**13–15 June 2025**

**Singapore**

*Sponsored by*

Sensors and Systems Society of Singapore (Singapore)

*Hosted by*

Newcastle Australia Institute of Higher Education (Singapore)

*Supported by*

Colorado Technical University (United States)

Valdosta State University (United States)

University of Coimbra (Portugal)

*Published by*

SPIE

**Volume 13819**

Proceedings of SPIE 0277-786X, V. 13819

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Tenth International Workshop on Pattern Recognition*, edited by Xudong Jiang, Proc. of SPIE 13819, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v Conference Committee

---

## MACHINE LEARNING AND ALGORITHMS IN INTELLIGENT IMAGE PROCESSING

---

- 13819 02 **Deep learning vs traditional methods for echocardiogram analysis on heart disease**  
[13819-5]
- 13819 03 **Context-aware feature map calibration for CNN generalization improvement** [13819-19]
- 13819 04 **Early cancer detection through smartphone imaging and federated learning-enhanced convolutional neural networks** [13819-6]
- 13819 05 **Multirobot reinforcement learning navigation method based on credit assignment** [13819-8]

---

## IMAGE DETECTION AND RECOGNITION

---

- 13819 06 **Contextual information induced attention network for infrared small target detection**  
[13819-10]
- 13819 07 **Comparative evaluation of specialized deep learning and large multimodal models for image-based sea state recognition on the Beaufort scale** [13819-17]

---

## DIGITAL IMAGE ANALYSIS AND PROCESSING TECHNOLOGY

---

- 13819 08 **The study of evolution of wavelet in computer aid imaging system** [13819-3]
- 13819 09 **Complementary horizontal visibility patches: from texture classification to remote sensing image classification** [13819-18]
- 13819 0A **Multidimensional analysis based on historical Olympic data-medal prediction and trend exploration** [13819-12]
- 13819 0B **Chatphasia: a personalized end-to-end system for aphasia therapy** [13819-16]
- 13819 0C **Multiview fuzzy graph attention networks for enhanced graph learning** [13819-1]
