quartz ceramic ultrasonic-assisted abrasive polishing** [13809-49]
- 13809 OS **Optimization analysis of quantitative degasser based on response surface methodology** [13809-58]
- 13809 OT **Optimisation of the particle milling process in a vertical roller mill using response surface methodology** [13809-47]
- 13809 OU **Response surface optimization study on centrifugal classifier of double cage of vertical roller mills** [13809-45]
- 13809 OV **A novel cutting simulation method based on Dixel model integrating oct-tree acceleration and enhanced prism meshing** [13809-36]
- 13809 OW **The effect of solid solution treatment on the micro structure and properties of Morocco alloy** [13809-55]
- 13809 OX **Thermal design of the environmental control cabin for near-space vehicles** [13809-53]

- 13809 0Y **Investigate the forming quality of MoSi₂ coating in spark plasma sintering with finite element model** [13809-59]
- 13809 0Z **Tailored temperature field of dashed scanning in electron beam powder bed fusion for Ti6Al4V alloys** [13809-57]
- 13809 10 **Study on the calculation method of critical smoke exhaust rate for ensuring the exhaust efficiency of fire-induced thermal energy** [13809-56]
- 13809 11 **Study on the rotary swaging formation of rifling in the barrels of 30mm gun** [13809-2]
- 13809 12 **Impact pin-pull test and simulation on the micro-pads of package substrates** [13809-63]
- 13809 13 **Operational thermal limit stress analysis of LED device under highly accelerated degradation testing** [13809-64]

MECHATRONICS INTEGRATION APPLICATION

- 13809 14 **Research on the design of key mechanisms for wind turbine blade defect inspection platforms** [13809-24]
- 13809 15 **A visual SLAM algorithm based on NeRF dense mapping** [13809-26]
- 13809 16 **Parameter identification of permanent magnet synchronous motors in automotive K&C test benches** [13809-51]
- 13809 17 **An improved SVPWM neutral-point control strategy for plasma generator applications** [13809-61]
- 13809 18 **Research on the influencing factors of steering system FTTI based on CRITIC weighting method** [13809-10]
- 13809 19 **A surrogate dream optimization method for the back-analysis of mechanical parameters in wind turbine foundations** [13809-42]
- 13809 1A **Research on lateral control of vehicle platoon based on adaptive preview MPC** [13809-27]
- 13809 1B **Wall advertising cleaning and repairing robot based on machine vision** [13809-31]
- 13809 1C **Vehicle trajectory tracking control based on variable horizon of model predictive control** [13809-52]
- 13809 1D **On-site measurement method for wind turbine blade molds based on laser trackers** [13809-43]
- 13809 1E **A continuous wave mud pulse signal extraction algorithm based on dual sensors** [13809-41]

- 13809 1F **Research on the factors influencing the thrust of linear actuator** [13809-17]
- 13809 1G **Research on CT intelligent detection system for mining drill pipe** [13809-39]
- 13809 1H **Path planning for unmanned platform under unstructured complex environment considering driving safety** [13809-35]
- 13809 1I **A synergistic cloud-fog-blockchain architecture for smart manufacturing** [13809-48]
- 13809 1J **Research on simulation method of measuring pavement smoothness with UAV-borne LiDAR** [13809-50]
- 13809 1K **Design of four-wheel alignment measurement device for passenger cars based on binocular vision** [13809-62]
