

PROCEEDINGS OF SPIE

Second International Conference on Remote Sensing and Global Positioning Algorithm (RSGPA 2025)

Yanfang Liu
Editor

20–22 June 2025
Leshan, China

Organized by
Leshan Normal University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13818

Proceedings of SPIE 0277-786X, V. 13818

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Remote Sensing and Global Positioning Algorithm (RSGPA 2025)*, edited by Yanfang Liu, Proc. of SPIE 13818, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii Conference Committee

REMOTE SENSING MONITORING AND MAPPING

- 13818 02 **Research on the hazard assessment method of geological hazards in power transmission corridors based on satellite images** [13818-90]
- 13818 03 **Research on the coordination of tourist attractions and facilities in Wuhan based on geographic information system** [13818-56]
- 13818 04 **Research on the 40-year growth period of rocky desertification in karst area of Guangxi based on DISP images** [13818-30]
- 13818 05 **Research on data fusion technology of the third national land resource survey and one map of forest resources** [13818-61]
- 13818 06 **Monitoring land subsidence in the North China Plain using SBAS-InSAR and analyzing its impact from groundwater variations** [13818-94]
- 13818 07 **Design and development of remote sensing image data mosaic system** [13818-16]
- 13818 08 **Research on the influence of microtopography based on FDTD numerical simulation** [13818-8]
- 13818 09 **Evaluation of the applicability of the CRA40/Land reanalysis data to the snow cover areas of the Xinjiang region, China** [13818-46]
- 13818 0A **Research on the application of microtremor survey in the investigation of goaf area of Tianshun Mine in Xinjiang** [13818-28]
- 13818 0B **Research on remote sensing retrieval and application system of seawater transparency** [13818-70]
- 13818 0C **Safety of oil and gas pipelines in mountainous areas: stress and soil-water conservation factors** [13818-35]
- 13818 0D **Spatiotemporal coupling between catering POIs and nighttime light data: a case study of Fuzhou** [13818-66]
- 13818 0E **Ground surface deformation monitoring and analysis of Yunnan province based on time-series InSAR** [13818-63]
- 13818 0F **Potential distribution changes of *Xanthium italicum* under environmental change scenarios** [13818-5]

- 13818 OG **Remote sensing monitoring and analysis of spatial and temporal variability characteristics of the Pearl River Estuary coastline** [13818-36]
- 13818 OH **Risk zone mapping for the Italian locust (*Calliptamus italicus*) based on GIS-MCA** [13818-4]
- 13818 OI **Research on the application of settlement for rural construction projects based on 3D laser scanning technology** [13818-58]
- 13818 OJ **Mitigating sun glint effects in Landsat OLI imagery for enhanced macroalgae biomass estimation** [13818-67]
- 13818 OK **Mapping of drainage culverts using SLAM-based mobile laser scanning technology** [13818-22]
- 13818 OL **Surface change detection in Xunwu County based on GEE and LandTrendr algorithms** [13818-59]
- 13818 OM **Flood detection for satellite and UAV remote sensing based on fine-tuned SAM** [13818-2]
- 13818 ON **Accuracy evaluation of multibeam echo sounder systems** [13818-26]
- 13818 OO **Inversion of sea surface salinity in the western Pacific Ocean based on machine learning** [13818-13]
- 13818 OP **Characteristics of atmospheric boundary layer based on ground-based remote sensing vertical observation system** [13818-41]

POSITIONING, NAVIGATION, AND SPATIAL DATA FUSION

- 13818 OQ **Traffic state classification in grid area based on floating car data** [13818-75]
- 13818 OR **Installation design consideration and airworthiness certification of the BDS-3 short message tracking system for civil aircraft** [13818-89]
- 13818 OS **Identification and optimization of recurrent congestion driven by multisource data on highway** [13818-85]
- 13818 OT **Design of a housing safety risk warning system based on BeiDou satellite positioning** [13818-74]
- 13818 OU **Dual-foot navigation system with ultrasonic ranging and elliptical constraints for reliable position estimation** [13818-78]
- 13818 OV **Analysis of GNSS-based crustal movement patterns considering the influence of common-mode error** [13818-43]
- 13818 OW **Solving the gas production capacity of I and II type reservoirs in Weiyuan block based on large-scale data** [13818-82]

- 13818 0X **A novel control data based on typical ground objects: intelligent landmark** [13818-64]
- 13818 0Y **The technical discussion on the coordinated update of provincial and municipal data in Tianditu-XPCC** [13818-55]
- 13818 0Z **Urban emergency logistics route planning model based on geospatial data mining and spatial searching tree algorithm** [13818-7]
- 13818 10 **MGFNet: a change detection network based on multilevel attention guidance and multiscale difference fusion** [13818-17]
- 13818 11 **CAMGNet: class activation map guided network for urban village extraction from remote sensing image** [13818-31]
- 13818 12 **A multilevel optical-SAR imagery fusion network for land cover classification** [13818-19]
- 13818 13 **Research on quantum many-body entanglement image classification** [13818-37]
- 13818 14 **Study on vegetation cover change in Yunnan-Guizhou-Sichuan region** [13818-73]
- 13818 15 **Research on efficient sharing of railway geographic information services based on autonomous engine** [13818-92]
- 13818 16 **DNN-based fire evacuation risk assessment for large and complex buildings** [13818-20]
- 13818 17 **An XGBoost-based inversion study on chlorophyll-a concentration in oceans observed by satellite-mounted GNSS-R** [13818-40]
- 13818 18 **Research on multimodal railway spatio-temporal data architecture and fusion processing technology** [13818-98]
- 13818 19 **Satellite navigation authentication method based on the combination of Interplex and CSK** [13818-68]
- 13818 1A **Map-assisted UWB/INS tight combination for indoor localization** [13818-69]
- 13818 1B **Dehazing of four-channel remote sensing images fused with near-infrared** [13818-83]
- 13818 1C **LEO-enhanced BDS-3/INS tightly-coupled integration in urban environments** [13818-54]
- 13818 1D **Research on GNSS integrity monitoring for multilateration system** [13818-65]
