

PROCEEDINGS OF SPIE

# ***Second International Conference on Advanced Image Processing Technology (AIPT 2025)***

**Xuemiao Xu**  
**Dimitrios A. Karras**  
*Editors*

**23–25 May 2025**  
**Guangzhou, China**

*Organized by*  
South China University of Technology (China)

*Sponsored by*  
Northwestern Polytechnical University (China)  
Sun Yat-sen University (China)  
Guangdong University of Technology (China)  
Guangzhou University (China)  
CSIG Guangzhou Chapter (China)  
AEIC—Academic Exchange Information Centre (China)

*Published by*  
SPIE

**Volume 13922**

Proceedings of SPIE 0277-786X, V. 13922

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Advanced Image Processing Technology (AIPT 2025)*, edited by Xuemiao Xu, Dimitrios Karras, Proc. of SPIE 13922, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

## OBJECT DETECTION AND RECOGNITION

---

- 13922 01 **Flood-affected transmission towers detection based on multisource remote sensing data**  
[13922-10]
- 13922 02 **Enhancing small object detection with dual-backbone feature fusion in YOLOv8 framework**  
[13922-18]
- 13922 03 **Micro-YOLOv8: a lightweight real-time object detector** [13922-5]
- 13922 04 **PVS: a 3D object detection network based on point-voxel feature fusion and sequence prediction** [13922-43]
- 13922 05 **A lightweight target recognition algorithm for UAV** [13922-51]
- 13922 06 **Advanced UAV target detection: integrating modal decomposition with deep learning techniques** [13922-24]
- 13922 07 **Weld surface defect detection method based on CEF-YOLO** [13922-3]
- 13922 08 **The efficient detection method for corn leaf diseases and pests based on the improved YOLOv8 algorithm** [13922-45]
- 13922 09 **An improved YOLO-based detection algorithm for Mars craters** [13922-46]
- 13922 0A **Research on road damage detection and classification based on YOLOv11** [13922-29]
- 13922 0B **Change detection in low-light surveillance video images via gamma correction and density peak clustering** [13922-21]
- 13922 0C **NeRF-RERE: a 3D detection network based on 3D NeRF redundancy reduction** [13922-50]
- 13922 0D **FCOSLite: real-time anchor-free object detection on drone images** [13922-49]
- 13922 0E **Research on vehicle exterior parts repair and replacement evaluation based on deep learning** [13922-28]
- 13922 0F **Efficient traffic sign recognition via state space models and illumination-guide attention**  
[13922-9]

- 13922 OG **Integrated u-net and SimAM-YOLO v5s for sidewalk and traffic light recognition** [13922-4]
- 13922 OH **Smh-YOLOv8: a study on intelligent cargo management method for space station cabins** [13922-15]
- 13922 OI **Hybrid MLLA-ViT network for moving infrared small target detection** [13922-19]
- 13922 OJ **Research on precise target detection of sewage outlets with complex features based on improved YOLOv10 algorithm** [13922-14]
- 13922 OK **A lightweight privacy-preserving iris recognition method** [13922-17]
- 13922 OL **Face expression recognition via cross-scale cross-attention and dynamic token pruning** [13922-30]
- 13922 OM **Domain-incremental time-sensitive target detection with cross-modal feature fusion for RGB-infrared imagery** [13922-13]
- 13922 ON **Research on semantic segmentation of remote sensing images based on deep residual networks and transfer learning** [13922-8]

---

#### IMAGE ANALYSIS AND APPLICATIONS

---

- 13922 OO **Parametric modeling research and verification of subgrade retaining structure based on domestic graphics engine** [13922-20]
- 13922 OP **Multiple levels thresholding of image segmentation employing max or min grey-value to make 2D histogram** [13922-1]
- 13922 OQ **Multiscale squeezed normalizing flow network for video abnormal behavior detection** [13922-2]
- 13922 OR **Coal bunker 3D material level detection device** [13922-26]
- 13922 OS **Multimodal image processing in VR environments: a novel framework for packaging visual communication design** [13922-6]
- 13922 OT **SAG-net: a spinal anatomical guided network for landmark detection and angle measurement in lateral full-spine radiograph** [13922-39]
- 13922 OU **Improved convolutional architectures for breast cancer histopathological image analysis** [13922-16]
- 13922 OV **Grayscale polarization-based specular and diffuse reflection separation** [13922-12]
- 13922 OW **A CNN-based super-resolution reconstruction approach for quantitative monitoring of soil and water loss** [13922-42]

- 13922 0X **Polyp segmentation method via cross-level correlation attention** [13922-25]
- 13922 0Y **Compact 3D Gaussian splatting via hybrid precision hash grid and similarity-based sorting** [13922-31]
- 13922 0Z **Smart knowledge graph construction for disaster risk detection in transmission grids using multisource data fusion** [13922-36]
- 13922 10 **Deep-learning-based dynamic early warning and spread prediction model for wildfires along transmission lines** [13922-35]
- 13922 11 **Landslide risk early warning and prediction method based on Mamba** [13922-34]
- 13922 12 **ST-GCN-enabled multimodal data completion and lifespan prediction for power equipment** [13922-33]
- 13922 13 **Composite loss collaborative optimization for compound facial expression recognition** [13922-41]
- 13922 14 **Design and implementation of an intelligent medic delivery vehicle integrating K210-YOLO and 2D Lidar SLAM technology** [13922-27]
- 13922 15 **Deep learning-based non-local means CCD image denoising** [13922-38]
- 13922 16 **Dual-conversion framework for effective low-light image enhancement** [13922-22]
- 13922 17 **Super-resolution reconstruction of face images based on structural neural network** [13922-11]
- 13922 18 **ResLite: a lightweight CNN approach for image classification** [13922-40]
