Volume 13673

Proceedings of SPIE 0277-786X, V. 13673

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Target and Background Signatures XI: Traditional Methods and Artificial Intelligence*, edited by Karin Stein, Maarten A. Hogervorst, Proc. of SPIE 13673, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

AI AND COUNTER-AI

- 13673 02 **Assessment of AI classifier robustness under atmospheric effects** [13673-1]
- 13673 04 **Generating adversarial patches for physical camouflage: methods, challenges, and constraints** [13673-3]
- 13673 05 **Adversarial patch size and positioning** [13673-4]

METHODOLOGY

- 13673 08 **Evaluation of military camouflage using hyperspectral satellite data** [13673-20]
- 13673 09 **Assessing one's own signature** [13673-21]
- 13673 0A **Methodology for outdoor scatterometry using solar illumination** [13673-9]
- 13673 0B **Physics-based multisensor above water signature toolbox** [13673-23]

MODELLING AND SIMULATION IN IR

- 13673 0C **Improving MuSES EO/IR target and background scene simulation accuracy with the RapidFlow fluid solver** [13673-10]
- 13673 0D **Sub-pixel object rendering algorithm for wide FOV infrared scene generations** [13673-12]
- 13673 0E **Radiometric simulation of the spectral radiance of missile plumes for multispectralIRST systems in the mid-infrared** [13673-13]
- 13673 0F **Expanded, but still simple, modelling of CUBI surface temperatures: an operational perspective** [13673-14]
- 13673 0G **Synthetic data spectral rendering enhancement based on colour variation palette matrix computation** [13673-24]

CHARACTERIZATION OF MATERIALS

- 13673 OH **Dual colour thermochromic technology: a promising approach for adaptive camouflage**
[13673-22]
- 13673 OI **Spectral reflectance measurements and multispectral imaging of a snow-covered textile**
[13673-7]
- 13673 OJ **Optical and thermal properties of carboxymethylated cellulose aerogels** [13673-8]

DETECTION AND TRACKING I: JOINT SESSION

- 13673 OK **Autonomous detection, tracking, and geolocation for UAS-based situational awareness**
[13673-15]
- 13673 OL **Passive detection of camouflaged targets using spectral features and commercial filters**
[13673-16]
- 13673 OM **Tracking a moving target through the interferogram datacube in hyperspectral imaging**
[13673-17]
- 13673 ON **Multithreat detection system for land APS systems** [13673-18]
- 13673 OO **End-to-end multicamera event-image stitching and object detection on the edge
(Best Student Paper Award)** [13673-19]
