

PROCEEDINGS OF SPIE

***Second International Conference
on Microelectromechanical
Systems Manufacturing and
Materials Technology
(MSMMT 2025)***

**Yunqing Rao
Changfu Zhang**
Editors

**11–13 July 2025
Changsha, China**

Organized by
Shanghai Institute of Technology (China)

Sponsored by
AEIC —Academic Exchange Information Centre (China)

SPIE

Volume 13923

Proceedings of SPIE 0277-786X, V. 13923

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Microelectromechanical Systems Manufacturing and Materials Technology (MSMMT 2025)*, edited by Yunqing Rao, Changfu Zhang, Proc. of SPIE 13923, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

MEMS/MICROSYSTEM DESIGN, FABRICATION, AND RELIABILITY

- 13923 02 **Simulation and experimental study on the heat dissipation performance of the air-cooled heat sink [13923-134]**
- 13923 03 **Research of the influence of temperature difference on hydrostatic test data of long tube trailer gas cylinder in water jacket method [13923-26]**
- 13923 04 **Reliability analysis of the process of rework of PCB components [13923-123]**
- 13923 05 **Research on AGV fault diagnosis based on 1DSE-SENET [13923-43]**
- 13923 06 **Abnormal recognition of electric energy metering data at charging stations based on S-transform algorithm [13923-25]**
- 13923 07 **Numerical simulation study on shrinkage deformation of ceramic photocuring additive manufacturing process [13923-76]**
- 13923 08 **Microstructural characteristics of the steel/aluminum dissimilar welding interface and their effects on joint performance [13923-99]**
- 13923 09 **Analysis and optimization of dynamic characteristics of mechanical vibration based on electro-mechanical analogy [13923-112]**
- 13923 0A **Experimental investigation of particle damping dynamic vibration absorbers on vibration damping characteristics of floating raft system [13923-51]**
- 13923 0B **Microstrip branch-line coupler with arbitrary port impedance for cross applications [13923-64]**
- 13923 0C **One-step electrospinning of PVDF/PSU porous fibrous sponges with enhanced low-frequency sound absorption [13923-106]**
- 13923 0D **Efficient peeling mechanism and equipment design of stickers/small advertisements based on the coupling effect of multiple physical fields [13923-37]**
- 13923 0E **Design and impact characteristics simulation of buffer structure based on rubber and acrylic materials [13923-131]**
- 13923 0F **Research on the mechanism of high-cycle fatigue failure and simulation methods driven by digital twins [13923-3]**

- 13923 OG **Analysis and control strategy of open-loop starting characteristics of the hydrodynamic air bearing permanent magnet synchronous motor** [13923-32]
- 13923 OH **Wear and metering analysis of Coriolis mass flowmeter measuring disk based on EDEM** [13923-59]
- 13923 OI **Time-domain measurement of dynamic signals of surface acoustic wave electric field sensor under random weighting** [13923-22]
- 13923 OJ **Research on container temperature field distribution characteristics and heat conduction mechanism based on CFD** [13923-38]
- 13923 OK **Numerical simulation study on the mixed combustion of composite biomass** [13923-35]
- 13923 OL **Research on quality control technology of stainless steel resistance spot welding in automotive exhaust systems** [13923-31]
- 13923 OM **Molecular dynamics-based study on the tribological characteristics of high-entropy alloy FeNiCrCoAl** [13923-33]
- 13923 ON **Improved stable trajectory planning of the intelligent inspection robotic arm based on the Gray Wolf algorithm** [13923-57]
- 13923 OO **Research on a new type of intermediate joint for 10kV distribution cables** [13923-36]
- 13923 OP **Research on the design and motion characteristics of an intelligent inspection robotic arm** [13923-116]
- 13923 OQ **Boundary modelling of electrolytic lead load power regulation considering dynamic constraints on key process parameters** [13923-96]
- 13923 OR **Design and analysis of flexible decoupling mechanism for rotating nanomotion** [13923-62]
- 13923 OS **Molecular dynamics simulation on the effect of electric field on properties of epoxy resin regarding gis insulator** [13923-114]
- 13923 OT **Neural network and second-order regression analysis in prediction of residual stress for high manganese steel after shot peening** [13923-5]
- 13923 OU **Investigation of influencing factors on loosening resistance for high-strength mining machinery bolts under transverse cyclic loading** [13923-54]
- 13923 OV **Optoelectronic synapse based on two-dimensional MXene for reservoir computing** [13923-82]
- 13923 OW **Research on electromagnetic radiation performance of vehicle during conductive charging mode** [13923-127]
- 13923 OX **Design and research on flexible transparent and broadband terahertz metamaterial absorbers based on AgNWs** [13923-128]

- 13923 0Y **Simulation analysis of the effect of rotating drum speed on the heating rate and temperature uniformity of methyl silicone oil** [13923-10]
- 13923 0Z **Nanoscale dynamic fracture mechanisms of columnar-grained SiC matrix in SiCf/SiC composites under tensile loading** [13923-133]
- 13923 10 **Study on the impact of different types and concentrations of copper salts on texturizing diamond wire sawing multicrystalline silicon** [13923-40]
- 13923 11 **Enhancing electrical performance of carbon ceramic linear resistors by adjusting sintering temperature and aggregate particle size** [13923-65]
- 13923 12 **Microcontroller based on sun tracking system** [13923-110]
- 13923 13 **Design and implementation of a tracked tomato harvesting robot based on YOLO11** [13923-61]
- 13923 14 **High-precision single-degree-of-freedom model for forced vibration analysis of beams** [13923-74]
- 13923 15 **Intelligent measurement and control system for large-scale components: integrating reinforcement learning, digital twin, and multimodal perception** [13923-121]
- 13923 16 **Multistage Hammerstein modeling for batch process dynamics in primary tobacco processing** [13923-80]
- 13923 17 **Research on the construction of rolling forecast model of enterprise manufacturing cost based on LSTM** [13923-19]
- 13923 18 **Motion control and optimization of an insulator string climbing mechanism based on a flexible guide rod** [13923-34]
- 13923 19 **Contact analysis of 6205ZZC3E deep groove ball bearing transmission for CNC machine tool** [13923-30]
- 13923 1A **Vibration analysis of hydraulic pipelines based on EEMD-WPT** [13923-4]
- 13923 1B **Measurement of sleep pulse based on wearable sensors** [13923-16]
- 13923 1C **Design of a condition monitoring module for turbine power simulator** [13923-48]
- 13923 1D **Nonlinear deformation analysis algorithm and dynamic modeling of flexible ropes based on hoisting system** [13923-97]
- 13923 1E **Smart health pot control system** [13923-92]
- 13923 1F **Automated processing and welding technology based on robots** [13923-130]

- 13923 1G **Research on multisource heterogeneous explosion shock wave measurement in complex ground scenarios based on adaptive sensor networks** [13923-67]
- 13923 1H **Research progress in laser metal 3D printing technology** [13923-6]
- 13923 1I **Analysis of oil leakage anomaly in a 220kV current transformer** [13923-111]
- 13923 1J **Analysis of defects in porcelain-clad zinc oxide arresters for 220kV substations** [13923-93]
- 13923 1K **Study on the electrothermal properties of bisilane synergistically modified SiO₂/epoxy resin composites** [13923-81]

MATERIALS, ENERGY DEVICES, AND SMART MANUFACTURING

- 13923 1L **Key technology research and application of double-based parallel full-dimensional intelligent control processing equipment** [13923-78]
- 13923 1M **Anomaly cycle recognition algorithm based on quantum neural network for regional comprehensive energy data** [13923-24]
- 13923 1N **Integrating molecular dynamics simulations with density functional tight binding for investigating micromechanics and electronic properties of silver vacancy clusters** [13923-20]
- 13923 1O **Research on thermal coupling modification effect of high-power pulsed ion beam** [13923-129]
- 13923 1P **Research on the construction method of gear modification design knowledge base based on knowledge-driven approach** [13923-95]
- 13923 1Q **Optimization of annealing process to enhance the acetone gas sensing performance of ZnO@Co₃O₄** [13923-29]
- 13923 1R **A first-principles study on transition metal single atoms anchoring nitrogen-doped graphene for efficient hydrogen evolution reactions** [13923-2]
- 13923 1S **Decomposition modeling and solution methods for large-scale flexible job-shop scheduling problems** [13923-17]
- 13923 1T **Designing a smart heterojunction of Ni₃S₂ nanosheets and CoFe LDH for enhanced OER performance** [13923-46]
- 13923 1U **Quantitative assessment of cost-effectiveness of load management under different subsidy standards and actual response capacities** [13923-122]
- 13923 1V **Determination of trace ammonia in hydrogen gas by gas chromatography and helium ion detector** [13923-66]

- 13923 1W **Exploring the application of smart green energy sensor systems in environmental monitoring and energy management** [13923-115]
- 13923 1X **Development of lotus root harvesting robot based on efficient jet mining and variable configuration paddle-wheel technology** [13923-101]
- 13923 1Y **Synthesis of multicarboxylate salts of perylene diimide and their performance and mechanism investigation as organic anode materials for lithium-ion batteries** [13923-100]
- 13923 1Z **Improved PSO algorithm for the local shadowing problem in photovoltaic electrolytic water system** [13923-55]
- 13923 20 **Research on joint modeling of genetic algorithm and neural network for optimizing gear transmission efficiency** [13923-47]
- 13923 21 **Research on bearing fault diagnosis based on a feature enhancement residual network** [13923-21]
- 13923 22 **Automatic spraying and volatile organic compounds recycling robot** [13923-68]
- 13923 23 **Progress in military applications of electromagnetic radiation protection materials** [13923-104]
- 13923 24 **Coordinated multiresource joint peak shaving and frequency regulation scheduling method based on transmission-distribution network collaboration** [13923-107]
- 13923 25 **Study on solar thermoelectrical combined system in hot summer and warm winter region** [13923-50]
- 13923 26 **Synthesis, structural characterization, and photocatalytic performance of iodine-substituted D- π -A type photosensitizers** [13923-103]
- 13923 27 **Interfacial engineering of CsPbBr₃/TiO₂ heterojunction photocatalysts for enhanced solar-to-energy conversion and system integration** [13923-9]
- 13923 28 **Design and research of an intelligent rice harvester** [13923-113]
