

PROCEEDINGS OF SPIE

Second International Conference on Electronic Circuit and Electronic Technology (ECET 2025)

**Mohd Khair Bin Hassan
David Minghui Li**
Editors

**18–20 July 2025
Kuala Lumpur, Malaysia**

Organized by
University Putra Malaysia, Malaysia (Malaysia)

Sponsored by
AEIC–Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13954

Proceedings of SPIE 0277-786X, V. 13954

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Electronic Circuit and Electronic Technology (ECET 2025)*, edited by Mohd Khair Bin Hassan, David Minghui Li, Proc. of SPIE 13954, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

POWER SYSTEM TECHNOLOGIES AND INTELLIGENT CONTROL APPLICATIONS

- 13954 02 **Multi-robot cooperative assembly line design and virtual commissioning for phased array antenna element** [13954-31]
- 13954 03 **Optimization design of the front skeleton for phased array antenna based on novel artificial fish swarm algorithm** [13954-33]
- 13954 04 **Design of a multiaxis synchronous motion control experimental platform based on siemens PLC** [13954-102]
- 13954 05 **Study on insulator string tension after ice shedding of transmission lines** [13954-74]
- 13954 06 **Research on the anti-interference performance of on-site inspection device for transformer comprehensive monitoring device** [13954-108]
- 13954 07 **High-voltage cable explosion-proof joint leakage hole size design** [13954-62]
- 13954 08 **Investment risk assessment of power grid production technology transformation projects based on game theory and improved TOPSIS** [13954-15]
- 13954 09 **Heat transfer performance of aging high-voltage cable insulation: experimental investigation and discussion** [13954-93]
- 13954 0A **A low-voltage curvature-compensated bandgap voltage reference** [13954-57]
- 13954 0B **Key circuit design in a high-power powered device** [13954-89]
- 13954 0C **Detection of preload force of bolt group based on guided wave energy method** [13954-107]
- 13954 0D **A dynamic T-type matching method and system based on piezoelectric transducer parameters** [13954-66]
- 13954 0E **Novel current metering device and method based on quantum magnetometer** [13954-67]
- 13954 0F **Research on efficient solving algorithms in multi-physics field numerical simulation of fuel cells** [13954-73]
- 13954 0G **Prediction model for transmission tower slope deformation based on PSO-BP** [13954-5]

- 13954 OH **Design of a three-phase gate driver integrated with Hall commutation circuit** [13954-9]
- 13954 OI **Progressive fusion algorithm for multisource heterogeneous data in the middle platform of power customer service business based on Bayes estimation** [13954-72]
- 13954 OJ **Research on multiparameter sensors based on power line deployment** [13954-63]
- 13954 OK **The credibility evaluation method of equipment digital model based on combined weighting-cloud model** [13954-47]
- 13954 OL **Room automatic dehumidification system design based on 51 microcontroller** [13954-20]
- 13954 OM **Research on an operating condition analysis model of power automation equipment based on machine learning** [13954-37]
- 13954 ON **A method for automatic calibration and functional verification of underground sensors in coal mines** [13954-27]
- 13954 OO **Adaptive disturbance-compensated sliding mode control for AFS with intelligent optimization** [13954-36]
- 13954 OP **Analysis and improved design of buck converter circuit** [13954-23]
- 13954 OQ **Application status of intelligent monitoring technology for bag leakage in baghouse dust collectors** [13954-69]
- 13954 OR **Research on key technologies for fault diagnosis of wireless communication timeout in CTC3 train control system** [13954-55]

ADVANCED SENSING, MODELING AND SIMULATION FOR INDUSTRIAL SYSTEMS

- 13954 OS **Simulation study of the ideal ballooning instability on the CN-H1 stellarator** [13954-64]
- 13954 OT **A novel low-power consumption permanent magnet brake** [13954-59]
- 13954 OU **Simulation and analysis of puncture test for battery module** [13954-35]
- 13954 OV **Experimental investigation into the impact of upper potential limit on the durability of low Pt loading PEMFCs** [13954-54]
- 13954 OW **Effect of anodic oxidation on the aluminum electrode-epoxy interface** [13954-28]
- 13954 OX **Modeling and experimental validation of explosion and combustion in high-voltage cable joint** [13954-13]
- 13954 OY **Innovative design and research on ventilator based on electromagnetic piston air pump** [13954-90]

- 13954 0Z **Optimization method for variable-radius coil parameters in fuze wireless mounting system based on PSO algorithm [13954-56]**
- 13954 10 **A residual life prediction method for electronic and integrated circuits [13954-46]**
- 13954 11 **Temperature field simulation of electromagnetic induction heated electric heat continuous crystallization machine [13954-86]**
- 13954 12 **Research on mud detection of heat exchange tubes based on high-resolution TMR array probe and deep adversarial learning [13954-103]**
- 13954 13 **Attitude simulation of satellite during thruster actuation [13954-91]**
- 13954 14 **Optimization countermeasures for testing technology of pressure vessels with composite ceramic insulation structures [13954-87]**
- 13954 15 **Crosstalk coupling analysis of double-layer shielded cable based on multiconductor transmission line equation [13954-21]**
- 13954 16 **Progress in the catalytic oxidation of glycerol to produce dihydroxyacetone via photo/electrocatalysis [13954-71]**
- 13954 17 **Functionalized covalent organic framework as an efficient platform for enzyme immobilization [13954-82]**
- 13954 18 **Hyperbranched rolling circle amplification-enhanced FET biosensors for ultrasensitive, label-free detection of H1N1 RNA [13954-18]**
- 13954 19 **Thermodynamic insights into transition metal-driven electrolyte decomposition in Na-Ion battery cathodes [13954-100]**
- 13954 1A **Target detection of electromagnetic flaw detection in downhole tubing based on LSTM [13954-3]**
- 13954 1B **An improved U-Net-based method for glass bubble defect inspection [13954-79]**
- 13954 1C **Multi-sensor fusion-based circuit automation system for household cleaning robot [13954-32]**
- 13954 1D **Multi-agent scheduling with DAG-aware joint observation in edge computing [13954-25]**
- 13954 1E **Fast modeling and simulation of multi-segment rotor-bearing systems [13954-53]**
- 13954 1F **Design of low-power programmable gain amplifier for physiological signals [13954-14]**

- 13954 1G **Design of fingertip force sensor for a dexterous underwater hand** [13954-29]
- 13954 1H **CNN-BiLSTM hybrid model for accurate RUL prediction of lithium-ion batteries** [13954-88]
